IV.	DEMAND FOR JURY TRIAL.....	438

1 Plaintiffs bring this action on behalf of themselves and all others similarly situated,
 2 against (1) the Defendants collectively referred to as “Fiat Chrysler”: FCA US LLC (“FCA”), Fiat
 3 Chrysler Automobiles N.V. (“Fiat”), and Sergio Marchionne (“Marchionne”); (2) the Defendants
 4 collectively referred to as “VM Motori”: VM Motori S.p.A. (“VM Italy”) and VM North
 5 America, Inc. (“VM America”); and (3) the Defendants collectively referred to as “Bosch”:
 6 Robert Bosch GmbH (“Bosch GmbH”), and Robert Bosch, LLC (“Bosch LLC”). Plaintiffs allege
 7 the following based upon information and belief, the investigation of counsel, and personal
 8 knowledge as to the factual allegations pertaining to themselves.

9 INTRODUCTION

10 1. This nationwide class action arises out of an international race to the bottom. Fiat
 11 Chrysler, a rival of automaker Volkswagen struggling to compete on the world stage, sought to
 12 grab a piece of the U.S. “clean” diesel market with 2014-2016 EcoDiesel® trucks marketed under
 13 the Jeep Grand Cherokee and Ram 1500 model names (the “Class Vehicles”). But like
 14 Volkswagen, Fiat Chrysler fought dirty. That is, like Volkswagen did with its “clean diesels,”
 15 Fiat Chrysler concealed from regulators and consumers alike that the EcoDiesel® trucks were far
 16 from “Eco.”

17 2. As the Environmental Protection Agency (“EPA”) has since discovered, Fiat
 18 Chrysler, by and through FCA, concealed emission treatment software features in the Class
 19 Vehicle engine’s diesel controls on applications for EPA Certificates of Conformity (“COCs”)
 20 and California Air Resources Board (“CARB”) Executive Orders (“EOs”). This hidden software,
 21 designed and implemented by Bosch GmbH and Bosch LLC, allowed the Class Vehicles to
 22 “pass” emission testing and obtain COCs and EOs so that Fiat Chrysler could import and sell the
 23 Class Vehicles in the U.S. and California, respectively. Once on America’s roads, however, the
 24 emission controls are de-activated or severely restricted such that the Class Vehicles spew much
 25 higher amounts of polluting nitrogen oxides (“NOx”) than permitted by law.

26 3. On January 12, 2017, the EPA issued a Notice of Violation (“NOV”) against Fiat
 27 and FCA for failing “to disclose [eight] Auxiliary Emission Control Devices (AECDs)” in the
 28

2014-2016 FCA Ram 1500s and Jeep Grand Cherokees.¹ In the NOV, the EPA explained that, despite having the opportunity to do so, Fiat and FCA failed to refute that the “principal effect of one or more of these AECDs was to bypass, defeat, or render inoperative one or more elements of design installed to comply with emissions standards under the [Clean Air Act.]”

4. The same day, CARB publicly announced that it, too, had notified Fiat and FCA of its violations after detecting the AECDs in their 2014, 2015, and 2016 Jeep Grand Cherokee and Ram 1500 EcoDiesel® vehicles. CARB also said Fiat and FCA failed to disclose the devices, which can significantly increase NOx emissions when activated. “Once again,” observed CARB Chair Mary D. Nichols, “a major automaker made the business decision to skirt the rules and got caught.”²

5. The U.S. has since sued FCA, Fiat, VM Italy, and VM America for violating the Clean Air Act (“CAA”) and applicable regulations, seeking injunctive relief and civil penalties.³ As the U.S. has found, “one or more of these undisclosed software features, alone or in combination with one or more of the others, bypass, defeat and/or render inoperative the [Class] Vehicles’ emission control system, causing the vehicles to emit substantially higher levels of NOx during certain normal real world driving conditions than during federal emission tests.”⁴

6. American consumers were caught in the middle of Fiat Chrysler’s scheme. Consumers have been wary of diesel engines as a relic of the past: noisy and spewing thick, toxic smoke. This was an understandable concern. A byproduct of diesel combustion is NOx, a pollutant linked with serious health dangers and climate change. Seeking to expand the diesel market in the U.S., large automakers in the late 2000’s sought to reimagine diesel for regulators and consumers alike. For its part, Fiat Chrysler touted its “EcoDiesel” technology as the best of both worlds: a “green” alternative to gasoline with reduced emissions coupled with diesel’s

¹ EPA’s January 12, 2017 Notice of Violation to Fiat Chrysler Automobiles, <https://www.epa.gov/sites/production/files/2017-01/documents/fca-caa-nov-2017-01-12.pdf>.

² EPA News Release, *EPA Notifies Fiat Chrysler of Clean Air Act Violations* (Jan. 12, 2017), <https://www.epa.gov/newsreleases/epa-notifies-fiat-chrysler-clean-air-act-violations>.

³ *United States v. Fiat US LLC, et al.*, No. 2:17-cv-11633-JCO-EAS (E.D. Mich. filed May 23, 2017) (Dkt. No. 1). The action has since been transferred to this Court for coordination with this MDL.

⁴ *Id.* at ¶ 2.

benefits of greater torque, power, and fuel efficiency. Fiat Chrysler extracted a premium for these “EcoDiesel” trucks, selling them for thousands of dollars more than the cost of otherwise-comparable gasoline trucks.

7. Contrary to its public representations, and concealed from consumers and regulators alike, Fiat Chrysler secretly programmed its EcoDiesel® vehicles with hidden software features that significantly reduced the effectiveness of the NOx reduction technology during real-world driving conditions. As a result, the Class Vehicles emitted harmful pollutants at levels that were illegally high and far in excess of what a reasonable consumer would expect from an “Eco” vehicle. Plaintiffs’ on-road testing has confirmed that the Class Vehicles produced NOx emissions at an average of 222 mg/mile in city driving (four times the Federal Test Procedure (“FTP”) standard of 50 mg/mile) and 353 mg/mile in highway driving (five times higher than the U.S. highway standard of 70 mg/mile). In many instances, NOx values were in excess of 1,600 mg/mile—*more than 20 times governmental standards*.

8. Compounding this problem is the interplay between performance and emissions in diesel engines. Fiat Chrysler could not achieve the fuel economy and performance that it promises for the Class Vehicles without cheating on emissions—a fact that it concealed from consumers around the country.

9. Fiat Chrysler did not act alone. At the heart of the diesel scandal is Bosch. Bosch GmbH and Bosch LLC, along with CEO Volkmar Denner (“Denner”), were active and knowing participants in the scheme. Bosch designed, created, and tested the electronic diesel control (“EDC”) units that allowed Fiat Chrysler to “pass” emission tests for its COC and EO applications. Bosch went so far as to boast that the “2014 Jeep Grand Cherokee features a Bosch emission system compliant with the most stringent emission regulations in the world. From fuel tank to tailpipe, Bosch is pleased to equip this vehicle with top technologies to give consumers a great driving experience requiring fewer stops at the pump.”⁵ Bosch has since, however,

⁵ *Bosch Announces Clean Diesel Technology On 2014 Jeep Grand Cherokee*, PRNewswire (Jan. 24, 2013), <http://www.prnewswire.com/news-releases/bosch-announces-clean-dieseltechnology-on-2014-jeep-grand-cherokee-188243051.html>; <http://us.bosch-press.com/tbwebdb/bosch-usa/en-US/PressText.cfm?CFID=61223175&CFTOKEN=a16399a1447f6b98-4B6F7D4B-A8E6-F415-F31B16E0E13CB96A&nh=00&Search=0&id=532>.

acknowledged its role in the creation of defeat devices in certain Fiat Chrysler diesel vehicles sold in the European Union (“EU”). VM Italy and VM America also knowingly participated in the scheme by designing, manufacturing, and calibrating the “EcoDiesel” engines in the Class Vehicles.

10. On behalf of themselves, the Nationwide Class, and the respective State Classes, Plaintiffs hereby bring this action for violations of the federal Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. § 1961, *et seq.* (“RICO”)); the federal Magnuson-Moss Warranty Act (15 U.S.C. § 2301, *et seq.* (“MMWA”)); common law fraud; and the consumer laws of all 50 states and the District of Columbia.

11. Plaintiffs bring this action individually and on behalf of all other current and former owners or lessees of the Class Vehicles as defined herein. Plaintiffs seek a buyback program for the Class Vehicles, monetary damages (including treble damages under RICO), pollution mitigation, business reforms, and injunctive and other equitable relief for Defendants’ misconduct related to the design, manufacture, marketing, sale, and lease of the Class Vehicles, as alleged in this Complaint. Plaintiffs and Class members are also entitled to a significant award of punitive or exemplary damages, given that Defendants deliberately deceived Plaintiffs and Class members, disregarded their rights to make free and informed consumer choices, damaged them economically, and used them as unwitting puppets in a scheme that impaired the public health.

PARTIES

I. DEFENDANTS

A. Fiat Chrysler Defendants

12. Defendant FCA US LLC (“FCA”) is a Delaware limited liability company. Defendant Fiat Chrysler Automobiles N.V. (“Fiat” or, together with FCA, “Fiat Chrysler”) is FCA’s corporate parent. Fiat’s predecessor, Fiat S.p.A., began its acquisition of FCA’s predecessor, Chrysler Group LLC, in 2009 and completed it in January 2014, at which time Chrysler Group LLC became a wholly-owned indirect subsidiary of Fiat and was renamed FCA US LLC. FCA’s principal place of business and headquarters is located at 1000 Chrysler Drive, Auburn Hills, Michigan 48326.

1 13. FCA is a motor vehicle manufacturer and a licensed distributor of new, previously
2 untitled motor vehicles. FCA (like its predecessor, Chrysler) is one of the “Big Three” American
3 automakers (with Ford and General Motors). FCA engages in commerce by distributing and
4 selling new and unused passenger cars and motor vehicles under the Chrysler, Dodge, Jeep, Ram,
5 and Fiat brands. Other major divisions of FCA include Mopar, its automotive parts and
6 accessories division, and SRT, its performance automobile division.

7 14. FCA has designed, manufactured, imported, distributed, offered for sale, sold, and
8 leased two models of vehicle for which the EcoDiesel® option is available—the Ram 1500 and
9 the Jeep Grand Cherokee—with the knowledge and intent to market, sell, and lease them in all 50
10 states, including in California. Moreover, FCA and its agents designed, manufactured, marketed,
11 distributed, warranted, sold and leased the Class Vehicles in California and throughout the United
12 States. Dealers act as FCA’s agents in selling automobiles under the Fiat Chrysler name and
13 disseminating vehicle information provided by Fiat Chrysler to customers.

14 15. Fiat, the corporate parent of FCA, is a Dutch corporation headquartered in London,
15 United Kingdom. Fiat owns numerous European automotive brands in addition to FCA’s
16 American brands, including Maserati, Alfa Romeo, Fiat Automobiles, Fiat Professional, Lancia,
17 and Abarth. As of 2015, Fiat Chrysler is the seventh largest automaker in the world by unit
18 production.

19 16. Subject to a reasonable opportunity for further investigation or discovery,
20 Plaintiffs allege that Fiat employees oversaw or were responsible for approving elements of
21 design and/or strategies related to emission compliance for the Class Vehicles. Fiat also imported
22 into the United States, sold, offered for sale, introduced into commerce, or delivered the Class
23 Vehicles, with the intent to market or sell them in all fifty states, including in California.

24 17. Fiat Chrysler developed and disseminated the owners’ manuals, warranty booklets,
25 product brochures, advertisements, and other promotional materials relating to the Class Vehicles,
26 with the intent that such documents should be purposely distributed throughout all fifty states,
27 including in California. Fiat Chrysler is engaged in interstate commerce, selling vehicles through
28 its network in every state of the United States.

18. Defendant **Sergio Marchionne (“Marchionne”)** is the CEO and Chairman of FCA, the CEO of Fiat, and the Chairman and/or CEO of several other Fiat subsidiaries, including FCA Italy S.p.A., the Italian subsidiary of Fiat headquartered in Turin, Italy. Since 2004, Mr. Marchionne has been the CEO of Fiat S.p.A., the predecessor of Fiat, and thus, oversaw Fiat’s acquisition of both VM Motori and Chrysler Group LLC, the transformation to the current corporate structure, and the creation of FCA. Mr. Marchionne has made numerous public statements on behalf of Fiat Chrysler concerning the Class Vehicles, their EcoDiesel® engines, and their emissions and performance characteristics. In addition to managing and controlling FCA, Mr. Marchionne has a home in the United States, regularly transacts business in the United States, and regularly promotes Fiat Chrysler in the United States.

B. VM Motori Defendants

19. Fiat also owns several auto parts manufacturers, including Defendant **VM Motori S.p.A. (“VM Italy”)**, an Italian corporation headquartered in Cento, Italy, which designs and manufactures diesel engines for automobiles, including the Class Vehicles. Fiat partially acquired VM Italy in early 2011 by purchasing a 50% stake, and took full ownership by acquiring the remaining 50% from General Motors in October 2013.

20. Defendant **VM North America, Inc. (“VM America” or, together with VM Italy, “VM Motori”)** is or was a Delaware corporation and wholly-owned subsidiary of Fiat. VM America existed, at all relevant times, to support VM Italy customers and activities in North America. VM America’s principal place of business is located at 1000 Chrysler Drive, Auburn Hills, Michigan 48326. Both VM Italy and VM America conduct business at that address and report to management at both VM Italy and VM America, including while working on the Class Vehicles.

21. VM Italy transacts business in the United States. VM Italy employees have been physically present in Auburn Hills, Michigan, while working on engine calibration and air emissions issues related to the Class Vehicles. Some VM America employees working in Auburn Hills are also employees of VM Italy. VM Italy employees in Italy communicated regularly

1 about the Class Vehicles with the VM America and VM Italy employees located in Auburn Hills.
2 VM Italy also communicated frequently with FCA about the Class Vehicles.

3 22. VM Motori designed, manufactured, calibrated, and delivered the EcoDiesel®
4 engine system for inclusion in the Class Vehicles, knowing and intending that the Class Vehicles,
5 along with their engine system, would be marketed, distributed, warranted, sold and leased
6 throughout all 50 states, including in California.

7 **C. Bosch Defendants**

8 23. Defendant **Robert Bosch GmbH (“Bosch GmbH”)**—a German multinational
9 engineering and electronics company headquartered in Gerlingen, Germany—is the parent
10 company of Defendant **Robert Bosch LLC (“Bosch LLC” or, with Bosch GmbH, “Bosch”)**, a
11 Delaware limited liability company with its principal place of business located at 38000 Hills
12 Tech Drive, Farmington Hills, Michigan 48331.

13 24. Both Bosch GmbH and Bosch LLC operate under the umbrella of the Bosch
14 Group, which encompasses some 340 subsidiaries and companies. Volkmar Denner (“Denner”)
15 is the Chairman and CEO of Bosch GmbH and leader of The Bosch Group. Denner has been
16 Chairman and CEO of Bosch since July 2012, after decades of working in Bosch’s Engine ECU
17 Development division, managing the development and sale of automotive engine computers, such
18 as the EDC units that were installed in the Class Vehicles.

19 25. The Bosch Group is divided into four business sectors: Mobility Solutions
20 (formerly Automotive Technology), Industrial Technology, Consumer Goods, and Energy and
21 Building Technology. Bosch’s sectors and divisions are grouped not by location, but by function.
22 In other words, Mobility Solutions includes knowledgeable individuals at both Bosch GmbH and
23 Bosch LLC. Regardless of whether an individual works for Bosch in Germany or the United
24 States, the employee holds him or herself out as working for Bosch. This collective identity is
25 captured by Bosch’s mission statement: “We are Bosch,” a unifying principle that links each
26 entity and person within the Bosch Group.

1 26. Mobility Solutions is the largest Bosch Group business sector. In 2014, the first
2 full year of Class Vehicle sales, it generated sales of €33.3 billion, amounting to 68% of total
3 group sales.

4 27. The Bosch Group is one of the leading automotive suppliers globally. In 2015,
5 Mobility Solutions generated sales of \$9.5 billion in North America alone.

6 28. Bosch embeds sales and engineering personnel at customer offices and facilities
7 throughout the world, including automakers like Fiat Chrysler, to work directly on the design,
8 sale, calibration, and configuration of the parts it supplies.

9 29. Bosch operates 70 locations in the United States, with over 31,000 employees.
10 One of these locations is the Bosch LLC Research and Technology Center North America in Palo
11 Alto, California. One of Bosch's research focuses there is application-specific integrated circuit
12 (ASIC) design and MEMS (microelectromechanical-system) technology. These technologies are
13 used in a variety of automotive applications. Bosch LLC also operates Research and Technology
14 Centers in Pittsburgh, Pennsylvania, and Cambridge, Massachusetts.

15 30. Bosch developed, tested, configured, manufactured, and supplied the EDC Unit
16 17, which is the EDC system used in the Class Vehicles, knowing and intending that the Class
17 Vehicles, along with the device, would be marketed, distributed, warranted, sold and leased
18 throughout all 50 states, including in California. As set forth in detail herein, at all relevant times,
19 Bosch, VM Motori, and Fiat Chrysler worked collaboratively to program the EDC Unit 17 in the
20 Class Vehicles.

21 31. From at least 2005 to 2015, Bosch and its employees were knowing and active
22 participants in the creation, development, marketing, and sale of engine and emission control
23 software designed to evade emission requirements in vehicles sold in the United States. These
24 vehicles include the Ram 1500 EcoDiesel® and Jeep Grand Cherokee EcoDiesel®, as well as
25 diesels made by other automakers such as Volkswagen, Audi, and Porsche.

26 32. Bosch participated not just in the development of these devices, but also in the
27 scheme to prevent U.S. regulators from uncovering their true functionality. Moreover, Bosch's
28 participation was not limited to engineering these devices. In fact, Bosch marketed "clean diesel"

technology in the United States. Bosch was therefore a knowing and active participant in the scheme or common course of conduct with Fiat Chrysler and VM Motori and others to defraud regulators and consumers in the United States.

II. PLAINTIFFS

33. For ease of reference, the following chart identifies the representative Plaintiffs and the state(s) in which they reside and purchased their Class Vehicles:

Class Representative	State of Residence	State of Purchase	Model Year	Make/Model
Alley, Anthony	TX	MS	2015	Ram 1500
Bali, Doru	MI	KY	2014	Jeep Grand Cherokee
Bernstein, Leslie	CA	CA	2016	Ram 1500

34. Plaintiff **Anthony Alley** (for the purpose of this paragraph, “Plaintiff”), a citizen of Texas, residing in Livingston, Texas, bought a 2015 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about December 17, 2015 at Howard Wilson Chrysler Jeep Dodge, an authorized FCA dealer in Flowood, Mississippi. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff recalls visiting the Ram website, on which the Class Vehicles were represented as environmentally friendly, having low emissions and good fuel economy. Plaintiff also recalls seeing television commercials about the Class Vehicles. When Plaintiff went to Howard Wilson Chrysler Jeep Dodge to purchase the Class Vehicle, the sales associate touted the Class Vehicle’s EcoDiesel® attributes, including its fuel economy and

1 performance. These representations, along with the advertised fuel economy, were among the
2 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
3 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
4 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
5 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
6 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
7 Vehicle, or would have paid less for it, had he known that it did not comply with emission
8 standards; that its emission treatment system was designed to de-activate during real-world
9 driving conditions; and that it could not achieve the advertised towing power, performance,
10 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
11 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
12 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
13 control devices.

14 35. Plaintiff **Doru Bali** (for the purpose of this paragraph, "Plaintiff"), a citizen of
15 Michigan, residing in Canton, Michigan, bought a 2014 Jeep Grand Cherokee EcoDiesel® (for
16 the purpose of this paragraph, the "Class Vehicle") on or about June 20, 2015 at Cross Chrysler
17 Jeep FIAT, an authorized FCA dealer in Louisville, Kentucky. Plaintiff decided to buy the Class
18 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
19 emissions and fuel efficient). When Plaintiff went to Cross Chrysler Jeep FIAT to purchase the
20 Class Vehicle, the sales associate there touted the Class Vehicle's EcoDiesel® attributes and
21 informed Plaintiff that the Diesel Exhaust Fluid ("DEF") additive changed exhaust fumes into
22 "steamed water." These representations, along with the advertised fuel economy and low
23 emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
24 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
25 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
26 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
27 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
28 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not

1 comply with emission standards; that its emission treatment system was designed to de-activate
2 during real-world driving conditions; and that it could not achieve the advertised towing power,
3 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
4 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
5 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
6 unauthorized emission control devices.

7 36. Plaintiff **Leslie Bernstein** (formerly Leslie Ghrist) (for the purpose of this
8 paragraph, "Plaintiff"), a citizen of California, residing in Simi Valley, California, leased a 2016
9 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") in or about
10 October 2015 at Shaver Chrysler Dodge Jeep Ram & Fiat, an authorized FCA dealer in Thousand
11 Oaks, California. Plaintiff decided to lease the Class Vehicle based in part on FCA's
12 representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient).
13 When Plaintiff went to Shaver Chrysler Dodge Jeep Ram & Fiat to lease the Class Vehicle, the
14 sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel economy,
15 power, low emissions, and environmental friendliness. After leasing the vehicle, Plaintiff
16 conducted online research to confirm the representations made to her by the sales associate at
17 Shaver Chrysler Dodge Jeep Ram & Fiat were in fact accurate. Plaintiff intended on returning her
18 Class Vehicle within the three-day grace period offered by Shaver Chrysler Dodge Jeep Ram &
19 Fiat if the representations made by the sales associate did not match the representations on the
20 Ram website. Plaintiff saw representations on Ram's website in which the Class Vehicles were
21 represented to have good fuel economy while having low emissions. These representations, along
22 with the advertised fuel economy, were among the primary reasons Plaintiff chose the Class
23 Vehicle. At the time of lease, Plaintiff did not know that the Class Vehicle could perform as
24 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
25 Nor was Plaintiff aware that her Class Vehicle was equipped with undisclosed and unauthorized
26 emission control devices designed to cheat emission tests and to deceive consumers and
27 regulators. Plaintiff would not have leased the Class Vehicle, or would have paid less for it, had
28 she known that it did not comply with emission standards; that its emission treatment system was

1 designed to de-activate during real-world driving conditions; and that it could not achieve the
2 advertised towing power, performance, and/or fuel economy without cheating emission tests.
3 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
4 misconduct, and would not have leased the Class Vehicle, or would have paid less for it, had
5 Defendants not concealed the unauthorized emission control devices.

6 37. Plaintiff **Marius Bihorean** (for the purpose of this paragraph, "Plaintiff"), a
7 citizen of Georgia, residing in Lawrenceville, Georgia, bought a 2015 Ram 1500 EcoDiesel® (for
8 the purpose of this paragraph, the "Class Vehicle") on or about September 12, 2015 at Skyland
9 Automotive Group, an authorized FCA dealer in Asheville, North Carolina. Plaintiff decided to
10 buy the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle
11 (i.e., reduced emissions and fuel efficient). When Plaintiff went to Skyland Automotive Group to
12 purchase the Class Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes,
13 including its fuel economy, clean operation, towing power, and performance. These
14 representations, along with the advertised fuel economy, towing power, and performance, were
15 among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff
16 did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels
17 that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class
18 Vehicle was equipped with undisclosed and unauthorized emission control devices designed to
19 cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased
20 the Class Vehicle, or would have paid less for it, had he known that it did not comply with
21 emission standards; that its emission treatment system was designed to de-activate during real-
22 world driving conditions; and that it could not achieve the advertised towing power, performance,
23 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
24 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
25 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
26 control devices.

27 38. Plaintiff **James Boykin** (for the purpose of this paragraph, "Plaintiff"), a citizen of
28 Florida, residing in Oviedo, Florida, bought a 2015 Ram 1500 EcoDiesel® (for the purpose of

1 this paragraph, the “Class Vehicle”) on or about August 9, 2015, at Koons Tysons Chrysler
 2 Dodge Jeep and Ram, an authorized FCA dealer in Vienna, Virginia. Plaintiff decided to buy the
 3 Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e.,
 4 reduced emissions and fuel efficient). Plaintiff saw television commercials that focused primarily
 5 on the Class Vehicles’ design. When Plaintiff went to Koons Tysons Chrysler Dodge Jeep and
 6 Ram to purchase the Class Vehicle, the sales associate touted the Class Vehicle’s EcoDiesel®
 7 attributes, including its fuel economy and low emissions. These representations, along with the
 8 advertised fuel economy, towing power, performance, and resale value were among the primary
 9 reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the
 10 Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than
 11 advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped
 12 with undisclosed and unauthorized emission control devices designed to cheat emission tests and
 13 to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or
 14 would have paid less for it, had he known that it did not comply with emission standards; that its
 15 emission treatment system was designed to de-activate during real-world driving conditions; and
 16 that it could not achieve the advertised towing power, performance, and/or fuel economy without
 17 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
 18 Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid
 19 less for it, had Defendants not concealed the unauthorized emission control devices.

20 39. Plaintiffs **Elmer and Barbara Brinkman** (for the purpose of this paragraph,
 21 “Plaintiffs”), citizens of South Dakota, residing in Watertown, South Dakota, bought a 2016 Ram
 22 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about September
 23 9, 2016 at Watertown Ford Chrysler, an authorized FCA dealer in Watertown, South Dakota.
 24 Plaintiffs decided to buy the Class Vehicle based in part on FCA’s representations that it was an
 25 “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff Elmer Brinkman saw
 26 representations on Ram’s website in which the Class Vehicles were represented to be
 27 environmentally friendly, low emissions, have good fuel economy, and towing power. When
 28 Plaintiffs went to Watertown Ford Chrysler to purchase the Class Vehicle, Plaintiffs recall being

1 given a brochure for the Class Vehicle that touted the EcoDiesel®'s low emissions, fuel
 2 economy, and towing capabilities. Plaintiff Elmer Brinkman also recalls being told by the
 3 salesperson, Mr. Mark Brooks, that the Class Vehicle did not have the same emission compliance
 4 issues as the Volkswagen diesel vehicles. These representations, along with the advertised fuel
 5 economy and towing power, were among the primary reasons Plaintiffs chose the Class Vehicle.
 6 At the time of purchase, Plaintiffs did not know that the Class Vehicle could perform as
 7 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
 8 Nor were Plaintiffs aware that their Class Vehicle was equipped with undisclosed and
 9 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
 10 and regulators. Plaintiffs would not have purchased the Class Vehicle, or would have paid less
 11 for it, had they known that it did not comply with emission standards; that its emission treatment
 12 system was designed to de-activate during real-world driving conditions; and that it could not
 13 achieve the advertised towing power, performance, and/or fuel economy without cheating
 14 emission tests. Plaintiffs have suffered a concrete injury as a direct and proximate result of
 15 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
 16 less for it, had Defendants not concealed the unauthorized emission control devices.

17 40. Plaintiff **Jamie Broom** (for the purpose of this paragraph, "Plaintiff"), a citizen of
 18 Louisiana, residing in Thibodaux, Louisiana, bought a 2015 Ram 1500 EcoDiesel® (for the
 19 purpose of this paragraph, the "Class Vehicle") on or about June 1, 2015 at Nyle Maxwell
 20 Chrysler Dodge Jeep, an authorized FCA dealer in Taylor, Texas. Plaintiff decided to buy the
 21 Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
 22 reduced emissions and fuel efficient). Plaintiff saw representations on Ram's website, in a Ram
 23 promotional brochure, and in television commercials in which the Class Vehicles were
 24 represented as having good fuel economy, towing capacity, and power all while being
 25 environmentally friendly with low emissions. When Plaintiff went to Southland Dodge Chrysler
 26 Jeep in Houma, Louisiana to find out more information about the Class Vehicle, and Nyle
 27 Maxwell Chrysler Dodge Jeep to purchase the Class Vehicle, the sales associates at both
 28 authorized FCA dealers touted the Class Vehicle's EcoDiesel® attributes, including its low

1 emissions, fuel economy, towing power, and performance. These representations, along with the
2 advertised fuel economy were among the primary reasons Plaintiff chose the Class Vehicle. At
3 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
4 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
5 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
6 control devices designed to cheat emission tests and to deceive consumers and regulators.
7 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
8 known that it did not comply with emission standards; that its emission treatment system was
9 designed to de-activate during real-world driving conditions; and that it could not achieve the
10 advertised towing power, performance, and/or fuel economy without cheating emission tests.
11 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
12 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
13 Defendants not concealed the unauthorized emission control devices.

14 41. Plaintiff **Adam Burwell** (for the purpose of this paragraph, "Plaintiff"), a citizen
15 of Oregon, residing in Klamath Falls, Oregon, bought a 2016 Ram 1500 EcoDiesel® (for the
16 purpose of this paragraph, the "Class Vehicle") on or about August 31, 2016 at Dave Smith
17 Motors, an authorized FCA dealer in Kellogg, Idaho. Plaintiff decided to buy the Class Vehicle
18 based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions
19 and fuel efficient). Plaintiff saw representations on Ram's website in which the Class Vehicles
20 were represented to be environmentally friendly, have low emissions, have good fuel economy,
21 and high performance. When Plaintiff went to Dave Smith Motors to purchase the Class Vehicle,
22 the sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel efficiency,
23 low emissions, and performance. These representations, along with the advertised fuel economy,
24 were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase,
25 Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at
26 levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his
27 Class Vehicle was equipped with undisclosed and unauthorized emission control devices
28 designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not

1 have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
2 comply with emission standards; that its emission treatment system was designed to de-activate
3 during real-world driving conditions; and that it could not achieve the advertised towing power,
4 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
5 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
6 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
7 unauthorized emission control devices.

8 42. Plaintiff **Karl Calhoun** (for the purpose of this paragraph, "Plaintiff"), a citizen of
9 Washington, residing in Moses Lake, Washington, bought a 2016 Ram 1500 EcoDiesel® (for the
10 purpose of this paragraph, the "Class Vehicle") on or about January 16, 2016 at Dave Smith
11 Motors, an authorized FCA dealer in Kellogg, Idaho. Plaintiff decided to buy the Class Vehicle
12 based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions
13 and fuel efficient). Plaintiff saw a representation on the Ram website stating that the Class
14 Vehicles were highly fuel efficient with good torque, and had excellent towing capability.
15 Plaintiff also reviewed information that discussed the reduced emissions of the EcoDiesel®
16 engines. Additionally, Plaintiff saw television advertisements stating the trucks would achieve 29
17 MPG highway, with high torque and great towing capacity. When Plaintiff went to Dave Smith
18 Motors to purchase the Class Vehicle, he discussed towing capacity, torque, horsepower, and
19 mileage figures with a sales associate before making the purchase. These representations, along
20 with the advertised fuel economy and low emissions were among the primary reasons Plaintiff
21 chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle
22 could perform as advertised only by emitting NOx at levels that are greater than advertised and
23 above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed
24 and unauthorized emission control devices designed to cheat emission tests and to deceive
25 consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have
26 paid less for it, had he known that it did not comply with emission standards; that its emission
27 treatment system was designed to de-activate during real-world driving conditions; and that it
28 could not achieve the advertised towing power, performance, and/or fuel economy without

1 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
2 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
3 less for it, had Defendants not concealed the unauthorized emission control devices.

4 43. Plaintiff **Giuseppe Carillo** (for the purpose of this paragraph, "Plaintiff"), a citizen
5 of New York, residing in Amawalk, New York, bought a 2016 Ram 1500 EcoDiesel® (for the
6 purpose of this paragraph, the "Class Vehicle") on or about August 23, 2016 at Danbury Chrysler
7 Dodge Jeep Ram, an authorized FCA dealer in Danbury, Connecticut. Plaintiff decided to buy
8 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
9 reduced emissions and fuel efficient). Plaintiff spoke with the sales representative at Danbury
10 Chrysler Dodge Jeep Ram about mileage, EcoDiesel, and towing capacity. These representations,
11 along with the advertised fuel economy, towing power, and/or performance were among the
12 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
13 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
14 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
15 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
16 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
17 Vehicle, or would have paid less for it, had he known that it did not comply with emission
18 standards; that its emission treatment system was designed to de-activate during real-world
19 driving conditions; and that it could not achieve the advertised towing power, performance,
20 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
21 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
22 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
23 control devices.

24 44. Plaintiff **Aaron Carter** (for the purpose of this paragraph, "Plaintiff"), a citizen of
25 Illinois, residing in Swansea, Illinois, bought a 2015 Jeep Grand Cherokee EcoDiesel® (for the
26 purpose of this paragraph, the "Class Vehicle") on or about October 17, 2015 at Oliver C. Joseph
27 Chrysler Dodge Jeep, an authorized FCA dealer in Belleville, Illinois. Plaintiff decided to buy
28 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,

1 reduced emissions and fuel efficient). Plaintiff saw representations on Jeep's website in which
 2 the Class Vehicles were represented as having good fuel efficiency and towing power. Plaintiff
 3 also saw representations in a Jeep brochure that touted the Class Vehicle's EcoDiesel® attributes,
 4 including its fuel efficiency, performance, environmental friendliness, and low emissions.
 5 Plaintiff also recalls the Jeep brochure representing the Class Vehicle to have clean-diesel
 6 technology that satisfied the emissions requirements in all 50 states. These representations, along
 7 with the advertised fuel economy, towing power, and performance were among the primary
 8 reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the
 9 Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than
 10 advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped
 11 with undisclosed and unauthorized emission control devices designed to cheat emission tests and
 12 to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or
 13 would have paid less for it, had he known that it did not comply with emission standards; that its
 14 emission treatment system was designed to de-activate during real-world driving conditions; and
 15 that it could not achieve the advertised towing power, performance, and/or fuel economy without
 16 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
 17 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
 18 less for it, had Defendants not concealed the unauthorized emission control devices.

19 45. Plaintiff **Chatom Motor Company, Inc.** (for the purpose of this paragraph,
 20 "Plaintiff"), a domestic corporation organized under the laws of Alabama, with its principal place
 21 of business in Chatom, Alabama, and a citizen of Alabama, bought a 2015 Ram 1500 EcoDiesel®
 22 (for the purpose of this paragraph, the "Class Vehicle") on or about February 1, 2017 for the
 23 purpose of reselling the Class Vehicle. Plaintiff decided to buy and market the Class Vehicle
 24 based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions
 25 and fuel efficient). Plaintiff had previously seen representations on Ram's website, and on third-
 26 party sites linked on the Ram website, in which the Class Vehicles were represented to be
 27 "clean," to have "the best fuel economy of any full-size pickup," and to produce "reduce[d] CO2
 28 emissions." Plaintiff purchased the Class Vehicles on an auction website commonly used in its

1 industry based on the value added by the EcoDiesel label. These representations, along with the
 2 advertised fuel economy, towing power, and/or performance were among the primary reasons
 3 Plaintiff chose the Class Vehicle to purchase and offer for resale. At the time of purchase,
 4 Plaintiff did not know that the Class Vehicle could not perform as advertised and in fact emitted
 5 NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that
 6 its Class Vehicle was equipped with undisclosed and unauthorized emission control devices
 7 designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not
 8 have purchased and marketed for resale the Class Vehicle, or would have paid less for it, had it
 9 known that the Class Vehicle did not comply with emission standards; that its emission treatment
 10 system was designed to de-activate during real-world driving conditions; or that it could not
 11 achieve the advertised towing power, performance, and/or fuel economy without cheating
 12 emission tests. Plaintiff also would not have invested additional resources to increase the value of
 13 the Class Vehicle for resale had it known that the Class Vehicle did not comply with emission
 14 standards; that its emission treatment system was designed to de-activate during real-world
 15 driving conditions; or that it could not achieve the advertised towing power, performance, and/or
 16 fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct
 17 and proximate result of Defendants' misconduct, and would not have purchased the Class
 18 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
 19 control devices.

20 46. Plaintiff **Jose Chavez** (for the purpose of this paragraph, "Plaintiff"), a citizen of
 21 California, residing in Antioch, California, purchased a 2016 Ram 1500 EcoDiesel® (for the
 22 purpose of this paragraph, the "Class Vehicle") on or about August 26, 2016 at Hilltop Chrysler
 23 Jeep Dodge, an authorized FCA dealer in Richmond, California. Plaintiff decided to purchase the
 24 Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
 25 reduced emissions and fuel efficient). These representations, along with the advertised fuel
 26 economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At
 27 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
 28 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was

1 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
2 control devices designed to cheat emission tests and to deceive consumers and regulators.
3 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
4 known that it did not comply with emission standards; that its emission treatment system was
5 designed to de-activate during real-world driving conditions; and that it could not achieve the
6 advertised towing power, performance, and/or fuel economy without cheating emission tests.
7 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’
8 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
9 Defendants not concealed the unauthorized emission control devices.

10 47. Plaintiff **Josh Claflin** (for the purpose of this paragraph, “Plaintiff”), a citizen of
11 Wisconsin, residing in Ellsworth, Wisconsin, leased a 2015 Ram 1500 EcoDiesel® (for the
12 purpose of this paragraph, the “Class Vehicle”) on or about April 17, 2015 at Fury Motors in St.
13 Paul, Minnesota. Plaintiff decided to lease the Class Vehicle based in part on FCA’s
14 representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient).
15 Plaintiff learned about the EcoDiesel® engine at a recreational vehicle (“RV”) show, where he
16 discussed the relative fuel efficiency of diesel engines compared to gas engines with a
17 salesperson. The salesperson also explained that the new EcoDiesel would comply with new laws
18 imposing stricter requirements for diesel emissions. Plaintiff then used the Ram website to
19 virtually “build” and price a truck with the options he wanted, including the EcoDiesel® engine.
20 He recalls the website touting a fuel economy figure of 24-28 MPG. When Plaintiff went to Fury
21 Motors to lease the Class Vehicle, the sales associate there represented that the Class Vehicle was
22 environmentally friendly while still getting torque and horsepower figures comparable to those of
23 a gas-powered V8 engine. The sales associate told Plaintiff that he had learned these facts from
24 Fiat Chrysler training. Plaintiff was given brochures for the Class Vehicle that discussed the
25 engine’s longevity and reliability, and also reviewed the Monroney sticker prior to leasing the
26 truck. These representations, along with the advertised fuel economy and low emissions were
27 among the primary reasons Plaintiff chose the Class Vehicle. At the time of lease, Plaintiff did
28 not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that

1 are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle
2 was equipped with undisclosed and unauthorized emission control devices designed to cheat
3 emission tests and to deceive consumers and regulators. Plaintiff would not have leased the Class
4 Vehicle, or would have paid less for it, had he known that it did not comply with emission
5 standards; that its emission treatment system was designed to de-activate during real-world
6 driving conditions; and that it could not achieve the advertised towing power, performance,
7 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
8 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
9 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
10 control devices.

11 48. Plaintiff **James DeBerry** (for the purpose of this paragraph, "Plaintiff"), a citizen
12 of Florida, residing in Navarre, Florida, purchased a 2016 Ram 1500 EcoDiesel® (for the purpose
13 of this paragraph, the "Class Vehicle") on or about April 30, 2016 at Five Star Chrysler, Jeep,
14 Dodge, Ram, Warner Robins, an authorized FCA dealer in Warner Robins, Georgia. Plaintiff
15 decided to purchase the Class Vehicle based in part on FCA's representations that it was an
16 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw several TV
17 commercials for the EcoDiesel® Ram and online information from the Ram website where the
18 Class Vehicles were represented to be environmentally friendly with good fuel economy. When
19 Plaintiff went to Five Star Chrysler, Jeep, Dodge, Ram, Warner Robins to test drive and purchase
20 the Class Vehicle, the sales associate showed Plaintiff the window sticker and discussed the
21 specifications of the Class Vehicle, including its fuel mileage, range, horsepower and towing
22 figures. These representations, along with the advertised fuel economy and performance, were
23 among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff
24 did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels
25 that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class
26 Vehicle was equipped with undisclosed and unauthorized emission control devices designed to
27 cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased
28 the Class Vehicle, or would have paid less for it, had he known that it did not comply with

1 emission standards; that its emission treatment system was designed to de-activate during real-
2 world driving conditions; and that it could not achieve the advertised towing power, performance,
3 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
4 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
5 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
6 control devices.

7 49. Plaintiff **Edward Devault** (for the purpose of this paragraph, "Plaintiff"), a citizen
8 of Maine, residing in Concord Township, Maine, purchased a 2014 Jeep Grand Cherokee
9 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about July 18, 2014 at
10 Central Maine Chrysler Dodge Jeep Ram Fiat, an authorized FCA dealer in Waterville, Maine.
11 Plaintiff decided to purchase the Class Vehicle based in part on FCA's representations that it was
12 an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). When Plaintiff went to
13 Central Maine Chrysler Dodge Jeep Ram Fiat to purchase the Class Vehicle, Plaintiff saw the
14 window sticker in which the Class Vehicles were represented to have good fuel economy.
15 Plaintiff also spoke to a salesperson at Central Maine Chrysler Dodge Jeep Ram Fiat, who made
16 representations about the Class Vehicle's good fuel economy. These representations, along with
17 the advertised fuel economy and performance, were among the primary reasons Plaintiff chose
18 the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could
19 perform as advertised only by emitting NOx at levels that are greater than advertised and above
20 legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
21 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
22 and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for
23 it, had he known that it did not comply with emission standards; that its emission treatment
24 system was designed to de-activate during real-world driving conditions; and that it could not
25 achieve the advertised towing power, performance, and/or fuel economy without cheating
26 emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
27 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
28 less for it, had Defendants not concealed the unauthorized emission control devices.

50. Plaintiff **Anthony Edwards**, (for the purpose of this paragraph, “Plaintiff”), a citizen of Tennessee, residing in Cleveland, Tennessee, bought a 2015 Ram EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) in or about November 10, 2016 at Collierville Chrysler Dodge Jeep Ram, an authorized FCA dealer in Collierville, Tennessee. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on the Collierville Chrysler Dodge Jeep Ram website in which the Class Vehicles were represented to be environmentally friendly with low emissions and good fuel economy, and was so impressed with the descriptions of the Class Vehicle and its attributes on the Collierville Chrysler Dodge Jeep Ram website that he purchased it online without physically inspecting or test driving the Class Vehicle. When Plaintiff went to the Collierville Chrysler Dodge Jeep Ram dealership to collect the Class Vehicle, no salesperson made any statement to counter Plaintiff’s expectations regarding the Class Vehicle’s fuel economy and clean operation based on the descriptions and reviews found on Collierville Chrysler Dodge Jeep Ram website. These representations, along with the advertised fuel economy, towing power, and/or performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

51. Plaintiff **Mathue Fasching** (for the purpose of this paragraph, “Plaintiff”), a citizen of Idaho, residing in Lowman, Idaho, bought a 2016 Ram 1500 EcoDiesel® (for the

purpose of this paragraph, the “Class Vehicle”) on or about July 12, 2016 at Lithia Chrysler Jeep Dodge of Grants Pass, an authorized FCA dealer in Grants Pass, Oregon. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). These representations, along with the advertised fuel economy and low emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

52. Plaintiff **Tommy Feist** (for the purpose of this paragraph, “Plaintiff”), a citizen of Colorado, residing in Woodland Park, Colorado leased a 2016 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about July 16, 2016 at Colorado Springs Dodge, an authorized FCA dealer in Colorado Springs, Colorado. Plaintiff decided to lease the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw television commercials and representations on the Ram website in which the Class Vehicles were represented to be fuel efficient and safe for the environment. When Plaintiff went to Colorado Springs Dodge to lease the Class Vehicle, the sales associate discussed the information on the window sticker with Plaintiff and Plaintiff was also provided a brochure for the Class Vehicle that touted the EcoDiesel’s fuel economy and clean operation. These representations, along with the advertised fuel economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of lease, Plaintiff

1 did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels
2 that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class
3 Vehicle was equipped with undisclosed and unauthorized emission control devices designed to
4 cheat emission tests and to deceive consumers and regulators. Plaintiff would not have leased the
5 Class Vehicle, or would have paid less for it, had he known that it did not comply with emission
6 standards; that its emission treatment system was designed to de-activate during real-world
7 driving conditions; and that it could not achieve the advertised towing power, performance,
8 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
9 direct and proximate result of Defendants' misconduct, and would not have leased the Class
10 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
11 control devices.

12 53. Plaintiff **Victor Feldman** (for the purpose of this paragraph, "Plaintiff"), a citizen
13 of Alabama, residing in Huntsville, Alabama purchased a 2015 Ram 1500 EcoDiesel® (for the
14 purpose of this paragraph, the "Class Vehicle") on or about November 18, 2016 at Dodge
15 Country, an authorized FCA dealer in Killeen, Texas. Plaintiff decided to purchase the Class
16 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
17 emissions and fuel efficient). These representations, along with the advertised fuel economy and
18 performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
19 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
20 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
21 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
22 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
23 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
24 comply with emission standards; that its emission treatment system was designed to de-activate
25 during real-world driving conditions; and that it could not achieve the advertised towing power,
26 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
27 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
28

1 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
2 unauthorized emission control devices.

3 54. Plaintiff **Miguel Fragoso** (for the purpose of this paragraph, “Plaintiff”), a citizen
4 of North Carolina, residing in Cary, North Carolina, leased a 2016 Jeep Grand Cherokee
5 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about August 9, 2016
6 at Leith Jeep, an authorized FCA dealer in Cary, North Carolina. Plaintiff decided to lease the
7 Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e.,
8 reduced emissions and fuel efficient). Plaintiff saw representations on Jeep’s website, television
9 commercials, and posters in the dealership in which the Class Vehicles were represented to be
10 fuel efficient with low emissions. Plaintiff also read reviews of the Class Vehicle in Car and
11 Driver magazine, Autoweek magazine, cars.com, and Edmunds.com, in which the Class Vehicles
12 were represented to be fuel efficient with low emissions. When Plaintiff went to Leith Jeep to
13 lease the Class Vehicle, the sales representative told him the Class Vehicle provided very high
14 efficiency and great mileage. The sales representative also told Plaintiff that the Class Vehicle
15 would have a positive impact on the environment while maintaining powerful towing capacity.
16 The finance manager at Leith Jeep told Plaintiff the Class Vehicle was a “clean vehicle” that was
17 good for the environment without any performance degradation. These representations, along
18 with the advertised fuel economy and performance, were among the primary reasons Plaintiff
19 chose the Class Vehicle. At the time of lease, Plaintiff did not know that the Class Vehicle could
20 perform as advertised only by emitting NOx at levels that are greater than advertised and above
21 legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
22 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
23 and regulators. Plaintiff would not have leased the Class Vehicle, or would have paid less for it,
24 had he known that it did not comply with emission standards; that its emission treatment system
25 was designed to de-activate during real-world driving conditions; and that it could not achieve the
26 advertised towing power, performance, and/or fuel economy without cheating emission tests.
27 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’
28

1 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
2 Defendants not concealed the unauthorized emission control devices.

3 55. Plaintiff **Gregory Giauque** (for the purpose of this paragraph, “Plaintiff”), a
4 citizen of California, residing in San Luis Obispo County, California, purchased a 2015 Jeep
5 Grand Cherokee EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about
6 July 29, 2016 at Airpark Dodge, an authorized FCA dealer in Scottsdale, Arizona. Plaintiff
7 decided to purchase the Class Vehicle based in part on FCA’s representations that it was an
8 “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on
9 Jeep’s website, print advertisements, third-party websites (Cars.com, autotrader.com, US News &
10 World Report, MotorTrend, Greencarreports.com, and Edmunds) and various billboards in which
11 the Class Vehicles were represented to be clean, environmentally friendly, have low emissions,
12 and/or have good fuel economy. When Plaintiff went to Airpark Dodge to purchase the Class
13 Vehicle, the sales associate commented on the Class Vehicle’s EcoDiesel® attributes, including
14 its fuel economy, towing power, and performance. These representations, along with the
15 advertised fuel economy and performance, were among the primary reasons Plaintiff chose the
16 Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could
17 perform as advertised only by emitting NOx at levels that are greater than advertised and above
18 legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
19 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
20 and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for
21 it, had he known that it did not comply with emission standards; that its emission treatment
22 system was designed to de-activate during real-world driving conditions; and that it could not
23 achieve the advertised towing power, performance, and/or fuel economy without cheating
24 emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
25 Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid
26 less for it, had Defendants not concealed the unauthorized emission control devices.

27 56. Plaintiff **Tom Gillespie** (for the purpose of this paragraph, “Plaintiff”), a citizen of
28 Georgia, residing in Ray City, Georgia, purchased a 2014 Ram 1500 EcoDiesel® (for the purpose

of this paragraph, the “Class Vehicle”) on March 28, 2014 at Carl Gregory Chrysler Jeep and Dodge, an authorized FCA dealer in Brunswick, Georgia. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on Ram’s website and in television commercials in which the Class Vehicles were represented to be environmentally friendly, with low emissions, phenomenal torque, and great gas mileage. When Plaintiff went to Carl Gregory Chrysler Jeep and Dodge to purchase the Class Vehicle, the sales associate touted the Class Vehicle’s EcoDiesel® attributes, including its fuel economy, towing power, and performance. Carl Gregory Chrysler Jeep and Dodge also provided Plaintiff with a brochure for the Class Vehicle that touted the EcoDiesel®’s fuel economy and clean operation. These representations, along with the advertised fuel economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

57. Plaintiff **GN Systems, Inc.**, a Florida corporation (for the purpose of this paragraph, “Plaintiff”), a citizen of Florida with its principal place of business in Wellington, Florida, bought five Ram 1500 EcoDiesel® vehicles as follows (for the purpose of this paragraph, the “Class Vehicles”): (1) 2016 Ram 1500 EcoDiesel® on or about September 10, 2016 at Rob Lambdin’s University Dodge Ram, an authorized FCA dealer in Davie, Florida; (2) 2016 Ram 1500 EcoDiesel® on or about July 24, 2016 at University Dodge, an authorized FCA dealer in

1 Davie, Florida; (3) 2015 Ram 1500 EcoDiesel® on or about February 29, 2016 at University
 2 Dodge, an authorized FCA dealer in Davie, Florida; (4) 2014 Ram 1500 EcoDiesel® on or about
 3 May 1, 2014 at University Dodge, an authorized FCA dealer in Davie, Florida; and (5) 2014 Ram
 4 1500 EcoDiesel® on or about June 9, 2014 at University Dodge, an authorized FCA dealer in
 5 Davie, Florida. Plaintiff decided to buy the Class Vehicles based in part on FCA's
 6 representations that they were "EcoDiesel" vehicles (i.e., reduced emissions and fuel efficient).
 7 Plaintiff GN Systems Inc. saw representations on Ram's website and on television in which the
 8 Class Vehicles were represented to be environmentally friendly, to have low emissions, and to
 9 have good fuel economy. When Plaintiff went to the University Dodge dealership to purchase the
 10 Class Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes, including its
 11 fuel economy, towing power, and clean operation performance. These representations, along
 12 with the advertised fuel economy, towing power, and performance, were among the primary
 13 reasons Plaintiff chose the Class Vehicles. At the time of purchase, Plaintiff did not know that
 14 the Class Vehicles could perform as advertised only by emitting NOx at levels that are greater
 15 than advertised and above legal limits. Nor was Plaintiff aware that its Class Vehicles were
 16 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
 17 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
 18 Vehicles, or would have paid less for them, had it known that they did not comply with emission
 19 standards; that their emission treatment systems were designed to de-activate during real-world
 20 driving conditions; and that they could not achieve the advertised towing power, performance,
 21 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
 22 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
 23 Vehicles, or would have paid less for them, had Defendants not concealed the unauthorized
 24 emission control devices.

25 58. Plaintiff **Benjamin Greenberg** (for the purpose of this paragraph, "Plaintiff"), a
 26 citizen of Massachusetts, residing in Maynard, Massachusetts, leased a 2015 Jeep Grand
 27 Cherokee EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about March
 28 22, 2015 at Kelly Jeep Chrysler, an authorized FCA dealer in Lynnfield, Massachusetts. Plaintiff

1 decided to lease the Class Vehicle based in part on FCA's representations that it was an
 2 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw online information
 3 from the Jeep website, the car dealership website, the sticker of the car, print advertising at the
 4 dealership, and media advertising on television in which the Class Vehicles were represented to
 5 be powerful, reliable, rugged, environmentally friendly (low emissions) and have great gas
 6 mileage. When Plaintiff went to Kelly Jeep Chrysler to test drive and lease the Class Vehicle, the
 7 sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel economy,
 8 towing power, and performance. Plaintiff was also provided a brochure for the Class Vehicle that
 9 touted the EcoDiesel®'s fuel economy and clean operation. These representations, along with the
 10 advertised fuel economy and performance, were among the primary reasons Plaintiff chose the
 11 Class Vehicle. At the time of lease, Plaintiff did not know that the Class Vehicle could perform
 12 as advertised only by emitting NOx at levels that are greater than advertised and above legal
 13 limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
 14 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
 15 and regulators. Plaintiff would not have leased the Class Vehicle, or would have paid less for it,
 16 had he known that it did not comply with emission standards; that its emission treatment system
 17 was designed to de-activate during real-world driving conditions; and that it could not achieve the
 18 advertised towing power, performance, and/or fuel economy without cheating emission tests.
 19 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
 20 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
 21 Defendants not concealed the unauthorized emission control devices.

22 59. Plaintiff **Jeffrey Griggs** (for the purpose of this paragraph, "Plaintiff"), a citizen of
 23 Tennessee, residing in Georgetown, Tennessee, bought a 2014 Ram 1500 EcoDiesel® (for the
 24 purpose of this paragraph, the "Class Vehicle") on or about September 13, 2014 at Mountain
 25 View Chrysler Dodge Jeep Ram, an authorized FCA dealer in Ringgold, Georgia. Plaintiff
 26 decided to buy the Class Vehicle based in part on FCA's representations that it was an
 27 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on
 28 the Ram website and other online sources in which the Class Vehicles were represented to be

1 environmentally friendly, reliable, have great torque, and have good fuel economy. When
2 Plaintiff went to Mountain View Chrysler Dodge Jeep Ram to purchase the Class Vehicle, the
3 sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel economy,
4 towing power, reliability, and performance, all without the typical diesel smell. These
5 representations, along with the advertised fuel economy, towing power, and/or performance were
6 among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff
7 did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels
8 that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class
9 Vehicle was equipped with undisclosed and unauthorized emission control devices designed to
10 cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased
11 the Class Vehicle, or would have paid less for it, had he known that it did not comply with
12 emission standards; that its emission treatment system was designed to de-activate during real-
13 world driving conditions; and that it could not achieve the advertised towing power, performance,
14 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
15 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
16 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
17 control devices.

18 60. Plaintiff **Jake Gunderson** (for the purpose of this paragraph, "Plaintiff"), a citizen
19 of New Mexico residing in Los Alamos, New Mexico, bought a 2015 Ram 1500 EcoDiesel® (for
20 the purpose of this paragraph, the "Class Vehicle") on or about March 7, 2015 at Lithia Chrysler
21 Dodge Jeep Ram Fiat of Santa Fe, an authorized FCA dealer in Santa Fe, New Mexico. Plaintiff
22 decided to buy the Class Vehicle based in part on FCA's representations that it was an
23 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw an online
24 advertisement for the Class Vehicle through social media, then researched the vehicle on the Ram
25 website in which the Class Vehicles were represented as having good fuel economy while also
26 meeting low emissions requirements. Plaintiff was also informed through the Ram website of the
27 Class Vehicle's towing capacity and power. When Plaintiff went to Lithia Chrysler Dodge Jeep
28 Ram Fiat of Santa Fe to purchase the Class Vehicle, he spoke at length with the sales associate

1 about the Class Vehicle's features, including its towing capability. Plaintiff was concerned about
 2 the Class Vehicle's usage of DEF and the sales associate assured Plaintiff of the Class Vehicle's
 3 ability to meet emissions standards and use very little DEF while still being able to achieve good
 4 fuel economy in all driving conditions. The sales associate also assured Plaintiff of the Class
 5 Vehicle's performance as it aged and the dealership's commitment to servicing the vehicle. These
 6 representations, along with the advertised fuel economy, towing power, performance, and comfort
 7 were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase,
 8 Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at
 9 levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his
 10 Class Vehicle was equipped with undisclosed and unauthorized emission control devices
 11 designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not
 12 have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
 13 comply with emission standards; that its emission treatment system was designed to de-activate
 14 during real-world driving conditions; and that it could not achieve the advertised towing power,
 15 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
 16 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
 17 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
 18 unauthorized emission control devices.

19 61. Plaintiffs **Kyle and Jessica Heidlebaugh** (for the purpose of this paragraph,
 20 "Plaintiffs"), citizens of Pennsylvania, residing in Spring Grove, Pennsylvania, purchased a 2014
 21 Jeep Grand Cherokee EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or
 22 about May 3, 2014 at Don White's Chrysler Dodge Jeep Ram, an authorized FCA dealer in
 23 Cockeysville, Maryland. Plaintiffs decided to purchase the Class Vehicle based in part on FCA's
 24 representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient).
 25 Plaintiffs previously owned a Jeep, and while at the dealership they asked a sales person for
 26 information about the EcoDiesel. The sales person provided Plaintiffs with a brochure about the
 27 EcoDiesel. Plaintiffs also saw a poster about the Class Vehicles in the showroom. Prior to
 28 purchasing the Class Vehicle, Plaintiffs viewed information on Jeep's website in which the Class

1 Vehicles were represented as environmentally friendly with low emissions and good fuel
2 economy. When Plaintiffs went to Don White's Chrysler Dodge Jeep Ram to purchase the Class
3 Vehicle, the sales person touted the Class Vehicle's EcoDiesel® attributes, including its fuel
4 economy, towing power, and performance. These representations, along with the advertised fuel
5 economy and performance, were among the primary reasons Plaintiffs chose the Class Vehicle.
6 At the time of purchase, Plaintiffs did not know that the Class Vehicle could perform as
7 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
8 Nor were Plaintiffs aware that their Class Vehicle was equipped with undisclosed and
9 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
10 and regulators. Plaintiffs would not have purchased the Class Vehicle, or would have paid less
11 for it, had they known that it did not comply with emission standards; that its emission treatment
12 system was designed to de-activate during real-world driving conditions; and that it could not
13 achieve the advertised towing power, performance, and/or fuel economy without cheating
14 emission tests. Plaintiffs have suffered a concrete injury as a direct and proximate result of
15 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
16 less for it, had Defendants not concealed the unauthorized emission control devices.

17 62. Plaintiff **Brian Hiner** (for the purpose of this paragraph, "Plaintiff") a citizen of
18 Virginia, residing in Covington, Virginia, bought a 2014 Jeep Grand Cherokee EcoDiesel® (for
19 the purpose of this paragraph, the "Class Vehicle") in or about March 25, 2014 at Alleghany
20 Chrysler Dodge Jeep Ram, an authorized FCA dealer in Covington, Virginia. Plaintiff decided to
21 buy the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle
22 (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on the Jeep website in
23 which the Class Vehicles were represented to be fuel efficient and environmentally friendly.
24 Plaintiff also saw a brochure for his Class Vehicle in which it was represented to have reduced
25 emissions and "display reverence for the environment." When Plaintiff went to Alleghany
26 Chrysler Dodge Jeep Ram to purchase the Class Vehicle the salesperson compared the gasoline
27 model to the EcoDiesel model, and touted the Class Vehicle's EcoDiesel® attributes, including
28 its fuel efficiency. These representations, along with the advertised fuel economy and low

1 emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
2 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
3 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
4 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
5 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
6 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
7 comply with emission standards; that its emission treatment system was designed to de-activate
8 during real-world driving conditions; and that it could not achieve the advertised towing power,
9 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
10 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
11 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
12 unauthorized emission control devices.

13 63. Plaintiff **Charles Patrick Hissey** (for the purpose of this paragraph, "Plaintiff"), a
14 citizen of Texas, residing in Montgomery, Texas, bought a 2015 Jeep Grand Cherokee
15 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about May 30, 2015 at
16 DeMontrond Chrysler Dodge Jeep Ram, an authorized FCA dealer in Conroe, Texas. Plaintiff
17 decided to buy the Class Vehicle based in part on FCA's representations that it was an
18 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff thoroughly researched
19 the Class Vehicle—specifically the engine—prior to purchasing it, and spoke with several
20 individuals at DeMontrond Chrysler Dodge Jeep Ram, Northwest Chrysler Jeep Dodge Ram, and
21 AutoNation Chrysler Dodge Jeep Ram in Spring, Texas. When Plaintiff went to DeMontrond
22 Chrysler Dodge Jeep Ram, the sales associate touted the fuel efficiency and low emissions of the
23 Class Vehicle. These representations, along with the advertised fuel economy, towing power,
24 and/or performance were among the primary reasons Plaintiff chose the Class Vehicle. At the
25 time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only
26 by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
27 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
28 control devices designed to cheat emission tests and to deceive consumers and regulators.

1 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
2 known that it did not comply with emission standards; that its emission treatment system was
3 designed to de-activate during real-world driving conditions; and that it could not achieve the
4 advertised towing power, performance, and/or fuel economy without cheating emission tests.
5 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
6 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
7 Defendants not concealed the unauthorized emission control devices.

8 64. Plaintiff **Lee Holland** (for the purpose of this paragraph, "Plaintiff"), a citizen of
9 Oklahoma, residing in Lexington, Oklahoma, bought a 2015 Ram 1500 EcoDiesel® (for the
10 purpose of this paragraph, the "Class Vehicle") on or about September 10, 2015 at David Stanley
11 Chrysler Jeep Dodge Ram, an authorized FCA dealer in Midwest City, Oklahoma. Plaintiff
12 decided to buy the Class Vehicle based in part on FCA's representations that it was an
13 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw a representation on
14 Ram's website and commercials on television in which the Class Vehicles were represented to be
15 environmentally friendly with low emissions and good fuel economy. When Plaintiff went to
16 David Stanley Chrysler Jeep Dodge Ram in Midwest City, Oklahoma to purchase the Class
17 Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel
18 economy and performance. These representations, along with the advertised fuel economy,
19 towing power, and performance were among the primary reasons Plaintiff chose the Class
20 Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as
21 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
22 Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized
23 emission control devices designed to cheat emission tests and to deceive consumers and
24 regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it,
25 had he known that it did not comply with emission standards; that its emission treatment system
26 was designed to de-activate during real-world driving conditions; and that it could not achieve the
27 advertised towing power, performance, and/or fuel economy without cheating emission tests.
28 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'

1 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
2 Defendants not concealed the unauthorized emission control devices.

3 65. Plaintiff **Ronald Holm** (for the purpose of this paragraph, “Plaintiff”), a citizen of
4 Montana, residing in Butte, Montana, bought a 2015 Ram 1500 EcoDiesel® (for the purpose of
5 this paragraph, the “Class Vehicle”) in or about January 26, 2016 at Butte’s Mile High Chrysler
6 Jeep Dodge Ram, an authorized FCA dealer in Butte, Montana. Plaintiff decided to buy the Class
7 Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced
8 emissions and fuel efficient). When Plaintiff went to Mile High Motors to purchase the Class
9 Vehicle, the salesperson touted the Class Vehicle’s attributes, including its fuel economy, towing
10 power, and performance. These representations, along with the advertised fuel economy and low
11 emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
12 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
13 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
14 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
15 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
16 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
17 comply with emission standards; that its emission treatment system was designed to de-activate
18 during real-world driving conditions; and that it could not achieve the advertised towing power,
19 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
20 concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have
21 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
22 unauthorized emission control devices.

23 66. Plaintiff **Connie Hood** (for the purpose of this paragraph, “Plaintiff”), a citizen of
24 Nebraska, residing in Hallam, Nebraska, purchased a 2014 Jeep Grand Cherokee EcoDiesel® (for
25 the purpose of this paragraph, the “Class Vehicle”) on or about June 18, 2014 at Sid Dillon Auto
26 Group in Crete, Nebraska. Plaintiff decided to purchase the Class Vehicle based in part on FCA’s
27 representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient).
28 Plaintiff first learned about the Class Vehicle through a television commercial she saw in late

2013 or early 2014. Plaintiff began to research the Class Vehicle online and viewed the Jeep website while conducting her research. Plaintiff also reviewed a brochure on the Jeep EcoDiesel at the Sid Dillon Auto Group in the spring of 2014. From the Jeep television commercial, brochure, and website, Plaintiff was led to believe the Jeep EcoDiesel was an environmentally friendly vehicle. When Plaintiff went to the Sid Dillon Auto Group to purchase the Class Vehicle, the salesperson made representations as to the Class Vehicle's attributes, including its fuel economy and compliance with emission standards. These representations, along with the advertised fuel economy and low emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that her Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had she known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

67. Plaintiffs **Matthew Johnson and Amanda Kobussen** (for the purpose of this paragraph, "Plaintiffs"), citizens of Alaska, currently residing in University Place, Washington, bought a 2015 Jeep Grand Cherokee EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about March 12, 2016 at Lithia Chrysler Dodge Jeep Ram FIAT of Anchorage, Alaska, an authorized FCA dealer in Anchorage, Alaska. Plaintiffs decided to buy the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiffs saw a representation on Jeep's webpage and print material inside the dealership in which the Class Vehicles were represented to be environmentally friendly and having good fuel economy while maintaining advertised towing power. When

Plaintiff went to Lithia Chrysler Dodge Jeep Ram FIAT of Anchorage, Alaska to purchase the Class Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes, including its fuel economy, towing power, performance, and that it did not have the attributes of a typical diesel (smelly, loud, emissions of black smoke). These representations, along with the advertised fuel economy and low emissions were among the primary reasons Plaintiffs chose the Class Vehicle. At the time of purchase, Plaintiffs did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor were Plaintiffs aware that their Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiffs would not have purchased the Class Vehicle, or would have paid less for it, had they known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiffs have suffered a concrete injury as a direct and proximate result of Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

68. Plaintiff **Michael R. Johnson** (for the purpose of this paragraph, "Plaintiff"), a citizen of Georgia, residing in Mableton, Georgia, bought a 2014 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about August 1, 2015 at Big O Dodge, an authorized FCA dealer in Greenville, South Carolina. Plaintiff decided to buy the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff went to Atlanta West Dodge Jeep Ram to test drive the Class Vehicle. The sales associate there touted the Class Vehicle's EcoDiesel® attributes, telling him that the truck had good gas mileage. Plaintiff later exchanged emails with a sales associate at Big O Dodge. Plaintiff asked if the truck would emit black smoke because it was a diesel. The sales associate wrote back that although the truck was a diesel, it did not emit black smoke like diesels historically did and was also good for the environment. The sales associate explained that the truck was environmentally friendly and emitted little to no emissions because the truck used DEF,

1 which breaks down certain chemicals to minimize pollutants. The sales associate also discussed
2 the truck's towing capability with Plaintiff and explained that the truck had better torque than
3 other trucks on the lot. These representations, along with the advertised fuel economy and low
4 emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
5 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
6 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
7 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
8 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
9 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
10 comply with emission standards; that its emission treatment system was designed to de-activate
11 during real-world driving conditions; and that it could not achieve the advertised towing power,
12 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
13 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
14 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
15 unauthorized emission control devices.

16 69. Plaintiff **Donald Korrell II** (for the purpose of this paragraph, "Plaintiff"), a
17 citizen of Maryland residing in Hagerstown, MD, bought a 2014 Jeep Grand Cherokee
18 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about May 20, 2014 at
19 Apple Chrysler Dodge Jeep Ram, an authorized FCA dealer in Hanover, PA. Plaintiff decided to
20 buy and market the Class Vehicle based in part on FCA's representations that it was an
21 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on
22 Jeep's website in which the Class Vehicles were represented to have good fuel economy. In
23 addition, Plaintiff visited several dealerships that sold the EcoDiesel vehicles prior to purchasing
24 the Class Vehicle. At one of the dealerships, he was provided a brochure for the Class Vehicle
25 that touted the EcoDiesel's fuel economy and "clean operation." These representations, along
26 with the other representations about fuel economy and low emissions, were among the primary
27 reasons Plaintiffs chose the Class Vehicle. At the time of purchase, Plaintiff did not know that
28 the Class Vehicle could not perform as advertised and in fact emitted NOx at levels that are

1 greater than advertised and above legal limits. Nor was Plaintiff aware that its Class Vehicle was
 2 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
 3 tests and to deceive consumers and regulators. Plaintiff would not have purchased and marketed
 4 for resale the Class Vehicle, or would have paid less for it, had it known that the Class Vehicle
 5 did not comply with emission standards; that its emission treatment system was designed to de-
 6 activate during real-world driving conditions; or that it could not achieve the advertised towing
 7 power, performance, and/or fuel economy without cheating emission tests. Plaintiff also would
 8 not have invested additional resources to increase the value of the Class Vehicle for resale had it
 9 known that the Class Vehicle did not comply with emission standards; that its emission treatment
 10 system was designed to de-activate during real-world driving conditions; or that it could not
 11 achieve the advertised towing power, performance, and/or fuel economy without cheating
 12 emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
 13 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
 14 less for it, had Defendants not concealed the unauthorized emission control devices.

15 70. Plaintiff **Richard Lindholm** (for the purpose of this paragraph, "Plaintiff") a
 16 citizen of Nebraska, residing in Papillion, Nebraska purchased a 2015 Ram 1500 EcoDiesel® (for
 17 the purpose of this paragraph, the "Class Vehicle") on or about February 25, 2017 at Pro Chrysler
 18 Dodge Jeep Ram, an authorized FCA dealer in Plattsmouth, Nebraska. Plaintiff decided to buy
 19 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
 20 reduced emissions and fuel efficient). Plaintiff visited the Ram website and saw a brochures in
 21 which the Class Vehicles were represented to have good fuel economy, towing capacity, and
 22 power all while being environmentally friendly with low emissions. When Plaintiff went to Pro
 23 Chrysler Jeep Dodge Ram to purchase the Class Vehicle, the sales associate touted the Class
 24 Vehicle's EcoDiesel® attributes, including its low emissions, fuel economy, towing power, and
 25 performance. These representations, along with the advertised fuel economy and low emissions
 26 were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase,
 27 Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at
 28 levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his

1 Class Vehicle was equipped with undisclosed and unauthorized emission control devices
2 designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not
3 have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
4 comply with emission standards; that its emission treatment system was designed to de-activate
5 during real-world driving conditions; and that it could not achieve the advertised towing power,
6 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
7 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
8 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
9 unauthorized emission control devices.

10 71. Plaintiff **Andrew Loescher** (for the purpose of this paragraph, "Plaintiff"), a
11 citizen of Washington, residing in Vancouver, Washington, purchased a 2015 Ram 1500
12 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about December 27,
13 2016 at Marketplace Motors in Devils Lake, North Dakota. Plaintiff decided to purchase the
14 Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
15 reduced emissions and fuel efficient). These representations, along with the advertised fuel
16 economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At
17 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
18 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
19 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
20 control devices designed to cheat emission tests and to deceive consumers and regulators.
21 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
22 known that it did not comply with emission standards; that its emission treatment system was
23 designed to de-activate during real-world driving conditions; and that it could not achieve the
24 advertised towing power, performance, and/or fuel economy without cheating emission tests.
25 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
26 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
27 Defendants not concealed the unauthorized emission control devices.
28

72. Plaintiff **Christopher Mattingly** (for the purpose of this paragraph, “Plaintiff”), a citizen of Nevada, residing in Las Vegas, Nevada, bought a 2016 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about November 7, 2016 at Chapman Las Vegas Dodge Chrysler Jeep Ram, an authorized FCA dealer in Las Vegas, Nevada. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw representations on Ram’s website in which the Class Vehicles were represented to have good fuel economy and towing power. Plaintiff also saw representations about his Class Vehicle on television. When Plaintiff went to Chapman Las Vegas Dodge Chrysler Jeep Ram to purchase the Class Vehicle, the sales representative touted the Class Vehicle’s EcoDiesel® attributes when comparing it to the 2016 Ram 1500 Hemi. The sales representative told Plaintiff that the EcoDiesel® had almost as much power as the Hemi, but that it was a “cleaner” vehicle because of its low emissions. The sales representative also told Plaintiff that the Class Vehicle had better fuel economy than the Hemi. These representations, along with the advertised fuel economy, towing power, and performance were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

73. Plaintiff **Thomas McGann, Jr.** (for the purpose of this paragraph, “Plaintiff”), a citizen of New York, residing in North Tonawanda, New York, bought a 2016 Ram 1500

1 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about September 24,
 2 2016 at Lessord Dodge, an authorized FCA dealer in Sodus, New York. Plaintiff decided to buy
 3 the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e.,
 4 reduced emissions and fuel efficient). Plaintiff visited the Ram website, on which the Class
 5 Vehicle was represented to be fuel efficient and high performing. When Plaintiff went to Lessord
 6 Dodge to purchase the Class Vehicle, he discussed the “great” fuel economy and towing
 7 capability of the EcoDiesel® with a salesman at the dealership. Plaintiff and the sales associate
 8 also talked about the basics of the emissions system, including the use of DEF. These
 9 representations, along with the advertised fuel economy, towing power, and performance were
 10 among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff
 11 did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels
 12 that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class
 13 Vehicle was equipped with undisclosed and unauthorized emission control devices designed to
 14 cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased
 15 the Class Vehicle, or would have paid less for it, had he known that it did not comply with
 16 emission standards; that its emission treatment system was designed to de-activate during real-
 17 world driving conditions; and that it could not achieve the advertised towing power, performance,
 18 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
 19 direct and proximate result of Defendants’ misconduct, and would not have purchased the Class
 20 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
 21 control devices.

22 74. Plaintiff **Ernest Melin, Jr.** (for the purpose of this paragraph, “Plaintiff”), a
 23 citizen of South Carolina, residing in Mount Pleasant, South Carolina, bought a 2016 Ram 1500
 24 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about February 3, 2016
 25 at Rick Hendrick Dodge Chrysler Jeep, an authorized FCA dealer in Charleston, South Carolina.
 26 Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an
 27 “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff recalls viewing a
 28 television commercial on or about January 2016 touting the performance, fuel economy and

1 environmental friendliness of the one half ton Ram 1500 with a diesel engine. Upon visiting Rick
 2 Hendrick Jeep Chrysler Dodge Ram and inquiring about the 3.0-liter EcoDiesel® engine, a sales
 3 associate said it was Italian made and had been in service for “10 or so years” and was purchased
 4 by Chrysler to put into the Ram 1500 pickup and a Jeep Cherokee. Furthermore, the sales
 5 associate confirmed the towing capacity Plaintiff had seen in the advertisement, and stated that
 6 this diesel engine was “proven in Europe,” had good fuel economy and was “environmentally
 7 friendly” with “low emissions.” These representations, along with the advertised fuel economy,
 8 towing power, and/or performance were among the primary reasons Plaintiff chose the Class
 9 Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as
 10 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
 11 Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized
 12 emission control devices designed to cheat emission tests and to deceive consumers and
 13 regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it,
 14 had he known that it did not comply with emission standards; that its emission treatment system
 15 was designed to de-activate during real-world driving conditions; and that it could not achieve the
 16 advertised towing power, performance, and/or fuel economy without cheating emission tests.
 17 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’
 18 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
 19 Defendants not concealed the unauthorized emission control devices.

20 75. Plaintiff **George Milner** (for the purpose of this paragraph, “Plaintiff”), a citizen
 21 of New York, residing in Mechanicville, New York, purchased a 2014 Ram 1500 EcoDiesel®
 22 (for the purpose of this paragraph, the “Class Vehicle”) on or about October 6, 2014 at Zappone
 23 Chrysler Jeep Dodge Ram, an authorized FCA dealer in Clifton Park, New York. Plaintiff
 24 decided to purchase the Class Vehicle based in part on FCA’s representations that it was an
 25 “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). In 2014 Plaintiff purchased a
 26 travel trailer that his mid-size Nissan Pioneer truck was not capable of pulling. After looking at
 27 the Ford, Chevrolet, and Ram websites, Plaintiff decided that the Ram 1500 EcoDiesel® was the
 28 best choice based on the information presented on the website, because: (1) it had the torque and

1 towing capacity to easily handle the trailer that Plaintiff had purchased; (2) it claimed an
2 impressive 27 mpg, a fuel efficiency better than most sedans; (3) it touted a suspension design
3 that would provide more ride comfort than the leafspring systems in use on other trucks; and (4) it
4 was powered by an EcoDiesel®. When Plaintiff went to the Zappone Chrysler Jeep Dodge Ram
5 dealership in Clifton Park to purchase the Class Vehicle, the sales person stated that Plaintiff was
6 making a great choice by buying a truck equipped with an EcoDiesel®, telling him that the Class
7 Vehicle would get high mileage and easily pull Plaintiff's trailer. During price negotiations for
8 the Class Vehicle, the sales person stressed that there was a high demand for these vehicles
9 because they were powered by a quiet, smooth running, clean-burning, highly efficient engine.
10 These representations, along with the advertised fuel economy and performance, were among the
11 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
12 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
13 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
14 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
15 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
16 Vehicle, or would have paid less for it, had he known that it did not comply with emission
17 standards; that its emission treatment system was designed to de-activate during real-world
18 driving conditions; and that it could not achieve the advertised towing power, performance,
19 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
20 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
21 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
22 control devices.

23 76. Plaintiff **Ryan Montgomery** (for the purpose of this paragraph, "Plaintiff"), a
24 citizen of Colorado, residing in Durango, Colorado, purchased a 2014 Ram 1500 EcoDiesel® (for
25 the purpose of this paragraph, the "Class Vehicle") on or about August 22, 2014 at Morehart
26 Murphy Regional Auto Center, an authorized FCA dealer in Durango, Colorado. Plaintiff
27 decided to buy the Class Vehicle based in part on FCA's representations that it was an
28 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw television

1 commercials for the EcoDiesel in which the Class Vehicles were represented to be fuel efficient
 2 and eco-friendly. Plaintiff also researched the Class Vehicle by visiting the Ram website. The
 3 Ram website represented the Class Vehicles to be a fuel efficient and eco-friendly. When Plaintiff
 4 went to Morehart Murphy Regional Auto Center to purchase the Class Vehicle, the salesperson
 5 confirmed Plaintiff's understanding that the Vehicle would be fuel efficient and eco-friendly.
 6 These representations, along with the advertised fuel economy and low emissions were among the
 7 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
 8 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
 9 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
 10 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
 11 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
 12 Vehicle, or would have paid less for it, had he known that it did not comply with emission
 13 standards; that its emission treatment system was designed to de-activate during real-world
 14 driving conditions; and that it could not achieve the advertised towing power, performance,
 15 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
 16 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
 17 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
 18 control devices.

19 77. Plaintiff **Bryan Thomas Muckenfuss** (for the purpose of this paragraph,
 20 "Plaintiff"), a citizen of South Carolina, residing in Ravenel, South Carolina, bought a 2015 Ram
 21 1500 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about November
 22 5, 2015 at Rick Hendrick Dodge Chrysler Jeep Ram, an authorized FCA dealer in Charleston,
 23 South Carolina. Plaintiff decided to buy the Class Vehicle based in part on FCA's representations
 24 that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff conducted
 25 online research on the fuel economy and torque of the EcoDiesel engine prior to purchasing his
 26 Class Vehicle. Upon visiting Rick Hendrick Jeep Chrysler Dodge Ram, he discussed the overall
 27 efficiency of the Class vehicle with the sales associate, and recalls seeing a Ram brochure at the
 28 dealership that mentioned the EcoDiesel® engine. These representations, along with the

1 advertised fuel economy, towing power, and/or performance were among the primary reasons
2 Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class
3 Vehicle could perform as advertised only by emitting NOx at levels that are greater than
4 advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped
5 with undisclosed and unauthorized emission control devices designed to cheat emission tests and
6 to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or
7 would have paid less for it, had he known that it did not comply with emission standards; that its
8 emission treatment system was designed to de-activate during real-world driving conditions; and
9 that it could not achieve the advertised towing power, performance, and/or fuel economy without
10 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
11 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
12 less for it, had Defendants not concealed the unauthorized emission control devices.

13 78. Plaintiff **Michael K. Norton** (for the purpose of this paragraph, "Plaintiff"), a
14 citizen of New Jersey, residing in Riverdale, New Jersey, bought a 2014 Jeep Grand Cherokee
15 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about July 30, 2014 at
16 Precision Jeep, an authorized FCA dealer in Butler, New Jersey. Plaintiff decided to buy the Class
17 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
18 emissions and fuel efficient). Plaintiff saw representations on Jeep's website and reviewed
19 window stickers for the EcoDiesel Jeep, noting that it was represented to be friendly for the
20 environment, had good gas mileage, and offered good towing performance. When Plaintiff went
21 to Precision Jeep to purchase the Class Vehicle, he also reviewed brochures and discussed with a
22 sales associate the advertised best-in-class fuel economy, range, torque, towing, and the "new,
23 clean, 3.0 EcoDiesel." These representations, along with the advertised fuel economy and low
24 emissions were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
25 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
26 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
27 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
28 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would

1 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
2 comply with emission standards; that its emission treatment system was designed to de-activate
3 during real-world driving conditions; and that it could not achieve the advertised towing power,
4 performance, and/or fuel economy without cheating emission tests. Plaintiff sold the Class
5 Vehicle in or about May 2017, after the defeat device allegations became public, to Precision
6 Chrysler Jeep Dodge Ram in Butler, New Jersey. Plaintiff has suffered a concrete injury as a
7 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
8 Vehicle, or would have paid less for it, and/or would have been able to sell it for more, had
9 Defendants not concealed the unauthorized emission control devices.

10 79. Plaintiff **Kirk Petersen** (for the purpose of this paragraph, "Plaintiff"), a citizen of
11 Iowa, residing in Muscatine, Iowa, bought a 2015 Ram 1500 EcoDiesel® (for the purpose of this
12 paragraph, the "Class Vehicle") on or about August 28, 2015 at Deery Brothers Chrysler Dodge
13 Jeep Ram, an authorized FCA dealer in Iowa City, Iowa. Plaintiff decided to buy the Class
14 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
15 emissions and fuel efficient). Plaintiff saw television commercials and online advertisements in
16 which the Class Vehicles were represented to be fuel efficient and emissions compliant. When
17 plaintiff went to Deery Brothers Chrysler Dodge Jeep Ram to purchase the Class Vehicle, the
18 salesperson and vehicle brochure confirmed Plaintiff's understanding of the Class Vehicle's
19 features and fuel efficiency. These representations, advertised fuel economy, towing power, and
20 performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
21 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
22 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
23 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
24 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
25 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
26 comply with emission standards; that its emission treatment system was designed to de-activate
27 during real-world driving conditions; and that it could not achieve the advertised towing power,
28 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a

1 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
2 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
3 unauthorized emission control devices.

4 80. Plaintiff **Melvin Phillips** (for the purpose of this paragraph, "Plaintiff"), a citizen
5 of Missouri, residing in Aurora, Missouri, bought a 2015 Ram 1500 EcoDiesel® (for the purpose
6 of this paragraph, the "Class Vehicle") on or about October 23, 2015, at Ramsey Motor
7 Company, an authorized FCA dealer in Harrison, Arkansas. Plaintiff decided to buy the Class
8 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
9 emissions and fuel efficient). Plaintiff conducted extensive internet research, including viewing
10 Ram advertisements and user blogs prior to purchasing the Class Vehicle. He also saw television
11 commercials and other advertisements in which the Class Vehicles were represented to be
12 environmentally friendly, with low emissions and good gas mileage. When Plaintiff went to
13 Ramsey Motor Company to purchase the Class Vehicle, the salesperson represented the Class
14 Vehicle as "eco-friendly" and as having great towing power. These representations, along with
15 the advertised fuel economy, towing power, and performance were among the primary reasons
16 Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class
17 Vehicle could perform as advertised only by emitting NOx at levels that are greater than
18 advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped
19 with undisclosed and unauthorized emission control devices designed to cheat emission tests and
20 to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or
21 would have paid less for it, had he known that it did not comply with emission standards; that its
22 emission treatment system was designed to de-activate during real-world driving conditions; and
23 that it could not achieve the advertised towing power, performance, and/or fuel economy without
24 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
25 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
26 less for it, had Defendants not concealed the unauthorized emission control devices.

27 81. Plaintiff **Samuel Price** (for the purpose of this paragraph, "Plaintiff"), a citizen of
28 Louisiana, residing in Fort Polk City, Louisiana purchased a 2014 Ram 1500 EcoDiesel® (for the

1 purpose of this paragraph, the “Class Vehicle”) on or about July 30, 2014 at Crown Dodge, an
2 authorized FCA dealer in Fayetteville, North Carolina. Prior to purchasing the Class Vehicle,
3 Plaintiff researched the Class Vehicle by reviewing online and print materials, and speaking with
4 a salesperson at the dealership. Plaintiff decided to purchase the Class Vehicle based on his
5 research and the representations from the dealership, which led Plaintiff to believe that the Class
6 Vehicle had good towing capacity, high gas mileage, and had lower emissions than the black
7 smoke of early diesel models. These representations, along with the advertised fuel economy and
8 performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
9 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
10 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
11 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
12 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would
13 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
14 comply with emission standards; that its emission treatment system was designed to de-activate
15 during real-world driving conditions; and that it could not achieve the advertised towing power,
16 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
17 concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have
18 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
19 unauthorized emission control devices.

20 82. Plaintiff **John James Radziewicz** (for the purpose of this paragraph, “Plaintiff”), a
21 citizen of Louisiana, residing in New Orleans, Louisiana, bought a 2014 Jeep Grand Cherokee
22 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about June 24, 2015 at
23 Banner Chevrolet, an authorized FCA dealer in New Orleans, Louisiana. Plaintiff decided to buy
24 the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e.,
25 reduced emissions and fuel efficient). Plaintiff watched “The Fast Lane” Truck Review videos on
26 YouTube, conducted extensive Internet research on the fuel economy of the EcoDiesel engine,
27 and visited the Jeep website and various general discussion forums online prior to purchasing his
28 Class Vehicle. Plaintiff specifically recalls seeing a very persuasive, interactive webpage on the

1 Jeep website that showed a circle with a roughly 750-mile radius that one could move around the
2 country in order to see how far he could travel in a straight line on one tank of gas. Plaintiff was
3 also influenced by other advertisements available on the Jeep website, particularly those dealing
4 with fuel efficiency. These representations, along with the advertised fuel economy, towing
5 power, and/or performance were among the primary reasons Plaintiff chose the Class Vehicle. At
6 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
7 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
8 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
9 control devices designed to cheat emission tests and to deceive consumers and regulators.
10 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
11 known that it did not comply with emission standards; that its emission treatment system was
12 designed to de-activate during real-world driving conditions; and that it could not achieve the
13 advertised towing power, performance, and/or fuel economy without cheating emission tests.
14 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
15 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
16 Defendants not concealed the unauthorized emission control devices.

17 83. Plaintiff **Bobby Gene Reichert** (for the purpose of this paragraph, "Plaintiff"), a
18 citizen of Florida, residing in Boca Raton, Florida, bought a 2016 Ram 1500 EcoDiesel® (for the
19 purpose of this paragraph, the "Class Vehicle") on or about December 12, 2015 at Arrigo Dodge
20 Chrysler Jeep Sawgrass, an authorized FCA dealer in Tamarac, Florida. Plaintiff decided to buy
21 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
22 reduced emissions and fuel efficient). Plaintiff saw television commercials, read a print
23 advertisement in a diesel truck magazine, and reviewed Ram's website in which the Class Vehicle
24 was represented to have low emissions, good fuel economy, and a proven engine with great
25 towing capacity. When Plaintiff went to Arrigo Dodge Chrysler Jeep Sawgrass to purchase the
26 Class Vehicle, the sales associate and sales manager touted the Class Vehicle's EcoDiesel®
27 attributes, including its low emissions, fuel economy, and towing capacity, and Plaintiff reviewed
28 the brochure for the Class Vehicle that touted those same attributes. These representations, along

1 with the advertised towing power, were among the primary reasons Plaintiff chose the Class
2 Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as
3 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
4 Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized
5 emission control devices designed to cheat emission tests and to deceive consumers and
6 regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it,
7 had he known that it did not comply with emission standards; that its emission treatment system
8 was designed to de-activate during real-world driving conditions; and that it could not achieve the
9 advertised towing power, performance, and/or fuel economy without cheating emission tests.
10 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
11 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
12 Defendants not concealed the unauthorized emission control devices.

13 84. Plaintiff **Mark Richards** (for the purpose of this paragraph, "Plaintiff"), a citizen
14 of Indiana, residing in Franklin, Indiana, bought a 2016 Ram 1500 EcoDiesel® (for the purpose
15 of this paragraph, the "Class Vehicle") on or about March 5, 2016 at Champion Chrysler Jeep
16 Dodge Ram, an authorized FCA dealer in Indianapolis, Indiana. Plaintiff decided to buy the
17 Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
18 reduced emissions and fuel efficient). Plaintiff saw representations on Ram's website in which
19 the Class Vehicles were represented to have good fuel economy and dependable diesel engines.
20 When Plaintiff went to Champion Chrysler Jeep Dodge Ram to purchase the Class Vehicle, the
21 sales associate touted the Class Vehicle's EcoDiesel® attributes, including its low emissions and
22 fuel economy. These representations, along with the advertised fuel economy, were among the
23 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
24 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
25 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
26 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
27 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
28 Vehicle, or would have paid less for it, had he known that it did not comply with emission

1 standards; that its emission treatment system was designed to de-activate during real-world
2 driving conditions; and that it could not achieve the advertised towing power, performance,
3 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
4 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
5 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
6 control devices.

7 85. Plaintiff **Jon Roberts** (for the purpose of this paragraph, "Plaintiff") a citizen of
8 Ohio, residing in Amherst, Ohio, bought a 2014 Ram 1500 EcoDiesel® (for the purpose of this
9 paragraph, the "Class Vehicle") in or about June 2014 at Sliman's Sales & Services, an
10 authorized FCA dealer in Amherst, Ohio. Plaintiff decided to buy the Class Vehicle based in part
11 on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel
12 efficient). Plaintiff saw television commercials and other advertisements in which the Class
13 Vehicles were represented to have good fuel economy. When Plaintiff went to Sliman's Sales &
14 Services to purchase the Class Vehicle, the salesperson confirmed Plaintiff's understanding of the
15 Class Vehicle's fuel economy. These representations regarding fuel economy, along with the
16 represented low emissions, were among the primary reasons Plaintiff chose the Class Vehicle. At
17 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
18 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
19 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
20 control devices designed to cheat emission tests and to deceive consumers and regulators.
21 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
22 known that it did not comply with emission standards; that its emission treatment system was
23 designed to de-activate during real-world driving conditions; and that it could not achieve the
24 advertised towing power, performance, and/or fuel economy without cheating emission tests.
25 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
26 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
27 Defendants not concealed the unauthorized emission control devices.

86. Plaintiff **Kelly Ruiz** (for the purpose of this paragraph, “Plaintiff”), a citizen of Wyoming residing in Cheyenne, Wyoming, bought a 2014 Jeep Grand Cherokee EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about April 19, 2014 at Cowboy Dodge in Cheyenne, Wyoming. Plaintiff decided to buy the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). When Plaintiff went to Cowboy Dodge to purchase the Class Vehicle, the sales associate touted the Class Vehicle’s EcoDiesel® attributes. When Plaintiff went to Cowboy Dodge to purchase a vehicle, she expressed concern about gas mileage. The sales associate then suggested the Plaintiff consider the EcoDiesel® because of its fuel economy, touting the Class Vehicle’s EcoDiesel® attributes. After Plaintiff noted the higher price of the diesel over the gas model, the sales associate assured her the diesel would run more efficiently and more economically and would thus pay for itself, in addition to being cleaner for the environment. These representations, along with the advertised fuel economy and performance were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

87. Plaintiff **Jesse Sandifer** (for the purpose of this paragraph, “Plaintiff”), a citizen of Washington, residing in Olalla, Washington, purchased a 2016 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about September 24, 2016 at West Hills Chrysler Jeep Dodge, an authorized FCA dealer in Bremerton, Washington. Plaintiff decided to

1 purchase the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel"
2 vehicle (i.e., reduced emissions and fuel efficient). Prior to purchasing the Class Vehicle,
3 Plaintiff read an article published in a magazine explaining why Chrysler Dodge opted to use the
4 EcoDiesel® that is currently used in the Ram 1500 EcoDiesel® instead of a Cummins® diesel
5 motor. The article stated that Chrysler Dodge was looking for a diesel engine that was
6 ecofriendly and was able to obtain 28 mpg or better. Plaintiff does not recall the title of the
7 article or the publication in which the article was published. After reading the article, Plaintiff
8 went to West Hills Chrysler Jeep Dodge, in Bremerton, Washington, to test drive the Class
9 Vehicle. Prior to purchasing the Class Vehicle, Plaintiff also researched and read other articles
10 pertaining to Class Vehicle published on the web. These representations, along with the
11 advertised fuel economy and performance, were among the primary reasons Plaintiff chose the
12 Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could
13 perform as advertised only by emitting NOx at levels that are greater than advertised and above
14 legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
15 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
16 and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for
17 it, had he known that it did not comply with emission standards; that its emission treatment
18 system was designed to de-activate during real-world driving conditions; and that it could not
19 achieve the advertised towing power, performance, and/or fuel economy without cheating
20 emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
21 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
22 less for it, had Defendants not concealed the unauthorized emission control devices.

23 88. Plaintiff **Miguel Silio** (for the purpose of this paragraph, "Plaintiff"), a citizen of
24 Florida, residing in Auburndale, Florida, purchased a 2015 Jeep Grand Cherokee EcoDiesel® (for
25 the purpose of this paragraph, the "Class Vehicle") on or about June 11, 2015 at Arrigo Dodge
26 Chrysler, an authorized FCA dealer in West Palm Beach, Florida. Plaintiff decided to purchase
27 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
28 reduced emissions and fuel efficient). These representations, along with the advertised fuel

1 economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At
 2 the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised
 3 only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was
 4 Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission
 5 control devices designed to cheat emission tests and to deceive consumers and regulators.
 6 Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he
 7 known that it did not comply with emission standards; that its emission treatment system was
 8 designed to de-activate during real-world driving conditions; and that it could not achieve the
 9 advertised towing power, performance, and/or fuel economy without cheating emission tests.
 10 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
 11 misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had
 12 Defendants not concealed the unauthorized emission control devices.

13 89. Plaintiff **Satyanam Singh** (for the purpose of this paragraph, "Plaintiff"), a citizen
 14 of California, residing in Sacramento, California, bought a 2016 Ram 1500 EcoDiesel® (for the
 15 purpose of this paragraph, the "Class Vehicle") on or about May 1, 2016 at Roseville Automall in
 16 Roseville, California. Plaintiff decided to buy the Class Vehicle based in part on FCA's
 17 representations that it was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient).
 18 Plaintiff saw commercials in which the Class Vehicles were represented as to have good fuel
 19 economy and to be durable. Plaintiff also saw a representation on the Ram website in which the
 20 Class Vehicles were represented to be environmentally friendly, have low emissions, to have
 21 good fuel economy, and to be reliable. When Plaintiff went to the Roseville Automall to
 22 purchase the Class Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes,
 23 including its environmental friendliness, fuel economy, towing power, and performance. These
 24 representations were among the primary reasons Plaintiff chose the Class Vehicle. At the time of
 25 purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by
 26 emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff
 27 aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control
 28 devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would

1 not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not
2 comply with emission standards; that its emission treatment system was designed to de-activate
3 during real-world driving conditions; and that it could not achieve the advertised towing power,
4 performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a
5 concrete injury as a direct and proximate result of Defendants' misconduct, and would not have
6 purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the
7 unauthorized emission control devices.

8 90. Plaintiff **Nelson John Stephens** (for the purpose of this paragraph, "Plaintiff"), a
9 citizen of Georgia, residing in Fortson, Georgia bought a 2014 Ram 1500 EcoDiesel® (for the
10 purpose of this paragraph, the "Class Vehicle") on or about June 21, 2014, at Opelika Chrysler,
11 Dodge, Jeep, an authorized FCA dealer in Opelika, Alabama. Plaintiff decided to buy the Class
12 Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e., reduced
13 emissions and fuel efficient). Plaintiff saw representations on Jeep's website and print
14 advertisements that indicated the Class Vehicles were emissions compliant and had superior fuel
15 economy to gasoline vehicles. When Plaintiff went to Opelika Chrysler, Dodge, Jeep, the sales
16 manager explained that the Class Vehicles were cleaner than gas engines. Plaintiff was also told
17 that the Class Vehicles had good fuel economy. These representations were among the primary
18 reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the
19 Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than
20 advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped
21 with undisclosed and unauthorized emission control devices designed to cheat emission tests and
22 to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or
23 would have paid less for it, had he known that it did not comply with emission standards; that its
24 emission treatment system was designed to de-activate during real-world driving conditions; and
25 that it could not achieve the advertised towing power, performance, and/or fuel economy without
26 cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of
27 Defendants' misconduct, and would not have purchased the Class Vehicle, or would have paid
28 less for it, had Defendants not concealed the unauthorized emission control devices.

91. Plaintiff **Wayne Tonnesen** (for the purpose of this paragraph, “Plaintiff”), a citizen of New Jersey, residing in Tuckerton, New Jersey, purchased a 2016 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about November 29, 2016 at Johnson Motors, an authorized FCA dealer in Columbia, Wisconsin. Plaintiff decided to purchase the Class Vehicle based in part on FCA’s representations that it was an “EcoDiesel” vehicle (i.e., reduced emissions and fuel efficient). Plaintiff read about the Ram 1500 EcoDiesel® on the Ram website as well as in several automotive review sites in which the Class Vehicles were represented as environmentally friendly with great gas mileage. When Plaintiff went to Johnson Motors in Wisconsin to purchase the Class Vehicle, the sales person touted the Class Vehicle’s EcoDiesel® attributes, including its fuel economy, towing power, and performance, and the window sticker for the Class Vehicle that represented the EcoDiesel’s fuel economy. These representations, along with the advertised fuel economy and performance, were among the primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized emission control devices designed to cheat emission tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it, had he known that it did not comply with emission standards; that its emission treatment system was designed to de-activate during real-world driving conditions; and that it could not achieve the advertised towing power, performance, and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants’ misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

92. Plaintiff **William “Bill” Turner, III** (for the purpose of this paragraph, “Plaintiff”), a citizen of Georgia, residing in Columbus, Georgia, leased a 2014 Jeep Grand Cherokee EcoDiesel® (for the purpose of this paragraph, the “Class Vehicle”) on or about July 22, 2014, at Newnan Peachtree Chrysler, an authorized FCA dealer in Newnan, Georgia. Plaintiff

1 decided to lease the Class Vehicle based in part on FCA's representations that it was an
2 "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw information on an
3 online blog in which the Class Vehicles were represented to be environmentally friendly, have
4 low emissions, and have good fuel economy. These attributes were confirmed by the sales
5 associate when Plaintiff went to lease the Class Vehicle at Newnan Peachtree Chrysler. These
6 representations, along with the low emissions and environmental friendliness, were among the
7 primary reasons Plaintiff chose the Class Vehicle. These representations, along with the
8 advertised fuel economy, environmental cleanliness and the longevity of a diesel, were among the
9 primary reasons Plaintiff chose the Class Vehicle. At the time of lease, Plaintiff did not know
10 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
11 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
12 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
13 tests and to deceive consumers and regulators. Plaintiff would not have leased the Class Vehicle,
14 or would have paid less for it, had he known that it did not comply with emission standards; that
15 its emission treatment system was designed to de-activate during real-world driving conditions;
16 and that it could not achieve the advertised towing power, performance, and/or fuel economy
17 without cheating emission tests. Plaintiff has suffered a concrete injury as a direct and proximate
18 result of Defendants' misconduct, and would not have leased the Class Vehicle, or would have
19 paid less for it, had Defendants not concealed the unauthorized emission control devices.

20 93. Plaintiff **WEB Farms, Inc.** (for the purpose of this paragraph, "Plaintiff") is a
21 citizen of New Mexico, with its principal place of business in Melrose, New Mexico. WEB
22 Farms, Inc. is owned by Wendell Bostwick, a citizen of Texas, residing in Lubbock, Texas.
23 Plaintiff bought a 2014 Ram 1500 EcoDiesel® (for the purpose of this paragraph, the "Class
24 Vehicle") on or about October 6, 2014 at Texas Dodge, an authorized FCA dealer in Amarillo,
25 Texas. Plaintiff decided to buy the Class Vehicle based in part on FCA's representations that it
26 was an "EcoDiesel" vehicle (i.e., reduced emissions and fuel efficient). Plaintiff saw television
27 commercials in which the Class Vehicles were represented as the best towing pickup with a
28 10,000-pound payload, which was sufficient power for what Plaintiff needed. Plaintiff later

1 visited Bender Chrysler Dodge Jeep Ram in Clovis, NM to pick up a brochure for more
2 information. This brochure represented the Class Vehicle as achieving approximately 27 MPG.
3 Mr. Bostwick also saw information on the Ram website that represented the Class Vehicle as
4 achieving approximately 27 MPG, being good for towing, and providing reasonable torque.
5 These representations, along with the advertised fuel economy and low emissions were among the
6 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
7 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
8 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
9 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
10 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
11 Vehicle, or would have paid less for it, had he known that it did not comply with emission
12 standards; that its emission treatment system was designed to de-activate during real-world
13 driving conditions; and that it could not achieve the advertised towing power, performance,
14 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
15 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
16 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
17 control devices

18 94. Plaintiff **John Webb** (for the purpose of this paragraph, "Plaintiff"), a citizen of
19 Colorado, residing in Denver, Colorado, leased a 2016 Ram 1500 EcoDiesel® (for the purpose of
20 this paragraph, the "Class Vehicle") on or about May 26, 2016, at AutoNation Chrysler, Dodge,
21 Jeep, Ram Southwest, an authorized FCA dealer in Littleton, Colorado. Plaintiff decided to lease
22 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
23 reduced emissions and fuel efficient). Plaintiff saw representations on Ram's website in which
24 the Class Vehicles were represented to be environmentally friendly, have low emissions, and have
25 good fuel economy. When Plaintiff went to AutoNation Chrysler Dodge Jeep Ram to lease the
26 Class Vehicle, the sales associate touted the Class Vehicle's EcoDiesel® attributes, including its
27 fuel economy and low emissions. These representations, along with the advertised fuel economy,
28 environmental cleanliness and the longevity of a diesel, were among the primary reasons Plaintiff

1 chose the Class Vehicle. At the time of lease, Plaintiff did not know that the Class Vehicle could
2 perform as advertised only by emitting NOx at levels that are greater than advertised and above
3 legal limits. Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and
4 unauthorized emission control devices designed to cheat emission tests and to deceive consumers
5 and regulators. Plaintiff would not have leased the Class Vehicle, or would have paid less for it,
6 had he known that it did not comply with emission standards; that its emission treatment system
7 was designed to de-activate during real-world driving conditions; and that it could not achieve the
8 advertised towing power, performance, and/or fuel economy without cheating emission tests.
9 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
10 misconduct, and would not have leased the Class Vehicle, or would have paid less for it, had
11 Defendants not concealed the unauthorized emission control devices.

12 95. Plaintiff **Stonewall J. Webster III** (for the purpose of this paragraph, "Plaintiff"),
13 a citizen of North Carolina, residing in Mayodan, North Carolina, bought a 2016 Ram 1500
14 EcoDiesel® (for the purpose of this paragraph, the "Class Vehicle") on or about January 4, 2017
15 at Victory Dodge, an authorized FCA dealer in Shallotte, North Carolina. Plaintiff decided to buy
16 the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle (i.e.,
17 reduced emissions and fuel efficient). Plaintiff saw a representation on the Ram's website
18 regarding the fuel economy of the EcoDiesel® engine before he purchased the Class Vehicle.
19 When Plaintiff went to Victory Dodge to purchase the Class Vehicle, the sales associate touted
20 the Class Vehicle's EcoDiesel® attributes, telling him the truck would get MPG in the high
21 twenties and was equipped with the new "eco-friendly" turbocharged V6 diesel engine. These
22 representations, along with the advertised fuel economy and low emissions were among the
23 primary reasons Plaintiff chose the Class Vehicle. At the time of purchase, Plaintiff did not know
24 that the Class Vehicle could perform as advertised only by emitting NOx at levels that are greater
25 than advertised and above legal limits. Nor was Plaintiff aware that his Class Vehicle was
26 equipped with undisclosed and unauthorized emission control devices designed to cheat emission
27 tests and to deceive consumers and regulators. Plaintiff would not have purchased the Class
28 Vehicle, or would have paid less for it, had he known that it did not comply with emission

1 standards; that its emission treatment system was designed to de-activate during real-world
2 driving conditions; and that it could not achieve the advertised towing power, performance,
3 and/or fuel economy without cheating emission tests. Plaintiff has suffered a concrete injury as a
4 direct and proximate result of Defendants' misconduct, and would not have purchased the Class
5 Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission
6 control devices.

7 96. Plaintiff **John Casey Wilson** (for the purpose of this paragraph, "Plaintiff"), a
8 citizen of Utah, residing in Sandy, Utah, bought a 2016 Ram 1500 EcoDiesel® (for the purpose
9 of this paragraph, the "Class Vehicle") on or about November 13, 2015 at Ken Garff West Valley
10 Dodge Chrysler Jeep Ram, an authorized FCA dealer in West Valley, Utah. Plaintiff decided to
11 buy the Class Vehicle based in part on FCA's representations that it was an "EcoDiesel" vehicle
12 (i.e., reduced emissions and fuel efficient). Prior to purchasing the Class Vehicle, Plaintiff visited
13 the Ram website, and related consumer review websites, in which the Class Vehicles were
14 represented to be environmentally friendly with low emissions and good fuel economy. When
15 Plaintiff went to Ken Garff West Valley Dodge Chrysler Jeep Ram to purchase the Class Vehicle,
16 the sales associates touted the Class Vehicle's EcoDiesel® attributes, including its fuel economy,
17 towing power, and performance. These representations, along with the advertised fuel economy,
18 towing power, and/or performance were among the primary reasons Plaintiff chose the Class
19 Vehicle. At the time of purchase, Plaintiff did not know that the Class Vehicle could perform as
20 advertised only by emitting NOx at levels that are greater than advertised and above legal limits.
21 Nor was Plaintiff aware that his Class Vehicle was equipped with undisclosed and unauthorized
22 emission control devices designed to cheat emission tests and to deceive consumers and
23 regulators. Plaintiff would not have purchased the Class Vehicle, or would have paid less for it,
24 had he known that it did not comply with emission standards; that its emission treatment system
25 was designed to de-activate during real-world driving conditions; and that it could not achieve the
26 advertised towing power, performance, and/or fuel economy without cheating emission tests.
27 Plaintiff has suffered a concrete injury as a direct and proximate result of Defendants'
28

misconduct, and would not have purchased the Class Vehicle, or would have paid less for it, had Defendants not concealed the unauthorized emission control devices.

JURISDICTION AND VENUE

97. This Complaint is filed as an original action in this District and as the Consolidated Consumer Class Action Complaint in the MDL No. 2777 proceedings, pursuant to Pretrial Order No. 3 therein.

98. This Court has original subject-matter jurisdiction over this action under 28 U.S.C. § 1331 (federal question) and 18 U.S.C. § 1964 (RICO). The Court also has original subject-matter jurisdiction over this action under 28 U.S.C. § 1332(d), because this is a proposed class action, the amount in controversy exceeds \$5,000,000, and there is the required diversity of citizenship pursuant to 28 U.S.C. § 1332(d)(2). In addition, the Court has supplemental jurisdiction over Plaintiffs' state law claims under 28 U.S.C. § 1367.

99. This Court has personal jurisdiction over Defendants under California Code of Civil Procedure section 410.10, as well as 18 U.S.C. § 1965(b) and (d). The Court also possesses pendent personal jurisdiction over Defendants.

100. Venue is proper in this district under 28 U.S.C. § 1391(b) because a substantial part of the events or omissions giving rise to Plaintiffs' claims occurred in this District. Defendants have marketed, advertised, sold, and leased the Class Vehicles, and otherwise conducted extensive business, within this District. In addition, or in the alternative, venue is proper under 28 U.S.C. § 1407(a), which authorizes the Judicial Panel on Multidistrict Litigation to transfer consolidated multidistrict litigation "to any district."

INTRADISTRICT ASSIGNMENT

101. This action is properly assigned to the San Francisco Division of this District pursuant to Civ. L.R. 3-2 because a substantial part of the events or omissions giving rise to Plaintiffs' claims arose in the counties served by the San Francisco Division. Several named Plaintiffs and proposed Class representatives, and many more Class members, purchased and maintain their Class Vehicles in the counties served by this Division. Moreover, FCA conducts substantial business in the counties served by this Division, has marketed, advertised, sold and

1 leased the Class Vehicles in those counties, and has caused harm to Class members residing in
 2 those counties. Furthermore, this Complaint is filed as an original action in this District and as
 3 the Consolidated Consumer Class Action Complaint in the MDL No. 2777 proceedings, which
 4 have been consolidated before Judge Edward M. Chen, presiding in the San Francisco Division of
 5 this District.

6 **FACTUAL ALLEGATIONS COMMON TO ALL CLAIMS**

7 **I. FIAT CHRYSLER SEEKS TO CAPITALIZE ON THE GROWING U.S. “CLEAN” 8 DIESEL MARKET**

9 102. As part of a strategy to expand its North American presence, in 2009, Fiat began
 10 its acquisition of one of the “Big 3” U.S. automakers, Chrysler. In November of that year, CEO
 11 Marchionne unveiled an ambitious five-year plan to, among other things, roll out “more diesel
 12 variants” under the Jeep brand and to give Ram’s “Light duty (1500)” pickup truck a
 13 “refresh/facelift.”⁶

14 103. By 2014, Fiat had become Fiat Chrysler Automobiles, Chrysler had become FCA,
 15 and VM Motori, a long time supplier, was now part of the Fiat Chrysler sprawling family of
 16 affiliated companies. In May of that year, Marchionne announced another five-year plan at
 17 FCA’s headquarters in Auburn Hills, Michigan, to increase Fiat Chrysler’s competitiveness
 18 against global auto giants, such as Toyota, Volkswagen, and General Motors, by increasing
 19 annual sales to 7 million vehicles by 2018, up from 4.4 million in 2013.⁷ Integral to the strategy
 20 was the expansion of the “Jeep portfolio” and updates to the “bread-and-butter Ram 1500,”
 21 including “diesel engines.”⁸

22 104. During this same time frame, emission standards in the United States were
 23 ratcheting up. In contrast to other global automakers, like Toyota and Ford, which were focusing
 24 on developing hybrid and electric cars, Chrysler—now FCA and under the control of Fiat—took

25 ⁶ Todd Lassa, *Fiatapolooza! Chrysler’s Five-Year Plan*, MotorTrend (Nov. 6, 2009),
 26 <http://www.motortrend.com/news/chrysler-five-year-plan/>.

27 ⁷ Jerry Hirsch and David Undercoffler, *Fiat Chrysler Unveils Aggressive Five-Year Plan*, Los
 Angeles Times (May 6, 2014), <http://www.latimes.com/business/la-fi-chrysler-revamp-20140507-story.html>.

28 ⁸ Christian Seabaugh, *Ram and Ferrari’s Place in Fiat Chrysler’s Five-Year Plan*, MotorTrend
 (May 6, 2014), <http://www.motortrend.com/news/ram-and-ferraris-place-in-fiat-chryslers-five-year-plan/>.

1 another path: “[r]eflecting its ties with Europe-based Fiat, Chrysler appears to be taking yet
2 another route that focuses less on electrification and *more heavily on light-duty diesels* and
3 compressed natural gas.”⁹

4 105. Indeed, as early as July 2010, Chrysler commissioned and presented research to
5 “[i]dentify the trade-offs that consumers make relative to powertrain technologies”—including
6 diesel—and “[i]dentify possible conquest opportunities associated with offering a RAM light-
7 duty Diesel engine.” FCA-MDL-001184465-524. Among other things, the study
8 “recommend[ed] . . . [c]apitalizing on improved fuel economy to increase interest in a Light Duty
9 Diesel engine among L[ight] D[uty] owners.” *Id.*

10 106. In December 2010, Chrysler requested a meeting with Bosch and Fiat to discuss
11 “Chrysler’s main motivation” of “captur[ing] the developing N[orth] A[merican] diesel market.”
12 RBL-MDL2777-PE-300169862-64. Bosch’s notes of the meeting indicate that the projected
13 “profitability status” for SUVs (and other vehicle segments) was “medium to high (+\$300 to
14 +\$800 margin per diesel vehicle).” *Id.* An additional meeting was planned for December 8, 2010
15 with “Chrysler, VM, [and] Bosch” to “discuss further,” and a “Chrysler NA diesel decision
16 meeting with Marchionne” was “scheduled for” December 11, 2010. *Id.*

17 107. In 2012, Marchionne was quoted as saying, “with 2016 ‘just around the corner’
18 and 2025 not far away given the auto industry’s long product-development lead times, ‘there are
19 big choices to be made[.]’”¹⁰ Marchionne explained that “Chrysler, which is starting to share
20 platforms and powertrains with Fiat, wants to leverage the European auto maker’s strengths in
21 *diesels* and CNG-powered vehicles.”¹¹ As one commentator put it at the time, “[f]uel-efficient
22 towing remains a strong point of diesels, and Marchionne says he still is optimistic about the
23 potential of light-duty diesels in the U.S. despite significant emissions challenges.”¹²

24
25
26 ⁹ Drew Winter, *Chrysler Eyes Different Path to Meeting New CAFE Standards*, WardsAuto (Aug.
27 29, 2012), <http://wardsauto.com/technology/chrysler-eyes-different-path-meeting-new-cafe-standards>.

28 ¹⁰ *Id.*

¹¹ *Id.* (emphasis added).

¹² *Id.*

1 108. This is further reflected in a March 2013 Chrysler research document entitled
2 “Alternative Powertrain” in which the company sought to better understand the “needs, wants,
3 expectations and functional requirements relative to . . . alternative powertrain technologies such
4 as hybrids, electric, diesel, and compressed natural gas.” FCA-MDL-001239766-774. The
5 research concluded that “consumers want their next vehicle to do everything their current vehicle
6 does, with better fuel economy and no sacrifice in usability,” and further noted that “[l]arge
7 segments (Pickups) with a need to tow and haul show most interest in Alternative
8 fuels/technology for internal combustion engines.” *Id.* at 9.

9 109. FCA ultimately decided to push into this market beyond its existing heavy-duty
10 diesel trucks (which use engines from a different supplier, Cummins) and, in 2014, it introduced
11 both the light-duty Ram 1500 “EcoDiesel®” and the Jeep Grand Cherokee “EcoDiesel®.” These
12 are the Class Vehicles at issue here.

13 110. Fiat Chrysler was not alone. Seeing an opportunity for growth in the U.S. market,
14 other major automakers rushed to develop and market “clean diesel” engines. Volkswagen,
15 Mercedes-Benz, General Motors, and other manufacturers also began selling diesel cars and
16 trucks as a more efficient (and thus environmentally-friendly) alternative to gasoline vehicles
17 with no loss of power or performance: the advertised difference was that new emission control
18 technology could make small diesel engines (long regarded by American consumers as fuel
19 efficient but foul-smelling polluters) powerful and clean in addition to fuel-efficient. The
20 marketing worked, and millions of diesel vehicles were sold and leased in the United States
21 between 2007 and 2016.

22 111. The green bubble for diesel vehicles first popped on September 18, 2015, when the
23 EPA issued a Notice of Violation of the CAA to Volkswagen and Audi for installing illegal
24 “defeat devices” in 2009–2015 2.0-liter diesel vehicles. A defeat device, as defined by the EPA,
25 is any apparatus or technology that unduly reduces the effectiveness of emission control systems
26 under normal driving conditions. The EPA found that the Volkswagen/Audi defeat device
27 allowed the vehicles to pass emission testing while polluting far in excess of emission standards,
28 revealing the new “clean diesel” technology to be illusory. CARB also announced that it had

1 initiated an enforcement investigation of Volkswagen pertaining to the vehicles at issue in the
 2 Notice of Violation. On September 22, 2015, Volkswagen admitted that 11 million diesel cars
 3 worldwide were installed with the same defeat device software.¹³ Volkswagen wasn't alone—
 4 soon after, government agencies began to reveal that other automakers sold dozens of models
 5 exceeding allowable emission levels under applicable standards. Nevertheless, the Defendants in
 6 this action continued with business as usual, concealing from regulators and consumers their
 7 Class Vehicles' emissions-related behavior and performance.

8 **II. DEFENDANTS' DIRTY "ECODIESEL®" SCHEME**

9 112. Federal and state emission standards are in place to protect Americans from
 10 pollution and certain chemicals known to cause disease in humans. Automobile manufacturers
 11 must abide by applicable laws and adhere to EPA rules and regulations (and those of CARB in
 12 California and 14 other states that have adopted California's standards). The CAA requires
 13 vehicle manufacturers to certify to the EPA that the vehicles sold in the United States meet
 14 applicable federal emission standards to control air pollution. Every vehicle sold in the United
 15 States must be covered by an EPA-issued COC, and every vehicle sold in the State of California
 16 must be covered by a CARB-issued EO.

17 113. There is a very good reason that these laws and regulations exist and apply to
 18 vehicles with diesel engines: in 2012, the World Health Organization declared diesel vehicle
 19 emissions to be carcinogenic and about as dangerous as asbestos.

20 114. Diesel engines pose a unique challenge because they have an inherent trade-off
 21 between power, fuel efficiency, and emissions: the greater the power and fuel efficiency, the
 22 dirtier and more harmful the emissions. Instead of using a spark plug to combust highly refined
 23 fuel with short hydrocarbon chains, as gasoline engines do, diesel engines compress a mist of
 24 liquid fuel and air to very high temperatures and pressures, which causes the fuel/air mixture to
 25 combust. This causes a more powerful compression of the pistons, which can produce greater
 26 engine torque (that is, more power). Diesel engines are able to do this both because they operate

27 ¹³ See Nathan Bomey, *Volkswagen Emission Scandal Widens: 11 Million Cars Affected*, USA
 28 Today (Sept. 22, 2015), <http://www.usatoday.com/story/money/cars/2015/09/22/volkswagen-emissions-scandal/72605874/>.

1 at a higher compression ratio than gasoline engines and because diesel fuel contains more energy
2 than gasoline.

3 115. But this greater energy and fuel efficiency comes at a cost: diesel produces dirtier
4 and more dangerous emissions. Diesel combustion produces NO_x, a variety of nitrogen and
5 oxygen chemical compounds that only form at high temperatures. NO_x pollution contributes to
6 nitrogen dioxide, particulate matter in the air, and reacts with sunlight in the atmosphere to form
7 ozone. Exposure to these pollutants has been linked with serious health dangers, including
8 asthma attacks and other respiratory illnesses serious enough to send people to the hospital.
9 Ozone and particulate matter exposure have been associated with premature death due to
10 respiratory-related or cardiovascular-related effects. Children, the elderly, and people respiratory
11 illnesses are at acute risk of health effects from these pollutants.

12 116. Given the risks, minimizing NO_x is paramount. But removing these pollutants
13 from untreated exhaust is difficult, and diesel automakers have reacted by trying to remove NO_x
14 from the exhaust using catalysts. Modern turbodiesel engines use ceramic diesel filters to trap
15 particulates before they are emitted. Many also use a technology called “selective catalytic
16 reduction” (“SCR”) to reduce NO_x emissions. SCR systems inject a measured amount of urea
17 solution into the exhaust stream, which breaks oxides of nitrogen down into to less noxious
18 substances before they are emitted. SCR-equipped vehicles must carry an onboard tank of fluid
19 for this purpose, and injection of the fluid is controlled by the same engine control module that
20 manages the fuel-air mixture and other aspects of engine operation.

21 117. FCA’s response to this challenge was the EcoDiesel® engine. Emission
22 reductions start in the cylinder with advanced fuel injection strategies. After the byproducts of
23 combustion leave the engine, the EcoDiesel® technology treats these emissions using a diesel
24 oxidation catalyst, diesel particulate filter, and SCR.

25 118. The Class Vehicles use engine management computers to monitor sensors
26 throughout the vehicle and operate nearly all of the vehicle’s systems according to sophisticated
27 programming that can sense and vary factors like steering, combustion, and emissions
28 performance for different driving situations. To manage engine and emission controls, the Class

1 Vehicles use a Bosch EDC system. Bosch GmbH and Bosch LLC designed, tested, customized,
 2 manufactured, and sold these EDC systems, including software code, to Fiat Chrysler (along with
 3 other automakers including Volkswagen, Mercedes, and General Motors) for use in the Class
 4 Vehicles.

5 119. The system used in the Class Vehicles is Bosch's EDC Unit 17 (also called
 6 "EDC17"). A February 28, 2006 Bosch press release introduced the "New Bosch EDC17 engine
 7 management system" as the "brain of diesel injection" which "controls every parameter that is
 8 important for effective, low-emission combustion." The EDC17 offered "[e]ffective control of
 9 combustion" and a "[c]oncept tailored for all vehicle classes and markets." In the press release,
 10 Bosch touted the EDC17 as follows:

11 **EDC17: Ready for future demands**

12 Because the computing power and functional scope of the new EDC17 can be
 13 adapted to match particular requirements, it can be used very flexibly in any
 14 vehicle segment on all the world's markets. In addition to controlling the precise
 15 timing and quantity of injection, exhaust gas recirculation, and manifold pressure
 16 regulation, it also offers a large number of options such as the control of
 particulate filters or systems for reducing nitrogen oxides. The Bosch EDC17
 determines the injection parameters for each cylinder, making specific adaptations
 if necessary. This improves the precision of injection throughout the vehicle's
 entire service life. The system therefore makes an important contribution to
 observing future exhaust gas emission limits.¹⁴

17 120. Bosch's EDC Unit 17 controls emissions by periodically reading sensor values,
 18 evaluating a control function, and controlling actuators based on the control signal.¹⁵ Sensor
 19 readings include crankshaft position, air pressure, air temperature, air mass, fuel temperature, oil
 20 temperature, coolant temperature, vehicle speed, exhaust oxygen content, as well as driver inputs
 21 such as accelerator pedal position, brake pedal position, cruise control setting, and selected gear.
 22 Based on sensor input, EDC17 controls and influences the fuel combustion process including, in
 23 particular, fuel injection timing, which affects engine power, fuel consumption, and the
 24 composition of the exhaust gas.¹⁶

25 ¹⁴ See Bosch press release, *The brain of diesel injection: New Bosch EDC17 engine management*
 26 *system* (Feb. 28, 2006), [http://www.bosch-
 resse.de/presseforum/details.htm?txtID=2603&locale=en](http://www.bosch-resse.de/presseforum/details.htm?txtID=2603&locale=en).

 (2017), <https://cseweb.ucsd.edu/~klevchen/diesel-sp17.pdf>.

¹⁶ *Id.*

121. In 2010 or 2011, VM Motori announced a new diesel engine: a V6, 3.0-liter displacement engine intended for inclusion in SUVs, trucks, and large sedans. This engine had been under development for use in a General Motors automobile for the European market.¹⁷ However, Fiat acquired 50% of VM Italy in 2011, and began working with VM Motori to develop the engine for use in FCA vehicles to be sold in the United States.

122. As Ram Trucks' Chief Engineer said at the time, "We were fortunate at this point in time that our partners at Fiat owned half of VM Motori, who makes this diesel engine. . . . We combined resources and developed them together."¹⁸

123. According to its website, VM Motori is deeply involved in the development and testing of all aspects of the engine: "We take care of the engines and their applications, working together with the Customers to the least detail to ensure a perfect matching between the engine and the machine, supporting our partners from A to Z, from engine- to-machine coupling up to the production."¹⁹

124. In fact, VM Motori boasts of its involvement in: "Calibration development to meet specific vehicle/end user requirements, Exhaust after-treatment system development, [and] Environmental trips (hot/cold climate, high altitude, etc.)."²⁰ VM Motori also notes that its facilities include: "Rolling dyno for vehicle emission measurement [and] 17 engine test benches for emission/performance development."²¹

125. The engine originally was developed for use in Europe, where standards for emission of oxides of nitrogen from diesel vehicles are less stringent than in the United States. Rather than make the engine compliant with U.S. emissions standards, FCA opted to cheat on the emission test.

126. In January 2013, Bosch LLC announced that its "clean diesel" technology, including the EDC Unit 17, would be featured in the new 2014 Jeep Grand Cherokee 3.0-Liter

¹⁷ Chad Westfall, *An Inside Look At The Ram 1500 3.0L EcoDiesel*, Engine Labs (Jan. 11, 2015), <http://www.enginelabs.com/engine-tech/an-inside-look-at-the-ram-1500-3-0l-ecodiesel/>.

¹⁸ *Id.*

¹⁹ *Research and Development*, VM Motori, <http://www.vmmotori.com/r-s/vm-motori/r-s-2.htm>.

²⁰ *Id.*

²¹ *Id.*

1 EcoDiesel®.²² As part of that announcement, Bosch LLC stated: “The 2014 Jeep Grand
 2 Cherokee features a Bosch emission system compliant with the most stringent emission
 3 regulations in the world. From fuel tank to tailpipe, Bosch is pleased to equip this vehicle with
 4 top technologies to give consumers a great driving experience requiring fewer stops at the
 5 pump.”²³ Bosch LLC also announced that the “clean diesel” system for the Jeep Grand Cherokee
 6 would be assembled at Bosch’s facility in Kentwood, Michigan.

7 127. In reality, Fiat Chrysler—working with VM Italy and VM America on the design
 8 of the EcoDiesel®’s engines and Bosch GmbH and Bosch LLC on the design of the EDC Unit
 9 17—was either unable or unwilling to devise a solution within the constraints of the law. And so,
 10 like their rivals at Volkswagen, they devised one outside of it. Instead of cutting their losses on
 11 “EcoDiesel,” delaying the production of the Class Vehicles, or coming clean, Fiat Chrysler
 12 worked closely with VM Italy and VM America and Bosch GmbH and Bosch LLC to customize
 13 the EDC Unit 17 to allow Class Vehicles to simulate “passing” the EPA and CARB testing.
 14 Unlike during testing, the software disables or restricts certain of the emission controls during
 15 real-world driving conditions. When the emission controls are de-activated on the road, the Class
 16 Vehicles emit up to 20 times the legal limits of NOx.

17 128. These software controls designed and implemented by Bosch GmbH and Bosch
 18 LLC were concealed from regulators on COC and EO applications for the Class Vehicles, thus
 19 deceiving the EPA and CARB into approving the Class Vehicles for sale throughout the United
 20 States and California. Of course, consumers, who have no way of discerning that the emission
 21 control technology de-activated during real-world driving conditions, were likewise deceived.

22 129. Specifically, Bosch GmbH and Bosch LLC worked hand-in-glove with Fiat
 23 Chrysler and VM Motori to develop and implement a specific set of software algorithms for
 24 implementation in the Class Vehicles, which enabled FCA to adjust fuel levels, exhaust gas
 25 recirculation, air pressure levels, and even urea injection rates.²⁴

26 ²² *Bosch Announces Clean Diesel Technology On 2014 Jeep Grand Cherokee, supra* note 5.

27 ²³ *Id.*

28 ²⁴ *See generally Engine management*, Bosch Auto Parts, http://de.bosch-automotive.com/en/parts_and_accessories/motor_and_sytems/diesel/engine_management_2/engine_control_unit_1/ (describing capabilities of Bosch EDC units).

130. A study recently published by researchers at the University of California, San Diego, and Ruhr-Universität Bochum in Germany revealed technical documents showing that Bosch code was used in a so-called defeat device for a Fiat vehicle. The study described the software as setting one mode for when a vehicle is being tested for emissions, but then allowing tailpipe pollution to spike in real-world driving conditions.²⁵ The study described Bosch's role in building the electronic control unit ("ECU") hardware and developing the software running on the ECU and found there was "no evidence that automobile manufacturers write any of the code running on the ECU."²⁶ To the contrary: "All code we analyzed in this work was documented in documents copyrighted by Bosch and identified automakers as the intended customers."²⁷ The study concluded: "We find strong evidence that both defeat devices were created by Bosch and then enabled by Volkswagen and Fiat for their respective vehicles."

131. For context, when carmakers test their vehicles against EPA emission standards, they place their cars on dynamometers (essentially large treadmills or "rollers") and then perform a series of specific maneuvers prescribed by federal regulations to simulate driving and test emissions in a controlled environment. Bosch's EDC Unit 17 gave Fiat Chrysler the ability to detect test scenarios by monitoring vehicle speed, acceleration, engine operation, air pressure, and even the position of the steering wheel. For example, given that the steering wheel cannot be turned on a dynamometer, Bosch programmed a sensor which detected whether or not the steering wheel turned. When the EDC Unit 17's detection algorithm detected an emission test was complete, the EDC Unit 17 could de-activate or reduce the emission control systems' performance, causing the Class Vehicle to spew illegal amounts of NOx emissions when out on the road.

132. This workaround was illegal. The CAA expressly prohibits defeat devices, defined as any auxiliary emission control device "that reduces the effectiveness of the emission

²⁵ See Ryan Been, *Study of VW's Cheating on Diesels Examines Role of Bosch Code*, Bloomberg Technology (June 9, 2017), <https://www.bloomberg.com/news/articles/2017-06-09/study-of-vw-s-cheating-on-diesels-examines-role-of-bosch-code>.

²⁶ Moritz Contag, *et al.*, *How They Did It: An Analysis of Emission Defeat Devices in Modern Automobiles*, *supra* note 15.

²⁷ *Id.*

control system under conditions which may reasonably be expected to be encountered in normal vehicle operation and use.” 40 C.F.R. § 86.1803-01; *see also id.* § 86.1809-10 (“No new light-duty vehicle, light-duty truck, medium-duty passenger vehicle, or complete heavy-duty vehicle shall be equipped with a defeat device.”). Moreover, the CAA prohibits the sale of components used as defeat devices, “where the person knows or should know that such part or component is being offered for sale or installed for such use or put to such use.” 42 U.S.C. § 7522(a)(3). Finally, in order to obtain a COC, automakers must submit an application, which lists all auxiliary emission control devices installed in the vehicle, a justification for each, and an explanation of why the control device is not a defeat device.

133. As the EPA has now alleged against Fiat, FCA, VM Italy, and VM America, Defendants did not disclose, and affirmatively concealed, the presence of performance-altering software code developed with Bosch GmbH and Bosch LLC from government regulators. In other words, FCA lied to the government, its customers, its dealers, and the public at large.

134. Because FCA lied on the COC and EO applications, these COCs and EOs were fraudulently obtained. And because the Class Vehicles did not conform “in all material respects” to the specifications provided in the COC and EO applications, the Class Vehicles were never covered by a valid COC or EO, and thus were *never* legal for sale—nor were they EPA and/or CARB compliant, as represented. With the complicity of Bosch and VM Motori, Fiat Chrysler hid these facts from the EPA, CARB, and other regulators, from FCA dealers and consumers, and FCA continued to sell and lease the Class Vehicles to the driving public, despite their illegality.

135. Fiat Chrysler’s illegal workaround was enabled by a close partnership with Bosch, which enjoyed a sizable portion of its annual revenue from manufacturing parts used in the Class Vehicles and other “clean” diesel vehicles.²⁸ Bosch GmbH and Bosch LLC were aware that Fiat Chrysler used its emission control technology as a concealed auxiliary (or defeat) device and, in

²⁸ Approximately 50,000 of Bosch’s 375,000 employees worked in the diesel technology operations branch of Bosch. *See Bosch probes whether its staff helped VW’s emissions rigging*, Automotive News (Jan. 27, 2016), <http://www.autonews.com/article/20160127/COPY01/301279955/bosch-probes-whether-its-staff-helped-vws-emissions-rigging>.

fact, worked together with Fiat Chrysler and VM Motori to develop and implement software algorithms specifically tailored to allow the Class Vehicles to evade detection.

136. Bosch GmbH and Bosch LLC worked closely with Fiat Chrysler and VM Motori to create specifications and software code for each Class Vehicle model. Indeed, customizing a road-ready ECU is an intensive three- to five-year endeavor involving a full-time Bosch presence at an automaker's facility. VM Italy and VM America likewise worked closely with Bosch GmbH, Bosch LLC, and Fiat Chrysler in designing, installing, and calibrating the engines for the Class Vehicles.

137. All Bosch EDCs, including the EDC17, run on complex, highly proprietary engine management software over which Bosch exerts near-total control. In fact, the software is typically locked to prevent customers, like Fiat Chrysler, from making significant changes on their own. Accordingly, both the design and implementation are interactive processes, requiring Bosch's close collaboration with the automaker from beginning to end.

138. Bosch GmbH and Bosch LLC's security measures further confirm that its customers cannot make significant changes to Bosch software without their involvement. Bosch boasts that its security modules protect vehicle systems against unauthorized access in every operating phase, meaning that no alteration could have been made without either a breach of that security—and no such claims have been advanced—or Bosch's knowing participation.²⁹

139. Unsurprisingly, then, at least one car company engineer has confirmed that Bosch maintains absolute control over its software as part of its regular business practices:³⁰

I've had many arguments with Bosch, and they certainly own the dataset software and let their customers tune the curves. Before each dataset is released it goes back to Bosch for its own validation.

Bosch is involved in all the development we ever do. They insist on being present at all our physical tests and they log all their own data, so someone somewhere at Bosch will have known what was going on.

²⁹ *Reliable Protection for ECUs*, ESCRYPT (May 12, 2016), <https://www.escrypt.com/en/news-events/protection-for-ecus>.

³⁰ Michael Taylor, *EPA Investigating Bosch over VW Diesel Cheater Software*, Car and Driver (Nov. 23, 2015), <http://blog.caranddriver.com/epa-investigating-bosch-over-vw-diesel-cheater-software/>.

1 All software routines have to go through the software verification of Bosch, and
2 they have hundreds of milestones of verification, that's the structure

3 The car company is *never* entitled by Bosch to do something on their own.

4 140. Defendants' work on the EDC17 reflected a highly unusual degree of coordination
5 among them. As they did with Volkswagen, the units required the work of numerous Bosch
6 coders for a period of more than ten years.³¹ Although Bosch publicly introduced the EDC17 in
7 2006, it had started to develop the engine management system years before.³²

8 141. Bosch was concerned about getting caught in the scheme to enable diesel
9 emissions cheating. As reported in the German newspaper, *Bild am Sonntag*, and a French
10 publication, a Volkswagen internal inquiry found that in 2007, Bosch warned Volkswagen by
11 letter that using the emission-altering software in production vehicles would constitute an
12 "offense."³³ Yet, Bosch concealed the software, and its emission control functions, in various
13 "clean" diesel vehicles, including the Class Vehicles, from U.S. regulators and consumers.

14 142. Bosch LLC worked closely with Bosch GmbH and diesel automakers both in the
15 United States and in Germany, to ensure that the "clean" diesels, like the Class Vehicles, passed
16 emission testing. Bosch LLC employees frequently communicated with regulators in the United
17 States and actively worked to ensure that diesel vehicles were approved for sale in the United
18 States. For example, we now know that employees of Bosch LLC and Bosch GmbH provided
19 specific information to regulators in the United States about how Volkswagen's vehicles
20 functioned and unambiguously stated that the vehicles met emission standards. Bosch LLC
21 regularly communicated to its colleagues and clients in Germany about ways to deflect and
22 diffuse questions from regulators in the United States about those vehicles. On information and
23

<http://www.bbc.com/news/business-34373637>.

1 belief, Bosch LLC also assisted in concealing the true nature of the emission control technology
2 from regulators in the United States with respect to the Class Vehicles at issue here.

3 143. Bosch not only kept the dirty secret safe, it went a step further and actively lobbied
4 lawmakers to push “clean diesel” in the United States. As early as 2004, Bosch announced a push
5 to convince U.S. automakers that its diesel technology could meet tougher 2007 emission
6 standards in the United States.³⁴ Bosch engaged in a multi-year, multi-million dollar effort
7 involving key players from Bosch in both Germany and the United States. In its efforts to
8 promote “clean diesel” technology in the United States, Bosch GmbH acted on behalf of its
9 global group of affiliated companies, including Bosch LLC.

10 144. Bosch’s promotion of diesel technology specifically targeted the United States.
11 For example, Bosch put on “Diesel Days in California”³⁵ and “SAE World Congress in
12 Detroit.”³⁶ In 2008, Bosch LLC co-sponsored the “Future Motion Made in Germany-Second
13 Symposium on Modern Drive Technologies” at the German Embassy in Washington, D.C., with
14 the aim of providing a venue for “stakeholders to gain insight into the latest technology trends,
15 and to engage in a vital dialogue with industry leaders and policymakers.”³⁷

16 145. Bosch LLC hosted multi-day conferences open to regulators and legislators and
17 held private meetings with regulators, in which it proclaimed extensive knowledge of the “clean”
18 diesel technology, including the calibrations necessary for the vehicles to comply with emission
19 regulations.

20 146. In April 2009, for example, Bosch organized and hosted a two-day “California
21 Diesel Days” event in Sacramento, California. Bosch invited a roster of lawmakers, journalists,

executives, regulators, and non-governmental organizations³⁸ with the aim of changing perceptions of diesel from “dirty” to “clean.” The event featured “clean diesel” vehicles as ambassadors of “clean diesel” technology. The stated goals were to “build support for light-duty diesel as a viable solution for achieving California’s petroleum and emission reduction objectives.”

147. Bosch also joined in events promoting the Class Vehicles. At one such event hosted by Ram, Jeep and Bosch in Traverse City, Michigan, Bosch made a number of statements regarding the 3.0-liter EcoDiesel V6’s performance. It stated that the “Bosch emissions control system helps ensure that virtually no particulates and minimal oxides of nitrogen (NOx) exit the tailpipe” and that a Jeep Grand Cherokee or Ram 1500 diesel’s engine provides a fuel economy that is “30% better than a comparable gasoline engine.”³⁹

148. In 2009, Bosch also became a founding member of the U.S. Coalition for Advanced Diesel Cars.⁴⁰ One of this advocacy group’s purposes included “promoting the energy efficiency and environmental benefits of advanced clean diesel technology for passenger vehicles in the U.S. marketplace.”⁴¹ This group lobbies Congress, U.S. regulators, and CARB in connection with rules affecting “clean diesel” technology.⁴²

III. FCA’S MISLEADING MARKETING

A. Fiat Chrysler Identifies and Combats the “Dirty Diesel” Stigma.

149. As described above, Fiat Chrysler, VM Motori, and Bosch began investigating strategies to develop and market diesel vehicles in the North American market in at least July 2010. FCA-MDL-001184465. As early as February 2012, Chrysler had already commissioned

³⁸ *Bosch drives clean diesel in California*, *supra* note 35; see also *California Diesel Days*, The U.S. Coalition for Advanced Diesel Cars, <http://www.californiadieseldays.com/>.

³⁹ Dale Jewett, *EcoDiesel: An Essential Tool for Every Outdoorsman*, Objects in the Mirror... (blog operated by FCA Digital Media) (May 22, 2015), <https://blog.fcanorthamerica.com/2015/05/22/ecodiesel-an-essential-tool-for-every-outdoorsman/>.

⁴⁰ Chrissie Thompson, *New Coalition Aims To Promote Diesel Cars*, Automotive News (Feb. 2, 2009), <http://www.autonews.com/article/20090202/OEM06/302029728/new-coalition-aims-to-promote-diesel-cars>.

⁴¹ *About the Coalition*, The U.S. Coalition for Advanced Diesel Cars (May 22, 2015), <http://cleandieseldelivers.com/about/>.

⁴² *Id.*; see also, e.g., Letter to Mary T. Nichols & the California Air Resources Board concerning a statement made about diesel technology (Jan. 8, 2016), <http://cleandieseldelivers.com/media/Mary-Nichols-Letter-01082016.pdf>.

1 and presented research to understand how to market the diesel vehicles to consumers. FCA-
2 MDL-001182796-821.

3 150. This research confirmed that the Defendants had a significant obstacle to
4 overcome: consumers associated diesel engines with old technology and, more importantly, with
5 “negative images of smog and dirt.” *Id.*

6 151. This “dirty diesel” stigma was considerable. During Fiat Chrysler’s 2012 focus
7 group addressing “diesel perceptions,” one consumer noted “[I] can’t stand diesel”; another felt
8 “[diesel] has an image problem”; another explained that “when somebody says diesel, I just think
9 of that black smoke”; to another, diesel evoked image of “smoke, exhaust”; another associated
10 diesel with “old images of a truck letting off all of these emissions”; and, summing it up, one
11 focus group participant noted “you just think dirty when you think diesel.” FCA-MDL-
12 001422127.

13 152. Unsurprisingly, then, Fiat Chrysler worked hard to rebut the dirty diesel stigma in
14 communications directly with consumers and in training materials for dealers (to help the dealers
15 persuade consumers to purchase the Class Vehicles). In a Jeep EcoDiesel “Product Brief,” for
16 example, Fiat Chrysler noted “[b]uyers can be resistant to consider a diesel purchase due to
17 several perceptions that are no longer true” including that “diesels are filthy . . . [and] too loud
18 and smelly.” FCA-MDL-000517246-53. The brief combats these perceptions by stating that
19 “diesel engines are surprisingly responsible in view of ecological concerns.” *Id.* It also includes
20 a “key messages” for prospective consumers including: “Diesel engines offer clean operation
21 with typically 25% less emissions than a gasoline engine.” *Id.* It also notes that the “3.0L
22 EcoDiesel V6 uses Selective Catalyst Reduction (SCR) with DEF to help minimize exhaust
23 emissions” and uses “NOx modules and sensors . . . to help control tailpipe emissions.” *Id.*

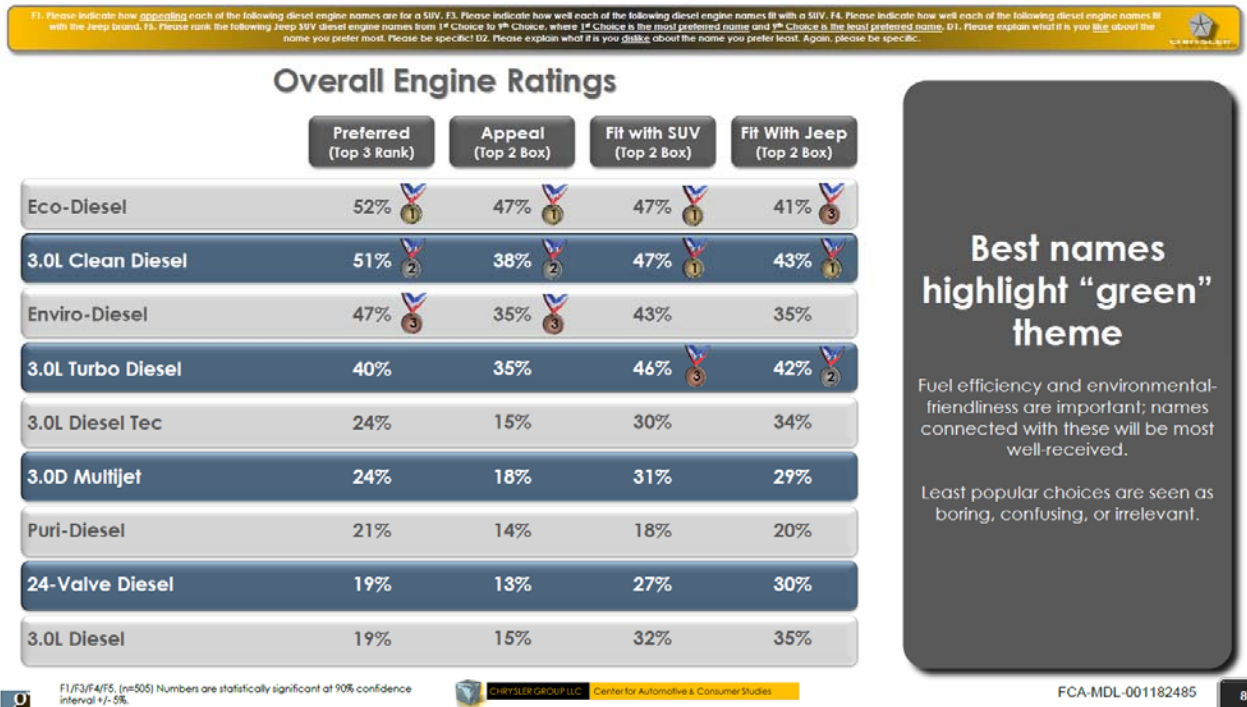

24 153. Similarly, a Ram 1500 “Targeted In-Dealership Training” guide notes that the two
25 “most common misconceptions about diesel engines” are that “Diesels are noisy” and “Diesels
26 are dirty.” FCA-MDL-000517194-203. As to the latter, the guide instructs dealers that the
27 “Diesel Exhaust Fluid (DEF) and Selective Catalyst Reduction lower the exhaust emissions of
28 diesel engines.” *Id.* It later explains that DEF “reduce[s] nitrous oxides coming out of the

1 tailpipe” and “helps to create *non-harmful* emissions.” *Id.* (emphasis in original). The guide
 2 then states that “[o]ur EcoDiesel runs extremely clean for a truck powerplant.” *Id.*

3 154. In a “news” document, again presumably targeting Ram and Jeep dealers, Fiat
 4 Chrysler explained that “[w]hen pitching the EcoDiesel, it may help you to keep in mind a few
 5 advantages to driving a diesel engine.” FCA-MDL-000518525. One advantage was that “Diesels
 6 Are Getting Greener.” *Id.* The document then explained that “[i]n the past, diesels were seen as
 7 polluters – a hindrance to environmentally conscious customers. Today’s diesels, however, run
 8 cleaner than they ever have before. For its part, the ecologically responsible EcoDiesel V6 is the
 9 cleanest light-duty engine available.” *Id.*

10 **B. The EcoDiesel Name and Badge Communicate Environmental Friendliness**
 11 **and Fuel Efficiency.**

12 155. Fiat Chrysler also understood that a key component of overcoming the diesel
 13 stigma, and of marketing the Class Vehicles’ purported environmental friendliness and fuel
 14 economy, was the naming and labeling of the diesel technology. As noted above, Fiat Chrysler
 15 conducted research in February 2012 to address this very issue. FCA-MDL-001182796-821.
 16 That research concluded that the “[b]est names [for Fiat Chrysler’s diesel engine] highlight
 17 ‘green’ theme.” *Id.* It further concluded that “[f]uel efficiency and environmental friendliness
 18 *are important; names connected with these will be most well-received.*” *Id.* (emphasis added).
 19 An excerpt from the research presentation is shown below.

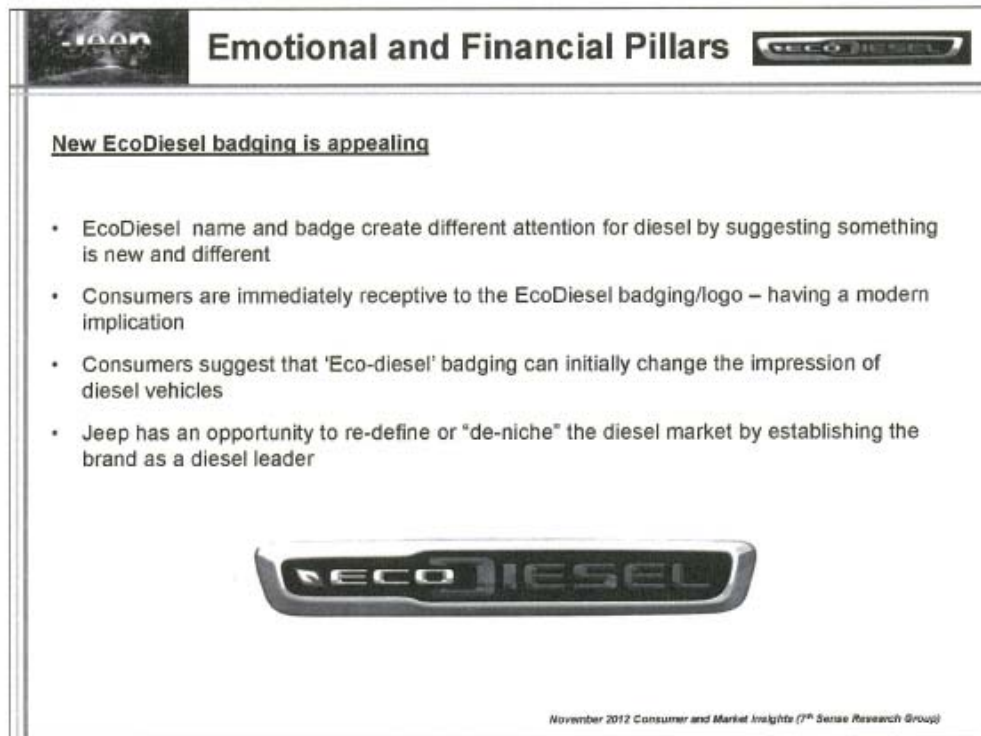

156. The highest-ranked name, in terms of both appeal and preference, was “Eco-Diesel.” The research explained that “‘Eco’ encompasses green, efficient, and economic . . . and is strongly associated with being environmentally friendly.” Similarly, the research concluded that the EcoDiesel “[n]ame [i]mplies a variety of positive meanings – green, efficient, economic, etc.” Unsurprisingly, the “imagery” most associated with the name “EcoDiesel” was “Environmentally-Friendly” and “Fuel Efficient.” *Id.*

157. Although other potential names (*e.g.*, “Clean Diesel” and “Enviro Diesel”) had slightly higher associations with environmental friendliness, “EcoDiesel” communicated the combination of “green” credentials and fuel economy the best. Fiat Chrysler had found its winner.

158. Fiat Chrysler adopted and trademarked the “EcoDiesel” name and used it in virtually every advertisement for the Class Vehicles. It also branded every single Class Vehicle with an EcoDiesel badge. The two versions of the badge, used on Jeep Grand Cherokees and Ram 1500s, respectively, are shown below:

159. This badging was *extremely important* to Fiat Chrysler. Jim Morrison, then the head of Jeep Brand Product marketing, gave a presentation some 20-30 times in which he explained that “consumers are immediately receptive to the EcoDiesel badging/logo” and “suggest that ‘Eco-diesel badging can initially change the impression of diesel vehicles.’” FCA-MDL-001166458-533; Morrison Dep. Tr. 131:5-6. As the notes below the slide confirm, “[c]onsumers further believe that *the word ‘Eco- Diesel’ can change the perception of a diesel engine to something denoting ecologically conscious and economical to own and operate.*” *Id.* (emphasis added). The full slide with notes is shown below:

Also resonating is the EcoDiesel name and badge.

Consumer research shows that it creates a different attention for diesels by suggesting that it's new and different ... a significant departure from the diesel engines they or their parents grew up with.

Consumers are receptive to the EcoDiesel logo. It looks modern and hints at the technological innovation inherent in this engine.

Consumers further believe that the word "Eco-Diesel" can change the perception of a diesel engine to something denoting ecologically conscious and economical to own and operate.

The research further indicates that the EcoDiesel name provides us with the opportunity to redefine the diesel market by establishing ourselves as a diesel leader.

160. Mr. Morrison also confirmed the meaning and importance of the EcoDiesel name and badge in a sworn declaration he submitted in connection with a trademark dispute. There, he declared that "Chrysler decided to combine the terms 'Eco,' 'Diesel,' and '3.0L' . . . to refer to the engine because the engine is an economical, fuel-efficient, more environmentally friendly 3.0 liter diesel engine." *Unitek Solvent Services, Inc. v. Chrysler Group, LLC*, No. 1:12-cv-00794, Dkt. 86-35 at ¶ 8 (June 4, 2013). He further explained that "Chrysler [also] based its decision to use the descriptive terms 'eco' and 'ecodiesel' on the fact that numerous third parties in a variety

of industries use the term ‘eco’ to describe ecologically or environmentally friendly products or services that have been developed to reduce carbon emission, energy consumption, or otherwise preserve the environment.” *Id.* at ¶ 10.

161. Many additional documents confirm that Fiat Chrysler intended the name “EcoDiesel” and the EcoDiesel badge to convey both environmental friendliness and fuel economy. A September 2013 press release, for example, included a heading entitled “**Putting the ‘Eco’ in EcoDiesel**” under which it claimed that “[t]he new EcoDiesel V6 achieves 50-state emissions compliance for both tier II and BIN 5.” FCA-MDL-000519022-24 (emphasis in original). In other words, the “Eco” in EcoDiesel means not just environmental friendliness, generally, but also emissions compliance, specifically.

162. A later Ram press release entitled “Ram has ‘turned up the ECO’ on fullsize truck MPGs . . . to 29” further demonstrates that the “Eco” in EcoDiesel also refers to fuel economy. FCA-MDL-001344885-86; FCA-MDL-001401873.

163. Again, the EcoDiesel badge was placed prominently on every single Class Vehicle, and the word “EcoDiesel” was used in virtually every consumer-facing communication. That word and badge represented to consumers that the Class Vehicles were environmentally friendly and fuel efficient. Both representations, it turns out, were based on a lie: the Class Vehicles were not, in fact, environmentally friendly, and could achieve their fuel economy only through concealed emissions apparatuses that caused the vehicles to pollute excessively in real-world driving conditions.

C. **FCA Misrepresents the Class Vehicles to Consumers in a Consistent and Pervasive Marketing Campaign.**

164. Fiat Chrysler’s misleading representations about the Class Vehicles—including their purported “green” credentials, superior fuel economy, and other performance characteristics—were not limited to EcoDiesel badge. Indeed, FCA engaged in a full court press to market the Class Vehicles, and to communicate to consumers the purported benefits of the EcoDiesel engine. These communication efforts included, among other things: (1) press releases aimed at generating positive news articles about the EcoDiesel attributes; (2) comprehensive

1 dealer training materials that taught dealers how to sell the Class Vehicles with false and
 2 misleading misrepresentations; (3) vehicle brochures disseminated at dealerships and elsewhere;
 3 (4) information and interactive features on FCA's websites and blogs; and (5) print and television
 4 marketing.

5 **1. Press Releases and Media Communications**

6 165. As early as 2013, FCA began issuing press releases that were sent directly to
 7 consumers and were also intended to generate consumer-facing articles and reviews about the
 8 EcoDiesel engine. There are many such examples. A representative sampling includes:

- 9 a. A January 2013 press release announcing a "new, clean, 3.0-liter EcoDiesel
 10 V-6 engine" in the Jeep Grand Cherokee. The release touts the "30 mpg
 11 highway with driving range of more than 730 miles," and the "class-
 12 leading 240 horsepower and massive 420lb.-ft of torque." Notably, it also
 states that the "Selective Catalytic Reduction (SCR) help[s] the new
 engine" be "clean" and "50-state legal." FCA-MDL-001134988-90.
- 13 b. An October 2013 press release notifying the media that the "[n]ew 2014
 14 Jeep Grand Cherokee EcoDiesel wins 'Green' category" of the 2014
 Active Lifestyle Vehicle Awards. The release claims the Jeep EcoDiesel
 15 includes "clean-diesel technology" and delivers "best-in-class fuel
 economy and driving range." FCA-MDL-000519206-07.
- 16 c. A February 2014 press release proclaiming that the "2014 Ram 1500
 17 EcoDiesel sets new fuel-economy benchmark of 28 MPG." The release
 repeatedly touts the EcoDiesel's fuel economy and claims that its SCR and
 18 EGR systems—both of which were compromised by the AECDs described
 herein—"contribute to 50-state compliance with Tier2/Bin 5 emissions
 regulations." FCA-MDL-001142520-21.
- 19 d. A November 2014 press release announcing that the "Ram 1500 EcoDiesel
 20 [was] named 2015 Green Truck of the Year by Green Car Journal." The
 release states that the "Ram 1500 delivers an outstanding combination of
 21 best-in-class fuel efficiency, unsurpassed torque and a surplus of towing
 capacity." It also quotes the editor of Green Car Journal who noted that
 22 "[t]he Ram 1500 EcoDiesel exemplifies what a 'green' truck should be."
 FCA-MDL-000519290-01.
- 23 e. A January 2015 press release announcing that the "Jeep Grand Cherokee
 24 EcoDiesel [was] named 2015 Green SUV of the Year by Green Car
 Journal." The release again boasts the EcoDiesel's "best-in-class" fuel
 25 economy, "untouched" range, "class-leading" horsepower, "massive"
 torque, and its "clean-diesel technology." FCA-MDL-001377187-88.
- 26 f. A November 2016 press release boasting "best-in-class fuel economy and
 27 longest range with exclusive EcoDiesel – 29 mpg and 754 miles with Ram
 1500." FCA-MDL-001185732-34.

166. Notably, Marchionne himself was asked to approve, and did approve, a draft press release from February 2013 announcing that “Ram [was the] first to build light-duty diesel pickup.” The release promoted an “outstanding combination of best-in-class fuel efficiency, best-in-class torque and impressive capability.” It also stated that the “EcoDiesel . . . emissions are 60 percent less than those produced by diesel powertrains 25 years ago.” FCA-MDL-001367858-59.

167. In some instances, these press releases were sent directly to consumers in “hand raiser” communications, as evidenced by a 2014 email to a prospective customer. That email “thanks [the prospective customer] for asking about the 2014 Ram 1500 EcoDiesel,”—which it says is “capable, efficient, and easy on the environment”—and links to a Ram “press release for more information.” FCA-MDL-001180641.

168. Even when not sent directly to consumers, all the press releases—and the consistent representations about environmental friendliness, fuel economy, and performance contained in them—were intended to, and did in fact, result in significant buzz and media attention for the EcoDiesel vehicles, to which Plaintiffs and the Class Members were exposed. The representations that resulted were false (because the vehicles contained concealed components that compromised the emissions control systems in real-world driving conditions) and deceptive (because the vehicles could not perform as represented without the concealed emission control components).

2. Dealer Training Materials

169. As noted above, FCA disseminated to its dealers comprehensive training materials to help them communicate the EcoDiesel attributes to consumers, and ultimately, to sell more Class Vehicles. Those materials consistently emphasized the (supposed) environmental friendliness, fuel efficiency, and power of the EcoDiesel engine, among other attributes.

170. Ram, for example, held a “targeted in-dealership training” through its dealer-focused “Chrysler Academy” and disseminated an accompanying “participant reference guide.” The document explains that the training is “focuse[d] on features of Ram 1500 and will help you sell down your 2014 model year vehicles while it also helps you prepare for the 2015s.” This training document includes an entire section on EcoDiesel, and as discussed above, it addresses

the “common misconception” that “[d]iesels are dirty” and instructs that “Diesel Exhaust Fluid (DEF) and Selective Catalyst Reduction lower the exhaust emissions of diesel engines.” Then, answering the question “How clean is the 3.0L EcoDiesel V6?” the guide explains that “[o]ur EcoDiesel runs extremely clean.” It also states that the engine “[c]omplies with all diesel-related emissions standards,” and notes that selling points of the diesel include its “Fuel efficiency,” “Power (Torque),” and “Quality, Reliability and Durability (QRD).” Finally, the guide includes an “in the media section” highlighting positive reviews and articles. FCA-MDL-000517194-245.

171. Jeep held a similar Chrysler Academy event for dealers and also disseminated an accompanying “product reference guide” with eight pages devoted exclusively to the EcoDiesel engine. FCA-MDL-000518573-620. As with the Ram guide, the Jeep guide addresses the dirty diesel stigma, and offers selling points to rebut it. The guide explains that the EcoDiesel engine exhibits “confident power, surprisingly clean operation” and claims that “it is going to convert a host of new customers to the impressive benefits of pulse-quicken acceleration and efficient and ecological clean diesel operation.” It highlights the “clean operation and effective emissions control,” specifically noting that the SCR and EGR systems combine to mitigate NOx and produce “clean diesel operation.” Finally, as shown below, it includes a “Key messages” section emphasizing the importance of fuel efficiency, “clean operation,” and “torque”:

<p>DIRTY POLLUTER? – EXACTLY THE OPPOSITE - CLEANER AND MORE ECOLOGICAL THAN GASOLINE ENGINES</p> <p>Today's clean diesel technology is:</p> <ul style="list-style-type: none"> • 30% more fuel efficient than its gasoline counterpart • Produces around 25% less carbon dioxide (CO2) • Generates over 96% fewer emissions than the diesel engines of 1990s
<p>Key messages</p>
<p>1. Today's diesel engines help conserve fossil fuel resources with a 30% reduction in fuel consumption versus a gasoline engine</p>
<p>2. Diesel engines offer clean operation with typically 25% less emissions than a gasoline engine</p>
<p>3. Diesel engines are fun to drive by offering 50% more torque than a comparable gasoline engine</p>
<p>The 3.0L EcoDiesel V6 provides all these benefits at superb levels compared to the other diesel engines available in the SUV segment!</p>

172. These themes are echoed almost verbatim in another, 13-page Chrysler Academy “Product Brief” focused exclusively on the EcoDiesel engine. FCA-MDL-001183753-65. As shown below, that product brief includes almost identical “key messages for your prospects,” and notes that the engine is “surprisingly responsible in view of ecological concerns.”

3.0L ECODIESEL V6 ENGINE
PRODUCT BRIEF

TODAY'S DIESEL TECHNOLOGY

Buyers can be resistant to consider a diesel purchase due to several perceptions that are no longer true with today's modern high-pressure, direct-injection diesel technology.

OLD THOUGHT	NEW REALITY
DIESELS HAVE POOR PERFORMANCE	Actually, today's diesels with modern technology produce high torque for their displacement size compared to gasoline engines. A general industry rule of thumb is that a diesel engine of the same size will generate 50% more torque over its gasoline-powered counterpart. And, since torque is what gets the vehicle moving, diesel vehicles offer outstanding acceleration. Diesel torque output is often especially impressive for the 50-70 mph bursts that many drivers use to pass or enter freeways.
DIESELS ARE TOO LOUD AND SMELLY	With common rail, high-pressure direct injection (both pioneered by FIAT Powertrain), diesel engines now “purr” similar to gasoline power plants. In fact, the finest high-end luxury vehicles offered internationally, as well as in North America, commonly include a diesel engine option and/or model. Regarding odor, modern diesel technology has minimized the once-noticeable odors generated.
DIESELS ARE FILTHY	While strict environmentalists are not happy with any internal combustion engine, diesel engines are surprisingly responsible in view of ecological concerns. The modern diesel is typically 30% more fuel efficient than its gasoline counterpart and produces around 25% less carbon dioxide (CO2). Prospects should know that today's clean diesel engine generates over 96% fewer emissions than the diesel engine of 1990. Studies show that a modern 2.0-liter diesel engine would have to idle for 100 minutes to produce same amount of fine particulates generated by one burning cigarette.

KEY MESSAGES FOR YOUR PROSPECTS

1. Today's diesel engines help conserve fossil fuel resources with a 30% reduction in fuel consumption versus a gasoline engine.
2. Diesel engines offer clean operation with typically 25% less emissions than a gasoline engine.
3. Diesel engines are fun to drive by offering 50% more torque than a comparable gasoline engine.

The 3.0L EcoDiesel V6 provides all these benefits at superb levels compared to the other diesel engines available in the SUV segment!

173. Yet another Chrysler Academy “Web Launch” training session explains that its purpose was “to help participants” better understand the vehicles and, critically, to “[u]nderstand elements for effective presentations to shoppers.” It includes similar language about fuel economy, power, and environmental friendliness. It also explains that “for buyers who respect the environment, they should know this is a very clean diesel . . . very green without question.” FCA-MDL-001183766-901.

174. These are but a few examples that highlight the comprehensive training that FCA provided for its dealers. The objective of these trainings was to arm the dealers with selling points that they could relay to consumers—and they did just that. For the Class Vehicles, the consistent selling point was the no-compromise combination of fuel efficiency, environmental friendliness, and power. This selling point was false (because the vehicles contained concealed components that compromised the emissions control systems in real-world driving conditions) and deceptive (because the vehicles could not perform as represented without the concealed emission control components).

3. Vehicle Brochures

175. FCA also communicated directly with consumers through its vehicle brochures, available both online and at the dealerships. These brochures are chock full of representations about the EcoDiesel engine’s fuel economy, environmental friendliness, and power.

176. The brochure for the 2014 Jeep Grand Cherokee, for example, devotes an entire page to the EcoDiesel engine. That page depicts the EcoDiesel badge and also an image of the engine with a green leaf on top. It states that the engine achieves “best-in class: 30 MPG fuel economy[,] 730-mile driving range[,] 420 lb-ft of torque[, and] 7400-lb maximum towing.” It further claims that “its reduced CO2 emissions display reverence for the environment” and even goes so far as to state that “[p]roudly, the *EcoDiesel meets and even exceeds the low emissions requirements in all 50 states.*” Excerpts from the two-page brochure spread are shown below:

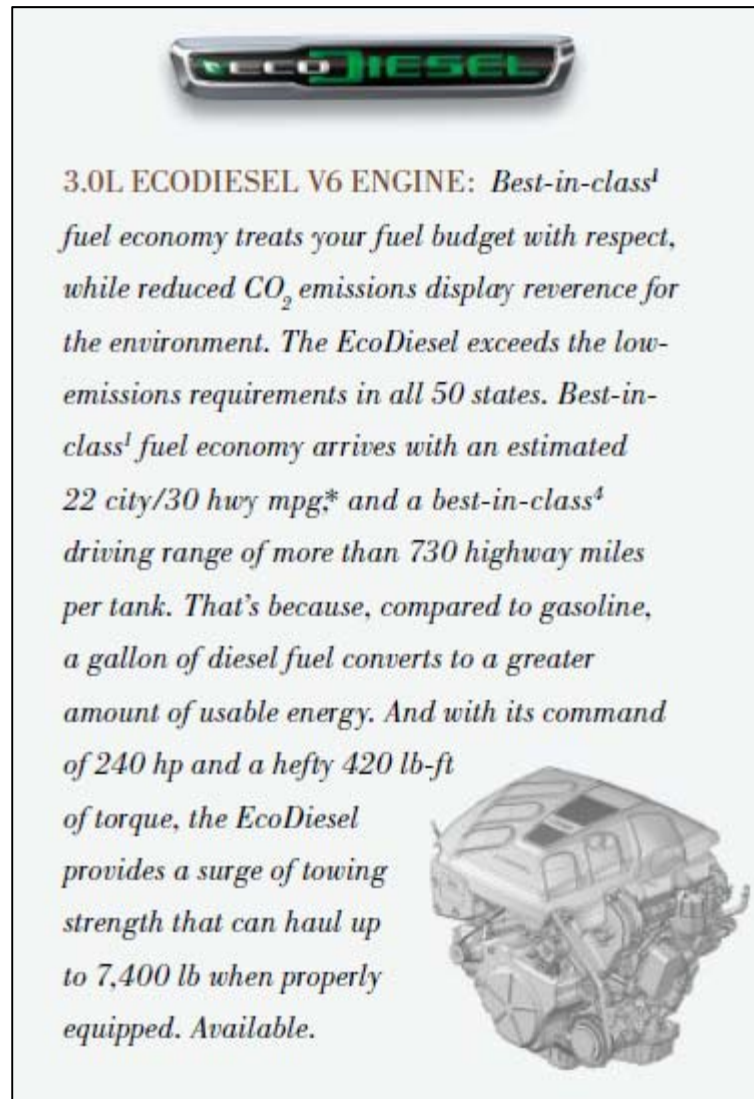

Thirty miles per gallon? True story. Grand Cherokee's new, available 3.0L EcoDiesel V6 engine delivers best-in-class economies[®] that treat your fuel budget with respect, while its reduced CO₂ emissions display reverence for the environment. Proudly, the EcoDiesel meets and even exceeds the low emissions requirements in all 50 states. Best-in-class fuel economy[®] arrives with an estimated 22 city/30 hwy mpg¹³, and a driving range of more than 730 highway miles per tank¹. That's because, compared to gasoline, a gallon of diesel fuel converts to a greater amount of useable energy. So you can leave Detroit, MI, with a full tank and arrive in New York City without ever stopping to refuel. And with its command of 240 hp and a hefty 420 lb-ft of torque, the EcoDiesel provides a surge of towing strength that can haul up to 7,400 lb when properly equipped. Stats so good, they're worth repeating every chance you get.

177. The 2015 brochure makes similar claims. It again features the EcoDiesel badge and environmental imagery. And it again boasts “best-in-class . . . 30 hwy mpg fuel economy”

and “a driving range of 730 highway miles.” It also states that the vehicles are “clean” and 50-state compliant, and even opens with this environmentally-focused introduction: “Love the planet along with great fuel economy? Then the Jeep Brand’s Diesel engine will ring true. It lets you adhere to your principles and get extra points for embracing innovative technology.”

178. The 2016 brochure also features the EcoDiesel badge, and touts best-in-class fuel economy, range, horsepower, and torque. And it too states that “[t]he EcoDiesel exceeds the low-emissions requirements in all 50-states”:

179. The Ram 1500 brochures make similar claims. Like the Jeep Brochures, the 2014 Ram 1500 brochure devotes an entire page to the EcoDiesel engine, depicts the EcoDiesel badge, and repeatedly touts the truck’s “best-in-class” fuel economy and “impressive” range. It also boasts that the truck is “clean by nature” with “minimal CO₂ levels” and a “[t]op-notch DEF system.”

180. The 2015 brochure also advertises “top-tier mpg ratings,” “superb driving range and best-in-class 28 mpg highway,” and claims the truck is “clean by nature” with “minimal CO₂ levels” and a “zero-hassle DEF system.”

181. The 2016 brochure again boasts “best-in-class 29 mpg highway fuel economy,” “up to 754-mile range,” “240 horsepower,” “420 lb-ft of torque,” “minimal CO₂ levels” and a “zero-hassle DEF system.”

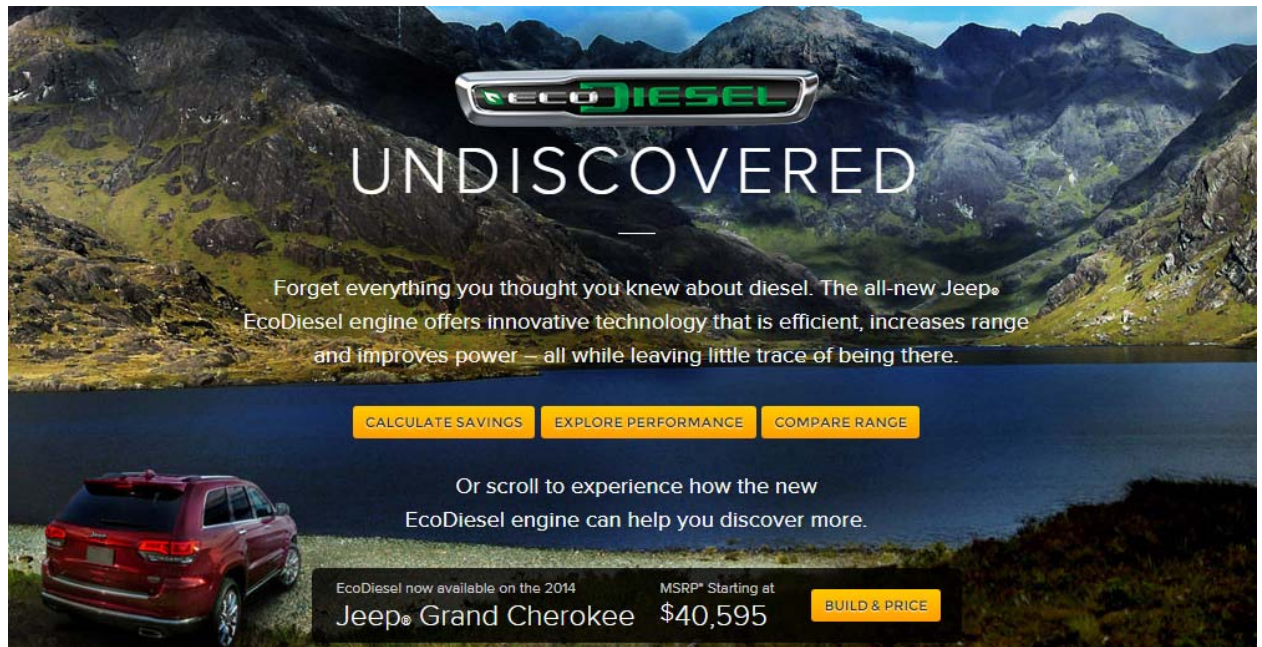

182. The brochures are tied together by common themes and sometimes identical language. The key representations made throughout were that the Class Vehicles delivered a no-compromise combination of fuel efficiency, environmental friendliness, and performance. Those representations were false (because the vehicles contained concealed components that compromised the emissions control systems in real-world driving conditions) and deceptive (because the vehicles could not perform as represented without the concealed emission control components).

4. FCA Websites

183. FCA hosted a number of blogs and websites that promoted the EcoDiesel technology, including the official Ram and Jeep websites, which many named Plaintiffs and Class Members visited before making their purchase/lease decisions. Both company sites reiterated FCA’s consistent messaging for the Class Vehicles—i.e., that they were clean, fuel efficient, and high performing.

184. A February 9, 2014, capture of the Jeep website, for example, includes a diesel tab, under which it displays the EcoDiesel badge and tells viewers to “[f]orget everything you thought you knew about diesel. The all-new jeep EcoDiesel engine offers innovative technology that is efficient, increases range, and improves power – all while leaving little trace of being there.”⁴³

⁴³ Available at: http://web.archive.org/web/20140209113901/http://m.jeep.com/en/jeep_capabilities/eco-diesel-calculator/#introduction (last visited April 19, 2018).

185. The Jeep website also includes separate pages featuring its supposed “Best-in-Class maximum towing capacity,” “incredible 730-mile highway driving range,” and “superior fuel economy.” As to fuel economy, the website also includes (and has included since at least 2014) a “savings calculator” that allows consumers to enter their miles driven per day and then calculates their annual fuel savings using “Clean Diesel.”⁴⁴

⁴⁴ Available at: https://m.jeep.com/en/jeep_capabilities/eco-diesel-calculator/#savings (last visited April 19, 2018).

SAVINGS
DISCOVERED

The efficient and durable 3.0L EcoDiesel V6 engine will help you save money at the pump and provides greater maintenance intervals for fewer tune-ups.
Did we mention low CO₂ emissions? Could this be the perfect engine?

Savings Calculator

Not only does the 3.0L EcoDiesel engine provide superior fuel economy*, but you'll also go farther between fill-ups. Enter your daily commute in the box below to discover how much time and money you could save* if you chose clean diesel fuel over regular gasoline.

Per Year

You drive approximately 14,600 miles a year. You need an engine that can keep up with your busy lifestyle. The 3.0L EcoDiesel V6 engine will take you farther, for less.

186. Ram's website made similar representations, touting the fuel economy,
horsepower, torque, and towing capacity of the EcoDiesel engine, and claiming that it was

1 “[e]quipped with a diesel oxidation catalyst, diesel particulate filter and selective catalyst
2 reduction so it is emissions-compliant in all 50-states.”⁴⁵

28 ⁴⁶ FCA-MDL-001184455-62; *EcoDiesel – Ram 1500 HFE*, Ram Trucks (FCA), available at <https://www.ramtrucks.com/en/ecodiesel/> (last accessed July 19, 2017).

188. FCA made many similar representations throughout the many websites it operated, including but not limited to the following:

- a. The EcoDiesel engine is designed for those “who want to drive an efficient, environmentally friendly truck without sacrificing capability or performance.”⁴⁷
- b. The Ram 1500 EcoDiesel is “the NAFTA market’s first and only light-duty pickup powered by *clean diesel* technology.”⁴⁸
- c. “Thanks to advanced emissions-control technology . . . [EcoDiesel’s] exhaust is ultra-clean, making this engine available in all 50 states.”
- d. “Equipped with a diesel oxidation catalyst, diesel particulate filter and selective catalyst reduction, the EcoDiesel® V6 engine will be emissions-compliant in all 50 states.”⁴⁹
- e. “Chrysler Group engineers adapted the engine—manufactured by Fiat-owned V.M. Motori—to meet the NAFTA region’s stringent emissions and on-board diagnostic regulations. The new EcoDiesel® V-6 is Tier 2/Bin 5 compliant.”⁵⁰
- f. The emissions on the EcoDiesel® engine data sheet meet Tier2 Bin5 requirements.⁵¹
- g. “[T]he Bosch emissions control system helps ensure that virtually no particulates and minimal oxides of nitrogen (NOx) exit the tailpipe.”⁵²

189. Many named Plaintiffs and Class Members visited FCA’s websites to learn about the Class Vehicles. On those websites, as in all the other ways FCA communicated to consumers, FCA’s message was clear and consistent: the EcoDiesel engine delivers a no-compromise package of fuel economy, range, performance, and environmental-friendliness. Those representations were false (because the vehicles contained concealed components that compromised the emissions control systems in real-world driving conditions) and deceptive

⁴⁷ *The 2014 Ram 1500 with EcoDiesel Engine, Available Soon at a Dealer Near You*, Ram Zone (Ram trucks blog operated by FCA US LLC) (July 16, 2013), <https://blog.ramtrucks.com/features/the-2014-ram-1500-with-ecodiesel-engine-available-soon-at-a-dealer-near-you/>.

⁵² *EcoDiesel: An Essential Tool for Every Outdoorsman*, *supra* note 39.

1 (because the vehicles could not perform as represented without the concealed emission control
2 components).

3 **5. Print Media and Television**

4 190. FCA reiterated its consistent representations—particularly the fuel economy
5 representations—through print media and television commercials.

6 191. The print ad campaign was robust. One FCA-produced document identifies over
7 250 Ram print ad buys in several dozen publications from June 2014 to October 2016. FCA-
8 MDL-000519349. Another document shows expenditures of almost \$300,000 to place Jeep
9 EcoDiesel print ads in a variety of magazines in June through August 2013. FCA-MDL-
10 001360559. Yet another document identifies additional ad buys for 14 newspapers across the
11 country. FCA-MDL-000519351. And Plaintiffs’ own investigation has revealed even more print
12 ad placements in additional publications.

13 192. Critically, virtually all of the print ads for the Class Vehicles contain the same or
14 similar relevant representations, including: (1) the word “EcoDiesel” and/or the EcoDiesel badge,
15 and (2) fuel economy claims such as specific MPG ratings, “most fuel efficient,” and “best-in-
16 class” fuel economy. Three illustrative examples, one for the Jeep Grand Cherokee Class
17 Vehicles and two for the Ram 1500 Class Vehicles, are shown below:

RAM

193. The television commercial campaign was also extensive, and also conveyed consistent messages. One FCA document shows 17,595 discrete commercial buys between January 2014 and September 2016, including during prominent and widely-viewed programing. FCA-MDL-000519350.

194. Some examples of the relevant commercials (a portion of which are not included in the chart described above) include:

- a. A commercial entitled “West” that prominently features the EcoDiesel badge, and promotes the Ram 1500 EcoDiesel’s “28 highway MPG” and “9,200 lbs towing.” FCA-MDL-000512961.
- b. A commercial entitled “Roar” that prominently features the EcoDiesel badge, and promotes the Ram 1500 EcoDiesel’s “28 highway MPG” and “420 lb-ft torque.” FCA-MDL-000512962.
- c. A commercial entitled “Runaway” that prominently features the EcoDiesel badge and promotes the Jeep Grand Cherokee EcoDiesel’s “best-in-class 30 MPG hwy” and “730-mile driving range.” FCA-MDL-000518756. Per the commercial buy document described above, this commercial ran approximately 1,000 times in January 2014.
- d. A commercial entitled “Take Every Mile” that features the EcoDiesel badge and promotes the Jeep Grand Cherokee EcoDiesel’s “730-mile driving range.” FCA-MDL-000518759. Per the commercial buy document described above, this commercial ran approximately 400 times in two weeks in February 2016.
- e. A commercial entitled “The Truth About Diesel” that “bust[s] some myths about diesel engines,” including that “all SUVs get bad gas mileage, diesel engines are dirty, and they run sluggish.” All three myths were “totally busted,” and the video specifically boasts the Jeep Grand Cherokee EcoDiesel’s “30 MPG and a 730-mile driving range.” It also depicts a man “check[ing] the data” on the emissions from the tailpipe and remarking “Wow, the greenhouse gas emissions are lower than a regular gasoline engine.” FCA-MDL-001418576.

195. Like the rest of Fiat Chrysler’s consumer communications, these commercials represented that the Class Vehicles were green (both through explicit representations and depictions of the EcoDiesel name and badge) and fuel efficient. These representations were pervasive and consistent. They were also false (because the vehicles contained concealed components that compromised the emissions control systems in real-world driving conditions) and deceptive (because the vehicles could not perform as represented without the concealed emission control components).

* * *

196. The Defendants saw the EcoDiesel technology as a huge opportunity to increase their sales and profits. They understood that to realize this goal, they would have to overcome the “dirty diesel” stigma, and convince consumers that the Class Vehicles offered a no-compromise

1 package of fuel efficiency, environmental friendliness, and power. Fiat Chrysler's efforts to
2 communicate this message to consumers were far reaching and consistent. They were also false
3 and deceptive.

4 197. Defendants had multiple opportunities, and obligations, throughout their marketing
5 communications to disclose the uniform truth about the Class Vehicles—namely, that all their
6 emissions, fuel economy, and performance claims were predicated on concealed emissions
7 control components and software that caused the Class Vehicles to pollute excessively in real-
8 world driving conditions. This uniform omission and unvarying concealment prevented any and
9 all consumers from making a purchase based on all material facts.

10 **D. The Defendants Knew These Representations Were False and Misleading.**

11 198. Unfortunately, the EcoDiesel technology did not work as represented. In
12 developing the Class Vehicles, the Defendants came to understand that they could not make the
13 vehicles environmentally friendly or “50-state compliant”—as they represented to consumers
14 through consistent and pervasive communications—and that the vehicles could not achieve the
15 fuel economy and performance that were central to Fiat Chrysler's marketing efforts without
16 installing components and software that de-activated or reduced the emission control system
17 during real-world driving conditions. The Defendants concealed this fact from the regulators and
18 consumers alike, and cheated Plaintiffs and Class Members of the vehicles they thought they were
19 buying.

20 199. The Defendants' scheme focused on at least two of the emissions control systems
21 in the Class Vehicles—both of which Fiat Chrysler pitched to consumers as enablers of the Class
22 Vehicles purported “clean” operation: (1) the Exhaust Gas Recirculation (“EGR”) system and (2)
23 the Selective Catalytic Reduction (“SCR”) system.

24 200. The EGR system reduces NOx in diesel emissions by lowering the temperature of
25 the exhaust gas exiting the engine. The SCR system takes the NOx leftover from the EGR
26 System and converts it into harmless nitrogen and water. Together, the EGR and SCR systems
27 are vital to mitigating the pollution from the Class Vehicles' diesel emissions.
28

201. As identified in the EPA's NOV, the Defendants installed a number of undisclosed auxiliary emission control devices ("AECDs") in the Class Vehicles that compromised the EGR and SCR systems and resulted in substantially increased NOx emissions during real-world driving conditions. As exemplified herein, the Defendants knew that these AECDs were not allowed, but that the Class Vehicles could not achieve the fuel economy or performance that the Defendants marketed without them.

1. EGR AECD Strategy: EGR Rate Reduction

202. Burning diesel fuel creates NOx. The amount of NOx produced by a diesel vehicle is a function of temperature: the hotter the exhaust gas is when it exits the engine, the more NOx it emits.

203. The EGR system minimizes NOx by lowering the temperature of the engine exhaust through a recirculation process. The higher the rate of exhaust gas recirculation (the EGR rate), the lower the exhaust gas temperature. The lower the exhaust temperature, the lower the NOx. But, critically, the higher the EGR rate in a vehicle, the worse fuel economy it achieves. Defendants employed the EGR AECDs in the Class Vehicles to either reduce the EGR rate or shut it off entirely, thereby artificially and secretly increasing the Class Vehicles' fuel economy and drivability at the expense of increased NOx.

204. One of the strategies Defendants used to reduce the EGR rate was through what the EPA has named AECD 5, which detects the engine temperature in the Class Vehicles and reduces the EGR rate during the vehicles' "warm-up phase" (the phase when the engine is heating up after a cold start). The EPA described AECD 5 as "EGR rate reduction based on engine temperature model." Defendants referred to it as "T_Eng" and various derivatives thereof (e.g., "t_engine" and "tEng").

205. VM Motori knew as early as 2010 that T_Eng was an AECD (FCA-MDL-000456083) that, if concealed, would be illegal. In April 2010, a Fiat Chrysler powertrain division employee attempted to assure VM Motori's Controls and Calibration Director, Sergio Pasini, that T_Eng did not employ "cycle detection" FCA-MDL-000452591. "Cycle detection" refers to any mechanism that allows a vehicle to detect when it is undergoing regulatory

emissions testing, and modify its emissions accordingly. But Pasini knew better. Just two months later, he told his VM Motori colleagues, “the [EGR] rate will be managed mainly on t_engine which is, no matter what FIAT says, a cycle detection.” *Id.* VM Motori regularly admitted that the T_Eng function employed “cycle detection” (12/2011 correspondence—FCA-MDL-000168161); “cycle recognition” (1/2012 correspondence—FCA-MDL-000377513; FCA-MDL-000377513_T001 (English translation)); and “cycle beating” (02/2013 correspondence—FCA-MDL-000430441-44; 06/2013—FCA-MDL-000295256). Pasini also understood that this AECD was not being disclosed to the EPA. FCA-MDL-000377499; FCA-MDL-000377499_T001-02 (English translation). In a May 2013 email, for example, Pasini told more than a dozen of his VM Motori colleagues that the T_Eng function was not active during emission testing and “has not been declared to regulators.” *Id.*

206. Fiat Chrysler also knew that T_Eng was an AECD, and critically, all the Defendants understood that it was necessary to achieve the desired fuel economy. In December 2011, VM Motori identified T_Eng as a “sort of ‘cycle detection’ to increase fuel economy (FCA-MDL-000168161) and said Fiat Chrysler gave them approval to use it (FCA-MDL-000377211). In January 2012, FCA Executive Bob Lee connected T_Eng to FCA’s objective of achieving greater fuel economy in a presentation entitled “Fuel Economy Status Target.” FCA-MDL-000000116. In February 2012, VM Motori directed Bosch to implement T_Eng, and told Bosch that VM Motori would explain to Fiat Chrysler that *T_Eng was “what you need if you want 30 mpg.”* FCA-MDL-000015652 (emphasis added). Fiat Chrysler later explored ideas to replace T_Eng with a different strategy, but it abandoned that process after *VM Motori informed FCA’s Diesel Calibration Manager that the “F[uel] E[conomy] impact [of replacing T_Eng] is probably around 2 mpg highway.”* FCA-MDL-000430044 (emphasis added). In an email sent the next day, VM Motori’s Emanuele Palma told colleagues that “*Chrysler knows tEng is the only way to get to 30 mpg, so don’t worry about this topic.*” *Id.* (emphasis added).

207. Like VM Motori and Fiat Chrysler, Bosch also knew that T_Eng was an AECD that likely qualified as an “defeat device” under applicable regulations. FCA-MDL-000015652. In February 2012, Bosch warned VM Motori that T_Eng is an emissions “defeat device” and that

1 they risked “serious penalties” if regulators found T_Eng to be cycle detection. *Id.* VM Motori
 2 refused to abandon T_Eng, however, and told Bosch “we are working closely with Chrysler [and]
 3 the feedback we’ve had so far about [using T_Eng] is positive.” *Id.* The same month, Bosch
 4 sought to limit its liability from VM Motori’s use of T_Eng, and even considered asking VM
 5 Motori to sign a risk release. RBL-MDL2777-PE-300402775-78. Yet, Bosch not only
 6 incorporated T_Eng into the emissions software for the Class Vehicles (FCA-MDL-000351953),
 7 Bosch appears to have gone so far as to have advised VM Motori not to disclose T_Eng to regulators,
 8 if it planned to use the function (*see, e.g.*, RBL-MDL2777-PE-300530521-23). Of course, this is
 9 exactly what they did.

10 208. On December 2, 2015, Morrie Lee of FCA Regulatory Affairs asked FCA Senior
 11 Manager Emanuele Palma “[w]hat compelling or driving reason does a[n] [automobile
 12 manufacturer] have to reduce EGR operation in the field?” FCA-MDL-000002857. Palma
 13 responded simply: “**Low EGR** → low soot, good drivability, **F[uel] E[conomy]**.” *Id.* (emphasis
 14 added). Two days later, Lee told the EPA that Fiat Chrysler’s failure to document T_Eng as an
 15 AECD was “an oversight of understanding.” FCA-MDL-000002011. The documents cited
 16 herein show otherwise.

17 2. SCR AECD Strategy: Dosing Disablement

18 209. The SCR system uses DEF—a solution of urea and water—to convert NOx into
 19 harmless nitrogen and water after it exits the EGR system and before it is emitted from the
 20 tailpipe. The part of the emissions system where this process occurs is called the SCR catalyst.
 21 In theory, the SCR system injects or “doses” measured quantities of DEF into the exhaust stream
 22 based on a software program that injects the right amount of DEF to neutralize the amount of
 23 NOx being emitted by the engine.

24 210. However, Defendants employed the SCR AECDs to either reduce the DEF dosing
 25 amount or shut it down entirely. With the DEF dosing reduced or disabled, the Class Vehicles
 26 emit more NOx.

27 211. Reduced DEF dosing was important to Defendants for at least two reasons. First,
 28 the more DEF the Class Vehicles consumed, the more frequently consumers would have to refill

1 the DEF tank—an inconvenience that would make the vehicles less marketable. Second, by the
 2 time the first Class Vehicles hit the market, the Defendants realized that the chemicals in the DEF
 3 were breaking down the materials in the SCR catalyst and causing these components to fail
 4 prematurely, which could be mitigated by reducing DEF dosing (at the expense of increased
 5 emissions).

6 212. The Defendants relied heavily on an alternative DEF dosing mode called “online
 7 dosing,” which limited the injection of DEF into the SCR catalyst, thereby compromising the
 8 SCR system. The EPA identified this alternative dosing functionality as AECD 7.⁵³ Bosch and
 9 VM Motori first discussed “online dosing” in March 2011. FCA-MDL-000281212-14. Both
 10 parties acknowledged that, if used, online dosing would have to be disclosed as an AECD. *Id.*
 11 (“online dosing . . . could also be used outside cert cycle [but] needs to be declared at CARB”).
 12 Yet, in November 2012, Bosch implemented a software change to prevent online dosing from
 13 activating during EGR diagnostic monitoring (RBL-MDL2777-PE-300068645-48), and in
 14 February 2013, Kasser Jaffri of FCA’s On Board Diagnostic group expressed concern to VM
 15 Motori that CARB might see online dosing as “cycle beating” (FCA-MDL-000430441). Jaffri
 16 concluded that, if applied, online dosing would have to be disclosed as an AECD. FCA-MDL-
 17 000478134 (“Chrysler will request an AECD for [online dosing]”). It did not do so.

18 213. VM Motori then told Fiat Chrysler in March 2013 that it was not going to use the
 19 online dosing strategy. FCA-MDL-000433186. They used it anyway. In September 2013, Jaffri
 20 reported to FCA Senior Manager Dan Hennessey, head of the On Board Diagnostic group, that
 21 online dosing was (1) active in the vehicles; (2) had not been disclosed to CARB or the EPA; and
 22 (3) “reduces the conversion efficiency effectiveness,” thereby resulting in increased NOx
 23 emissions. FCA-MDL-000740696. Understandably, Jaffri observed that this “continues to be an
 24 area of concern.” *Id.* He also told Hennessey that when online dosing was active, diagnostic
 25
 26

27 ⁵³ Defendants also employed related strategies to reduce DEF dosing, including tying the dosing
 28 to SCR adaptation (the process by which the SCR system modifies the dosing rate based on in-
 use monitoring) (FCA-MDL-000383765), and the load governor (the component that controls the
 flow of DEF into the SCR catalyst) (FCA-MDL-000750062).

1 monitoring meant to track the performance of the SCR system “cannot be run”, because, if active,
2 the diagnostic monitoring would reveal that the SCR system was not functioning. *Id.*

3 214. In September 2014, Fiat Chrysler senior management, including March Shost and
4 Dan Hennessey, received a presentation from Emanuele Palma entitled “WK/DS MY15 DEF
5 dosing strategy.” One slide in that presentation labeled “online dosing strategy” noted that Fiat
6 Chrysler’s competitors were using online dosing and that Fiat Chrysler could too—but, critically,
7 that the dosing strategy needed “to be agreed with the agencies.” FCA-MDL-000417114-25. No
8 such agreement was reached, because Fiat Chrysler never disclosed the functionality.

9 215. In July 2015, Fiat Chrysler acknowledged that tests conducted on the Model Year
10 2014 Class Vehicles showed that the vehicles were not meeting NOx emissions standards because
11 the SCR catalysts—which Bosch provided for the Class Vehicles (RBL-MDL2777-PE-
12 300160491-504)—were failing (FCA-MDL-000713128). In a presentation given that month
13 entitled “SCR Catalyst Responsibility Share,” Bosch noted in its “investigation history”
14 chronology that it began to investigate the SCR catalyst as the reason FCA development vehicles
15 were experiencing excess NOx emissions in February 2013. RBL-MDL2777-PE-300166279-
16 362. The investigation chronology further identified a “dosing calibration strategy change” to
17 reduce dosing rates. *Id.* Bosch admitted that VM Motori made the change on Bosch’s
18 recommendation. *Id.*

19 216. In sum, the Defendants all knew that the Class Vehicles contained undisclosed
20 apparatuses that reduced or disabled the emissions control systems in real-world driving
21 conditions, and they knew that without those undisclosed apparatuses, the Class Vehicles could
22 not deliver the fuel economy and performance that Fiat Chrysler promised. Defendants concealed
23 this fact from consumers and regulators and, in so doing, cheated Plaintiffs and Class Members of
24 the vehicles they thought they were buying.

25 **IV. “DIESELGATE” SCANDALIZES THE GLOBAL AUTO INDUSTRY.**

26 217. The world was shocked to learn that Volkswagen had manufactured over
27 11 million diesel cars that were on the roads in violation of European emission standards, and
28

1 over 565,000 vehicles operating in the United States in violation of EPA and state emission
2 standards. But Volkswagen was not the only one.

3 218. In the wake of the Volkswagen “defeat device” scandal,⁵⁴ scientific literature and
4 reports and testing indicate that many other so-called “clean diesel” vehicles emit far more
5 pollution on the road than in lab tests. The EPA has since widened its probe of diesel emissions
6 to include the Class Vehicles at issue here.

7 219. In May 2015, a study conducted on behalf of the Dutch Ministry of Infrastructure
8 and the Environment found that all sixteen (16) diesel vehicles made by different manufacturers,
9 when tested, emitted significantly more NOx on real-world trips but nevertheless passed
10 laboratory tests. The report concluded that “[i]n most circumstances arising in normal situations
11 on the road, the system scarcely succeeded in any effective reduction of NOx emissions.”⁵⁵

12 220. The report further remarked:⁵⁶

13 It is remarkable that the NOx emission under real-world conditions exceeds the
14 type approval value by [so much]. It demonstrates that the settings of the engine,
15 the EGR [(exhaust gas recirculation)] and the SCR during a real-world test trip are
16 such that they do not result in low NOx emissions in practice. In other words: ***In most circumstances arising in normal situations on the road, the systems scarcely succeed in any effective reduction of NOx emissions.***

17 The lack of any “effective reduction of NOx emissions” is devastating to “clean diesel”
18 advertising, including that for the Class Vehicles at issue here.

19 221. Other organizations are beginning to take notice of the emission deception. The
20 Transportation and Environment (“T&E”) organization, a European group aimed at promoting
21 sustainable transportation, compiled data from “respected testing authorities around Europe.”

23 ⁵⁴ The EPA’s Sept. 18, 2015 Notice of Violation to Volkswagen Group of America, Inc.,
24 available at <https://www.epa.gov/sites/production/files/2015-10/documents/vw-nov-caa-09-18-15.pdf>. As detailed therein, software detects when the vehicle is undergoing official emission
25 testing and turns full emission controls on only during the test. But otherwise, while the vehicle
26 is running, the emission controls are suppressed. This results in cars that meet emission standards
in the laboratory or at the state testing station, but during normal operation they emit NOx at up to
40 times the standard allowed under U.S. laws and regulations. Volkswagen has admitted to
installing a defeat device in its diesel vehicles.

27 ⁵⁵ *Detailed investigations and real-world emission performance of Euro 6 diesel passenger cars*,
28 TNO (May 18, 2015), <http://publications.tno.nl/publication/34616868/a1Ug1a/TNO-2015-R10702.pdf>.

⁵⁶ *Id.* at 6 (emphasis added).

T&E stated in September 2015 that real-world emission testing showed drastic differences from laboratory tests, such that models tested emitted more pollutants on the road than in the lab. “For virtually every new model that comes onto the market the gap between test and real-world performance leaps,” the report asserts.⁵⁷

222. In a summary report, T&E graphically depicted the widespread failure of most manufacturers to meet emission standards.⁵⁸

2. The problem is endemic across the car industry – but the performance of individual models and manufacturers varies widely

In tests by the ICCT¹ 12 out of 13 modern diesel cars failed to achieve the Euro 6 limit in on the road. The worst vehicle, an Audi, emitted 22 times the allowed limit. Emissions are highest in urban areas where most people are exposed to the pollution. On average a new diesel car emits **over 800mg/km** of nitrogen oxides driving in town compared to the limit of 80mg/km. Data obtained on around 20 modern diesel cars by T&E shows every major manufacturer is selling cars that fail to meet Euro 6 limits on the road. A minority of vehicles do meet the limits – but most don't. This is because the industry uses cheaper less effective exhaust treatment systems or fails to configure the best systems in a way that minimizes emissions. The cost of a modern diesel after treatment system is just €300.

Above and beyond the safe limit

Transport & Environment

⁵⁷ VW's cheating is just the tip of the iceberg, Transport & Environment (Sept. 21, 2015), <http://www.transportenvironment.org/publications/vw%E2%80%99s-cheating-just-tip-iceberg>.

⁵⁸ Five facts about diesel the car industry would rather not tell you, Transport & Environment (Sept. 2015), http://www.transportenvironment.org/sites/te/files/publications/2015_09_Five_facts_about_diesel_FINAL.pdf.

223. The T&E report found that the current system for testing cars in a laboratory produces “meaningless results,”⁵⁹ because manufacturers like Fiat Chrysler can engineer their cars to “pass” the laboratory tests but emit many times as much pollution under normal driving conditions.

224. Emissions Analytics is a U.K. company formed to “overcome the challenge of finding accurate fuel consumption and emission figures for road vehicles.” With regard to its recent on-road emission testing, the company explains:⁶⁰

[I]n the European market, we have found that real-world emissions of the regulated nitrogen oxides are four times above the official level, determined in the laboratory. Real-world emissions of carbon dioxide are almost one-third above that suggested by official figures. For car buyers, this means that fuel economy on average is one quarter worse than advertised. This matters, even if no illegal activity is found.

V. DEFENDANTS ARE CAUGHT CHEATING.

A. Plaintiffs’ Testing Reveals Cheating.

225. In late 2016, counsel for Plaintiffs tested the 2015 Ram 1500 pickup using a Portable Emissions Measurement System (“PEMS”). Testing revealed that Fiat Chrysler also cheated in that it had concealed the fact that the Ram 1500 spews more than the legal amount of emissions and fails to meet its own “no NOx” out-of-the-tailpipe promise.

226. The applicable standard both at the federal and state level is 50 mg/mile of NOx for “FTP Style” driving: *i.e.*, city driving. Testing was conducted with a PEMS unit to simulate driving conditions under both the FTP certification cycle and the highway certification cycle. The Ram 1500 emits an average of 159 mg/mile of NOx and a maximum of 1,283 mg/mile on flat roads, and 222 mg/mile of NOx with a maximum of 1,859 mg/mile on hills. For highway driving, the average was 232 mg/mile and a maximum of 1,615 mg/mile, compared to the 70 mg/mile standard. On hills, the numbers are 353 mg/mile and 3,240 mg/mile. Testing also revealed a device triggered by ambient temperature that significantly derates the performance of the NOx emission reduction system, with ambient threshold temperatures above approximately

⁵⁹ *Id.*

⁶⁰ Emissions Analytics Press Release, (Sept. 28, 2015), available at <http://www.abvwc.com/home/emissions-analytics> (last accessed July 19, 2017).

1 95°F and below 40-50°F. The resulting NOx emissions increase by a factor of 10 when above or
2 below these threshold temperatures. Testing also revealed the presence of a device that is
3 triggered when ascending hills, as the emission control system appears to be significantly derated
4 after a short period of steady driving on hills. As a result, NOx emissions increase after about
5 500-1000 seconds on hills with grades as low as 1%, where emissions are often 10 times the
6 highway standard. For grades as little as 0.4%, emissions were found to be as high as 6 times the
7 highway standard.

8 227. The Ram 1500's emission software is a "Bosch EDC17," as is the Jeep Grand
9 Cherokee's emission software. The same basic emission system is in the Grand Cherokee
10 EcoDiesel® and the engines are identical.

11 228. In separate testing by counsel for Plaintiffs, a 2014 Ram 1500 equipped with an
12 EcoDiesel® engine and featuring SCR NOx after-treatment technology was tested on a chassis
13 dynamometer as well as on the road. In both scenarios, gaseous exhaust emissions, including
14 oxides of nitrogen (NOx), nitrogen oxide (NO), carbon monoxide (CO), carbon dioxide (CO2),
15 and total hydrocarbons (THC) were measured on a continuous basis using a PEMS from
16 Horiba®.

17 229. The tests showed significantly increased NOx emissions during on-road testing as
18 opposed to testing on a chassis dynamometer (*i.e.*, in the laboratory). On the road, over an
19 urban/suburban route, the vehicle produced average NOx emissions that exceeded federal
20 certification standards by approximately 15-19 times. When tested on a highway, the average
21 NOx emissions measured **35 times** the EPA Tier 2 Bin 5 standard.

22 **B. The EPA Issues A Notice of Violation to Fiat and FCA.**

23 230. On January 12, 2017, the EPA issued a NOV to Fiat and FCA for failing to justify
24 or disclose defeat devices in model year 2014–2016 Ram 1500 EcoDiesel® and 2014–2016 Jeep
25 Grand Cherokee EcoDiesel® vehicles (the Class Vehicles at issue here). CARB also issued a
26 Notice of Violation to Fiat and FCA. Since then, the EPA, by and through the Department of
27 Justice, has sued Fiat, FCA, VM Italy, and VM America for violations of the CAA.
28

231. The EPA's NOV and lawsuit arose in part from emission testing performed by the EPA at the National Vehicle and Fuel Emissions Laboratory. The EPA performed this testing "using driving cycles and conditions that may reasonably be expected to be encountered in normal operation and use, for the purposes of investigating a potential defeat device."

232. The EPA identified at least eight AECDs in the Class Vehicles that were concealed on COC applications:

- AECD 1 (Full EGR Shut-Off at Highway Speed)
- AECD 2 (Reduced EGR with Increasing Vehicle Speed)
- AECD 3 (EGR Shut-off for Exhaust Valve Cleaning)
- AECD 4 (DEF Dosing Disablement during SCR Adaptation)
- AECD 5 (EGR Reduction due to Modeled Engine Temperature)
- AECD 6 (SCR Catalyst Warm-Up Disablement)
- AECD 7 (Alternative SCR Dosing Modes)
- AECD 8 (Use of Load Governor to Delay Ammonia Refill of SCR Catalyst)

233. The EPA testing found that "some of these AECDs appear to cause the vehicle to perform differently when the vehicle is being tested for compliance with the EPA emission standards using the Federal emission test procedure (e.g., FTP, US06) than in normal operation and use." For example:

- a. AECD 3, when combined with either AECD 7 or AECD 8, disables the EGR system without increasing the effectiveness of SCR system. Under some normal driving conditions, this disabling reduces the effectiveness of the overall emission control system. The AECD 3 uses a timer to shut off the EGR, which does not appear to the EPA to meet any exceptions to the regulatory definition of "defeat device."
- b. AECD 5 & 6 together reduce the effectiveness of the NO_x emission control system, using a timer to discontinue warming of the SCR after-treatment system, which reduces its effectiveness.
- c. AECD 4, particularly when combined with AECD 8, increases emissions of tailpipe NO_x during normal vehicle operation and use. The operation of AECD 1, AECD 2, and/or AECD 5 increase the frequency of occurrence of AECD 4.
- d. AECDs 7 & 8 work together to reduce NO_x emissions during variable-grade and high-load conditions.

234. The EPA further found that Fiat and FCA did not disclose or justify these control devices in their COC applications, as required by EPA regulations, and that Fiat and FCA were therefore in violation of the CAA each time they sold, offered for sale, introduced in commerce, or imported one of the approximately 103,828 Class Vehicles. The EPA is now seeking injunctive relief and penalties.

C. Bosch Software Documentation Further Verifies the Violations

235. Researchers have obtained Bosch software documentation describing the functions, modules, structure, variables and calibration parameters believed to be installed in Class Vehicles. The documentation is over 10,000 pages long and contains hundreds of functions and thousands of variables developed by Bosch that describe the operation of the engine. These parameters and functions correlate with many of the violations alleged by the EPA and CARB. Critically, these functions, designed and implemented by Bosch, have elements that have no legitimate purpose in normal use. At the same time, these same elements, when enabled, allow the functions to reduce the effectiveness of emission controls in real world driving conditions, but not during an emission test cycle.

1. AECDs 1 and 2: Reducing or Disabling EGR at Highway Speeds

236. The function named “*AirCtl_RatDesValCalc*” described in the Bosch documentation as “*Exhaust gas recirculation control - EGR ratio setpoint calculation*” is used to calculate the desired EGR rate. The software documentation contains figures with flow diagrams describing the inputs, outputs, and calculation performed by this software function. Bosch has included vehicle speed as an input used by the EGR control function to modify the EGR rate (and, thus, NOx emission). Vehicle speed is notable because there is no legitimate reason for the EGR rate to depend directly on vehicle speed.

237. By allowing EGR rate to depend directly on vehicle speed, Bosch provided a means by which Fiat and FCA could reduce the effectiveness of the emission control system under conditions which may reasonably be expected to be encountered in normal vehicle operation and use. This function may be, and is likely to have been, used to implement the undisclosed AECDs 1 and 2 identified in the EPA NOV to Fiat and FCA.

1 **2. AECD 3: EGR Shut-Off for Exhaust Valve Cleaning**

2 238. AECD 3 identified in the EPA NOV has also been identified in Bosch's software
3 documentation in the function named "*AirCtl_Mon*" described in the Bosch documentation as
4 "*Exhaust gas recirculation control – Monitoring and shut-off.*" Bosch described this AECD as
5 ostensibly providing a cleaning mechanism for the engine exhaust valves when the Class Vehicle
6 is in overrun (*i.e.*, the engine is turning without combustion, such as when the vehicle is going
7 downhill). To accomplish this cleaning, the function created by Bosch closes the EGR valve
8 (turning off EGR), so a "huge gush of clean air" can remove deposits. However, Bosch also
9 programmed a software switch (named "*AirCtl_swtOvrRunOff_C*") that allowed Fiat and FCA to
10 enable exhaust valve cleaning in normal (non-overrun) operation, effectively disabling EGR.

11 239. Together with an activation delay added by Bosch—controlled by
12 *AirCtl_tiEngRunDrvCycMin_C*, which is described as "*Calibration time after which exhaust*
13 *valve cleaning routine can start*"—the *AirCrl_Mon* function can be readily used as a defeat
14 device. To do so, Bosch would calibrate the ECU to enable valve cleaning in outside of overrun
15 (*AirCtl_swtOvrRunOff_C* = TRUE), but only after the duration of a typical emission test cycle
16 (*AirCtl_tiEngRunDrvCycMin_C* = 1800 seconds). This would disable EGR after an emission test
17 cycle, resulting in increased NOx emission. This function may be, and is likely to have been,
18 used to implement undisclosed AECD 3 identified in in the EPA and CARB NOVs.

19 **3. AECD 7: Alternative SCR Dosing Modes**

20 240. Bosch included a timer in another function, without a legitimate purpose. The
21 Bosch function named "*SCRFFC_Main*," described in documentation as "*Calculation of the NH3*
22 *precontrol quantity*" has an input variable timer entitled "*CoEng_tiNormal*," which holds the
23 time duration since the engine was started. This variable can be used to reduce SCR efficiency,
24 and, therefore, increase NOx emission, after a certain time has elapsed. In particular, this timer
25 may be set to the duration of a typical emission test cycle. There is no legitimate reason for SCR
26 control to depend directly on the time duration since engine start. By making SCR control
27 depend directly on time duration since engine start, however, Bosch has provided a means by
28 which Fiat and FCA could reduce the effectiveness of the emission control system in real world

1 driving conditions. This function may be, and is likely to have been, used to implement
2 undisclosed AECD 7 identified in the EPA and CARB NOVs.

3 **D. West Virginia University Testing of the Class Vehicles**

4 241. Beginning in 2015, researchers at the West Virginia University Center for
5 Alternative Fuels, Engines, and Emissions—the same researchers instrumental in uncovering
6 Volkswagen’s fraud—tested 5 model year 2014 and 2015 vehicles produced by FCA. The test
7 vehicles comprised the Class Vehicles at issue here: Jeep Grand Cherokees and Ram 1500 diesel
8 vehicles, all equipped with the 3.0L EcoDiesel® engine, and featuring SCR NOx after-treatment
9 technology.⁶¹

10 242. All test vehicles were evaluated on a vehicle chassis dynamometer representing the
11 test conditions for regulatory compliance. Each vehicle was also tested over-the-road using a
12 PEMS device during a variety of driving conditions including urban/suburban and highway
13 driving.

14 243. One of the Jeep Grand Cherokees and one of the Ram 1500 vehicles was tested
15 prior to, as well as after, a mandatory vehicle recall in April 2016 – the “R69 recall” – which
16 included a software “reflash” by FCA that concerned the vehicles’ emission control systems.

17 244. Results indicated that both Jeep Grand Cherokee and Ram 1500 in MY 2014
18 exhibited significantly increased NOx emissions during on-road operation as compared to the
19 results observed through testing on the chassis dynamometer. For MY 2015, Jeep vehicles
20 produced from 4 to 8 times more NOx emissions during urban/rural on-road operation than the
21 certification standard, while Ram 1500 vehicles emitted approximately 25 times the NOx
22 permitted by EPA Tier2-Bin5 standard for highway driving conditions.

23 245. The researchers noted that for the vehicles tested post-recall using the
24 dynamometer, NOx emissions were similar or slightly lower than that observed for vehicles tested
25 pre-recall. But on-road emissions were still very different from emissions observed through

28 *Testing of Light-Duty Diesel Passenger Cars*, Center for Alternative Fuels, Engines, and
Emissions, West Virginia University, available at <http://www.cafee.wvu.edu/files/d/c586c1dd-b361-410d-a88d-d34e8834eda6/testing-of-light-duty-diesel-passenger-cars.pdf> (last accessed July 19, 2017). . .

1 chassis dynamometer testing, even though they were slightly improved from the levels observed
2 during pre-recall testing.

3 **E. European Investigation and Testing**

4 246. Fiat Chrysler and Bosch have both found themselves in trouble with German
5 regulators in the wake of the Volkswagen scandal.

6 247. German prosecutors have launched an investigation into Bosch, reportedly raiding
7 Bosch's offices in Stuttgart.⁶² In April 2016, Bosch GmbH representatives met with Germany's
8 Federal Motor Transport Authority ("KBA") on at least two occasions. In an April 14, 2016
9 meeting, Bosch admitted there were a number of anomalies in the calibration of its engine control
10 units provided to Fiat Chrysler for diesel vehicles sold in Europe. Bosch confirmed that it had
11 delivered the control units for the vehicles as well as the associated software and that Bosch
12 employees had integrated the emission-related applications into the software. Bosch admitted
13 that the software reduced the EGR rate and the regeneration of NSC (NOx storage catalyst) after
14 an elapsed period of driving time or number of cycles. Specifically, 22 minutes after the start of
15 the engine (the estimated duration of emission testing), the software reduced the EGR rate to
16 nearly zero and de-activated NSC regeneration. Another trigger for de-activation of the NSC
17 regeneration occurred after the vehicle had been driven a distance of 100 kilometers. Bosch
18 confirmed that the NOx emissions for the vehicles exceeded the legal limits by a factor of 4-5.
19 The KBA's takeaway from its meetings with Bosch was there is a defeat device in the vehicles
20 and Bosch shared responsibility for the defeat device with Fiat Chrysler. Media reports have
21 confirmed the same.⁶³

22
23
24 ⁶² See Edward Taylor, *Stuttgart prosecutor targets Bosch in Daimler diesel investigation*,
25 Reuters (May 26, 2017), <http://www.reuters.com/article/us-daimler-emissions-bosch-idUSKBN18M172>.

26 ⁶³ Media reports similarly said that Bosch had confirmed to German regulators that certain Fiat
27 vehicles were cheating on emission testing. See, e.g., *Sueddeutsche Zeitung*, Apr. 22, 2016, "Fiat
28 Is Next to be Accused"; *Test of Fiat diesel model shows irregular emissions: Bild am Sonntag*,
Reuters (Apr. 24, 2016), <http://www.reuters.com/article/us-fiat-emissions-germany-idUSKCN0XL0MT>; David Tracy, *Here's How Fiat Might also be Cheating on Emissions Tests: Report*, Jalopnik (Apr. 25, 2016), <http://jalopnik.com/heres-how-fiat-might-also-be-cheating-on-emissions-test-1772948181>.

248. After the meeting with Bosch, the KBA performed testing on the Fiat diesel vehicles and confirmed that the emission controls were disabled after 22 minutes of driving time, causing the vehicles to emit more than 10 times the legal limit of NOx. The KBA concluded that the vehicles were designed to cheat on emission tests, which normally run for about 20 minutes.⁶⁴ As a result, the KBA's transport minister announced: "We will need to carry out further tests on Fiat models."⁶⁵ In August 2016, the German government formally concluded that Fiat vehicles sold in the EU had used defeat devices.

249. More recently, 17-page long-form article published by the German weekly investigative news magazine *Der Spiegel*, on April 20, 2018, details the central role Bosch played in the "diesel scandal." The article reports that prosecutors in Germany are investigating Bosch for providing and programming illegal software for use in Fiat vehicles, among many others.⁶⁶

F. Joint University of California, San Diego and German Study of the Fiat 500X

250. The testing of European regulators has been confirmed by independent testing conducted here in the United States. A recent peer-reviewed study by researchers at the University of California, San Diego and Ruhr-Universität Bochum in Germany analyzed firmware in the EDC Unit 17 of the Fiat 500X and found a defeat device affecting the logic governing NOx storage catalyst regeneration.⁶⁷ Unlike the Volkswagen defeat device, the researchers found that the mechanism in the Fiat 500X relied on timing, reducing the frequency of NSC approximately 26 minutes and 40 seconds after the engine was started. (By reducing the frequency of NOx storage catalyst regeneration, a manufacturer can improve fuel economy and increase the service life of the diesel particulate filter, at the cost of increased NOx emissions.)

251. According to the study, the conditions used to determine when to regenerate the NSC were duplicated, and each set of conditions could start a regeneration cycle. The researchers

⁶⁴ *Test of Fiat diesel model shows irregular emissions: Bild am Sonntag*, *supra* note 61.

⁶⁵ *Here's How Fiat Might also be Cheating on Emissions Tests: Report*, *supra* note 61.

⁶⁶ Frank Dohmen, et al., *A Sinister Alliance: The automobile supplier Bosch is on its way to taking center stage in the Diesel scandal*, *Der Spiegel*, Issue 17 (April 20, 2018), https://magazin.spiegel.de/SP/2018/17/156941296/index.html?utm_source=spon&utm_campaign=vorab (paywall, German language).

⁶⁷ Moritz Contag, et al., *How They Did It: An Analysis of Emission Defeat Devices in Modern Automobiles*, *supra* note 15.

1 obtained Bosch copy-righted documentation for a Fiat vehicle, which described two sets of
 2 conditions using the terms “during homologation cycle” and “during real driving.” The term
 3 “homologation” is commonly used in Europe to describe the process of testing an automobile for
 4 regulatory conformance. Bosch’s authorship of the document and use of the terms
 5 “homologation [testing]” and “real driving” to describe the regeneration conditions demonstrate
 6 that it not only created the mechanism for Fiat Chrysler but was also aware of the mechanism’s
 7 intended purpose of circumventing emission testing.

8 252. Together, these facts reveal that Defendants have fraudulently concealed the
 9 functions of its emission control technology from regulators and consumers alike. Further, they
 10 demonstrate that Fiat Chrysler’s claims about its EcoDiesel® Class Vehicles as “clean diesel”
 11 with “ultralow emissions” and “no NOx” emitted through the tailpipe is false or misleading.

12 **VI. THE DAMAGE CAUSED BY DEFENDANTS’ DIRTY DIESEL SCHEME**

13 253. Class members paid a significant premium for the EcoDiesel features that FCA
 14 falsely advertised. Indeed, consumers paid between \$3,120 and \$5,000 more for the EcoDiesel
 15 option than for the comparable gasoline vehicles.⁶⁸ In return, FCA promised power, performance,
 16 fuel economy, and environmental friendliness (and vehicles that were legal to drive). FCA could
 17 not deliver on that promise. Plaintiffs and Class members suffered significant harm as a result.

18 254. FCA may not be able to bring the Class Vehicles into compliance with emissions
 19 standards. If that is the case, those vehicles will have to be removed from the road.

20 255. But even if FCA can bring the Class Vehicles into compliance with emission
 21 standards, it will not be able to do so without substantially degrading their performance
 22 characteristics, including their horsepower and/or fuel efficiency and/or maintenance
 23 requirements. Consequently, Class members will not possess the vehicles they thought they
 24 purchased and will not have received the benefit of the bargain. This will also result in a
 25

26 ⁶⁸ John Lamm, *2014 Jeep Grand Cherokee EcoDiesel® V-6, First Drive Review*, Car and Driver
 27 (February 2013), [http://www.caranddriver.com/reviews/2014-jeep-grand-cherokee-ecodiesel-v-6-](http://www.caranddriver.com/reviews/2014-jeep-grand-cherokee-ecodiesel-v-6-first-drive-review)
 28 [first-drive-review](http://www.caranddriver.com/reviews/2014-jeep-grand-cherokee-ecodiesel-v-6-first-drive-review); Andrew Wendler, *2015 Ram 1500 EcoDiesel® 4x4, Instrumented Test*, Car
 and Driver (August 2015), [http://www.caranddriver.com/reviews/2015-ram-1500-4x4-ecodiesel-](http://www.caranddriver.com/reviews/2015-ram-1500-4x4-ecodiesel-4x4-test-review)
[4x4-test-review](http://www.caranddriver.com/reviews/2015-ram-1500-4x4-ecodiesel-4x4-test-review).

1 diminution in value of every Class Vehicle, and it will cause owners and lessees of Class Vehicles
2 to pay more for the use of their Class Vehicles.

3 256. Assuming, for the sake of argument, that the Class Vehicles could be brought into
4 compliance with emission standards without any material degradation to performance or
5 maintenance characteristics—and if that were the case, it begs the question as to why FCA
6 cheated in the first place—Class members would still have been deprived of the benefit of the
7 bargain for all the years they owned and/or leased the Class Vehicles that could not and did not
8 deliver all of the characteristics for which Class members paid a premium, and were not
9 compliant with U.S. law.

10 257. In sum, had regulators or the public known the true facts, Plaintiffs and the Class
11 would not have purchased or leased the Class Vehicles (in fact, they could not have legally been
12 sold), or would have paid substantially less for them.

13 **CLASS ACTION ALLEGATIONS**

14 **I. CLASS DEFINITIONS**

15 258. Pursuant to the provisions of Rules 23(a), (b)(2), and (b)(3) of the Federal Rules of
16 Civil Procedure, Plaintiffs bring this action on behalf of themselves and Nationwide Class and
17 Statewide Classes (collectively, “the Class”), defined as:

18 **Nationwide Class:**

19 All persons or entities in the United States (including its territories and the District
20 of Columbia) that purchased or leased a Class Vehicle. Class Vehicles include all
21 FCA EcoDiesel® vehicles equipped with SCR to control NOx emissions,
including but not limited to the Model Year 2014-2016 Ram 1500 and the Model
Year 2014-2016 Jeep Grand Cherokee.

22 259. The phrase, “persons or entities,” as used in this Complaint and the Nationwide
23 and State Class definitions, includes, but is not limited to, independent (non-FCA franchise)
24 automobile dealers in the United States (including its territories and the District of Columbia)
25 with one or more previously-owned Class Vehicles in their inventory on or after January 12,
26 2017.

27 260. In addition to the Nationwide Class, and pursuant to Federal Rules of Civil
28 Procedure Rule 23(c)(5), Plaintiffs seek to represent the following State Classes or subclasses as

1 well as any subclasses or issue classes as Plaintiffs may propose and/or the Court may designate
2 at the time of class certification:

3 **Alabama State Class:**

4 All persons or entities that purchased or leased a Class Vehicle within Alabama or
5 that purchased or leased a Class Vehicle and reside in Alabama.

6 **Alaska State Class:**

7 All persons or entities that purchased or leased a Class Vehicle within Alaska or
8 that purchased or leased a Class Vehicle and reside in Alaska.

9 **Arizona State Class:**

10 All persons or entities that purchased or leased a Class Vehicle within Arizona or
11 that purchased or leased a Class Vehicle and reside in Arizona.

12 **Arkansas State Class:**

13 All persons or entities that purchased or leased a Class Vehicle within Arkansas or
14 that purchased or leased a Class Vehicle and reside in Arkansas.

15 **California State Class:**

16 All persons or entities that purchased or leased a Class Vehicle within California
17 or that purchased or leased a Class Vehicle and reside in California.

18 **Colorado State Class:**

19 All persons or entities that purchased or leased a Class Vehicle within Colorado or
20 that purchased or leased a Class Vehicle and reside in Colorado.

21 **Connecticut State Class:**

22 All persons or entities that purchased or leased a Class Vehicle within Connecticut
23 or that purchased or leased a Class Vehicle and reside in Connecticut.

24 **Delaware State Class:**

25 All persons or entities that purchased or leased a Class Vehicle within Delaware or
26 that purchased or leased a Class Vehicle and reside in Delaware.

27 **District of Columbia Class:**

28 All persons or entities that purchased or leased a Class Vehicle within the District
of Columbia or that purchased or leased a Class Vehicle and reside in the District
of Columbia.

Florida State Class:

All persons or entities that purchased or leased a Class Vehicle within Florida or
that purchased or leased a Class Vehicle and reside in Florida.

Georgia State Class:

All persons or entities that purchased or leased a Class Vehicle within Georgia or that purchased or leased a Class Vehicle and reside in Georgia.

Hawaii State Class:

All persons or entities that purchased or leased a Class Vehicle within Hawaii or that purchased or leased a Class Vehicle and reside in Hawaii.

Idaho State Class:

All persons or entities that purchased or leased a Class Vehicle within Idaho or that purchased or leased a Class Vehicle and reside in Idaho.

Illinois State Class:

All persons or entities that purchased or leased a Class Vehicle within Illinois or that purchased or leased a Class Vehicle and reside in Illinois.

Indiana State Class:

All persons or entities that purchased or leased a Class Vehicle within Indiana or that purchased or leased a Class Vehicle and reside in Indiana.

Iowa State Class:

All persons or entities that purchased or leased a Class Vehicle within Iowa or that purchased or leased a Class Vehicle and reside in Iowa.

Kansas State Class:

All persons or entities that purchased or leased a Class Vehicle within Kansas or that purchased or leased a Class Vehicle and reside in Kansas.

Louisiana State Class:

All persons or entities that purchased or leased a Class Vehicle within Louisiana or that purchased or leased a Class Vehicle and reside in Louisiana.

Maine State Class:

All persons or entities that purchased or leased a Class Vehicle within Maine or that purchased or leased a Class Vehicle and reside in Maine.

Maryland State Class:

All persons or entities that purchased or leased a Class Vehicle within Maryland or that purchased or leased a Class Vehicle and reside in Maryland.

Massachusetts State Class:

All persons or entities that purchased or leased a Class Vehicle within Massachusetts or that purchased or leased a Class Vehicle and reside in Massachusetts.

Michigan State Class:

All persons or entities that purchased or leased a Class Vehicle within Michigan or that purchased or leased a Class Vehicle and reside in Michigan.

Minnesota State Class:

All persons or entities that purchased or leased a Class Vehicle within Minnesota or that purchased or leased a Class Vehicle and reside in Minnesota.

Mississippi State Class:

All persons or entities that purchased or leased a Class Vehicle within Mississippi or that purchased or leased a Class Vehicle and reside in Mississippi.

Missouri State Class:

All persons or entities that purchased or leased a Class Vehicle within Missouri or that purchased or leased a Class Vehicle and reside in Missouri.

Montana State Class:

All persons or entities that purchased or leased a Class Vehicle within Montana or that purchased or leased a Class Vehicle and reside in Montana.

Nebraska State Class:

All persons or entities that purchased or leased a Class Vehicle within Nebraska or that purchased or leased a Class Vehicle and reside in Nebraska.

Nevada State Class:

All persons or entities that purchased or leased a Class Vehicle within Nevada or that purchased or leased a Class Vehicle and reside in Nevada.

New Hampshire State Class:

All persons or entities that purchased or leased a Class Vehicle within New Hampshire or that purchased or leased a Class Vehicle and reside in within New Hampshire.

New Jersey State Class:

All persons or entities that purchased or leased a Class Vehicle within New Jersey or that purchased or leased a Class Vehicle and reside in New Jersey.

New Mexico State Class:

All persons or entities that purchased or leased a Class Vehicle within New Mexico or that purchased or leased a Class Vehicle and reside in New Mexico.

New York State Class:

All persons or entities that purchased or leased a Class Vehicle within New York or that purchased or leased a Class Vehicle and reside in New York.

North Carolina State Class:

All persons or entities that purchased or leased a Class Vehicle within North Carolina or that purchased or leased a Class Vehicle and reside in North Carolina.

North Dakota State Class:

All persons or entities that purchased or leased a Class Vehicle within North Dakota or that purchased or leased a Class Vehicle and reside in North Dakota.

Ohio State Class:

All persons or entities that purchased or leased a Class Vehicle within Ohio or that purchased or leased a Class Vehicle and reside in Ohio.

Oklahoma State Class:

All persons or entities that purchased or leased a Class Vehicle within Oklahoma or that purchased or leased a Class Vehicle and reside in Oklahoma.

Oregon State Class:

All persons or entities that purchased or leased a Class Vehicle within Oregon or that purchased or leased a Class Vehicle and reside in Oregon.

Pennsylvania State Class:

All persons or entities that purchased or leased a Class Vehicle within Pennsylvania or that purchased or leased a Class Vehicle and reside in Pennsylvania.

Rhode Island State Class:

All persons or entities that purchased or leased a Class Vehicle within Rhode Island or that purchased or leased a Class Vehicle and reside in Rhode Island.

South Carolina State Class:

All persons or entities that purchased or leased a Class Vehicle within South Carolina or that purchased or leased a Class Vehicle and reside in South Carolina.

South Dakota State Class:

All persons or entities that purchased or leased a Class Vehicle within South Dakota or that purchased or leased a Class Vehicle and reside in South Dakota.

Tennessee State Class:

All persons or entities that purchased or leased a Class Vehicle within Tennessee or that purchased or leased a Class Vehicle and reside in Tennessee.

Texas State Class:

All persons or entities that purchased or leased a Class Vehicle within Texas or that purchased or leased a Class Vehicle and reside in Texas.

U.S. Territory Class:

All persons or entities that purchased or leased a Class Vehicle within a U.S. Territory or that purchased or leased a Class Vehicle and reside in U.S. Territory.

Utah State Class:

All persons or entities that purchased or leased a Class Vehicle within Utah or that purchased or leased a Class Vehicle and reside in Utah.

Vermont State Class:

All persons or entities that purchased or leased a Class Vehicle within Vermont or that purchased or leased a Class Vehicle and reside in Vermont.

Virginia State Class:

All persons or entities that purchased or leased a Class Vehicle within Virginia or that purchased or leased a Class Vehicle and reside in Virginia.

Washington State Class:

All persons or entities that purchased or leased a Class Vehicle within Washington or that purchased or leased a Class Vehicle and reside in Washington.

West Virginia State Class:

All persons or entities that purchased or leased a Class Vehicle within West Virginia or that purchased or leased a Class Vehicle and reside in West Virginia.

Wisconsin State Class:

All persons or entities that purchased or leased a Class Vehicle within Wisconsin or that purchased or leased a Class Vehicle and reside in Wisconsin.

Wyoming State Class:

All persons or entities that purchased or leased a Class Vehicle within Wyoming or that purchased or leased a Class Vehicle and reside in Wyoming.

261. Excluded from the Class are individuals who have personal injury claims resulting from the conduct alleged herein. Also excluded from the Class are Defendants and their subsidiaries and affiliates; all persons who make a timely election to be excluded from the Class; governmental entities; and the Judge to whom this case is assigned and his immediate family. Plaintiffs reserve the right to revise the Class definitions based upon information learned through discovery.

262. Certification of Plaintiffs' claims for classwide treatment is appropriate because Plaintiffs can prove the elements of their claims regarding liability and entitlement to damages on a classwide basis using the same evidence as would be used to prove those elements in individual actions alleging the same claim.

263. This action has been brought and may be properly maintained on behalf of the Nationwide Class and/or State Class proposed herein under Federal Rule of Civil Procedure 23.

264. Plaintiffs reserve the right to modify the definition of the Nationwide and/or any State Class prior to class certification.

II. CLASS CERTIFICATION REQUIREMENTS: FEDERAL RULE OF CIVIL PROCEDURE 23

265. **Numerosity: Rule 23(a)(1).** The members of the Class are so numerous and geographically dispersed that individual joinder of all Class members is impracticable. Plaintiffs are informed and believe, based on available information on the volume of sales and registrations of Class Vehicles, that there are no fewer than 100,000 members of the Class. The precise number of Class members may be ascertained from Defendants' records and vehicle registration records. Class members may be notified of the pendency of this action by recognized, Court-approved notice dissemination methods, which may include U.S. mail, electronic mail, Internet postings, social media, and published notice.

266. **Commonality and Predominance: Rules 23(a)(2) and 23(b)(3).** This action involves significant common questions of law and fact, which predominate over any questions affecting individual Class members, including, but not limited to:

- a. Whether Defendants engaged in the conduct alleged herein;
- b. Whether Defendants designed, advertised, marketed, distributed, leased, sold, or otherwise placed Class Vehicles into the stream of commerce in the United States;
- c. Whether Defendants knew or should have known that the Class Vehicles emitted NOx at levels above those reasonably assumed by consumers and, if so, how long Defendants have known or should have known;
- d. Whether the true nature of the Class Vehicles' performance, emissions levels, fuel economy, and emissions software constitute material facts that

1 reasonable consumers would have considered in deciding whether to
2 purchase and/or lease a Class Vehicle;

- 3 e. Whether Defendants' EcoDiesel® engine system in the Class Vehicles can
4 be made to comply with emission standards without substantially
5 degrading the performance and/or efficiency of the Class Vehicles;
- 6 f. Whether Plaintiffs and the other Class members overpaid for their Class
7 Vehicles as a result of Defendants' deception;
- 8 g. Whether Defendants made material misrepresentations regarding the Class
9 Vehicles;
- 10 h. Whether Defendants had a duty to disclose the true nature of the Class
11 Vehicles to Plaintiffs and Class members;
- 12 i. Whether Defendants omitted, concealed, and/or failed to disclose material
13 facts about the Class Vehicles;
- 14 j. Whether Defendants' concealment of the true nature of the Class Vehicles
15 would have induced a reasonable consumer to act to his or her detriment by
16 purchasing and/or leasing the Class Vehicles;
- 17 k. Whether Bosch designed and manufactured the emissions software present
18 in the Class Vehicles;
- 19 l. Whether Bosch supplied the emissions software to FCA with the
20 knowledge that FCA would use it in production of the Class Vehicles;
- 21 m. Whether Bosch acted in concert with FCA;
- 22 n. Whether VM Motori designed, manufactured, calibrated, and delivered the
23 EcoDiesel® engine system for inclusion in the Class Vehicles, knowing,
24 they would be used to evade emission laws and deceive the consuming
25 public;
- 26 o. Whether Defendant FCA designed, manufactured, marketed, and
27 distributed Class Vehicles with the alleged emissions software;
- 28 p. Whether Defendants' conduct violates RICO, consumer protection statutes,
false advertising laws, warranty laws, and other laws as asserted herein;
- q. Whether Plaintiffs and the other Class members are entitled to equitable
relief, including, but not limited to, restitution or injunctive relief;
- r. Whether Plaintiffs and the other Class members are entitled to damages
and other monetary relief and, if so, in what amount; and
- s. Whether Defendants continue to unlawfully conceal and misrepresent
whether additional vehicles, besides those reported in the press to date, are
in fact Class Vehicles.

1 267. **Typicality: Rule 23(a)(3).** Plaintiffs' claims are typical of the claims of the Class
2 members whom they seek to represent under Federal Rule of Civil Procedure 23(a)(3), because
3 Plaintiffs and each Class member purchased a Class Vehicle and were similarly injured through
4 Defendants' wrongful conduct as described above. Plaintiffs and the other Class members
5 suffered damages as a direct proximate result of the same wrongful practices by Defendants.
6 Plaintiffs' claims arise from the same practices and courses of conduct that give rise to the claims
7 of the other Class members. Plaintiffs' claims are based upon the same legal theories as the
8 claims of the other Class members.

9 268. **Adequacy: Rule 23(a)(4).** Plaintiffs will fairly and adequately represent and
10 protect the interests of the Class members as required by Federal Rule of Civil Procedure
11 23(a)(4). Plaintiffs have retained counsel competent and experienced in complex class action
12 litigation, including vehicle defect litigation and other consumer protection litigation. Plaintiffs
13 intend to prosecute this action vigorously. Neither Plaintiffs nor their counsel have interests that
14 conflict with the interests of the other Class members. Therefore, the interests of the Class
15 members will be fairly and adequately protected.

16 269. **Declaratory and Injunctive Relief: Rule 23(b)(2).** Defendants have acted or
17 refused to act on grounds generally applicable to Plaintiffs and the other members of the Class,
18 thereby making appropriate final injunctive relief and declaratory relief, as described below, with
19 respect to the Class as a whole.

20 270. **Superiority: Rule 23(b)(3).** A class action is superior to any other available means
21 for the fair and efficient adjudication of this controversy, and no unusual difficulties are likely to
22 be encountered in the management of this class action. The damages or other financial detriment
23 suffered by Plaintiffs and the other Class members are relatively small compared to the burden
24 and expense that would be required to individually litigate their claims against Defendants, so it
25 would be impracticable for members of the Class to individually seek redress for Defendants'
26 wrongful conduct.

27 271. Even if Class members could afford individual litigation, the court system could
28 not. Individualized litigation creates a potential for inconsistent or contradictory judgments, and

increases the delay and expense to all parties and the court system. By contrast, the class action device presents far fewer management difficulties and provides the benefits of single adjudication, economies of scale, and comprehensive supervision by a single court.

ANY APPLICABLE STATUTES OF LIMITATION ARE TOLLED

I. DISCOVERY RULE

272. The tolling doctrine was made for cases of concealment like this one. Plaintiffs and Class members did not discover, and could not have discovered through the exercise of reasonable diligence, that Defendants had conspired to install software that would evade emission regulations, and that Defendants were concealing and misrepresenting the true emission levels of the Class Vehicles to regulators and the driving public.

273. Defendants' fraud was elaborate and well concealed. Indeed, the EPA and CARB uncovered the software manipulation only through a sophisticated and costly investigation involving highly technical equipment.

274. Plaintiffs and Class members had no realistic ability to discover the presence of the defeat devices, or to otherwise learn of the fraud, until it was discovered by the EPA and CARB and revealed to the public through their respective Notices of Violation.

275. Any statutes of limitation otherwise-applicable to any claims asserted herein have thus been tolled by the discovery rule.

II. FRAUDULENT CONCEALMENT

276. All applicable statutes of limitation have also been tolled by Defendants' knowing, active and ongoing fraudulent concealment of the facts alleged herein.

277. Defendants have known of the emission control software installed in the Class Vehicles since at least 2014, when Defendants began installing them. Since then Defendants have intentionally concealed from, or failed to notify, regulators, Plaintiffs, Class members, and the driving public of the undisclosed auxiliary (or defeat) devices and the true level of emissions and performance of the Class Vehicles.

278. Despite knowing about the emission control software and unlawful emissions during real-world driving conditions, Defendants did not acknowledge the problem, and in fact

1 actively concealed it, until after the EPA and CARB issued their Notices of Violation. Even to
2 present day, Defendants have denied any wrongdoing.

3 279. Any otherwise-applicable statutes of limitation have therefore been tolled by
4 Defendants' exclusive knowledge and concealment of the facts alleged herein.

5 **III. ESTOPPEL**

6 280. Defendants were, and are, under a continuous duty to disclose to Plaintiffs and
7 Class members the true character, quality, and nature of the Class Vehicles, including their
8 emission systems and their compliance with applicable federal and state law, particularly given
9 their misleading advertising statements. Instead, Defendants actively concealed the true
10 character, quality, and nature of the Class Vehicles and knowingly made misrepresentations about
11 the quality, reliability, characteristics, and performance of the Class Vehicles.

12 281. Plaintiffs and Class members reasonably relied upon Defendants' active
13 concealment of these facts that rendered their statements misleading.

14 282. Based on the foregoing, Defendants are estopped from relying on any statutes of
15 limitation in defense of this action.

16 **CLAIMS FOR RELIEF**

17 **I. CLAIMS ASSERTED ON BEHALF OF THE NATIONWIDE CLASS**

18 **NATIONWIDE COUNT I** 19 **RACKETEER INFLUENCED AND CORRUPT ORGANIZATIONS ACT ("RICO")** 20 **Violation of 18 U.S.C. § 1962(c)-(d)**

21 283. Plaintiffs incorporate by reference each preceding paragraph as though fully set
22 forth herein.

23 284. Plaintiffs bring this action on behalf of the Nationwide Class against Defendants
24 Fiat, FCA, Marchionne, VM Italy, VM America, Bosch GmbH, and Bosch LLC (inclusively, for
25 purpose of this Count, Defendants are referred to as "RICO Defendants").

26 285. Fiat conducts its business—legitimate and illegitimate—through various affiliates
27 and subsidiaries, like FCA, VM Italy, and VM America, each of which is a separate legal entity.
28 The Bosch Group also conducts its business, both legitimate and illegitimate, through hundreds of

1 companies, subsidiaries, and affiliates, including Bosch GmbH and Bosch LLC.⁶⁹ At all relevant
 2 times, each of the RICO Defendants has been a “person” under 18 U.S.C. § 1961(3) because each
 3 was capable of holding “a legal or beneficial interest in property.”

4 286. Section 1962(c) makes it “unlawful for any person employed by or associated with
 5 any enterprise engaged in, or the activities of which affect, interstate or foreign commerce, to
 6 conduct or participate, directly or indirectly, in the conduct of such enterprise’s affairs through a
 7 pattern of racketeering activity.” 18 U.S.C. § 1962(c).

8 287. Section 1962(d) makes it unlawful for “any person to conspire to violate” Section
 9 1962(c), among other provisions. *See* 18 U.S.C. § 1962(d).

10 288. As part of a strategy to expand its North American presence, in 2009, Fiat began
 11 its acquisition of one of the “Big 3” U.S. automakers, Chrysler. In November of that year, CEO
 12 Marchionne unveiled an ambitious 5-year plan to, among other things, roll out “more diesel
 13 variants” of Jeep and to give Ram “Light duty (1500)” a “refresh/facelift.”⁷⁰

14 289. By 2014, Fiat had become Fiat Chrysler Automobiles, Chrysler had become FCA,
 15 and VM Motori, a longtime supplier, was now part of the Fiat Chrysler sprawling family of
 16 affiliated companies. In May of that year, Marchionne announced another five-year plan at
 17 Auburn Hills, Michigan headquarters to increase Fiat Chrysler’s competitiveness against global
 18 auto behemoths, such as Toyota, Volkswagen, and General Motors, by increasing annual sales to
 19 7 million vehicles by 2018, up from 4.4 million in 2013.⁷¹ Integral to the strategy was the
 20 expansion of the “Jeep portfolio” and updates to the “bread-and-butter Ram 1500,” including
 21 “diesel engines.”⁷²

22 290. During this same time frame, emission standards in the United States were
 23 ratcheting up. In contrast to other global automakers, like Toyota and Ford, which were focusing
 24 on developing hybrid and electric cars, Chrysler—now FCA and under the control of Fiat—took
 25

26 ⁶⁹ *See generally* <https://www.bosch.com/bosch-group/> (last accessed on July 19, 2017).

27 ⁷⁰ *See* Todd Lassa, *Fiatapolooza! Chrysler’s Five-Year Plan*, *supra* note 6.

28 ⁷¹ *See* Jerry Hirsch and David Undercoffler, *Fiat Chrysler Unveils Aggressive Five-Year Plan*, *supra* note 7.

⁷² *See* Christian Seabaugh, *Ram and Ferrari’s Place in Fiat Chrysler’s Five-Year Plan*, *supra* note 8.

1 another path: “[r]eflecting its ties with Europe-based Fiat, Chrysler appears to be taking yet
 2 another route that focuses less on electrification and *more heavily on light-duty diesels* and
 3 compressed natural gas.”⁷³ In 2012, Marchionne observed, “with 2016 ‘just around the corner’
 4 and 2025 not far away given the auto industry’s long product-development lead times, ‘there are
 5 big choices to be made[.]’”⁷⁴ Marchionne explained that “Chrysler, which is starting to share
 6 platforms and powertrains with Fiat, wants to leverage the European auto maker’s strengths in
 7 *diesels* and CNG-powered vehicles.”⁷⁵ As one commenter put it at the time, “[f]uel-efficient
 8 towing remains a strong point of diesels, and Marchionne says he still is optimistic about the
 9 potential of light-duty diesels in the U.S. despite significant emissions challenges.”⁷⁶

10 291. As it turned out, however, Fiat Chrysler was either unable or unwilling to devise a
 11 solution within the constraints of the law. And so, like Volkswagen, they devised one outside of
 12 it. Instead of cutting their losses, holding up the Class Vehicle roll outs, or coming clean, they
 13 conspired with VM Italy and VM America and Bosch GmbH and Bosch LLC to install
 14 customized emission treatment software (EDCs) in the EcoDiesel®’s engine diesel controls so
 15 that the Class Vehicles could “pass” the EPA and CARB testing. The software disabled or
 16 restricted certain of the emission controls during real-world driving conditions, however, causing
 17 the Class Vehicles to spew up to 25 times the legal limits of NOx. These software controls were
 18 concealed from regulators on COC and EO applications for the Class Vehicles by FCA, thus
 19 deceiving the EPA and CARB into approving the Class Vehicles for sale throughout the United
 20 States and California.

21 292. To accomplish their scheme or common course of conduct, Fiat, FCA,
 22 Marchionne, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Denner, along with others,
 23 had to work together to conceal the truth. Each Defendant was employed by or associated with,
 24 and conducted or participated in the affairs of, one or several RICO enterprises (defined below
 25 and referred to collectively as the “EcoDiesel® RICO Enterprise”). The purpose of the

26 ⁷³ See Drew Winter, *Chrysler Eyes Different Path to Meeting New CAFE Standards*, *supra* note

27 ⁷⁴ *Id.*

28 ⁷⁵ *Id.*

⁷⁶ *Id.*

1 EcoDiesel® RICO Enterprise was to deceive regulators into believing that the Class Vehicles
 2 were eligible for coverage by a COC and/or EO and compliant with emission standards. The
 3 motivation was simple: to increase Defendants' revenues and profits and minimize their losses
 4 from the design, manufacture, distribution and sale of the Class Vehicles and their component
 5 parts. As a direct and proximate result of their fraudulent scheme and common course of
 6 conduct, the RICO Defendants were able to extract over a billion dollars from consumers. As
 7 explained below, their years-long misconduct violated Sections 1962(c) and (d).

8 **A. Description of the EcoDiesel® RICO Enterprise**

9 293. In an effort to expand its market share in the United States and beyond, Fiat, a
 10 publicly-traded Italian-controlled, Dutch-registered company headquartered in London, bought
 11 then-Chrysler (now FCA), a separate Delaware company, headquartered in Michigan. Fiat uses
 12 FCA to design, market, manufacture and sell the Class Vehicles and other vehicles under the
 13 Chrysler, Dodge, Jeep, Ram, and Fiat brands throughout the United States. FCA also submitted
 14 the COC and EO applications for the Class Vehicles. Fiat used VM Italy and VM America to
 15 design and manufacture the EcoDiesel® engines for the Class Vehicles, which were calibrated in
 16 Michigan with Bosch's hidden software. Fiat, FCA, VM Italy, and VM America maintained tight
 17 control over the design, manufacture, calibration, and testing of the Class Vehicles. Bosch also
 18 participated, either directly or indirectly, in the conduct of the enterprise's affairs by developing,
 19 writing the software code customized for the Class Vehicles, and concealing the hidden software
 20 installed in the Class Vehicles in order to allow them to "pass" testing but then disable or restrict
 21 certain emission controls during real-world driving conditions.

22 294. At all relevant times, the RICO Defendants, along with other individuals and
 23 entities, including unknown third parties involved in the design, calibration, manufacture, testing,
 24 marketing, and sale of the Class Vehicles or the emission controls therein, operated an
 25 association-in-fact enterprise, which was formed for the purpose of fraudulently obtaining COCs
 26 from the EPA (and EOs from CARB) in order to sell the Class Vehicles throughout the United
 27 States (and California), and through which enterprise they conducted a pattern of racketeering
 28 activity under 18 U.S.C. § 1961(4). The enterprise is called the "EcoDiesel® RICO Enterprise."

295. At all relevant times, the EcoDiesel® RICO Enterprise constituted a single “enterprise” or multiple enterprises within the meaning of 18 U.S.C. § 1961(4), as legal entities, as well as individuals and legal entities associated-in-fact for the common purpose of engaging in RICO Defendants’ unlawful profit-making scheme.

296. The association-in-fact EcoDiesel® RICO Enterprise consisted of at least the following entities and individuals, and likely others:

1. The Fiat Chrysler Defendants

297. Fiat Chrysler is the seventh-largest automaker in the world based on total annual vehicle sales and is an international automotive group. Fiat is listed on the New York Stock Exchange under the symbol “FCAU” and on the Mercato Telematico Azionario under the symbol “FCA.”⁷⁷ FCA is not publicly traded and thus has no SEC reporting obligations, but it does have reporting obligations, protections and responsibilities unique to the State of Delaware. FCA is a distinct legal entity, controlled and owned (indirectly) by Defendant Fiat. Marchionne is the CEO and Chairman of Fiat Chrysler and oversees the board of directors for FCA. Along with other members of Fiat Chrysler’s leadership, Marchionne played a pivotal role in the scheme, common course of conduct, and conspiracy. Marchionne set an aggressive plan for Fiat Chrysler to increase the sales and market share of FCA, relying, in part, on incorporating its diesel experience from the European to the U.S. market. FCA’s day-to-day operations are managed by employees of both Fiat and FCA. Fiat’s Group Executive Committee are based in FCA’s Michigan headquarters. Fiat and FCA worked closely with VM Italy and VM America to develop and calibrate the EcoDiesel® engines for the Class Vehicles and to gather information for submission to regulators in the COC and EO applications by FCA. Each of these Defendants knew or recklessly disregarded that the Class Vehicles were unable to (and did not) comply with U.S. emission standards and yet concealed this information from regulators.

298. Working with other members of the EcoDiesel® RICO Enterprise, Fiat and FCA, with Marchionne at the helm, conspired to install and conceal emission control software in the

⁷⁷ See *About Us – FCA US LLC*, available at <http://www.fcanorthamerica.com/company/AboutUs/Pages/AboutUs.aspx> (last accessed on July 17, 2017).

1 EcoDiesel® engines to illegally circumvent stringent U.S. emission standards. Employing this
2 technology, Fiat Chrysler fraudulently obtained COCs and EOs for the Class Vehicles even
3 though they emit unlawful levels of toxic pollutants into the atmosphere during normal operating
4 conditions. Further, they concealed this information from regulators once questions were raised.

5 **2. The VM Motori Defendants**

6 299. As explained above, Fiat bought 50% of VM Italy in 2011 and the remaining 50%
7 stake from General Motors in 2013. Fiat Chrysler used VM Italy and VM America to design,
8 calibrate, and manufacture the EcoDiesel® engine to be used in the Class Vehicles. Fiat and
9 FCA worked with, and oversaw, VM Italy and VM America in the development and calibration
10 of the engines at Michigan headquarters. Employees from VM Italy and VM America worked
11 jointly on the manufacturing and/or assembling the engines for the Class Vehicles in the United
12 States. And VM Italy and VM America performed engine calibrations, including calibrations
13 involving the concealed emission control technology for the Class Vehicles. For example, VM
14 Motori's Calibration Leader for the Class Vehicles was based in Michigan and reported to
15 management at both VM Italy and VM America. Finally, VM Italy and VM America provided
16 information to FCA for inclusion in the COC and EO applications. VM Italy and VM America
17 knew or recklessly disregarded that the EcoDiesel® engines in the Class Vehicles were unable to
18 comply with U.S. emission standards and yet concealed this information from regulators.

19 **3. The Bosch Defendants**

20 300. As explained above, the Bosch Defendants supplied the emission control
21 technology at issue—EDC Unit 17s—which were installed in the Class Vehicles. Bosch GmbH
22 is a multinational engineering and electronics company headquartered in Germany, which has
23 hundreds of subsidiaries and companies, including in the United States. It wholly owns Bosch
24 LLC, a Delaware limited liability company headquartered in Farmington Hills, Michigan.
25 Bosch's sectors and divisions are grouped by subject matter, not location. Mobility Solutions is
26 the Bosch sector at issue, particularly its Diesel Services division, and it encompasses employees
27 of both Bosch GmbH and Bosch LLC. These individuals were responsible for the design,
28 manufacture, development, customization, and supply of the EDC units for the Class Vehicles.

301. Denner has been Chairman and CEO of Bosch since July 2012, after decades of working in Bosch's Engine ECU Development division, managing the development and sale of automotive engine computers, such as the EDC units that were installed in the Class Vehicles. Denner fostered Bosch's relationship with key corporate partners, such as Fiat, which brought in millions of dollars in annual revenue for Bosch.

302. Bosch worked with Fiat and FCA to develop and implement a specific and unique set of software algorithms to surreptitiously evade emission regulations by deactivating certain controls under real-world driving conditions. Bosch was well aware that the EDC Unit 17 would be used for this purpose. Bosch was also critical to the concealment of these software functions in communications with regulators.

B. The EcoDiesel® RICO Enterprise Sought to Increase Defendants' Profits and Revenues.

303. The EcoDiesel® RICO Enterprise began as early as 2009, when Fiat began to acquire FCA and later VM Motori. On information and belief, Fiat Chrysler and Bosch entered into an agreement to develop and install EDC Unit 17's into over a hundred thousand Class Vehicles sold in the United States. It was not until September 2015 that the scheme began to unravel, when U.S. regulators uncovered Volkswagen's defeat devices provided by Bosch and questions were raised as to whether other diesel automakers were cheating, too.

304. At all relevant times, the EcoDiesel® RICO Enterprise: (a) had an existence separate and distinct from each RICO Defendant; (b) was separate and distinct from the pattern of racketeering in which the RICO Defendants engaged; and (c) was an ongoing and continuing organization consisting of legal entities, including Fiat and FCA, their network of dealerships, Marchionne, VM Italy, VM America, Bosch GmbH, Bosch LLC, Denner, and other entities and individuals associated for the common purpose of designing, calibrating, manufacturing, distributing, testing, marketing, and selling the Class Vehicles to consumers in the Nationwide Class through fraudulent COCs and EOs, false emissions tests, false or misleading sales tactics and materials, and deriving profits and revenues from those activities. Each member of the EcoDiesel® RICO Enterprise shared in the bounty generated by the enterprise, *i.e.*, by sharing the

1 benefit derived from increased sales revenue generated by the scheme to defraud Class members
2 nationwide.⁷⁸

3 305. The EcoDiesel® RICO Enterprise functioned by selling vehicles and component
4 parts to the consuming public. Many of these products are legitimate, including vehicles that do
5 not contain concealed AECDs. However, the RICO Defendants and their co-conspirators,
6 through their illegal Enterprise, engaged in a pattern of racketeering activity, which involves a
7 fraudulent scheme to increase revenue for Defendants and the other entities and individuals
8 associated-in-fact with the Enterprise's activities through the illegal scheme to sell the Class
9 Vehicles.

10 306. The EcoDiesel® RICO Enterprise engaged in, and its activities affected, interstate
11 and foreign commerce, because it involved commercial activities across state boundaries, such as
12 the marketing, promotion, advertisement and sale or lease of the Class Vehicles throughout the
13 country, and the receipt of monies from the sale of the same.

14 307. Within the EcoDiesel® RICO Enterprise, there was a common communication
15 network by which co-conspirators shared information on a regular basis. The enterprise used this
16 common communication network for the purpose of manufacturing, marketing, testing, and
17 selling the Class Vehicles to the general public nationwide.

18 308. Each participant in the EcoDiesel® RICO Enterprise had a systematic linkage to
19 each other through corporate ties, contractual relationships, financial ties, and continuing
20 coordination of activities. Through the EcoDiesel® RICO Enterprise, the RICO Defendants
21 functioned as a continuing unit with the purpose of furthering the illegal scheme and their
22 common purposes of increasing their revenues and market share, and minimizing losses.

23 309. The RICO Defendants participated in the operation and management of the
24 EcoDiesel® Enterprise by directing its affairs, as described herein. While the RICO Defendants
25 participated in, and are members of, the enterprise, they have a separate existence from the
26

27 ⁷⁸ Fiat and FCA sold more Class Vehicles, and was able to charge consumers a premium price, by
28 advertising the Class Vehicles as "clean," "environmentally friendly," and "fuel efficient." As a
result, VM Motori sold more "EcoDiesel®" engines and Bosch sold more EDC Units to equip the
Class Vehicles.

1 enterprise, including distinct legal statuses, different offices and roles, bank accounts, officers,
2 directors, employees, individual personhood, reporting requirements, and financial statements.

3 310. Fiat, FCA, and Marchionne exerted substantial control over the EcoDiesel® RICO
4 Enterprise, and participated in the affairs of the Enterprise, by:

- 5 A. installing emission control software that deactivates or restricts one or
6 more of the controls during real-world driving conditions;
- 7 B. concealing these software functions from regulators;
- 8 C. failing to correct or disable the hidden software when warned;
- 9 D. manufacturing, distributing, and selling the Class Vehicles that emitted
10 greater pollution than allowable under the applicable regulations;
- 11 E. misrepresenting and omitting (or causing such misrepresentations and
12 omissions to be made) vehicle specifications on COC and EO applications;
- 13 F. introducing the Class Vehicles into the stream of U.S. commerce without a
14 valid EPA COC and/or CARB EO;
- 15 G. concealing the existence of the emission controls and the unlawfully high
16 emissions from regulators and the public;
- 17 H. persisting in the manufacturing, distribution, and sale of the Class Vehicles
18 even after questions were raised about the emission testing and
19 discrepancies concerning the same;
- 20 I. misleading government regulators as to the nature of the emission control
21 technology and the defects in the Class Vehicles;
- 22 J. misleading the driving public as to the nature of the emission control
23 technology and the defects in the Class Vehicles;
- 24 K. designing and distributing marketing materials that misrepresented and/or
25 concealed the defect in the vehicles;
- 26 L. otherwise misrepresenting or concealing the defective nature of the Class
27 Vehicles from the public and regulators;
- 28 M. illegally selling and/or distributing the Class Vehicles;

- 1 N. collecting revenues and profits from the sale of such products; and/or
- 2 O. ensuring that the other RICO Defendants and unnamed co-conspirators
- 3 complied with the scheme or common course of conduct.

4 311. VM Italy and VM America also participated in, operated and/or directed the
5 EcoDiesel RICO Enterprise by developing an engine that emits high levels of toxic pollutants,
6 calibrating the emission controls to deactivate or diminish during real-world driving conditions,
7 and providing false or misleading information for purposes of supplying it to regulators on COC
8 and/or EO applications.

9 312. Bosch GmbH, Bosch LLC, and Denner also participated in, operated and/or
10 directed the EcoDiesel® RICO Enterprise. On information and belief, Denner formed a
11 partnership with Fiat to provide engine management and emission control technology for the
12 Class Vehicles. Bosch GmbH and Bosch LLC participated in the fraudulent scheme by
13 manufacturing, installing, testing, modifying, and supplying the EDC Unit 17 for the Class
14 Vehicles. Bosch GmbH and Bosch LLC exercised tight control over the coding and other aspects
15 of the software and closely collaborated with Fiat, FCA, VM Italy, and VM America to develop,
16 customize, and calibrate the software for the Class Vehicles. Additionally, Bosch GmbH and
17 Bosch LLC continuously cooperated with the other RICO Defendants to ensure that the EDC
18 Unit 17 was fully integrated into the Class Vehicles. Bosch GmbH and Bosch LLC also
19 participated in the affairs of the Enterprise by concealing the software functions from U.S.
20 regulators and actively lobbying regulators on behalf of “clean diesel.” Bosch collected millions
21 of dollars in revenues and profits from the hidden software installed in the Class Vehicles.

22 313. Without the RICO Defendants’ willing participation, including Bosch GmbH and
23 Bosch LLC’s active involvement in developing and supplying the critical emission control
24 software for the Class Vehicles, the Enterprise’s scheme and common course of conduct would
25 have been unsuccessful.

26 314. The RICO Defendants directed and controlled the ongoing organization necessary
27 to implement the scheme at meetings and through communications of which Plaintiffs cannot
28 fully know at present, because such information lies in the Defendants’ and others’ hands.

1 Similarly, because the defendants often refer to themselves as a group (*i.e.*, “Bosch” rather than
2 “Bosch GmbH” and “Bosch LLC”), Plaintiffs cannot fully know the full extent of each individual
3 corporate entity’s involvement in the wrongdoing prior to having access to discovery.

4 **C. Mail And Wire Fraud**

5 315. To carry out, or attempt to carry out the scheme to defraud, the RICO Defendants,
6 each of whom is a person associated-in-fact with the EcoDiesel® RICO Enterprise, did
7 knowingly conduct or participate, directly or indirectly, in the conduct of the affairs of the
8 Enterprise through a pattern of racketeering activity within the meaning of 18 U.S.C. §§ 1961(1),
9 1961(5) and 1962(c), and which employed the use of the mail and wire facilities, in violation of
10 18 U.S.C. § 1341 (mail fraud) and § 1343 (wire fraud).

11 316. Specifically, as alleged herein, the RICO Defendants have committed and/or
12 conspired to commit at least two predicate acts of racketeering activity (*i.e.*, violations of 18
13 U.S.C. §§ 1341 and 1343), within the past ten years. The multiple acts of racketeering activity
14 that the RICO Defendants committed were related to each other, posed a threat of continued
15 racketeering activity, and therefore constitute a “pattern of racketeering activity.” The
16 racketeering activity was made possible by the RICO Defendants’ regular use of the facilities,
17 services, distribution channels, and employees of the EcoDiesel® RICO Enterprise. The RICO
18 Defendants participated in the scheme to defraud by using mail, telephone and the Internet to
19 transmit mailings and wires in interstate or foreign commerce.

20 317. The RICO Defendants used, directed the use of, and/or caused to be used,
21 thousands of interstate mail and wire communications in service of their scheme through virtually
22 uniform misrepresentations, concealments and material omissions.

23 318. In devising and executing the illegal scheme, the RICO Defendants devised and
24 knowingly carried out a material scheme and/or artifice to defraud Plaintiffs and the Nationwide
25 Class or to obtain money from Plaintiffs and the Nationwide Class by means of materially false or
26 fraudulent pretenses, representations, promises, or omissions of material facts. For the purpose of
27 executing the illegal scheme, the RICO Defendants committed these racketeering acts, which
28

1 number in the thousands, intentionally and knowingly with the specific intent to advance the
 2 illegal scheme.

3 319. The RICO Defendants' predicate acts of racketeering (18 U.S.C. § 1961(1))
 4 include, but are not limited to:

5 A. Mail Fraud: The RICO Defendants violated 18 U.S.C. § 1341 by sending
 6 or receiving, or by causing to be sent and/or received, materials via U.S.
 7 mail or commercial interstate carriers for the purpose of executing the
 8 unlawful scheme to design, manufacture, market, and sell the Class
 9 Vehicles by means of false pretenses, misrepresentations, promises, and
 10 omissions.

11 B. Wire Fraud: The RICO Defendants violated 18 U.S.C. § 1343 by
 12 transmitting and/or receiving, or by causing to be transmitted and/or
 13 received, materials by wire for the purpose of executing the unlawful
 14 scheme to defraud and obtain money on false pretenses,
 15 misrepresentations, promises, and omissions.

16 320. The RICO Defendants' uses of the mails and wires include, but are not limited to,
 17 the transmission, delivery, or shipment of the following by the RICO Defendants or third parties
 18 that were foreseeably caused to be sent as a result of Defendants' illegal scheme:

- 19 A. the Class Vehicles themselves;
- 20 B. component parts for the EcoDiesel® engines;
- 21 C. component parts for the Bosch emission control hardware and software;
- 22 D. false or misleading emission test results;
- 23 E. applications for EPA COCs and CARB EOs that concealed AECDs;
- 24 F. fraudulently-obtained EPA COCs and CARB EOs;
- 25 G. vehicle registrations and plates as a result of the fraudulently-obtained EPA
- 26 COCs and CARB EOs;
- 27 H. documents and communications that facilitated "passing" emission tests;
- 28

- I. false or misleading communications intended to prevent regulators and the public from discovering the true nature of the emission controls and/or AECDs;
- J. sales and marketing materials, including advertising, websites, packaging, brochures, and labeling, concealing the true nature of the Class Vehicles;
- K. documents intended to facilitate the manufacture and sale of the Class Vehicles, including bills of lading, invoices, shipping records, reports and correspondence;
- L. documents to process and receive payment for the Class Vehicles by unsuspecting Class members, including invoices and receipts;
- M. payments to VM Italy and VM America;
- N. payments to Bosch GmbH and Bosch LLC;
- O. millions of dollars in compensation to Marchionne and Denner;
- P. deposits of proceeds; and/or
- Q. other documents and things, including electronic communications.

321. The RICO Defendants (or their agents), for the purpose of executing the illegal scheme, sent and/or received (or caused to be sent and/or received) by mail or by private or interstate carrier, shipments of the Class Vehicles and related documents by mail or a private carrier affecting interstate commerce, including the items described above and alleged below:

<u>From</u>	<u>To</u>	<u>Date</u>	<u>Description</u>
FCA	Bosch LLC	January 2013	Documents related to agreement to purchase Bosch EDC Unit 17 for 2014 Jeep Grand Cherokee.
VM Motori	FCA	January 2013	Documents related to EcoDiesel® engine for 2014 Jeep Grand Cherokee.
FCA, Michigan	FCA Dealerships	July 2013	Marketing Documents for 2014 Ram 1500 Class Vehicles.
EPA	FCA	September 2013	COC and related documents for 2014 Jeep Grand Cherokee.

<u>From</u>	<u>To</u>	<u>Date</u>	<u>Description</u>
EPA	FCA	September 2014	COC and related documents for 2015 Jeep Grand Cherokee.
FCA Warren Truck Assembly	Arrigo Dodge dealership, Sunrise, Florida	November 2015	Shipment of 2016 Ram 1500 Class Vehicles.

322. The RICO Defendants (or their agents), for the purpose of executing the illegal scheme, transmitted (or caused to be transmitted) in interstate commerce by means of wire communications, certain writings, signs, signals and sounds, including those items described above and alleged below:

<u>From</u>	<u>To</u>	<u>Date</u>	<u>Description</u>
Bosch LLC	PR Newswire, New York (and media network around United States)	January 2013	Press release that Bosch's "clean diesel" technology will be featured in 2014 Jeep Grand Cherokee.
FCA, Michigan	Driving Public Throughout All 50 States	July 2013	Ram Zone Blog: <i>The 2014 Ram 1500 with EcoDiesel Engine, Available Soon at a Dealer Near You.</i>
Bosch LLC	FCA	October 2013	Software and calibration documentation for emission control technology.
FCA, Michigan	EPA, Michigan and CARB, California	January 2014	Certification Summery Information Report with emission test results for 2014 Jeep Grand Cherokee and 2014 Ram 1500.
FCA, Michigan	EPA, Michigan and CARB, California	January 2015	Certification Summery Information Report with emission test results for 2015 Jeep Grand Cherokee and 2015 Ram 1500.
FCA, Michigan	EPA, Washington, DC	February 2, 2016	Email correspondence re: FCA lulling press release concerning compliance of diesel vehicles with applicable emission regulations.

<u>From</u>	<u>To</u>	<u>Date</u>	<u>Description</u>
EPA, Washington DC	FCA, Michigan	November 30, 2016	Email correspondence re: conference call between EPA officials and Defendant Marchionne.

323. The RICO Defendants also used the internet and other electronic facilities to carry out the scheme and conceal their ongoing fraudulent activities. Specifically, FCA, under the direction and control of Fiat and Marchionne, made misrepresentations about the Class Vehicles on their websites, YouTube, and through ads online, all of which were intended to mislead regulators and the public about the emission standards and other performance metrics.

324. The RICO Defendants also communicated by U.S. mail, by interstate facsimile, and by interstate electronic mail with various other affiliates, regional offices, divisions, dealerships and other third-party entities in furtherance of the scheme.

325. The mail and wire transmissions described herein were made in furtherance of Defendants' scheme and common course of conduct to deceive regulators and consumers and lure consumers into purchasing the Class Vehicles, which Defendants knew or recklessly disregarded as emitting illegal amounts of pollution, despite their advertising campaign that the Class Vehicles were "clean" diesel cars.

326. Many of the precise dates of the fraudulent uses of the U.S. mail and interstate wire facilities have been deliberately hidden, and cannot be alleged without access to Defendants' books and records. However, Plaintiffs have described the types of, and in some instances, occasions on which the predicate acts of mail and/or wire fraud occurred. These include thousands of communications to perpetuate and maintain the scheme, including the things and documents described in the preceding paragraphs.

327. The RICO Defendants have not undertaken the practices described herein in isolation, but as part of a common scheme and conspiracy. In violation of 18 U.S.C. § 1962(d), the RICO Defendants conspired to violate 18 U.S.C. § 1962(c), as described herein. Various other persons, firms and corporations, including third-party entities and individuals not named as defendants in this Complaint, have participated as co-conspirators with the RICO Defendants in

1 these offenses and have performed acts in furtherance of the conspiracy to increase or maintain
2 revenues, increase market share, and/or minimize losses for the Defendants and their unnamed
3 co-conspirators throughout the illegal scheme and common course of conduct.

4 328. To achieve their common goals, the RICO Defendants hid from the general public
5 the excessive and unlawful emissions of the Class Vehicles and obfuscated the true nature and
6 level of the emissions even after regulators raised concerns. The RICO Defendants suppressed
7 and/or ignored warnings from third parties, whistleblowers, and governmental entities about the
8 discrepancies in emissions testing and the concealed auxiliary (or defeat) devices present in the
9 Class Vehicles.

10 329. With knowledge and intent, the RICO Defendants and each member of the
11 conspiracy, with knowledge and intent, have agreed to the overall objectives of the conspiracy,
12 and have participated in the common course of conduct, to commit acts of fraud and indecency in
13 designing, manufacturing, distributing, marketing, testing, and/or selling the Class Vehicles (and
14 the emission control technology contained therein).

15 330. Indeed, for the conspiracy to succeed, each of the RICO Defendants and their co-
16 conspirators had to agree to implement and use the similar devices and fraudulent tactics.
17 Specifically, the RICO Defendants committed to secrecy about the concealed AECDs in the Class
18 Vehicles.

19 331. The RICO Defendants knew and intended that government regulators would rely
20 on their material omissions made about the Class Vehicles to approve them for importation,
21 marketing, and sale in the United States and each state. The RICO Defendants knew and
22 intended that consumers would purchase the Class Vehicles and incur costs as a result. Plaintiffs'
23 reliance on this ongoing concealment is demonstrated by the fact that they purchased illegal and
24 defective vehicles that never should have been introduced into the U.S. stream of commerce. In
25 addition, the EPA, CARB, and other regulators relied on the misrepresentations and material
26 concealment and omissions made or caused to be made by the RICO Defendants; otherwise, FCA
27 could not have obtained valid COCs and EOs to sell the Class Vehicles.
28

332. As described herein, the RICO Defendants engaged in a pattern of related and continuous predicate acts for years. The predicate acts constituted a variety of unlawful activities, each conducted with the common purpose of obtaining significant monies and revenues from Plaintiffs and Class members based on their misrepresentations and omissions, while providing Class Vehicles that were worth significantly less than the purchase price paid. The predicate acts also had the same or similar results, participants, victims, and methods of commission. The predicate acts were related and not isolated events.

333. The predicate acts had the purpose of generating significant revenue and profits for the RICO Defendants at the expense of Plaintiffs and Class members. The predicate acts were committed or caused to be committed by the RICO Defendants through their participation in the EcoDiesel® RICO Enterprise and in furtherance of its fraudulent scheme, and were interrelated in that they involved obtaining Plaintiffs' and Class members' funds and avoiding the expenses associated with remediating the Class Vehicles.

334. During the design, manufacture, testing, marketing and sale of the Class Vehicles, the RICO Defendants shared among themselves technical, marketing, and financial information that revealed the existence of the AECDs contained therein. Nevertheless, the RICO Defendants chose and agreed to disseminate information that deliberately misrepresented the Class Vehicles as legal, "clean," "environmentally friendly," and "fuel efficient" in their concerted efforts to market and sell them to consumers.

335. By reason of, and as a result of the conduct of the RICO Defendants, and in particular, their pattern of racketeering activity, Plaintiffs and Class members have been injured in their business and/or property in multiple ways, including but not limited to:

- A. Purchase or lease of illegal, defective Class Vehicles;
- B. Overpayment at the time of purchase or lease for Class Vehicles purportedly having "EcoDiesel" properties and benefits, and meeting applicable federal and state emissions standards, that did not have these properties or meet these standards;
- C. The value of the Class Vehicles has diminished;

- D. Other, ongoing out-of-pocket and loss-of-use expenses;
- E. Payment for alternative transportation; and
- F. Loss of employment due to lack of transportation.

336. The RICO Defendants' violations of 18 U.S.C. § 1962(c) and (d) have directly and proximately caused economic damage to Plaintiffs' and Class members' business and property, and Plaintiffs and Class members are entitled to bring this action for three times their actual damages, as well as injunctive/equitable relief, costs, and reasonable attorneys' fees pursuant to 18 U.S.C. § 1964(c).

**NATIONWIDE COUNT II
FRAUD
(Common Law)**

337. Plaintiffs incorporate by reference all preceding allegations as though fully set forth herein.

A. Affirmative Misrepresentation

338. Plaintiffs assert this affirmative misrepresentation theory of fraud on behalf of themselves and the Nationwide Class or, in the alternative, on behalf of the State Classes, against the Fiat Chrysler and VM Motori Defendants.

339. Fiat Chrysler branded each Class Vehicle with the EcoDiesel badge. Through the badge, Fiat Chrysler communicated to each Class Member that the Class Vehicles were, among other things, environmentally friendly.

340. This was a material fact, as Fiat Chrysler's own research and communications demonstrate. Fiat Chrysler's representations were false because the Class Vehicles contain undisclosed emission cheating components that cause them to pollute excessively in real-world driving conditions.

341. Fiat Chrysler and VM Motori knew the representations were false and intended Plaintiffs and Class Members to rely on them.

342. Each named Plaintiff decided to buy a Class Vehicle based in part on the representations communicated through the EcoDiesel badge. *See, e.g.*, ¶¶ 34-96. Because each Class Vehicle included the badge and each Class Member was exposed to it, a "plausible . . .

inference of reliance” can be made for the entire Class. Dkt. 290 at 103 (citing *Tobacco II Cases*, 207 P.3d 20, 40 (Cal. 2009)).

B. Fraudulent Concealment: Fuel Economy and Performance Representations

343. Plaintiffs assert this fraudulent concealment theory on behalf of themselves and the Nationwide Class or, in the alternative, on behalf of the State Classes, against all Defendants.

344. Again, Fiat Chrysler branded each Class Vehicle with the EcoDiesel badge, which communicated not only that the Class Vehicles were environmentally friendly, but also that they were fuel efficient.

345. The fuel economy and performance representations were also the centerpiece of Fiat Chrysler’s marketing efforts and featured prominently in virtually every advertisement and consumer communication. As detailed above, through dealership training materials leading to representations at the point of sale, vehicle brochures, the manufacturer websites, print advertisements, television advertisements, and other avenues, Fiat Chrysler pervasively and consistently represented that the Class Vehicles had best in class fuel economy and touted their specific MPG and range, as well as their supposedly superior torque and performance. *See, e.g.*, ¶¶ 149-216.

346. Defendants concealed and suppressed the fact that the Class Vehicles could achieve their fuel efficiency and power only through undisclosed cheating components that cause them to pollute excessively. This was a material fact about which the Defendants had knowledge, and that they concealed from Plaintiffs and Class Members to mislead them.

347. Plaintiffs and Class Members did not know this fact and could not have discovered it through reasonably diligent investigation.

348. Defendants had a duty to disclose that the emission treatment technology in the Class Vehicles is de-activated or reduced under real-world driving conditions because (1) the Defendants had exclusive knowledge of the material, suppressed facts; (2) the Defendants took affirmative actions to conceal the material facts, including by not identifying them for the EPA and CARB; and (3) Fiat Chrysler made partial representations about the environmental friendliness, fuel economy, and performance of the Class Vehicles that were misleading without

disclosure of the fact that the Class Vehicles contained hidden emission cheating components that caused the Class Vehicles to pollute excessively in real-world driving conditions.

349. Each named Plaintiff decided to buy a Class Vehicle based in part on the fuel economy and power representations made through the EcoDiesel badge and other consumer communications to consumers. *See, e.g.*, ¶¶ 34-96. Because each Class Vehicle included the badge and each Class Member was exposed to it, and because the fuel economy and performance representations were consistent and pervasive, a “plausible . . . inference of reliance” can be made for the entire Class. Dkt. 290 at 103 (citing *Tobacco II Cases*, 207 P.3d 20, 40 (Cal. 2009)).

C. Fraudulent Concealment: Installing and Concealing the Defeat Devices

350. Plaintiffs assert this fraudulent concealment theory on behalf of themselves and the Nationwide Class or, in the alternative, on behalf of the State Classes, against all Defendants.

351. Each Defendant committed fraud by installing and calibrating emission control devices in the Class Vehicles, which were unlawfully concealed from regulators and consumers alike. In uniform advertising and materials provided with each Class Vehicle, the Fiat Chrysler Defendants concealed from Plaintiffs and the Nationwide Class that the emission treatment technology de-activated under real-world driving conditions. *See, e.g.*, ¶¶ 149-216.

352. The Fiat Chrysler Defendants intentionally concealed, suppressed, and failed to disclose the facts that the Class Vehicles had defective emission controls and/or emitted unlawfully high levels of pollutants such as NOx. These Defendants, along with VM Motori and the Bosch Defendants, knew or should have known the true facts, due to their involvement in the design, installment, and calibration of the emission treatment technology in the Class Vehicles. And yet, at no time did any of these Defendants reveal the truth to Plaintiffs or the Class. To the contrary, each Defendant concealed the truth, intending for Plaintiffs and the Class to rely—which they did.

353. A reasonable consumer would not have expected that the emission treatment technology in the Class Vehicles de-activated under real-world driving conditions or that the Class Vehicle would spew unmitigated NOx during city or highway driving. Plaintiffs and the members of the Class did not know of the facts which were concealed from them by Defendants.

1 Moreover, as consumers, Plaintiffs and the members of the Class did not, and could not, unravel
2 the deception on their own.

3 354. Defendants had a duty to disclose that the emission treatment technology is de-
4 activated under real-world driving conditions and that the Class Vehicles spewed unmitigated
5 NOx during real-world conditions. Defendants had such a duty because the true facts were
6 known and/or accessible only to them and because they knew these facts were not known to or
7 reasonably discoverable by Plaintiffs or the members of the Class.

8 355. Fiat Chrysler and VM Motori also had a duty to disclose the true nature of the
9 emission controls in light of their statements about the qualities of the EcoDiesel® engines and
10 the Class Vehicles' emissions levels, which were misleading, deceptive, and incomplete without
11 the disclosure of the fact that the emission treatment technology is de-activated under real-world
12 driving conditions and that the Class Vehicles spewed unmitigated NOx during real-world
13 conditions. Fiat Chrysler held out the Class Vehicles as *reduced emission* diesel vehicles, when
14 in fact, they were *unlawfully high* emission vehicles. Having volunteered to provide information
15 to Plaintiffs and the members of the Class, Fiat Chrysler and VM Motori had the duty to disclose
16 the whole truth. On information and belief, Fiat Chrysler has still not made full and adequate
17 disclosures and continues to defraud Plaintiffs and the members of the Class by concealing
18 material information regarding the emissions qualities of the Class Vehicles.

19 * * *

20 356. But for Defendants' fraud, Plaintiffs and the members of the Class would not have
21 purchased the Class Vehicles, or would have paid less for them. Plaintiffs and the members of
22 the Class have sustained damage because purchased vehicles that were not as represented and
23 because they own Class Vehicles that should never have been placed in the stream of commerce
24 and are diminished in value as a result of Defendants' fraud. Accordingly, Defendants are liable
25 to Plaintiffs and the members of the Class for damages in an amount to be proven at trial.

26 357. Defendants' acts were done wantonly, maliciously, oppressively, deliberately, with
27 intent to defraud; in reckless disregard of the rights of Plaintiffs and the Class; and to enrich
28 themselves. Their misconduct warrants an assessment of punitive damages in an amount

sufficient to deter such conduct in the future, which amount shall be determined according to proof at trial.

**NATIONWIDE COUNT III
IMPLIED AND WRITTEN WARRANTY
Magnuson - Moss Warranty Act (15 U.S.C. §§ 2301, *et seq.*)**

358. Plaintiffs incorporate by reference all preceding allegations as though fully set forth herein.

359. Plaintiffs bring this action on behalf of themselves and the Nationwide Class against FCA US LLC.

360. This Court has jurisdiction to decide claims brought under 15 U.S.C. § 2301 by virtue of 28 U.S.C. § 1332 (a)-(d).

361. Plaintiffs and members of the Class are “consumers” within the meaning of 15 U.S.C. § 2301(3).

362. FCA is a “supplier” and “warrantor” within the meaning of 15 U.S.C. § 2301(4) and (5), respectively.

363. The Class Vehicles are “consumer products” within the meaning of 15 U.S.C. § 2301(1).

364. 15 U.S.C. § 2310(d)(1) provides a cause of action for any consumer who is damaged by the failure of a warrantor to comply with a written or implied warranty.

365. The amount in controversy of Plaintiffs’ individual claims meets or exceeds \$25.00 in value. In addition, the amount in controversy meets or exceeds \$50,000 in value (exclusive of interest and costs) on the basis of all claims to be determined in this lawsuit.

366. FCA provided Plaintiffs and each member of the Class with “written warranties” and “implied warranties,” as identified above, which are covered under 15 U.S.C. § 2301(6) and (7), respectively.

367. The terms of these warranties became part of the basis of the bargain when Plaintiffs and each member of the Class purchased their Class Vehicles.

368. FCA breached these written and implied warranties as described in detail above. Without limitation, the Class Vehicles share a common design defect in that they emit more

1 pollutants than: (a) is allowable under the applicable regulations, and (b) was revealed to
2 regulators, consumers, and the driving public.

3 369. Plaintiffs and each member of the Class have had sufficient direct dealings with
4 either FCA or its agents (including dealerships) to establish privity of contract between FCA, on
5 the one hand, and Plaintiffs and each member of the Class, on the other hand. Nonetheless,
6 privity is not required here because Plaintiffs and each member of the Class are intended third-
7 party beneficiaries of contracts between FCA and its dealers, and specifically, of FCA's implied
8 warranties. The dealers were not intended to be the ultimate consumers of the Class Vehicles and
9 have no rights under the warranty agreements provided with the Class Vehicles; the warranty
10 agreements were designed for and intended to benefit consumers only.

11 370. Affording FCA a reasonable opportunity to cure its breach of written warranties
12 would be unnecessary and futile. At the time of sale or lease of each Class Vehicle, FCA knew,
13 or should have known, of its misrepresentations and/or material omissions concerning the Class
14 Vehicles' inability to perform as warranted, but nonetheless failed to rectify the situation and/or
15 disclose the design defect. Under the circumstances, the remedies available under any informal
16 settlement procedure would be inadequate and any requirement that Plaintiffs or members of the
17 Class resort to an informal dispute resolution procedure and/or afford FCA a reasonable
18 opportunity to cure its breach of warranties is excused and thereby deemed satisfied.

19 371. In addition, given the conduct described herein, any attempts by FCA, in its
20 capacity as a warrantor, to limit the implied warranties in a manner that would exclude coverage
21 of the defect is unconscionable and any such effort to disclaim, or otherwise limit, liability for the
22 defect is null and void.

23 372. As a direct and proximate result of FCA's breach of the written and implied
24 warranties, Plaintiffs and each member of the Class have suffered damages.

25 373. Plaintiffs, individually and on behalf of the Class, seek all damages permitted by
26 law, including compensation for the monetary difference between the Class Vehicles as warranted
27 and as sold; compensation for the reduction in resale value; the cost of purchasing, leasing, or
28

renting replacement vehicles, along with all other incidental and consequential damages, statutory attorney fees, and all other relief allowed by law.

374. The warranty laws of each state, which are incorporated into this Count, are set forth below.

1. Alabama

**BREACH OF EXPRESS WARRANTY
(Ala. Code §§ 7-2-313 and 7-2A-210)**

375. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

376. Plaintiffs Chatom Motor Company, Inc., Victor Feldman, and Nelson John Stephens (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Alabama State Class against Fiat and FCA.

377. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Ala. Code §§ 7-2-104(1) and 7-2A-103(3), and “sellers” of motor vehicles under § 7-2-103(1)(d).

378. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Ala. Code. § 7-2A-103(1)(p).

379. The Class Vehicles are and were at all relevant times “goods” within the meaning of Ala. Code §§ 7-2-105(1) and 7-2A-103(1)(h).

380. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.” The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a

1 defect in materials or workmanship. This warranty provides protection for two years or 24,000
2 miles, whichever comes first, or, for the major emission control components, for eight years or
3 80,000 miles, whichever comes first.

4 381. Fiat and FCA provided these warranties to Plaintiffs and the Alabama State Class.
5 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
6 Alabama State Class purchased or leased their Class Vehicles.

7 382. However, Fiat and FCA knew or should have known that the warranties were false
8 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
9 sold and leased to Plaintiffs and the Alabama State Class were designed to deactivate under real-
10 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
11 emissions testing, and therefore, knew that the emission systems contained defects.

12 383. Plaintiffs and the Alabama State Class reasonably relied on Fiat's and FCA's
13 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
14 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
15 Alabama State Class, the Class Vehicles were designed to pollute at higher than legal limits
16 during normal driving, and could not achieve advertised performance and efficiency metrics
17 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
18 FCA therefore breached their express warranty by providing a product containing defects that
19 were never disclosed to Plaintiffs and the Alabama State Class.

20 384. Any opportunity to cure the express breach is unnecessary and futile.

21 385. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
22 Plaintiffs and the Alabama State Class suffered significant damages, and seek damages in an
23 amount to be determined at trial.

24 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
25 **(Ala. Code §§ 7-2-314 and 7-2A-212)**

26 386. Plaintiffs reallege and incorporate by reference all allegations of the preceding
27 paragraphs as though fully set forth herein.
28

387. Plaintiffs Chatom Motor Company, Inc., Victor Feldman, and Nelson John Stephens (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Alabama State Class against Fiat and FCA.

388. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Ala. Code §§ 7-2-104(1) and 7-2A-103(3), and “sellers” of motor vehicles under § 7-2-103(1)(d).

389. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Ala. Code. § 7-2A-103(1)(p).

390. The Class Vehicles are and were at all relevant times “goods” within the meaning of Ala. Code §§ 7-2-105(1) and 7-2A-103(1)(h).

391. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Ala. Code §§ 7-2-314 and 7-2A-212.

392. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

393. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to Plaintiffs and the Alabama State Class. The amount of damages due will be proven at trial.

2. Alaska

BREACH OF EXPRESS WARRANTY (Alaska Stat. Ann. §§ 45.02.313 and 45.12.210)

394. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1 395. Plaintiffs Matthew Johnson and Amanda Kobussen (for purposes of this section,
2 “Plaintiffs”) bring this action on behalf of themselves and the Alaska State Class against Fiat and
3 FCA.

4 396. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
5 vehicles under Alaska Stat. Ann. §§ 45.02.104(a) and 45.12.103(c)(11), and “sellers” of motor
6 vehicles under § 45.02.103(a)(4).

7 397. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
8 motor vehicles under Alaska Stat. Ann. § 45.12.103(a)(16).

9 398. The Class Vehicles are and were at all relevant times “goods” within the meaning
10 of Alaska Stat. Ann. §§ 45.02.105(a) and 45.12.103(a)(8)).

11 399. Federal law requires manufacturers of light-duty vehicles to provide two federal
12 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
13 The Performance Warranty applies to repairs that are required during the first two years or 24,000
14 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
15 major emission control components are covered for the first eight years or 80,000 miles,
16 whichever comes first. These major emission control components subject to the longer warranty
17 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
18 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
19 emission control or emission related parts which fail to function or function improperly due to a
20 defect in materials or workmanship. This warranty provides protection for two years or 24,000
21 miles, whichever comes first, or, for the major emission control components, for eight years or
22 80,000 miles, whichever comes first.

23 400. Fiat and FCA provided these warranties to Plaintiffs and the Alaska State Class.
24 These warranties formed the basis of the bargain that was reached when Plaintiffs and the Alaska
25 State Class members purchased or leased their Class Vehicles.

26 401. However, Fiat and FCA knew or should have known that the warranties were false
27 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
28 sold and leased to Plaintiffs and the Alaska State Class were designed to deactivate under real-

1 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
 2 emissions testing, and therefore, knew that the emission systems contained defects.

3 402. Plaintiffs and the Alaska State Class reasonably relied on Fiat's and FCA's express
 4 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
 5 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Alaska State
 6 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal
 7 driving, and could not achieve advertised performance and efficiency metrics without this
 8 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
 9 therefore breached their express warranty by providing a product containing defects that were
 10 never disclosed to Plaintiffs and the Alaska State Class.

11 403. Any opportunity to cure the express breach is unnecessary and futile.

12 404. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 13 Plaintiffs and the Alaska State Class suffered significant damages, and seek damages in an
 14 amount to be determined at trial.

15 **BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY**
 16 **(Alaska Stat. Ann. §§ 45.02.314 and 45.12.212)**

17 405. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 18 paragraphs as though fully set forth herein.

19 406. Plaintiffs Matthew Johnson and Amanda Kobussen (for purposes of this section,
 20 "Plaintiffs") bring this action on behalf of themselves and the Alaska State Class against Fiat and
 21 FCA.

22 407. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 23 under Alaska Stat. Ann. §§ 45.02.104(a) and 45.12.103(c)(11), and "sellers" of motor vehicles
 24 under § 45.02.103(a)(4).

25 408. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
 26 motor vehicles under Alaska Stat. Ann. § 45.12.103(a)(16).

27 409. The Class Vehicles are and were at all relevant times "goods" within the meaning
 28 of Alaska Stat. Ann. §§ 45.02.105(a) and 45.12.103(a)(8).

1 410. A warranty that the Class Vehicles were in merchantable condition and fit for the
2 ordinary purpose for which vehicles are used is implied by law pursuant to Alaska Stat.
3 §§ 45.02.314 and 45.12.212.

4 411. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
5 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
6 Vehicles were not in merchantable condition because their design violated state and federal laws.
7 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
8 federal emission standards.

9 412. Fiat's and FCA's breaches of the implied warranty of merchantability caused
10 damage to Plaintiffs and the Alaska State Class. The amount of damages due will be proven at
11 trial.

12 3. Arizona

13 **BREACH OF EXPRESS WARRANTY** 14 **(Ariz. Rev. Stat. §§ 47-2313 and 47-2A210)**

15 413. Plaintiffs reallege and incorporate by reference all preceding allegations as though
16 fully set forth herein.

17 414. Plaintiff Gregory Giauque (for the purpose of this section, "Plaintiff") bring this
18 action on behalf of himself and the Arizona State Class against Fiat and FCA.

19 415. Fiat and FCA are and were at all relevant times "merchants" with respect to motor
20 vehicles under Ariz. Rev. Stat. §§ 47-2104(A) and 47-2a103(c), and "sellers" of motor vehicles
21 under § 47-2103(A)(4).

22 416. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of
23 motor vehicles under Ariz. Rev. Stat. § 47-2a103(A)(16).

24 417. The Class Vehicles are and were at all relevant times "goods" within the meaning
25 of Ariz. Rev. Stat. §§ 47-2105(A) and 47-2a103(A)(8).

26 418. Federal law requires manufacturers of light-duty vehicles to provide two federal
27 emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."
28 The Performance Warranty applies to repairs that are required during the first two years or 24,000

1 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
2 major emission control components are covered for the first eight years or 80,000 miles,
3 whichever comes first. These major emission control components subject to the longer warranty
4 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
5 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
6 emission control or emission related parts which fail to function or function improperly due to a
7 defect in materials or workmanship. This warranty provides protection for two years or 24,000
8 miles, whichever comes first, or, for the major emission control components, for eight years or
9 80,000 miles, whichever comes first.

10 419. Fiat and FCA provided these warranties to Plaintiff and the Arizona State Class.
11 These warranties formed the basis of the bargain that was reached when Plaintiff and the Arizona
12 State Class purchased or leased their Class Vehicles.

13 420. However, Fiat and FCA knew or should have known that the warranties were false
14 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
15 sold and leased to Plaintiff and the Arizona State Class were designed to deactivate under real-
16 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
17 emissions testing, and therefore, knew that the emission systems contained defects.

18 421. Plaintiff and the Arizona State Class reasonably relied on Fiat's and FCA's
19 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
20 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
21 Arizona State Class, the Class Vehicles were designed to pollute at higher than legal limits during
22 normal driving, and could not achieve advertised performance and efficiency metrics without this
23 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
24 therefore breached their express warranty by providing a product containing defects that were
25 never disclosed to Plaintiff and the Arizona State Class.

26 422. Any opportunity to cure the express breach is unnecessary and futile.
27
28

1 423. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
2 Plaintiff and the Arizona State Class suffered significant damages, and seek damages in an
3 amount to be determined at trial.

4 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
5 **(Ariz. Rev. Stat. §§ 47-2314 and 47-2A212)**

6 424. Plaintiffs reallege and incorporate by reference all allegations of the preceding
7 paragraphs as though fully set forth herein.

8 425. Plaintiff Gregory Giauque (for the purpose of this section, "Plaintiff") bring this
9 action on behalf of himself and the Arizona State Class against Fiat and FCA.

10 426. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
11 under Ariz. Rev. Stat. §§ 47-2104(A) and 47-2a103(c), and "sellers" of motor vehicles under
12 § 47-2103(A)(4).

13 427. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
14 motor vehicles under Ariz. Rev. Stat. § 47-2a103(A)(16).

15 428. The Class Vehicles are and were at all relevant times "goods" within the meaning
16 of Ariz. Rev. Stat. §§ 47-2105(A) and 47-2a103(A)(8).

17 429. A warranty that the Class Vehicles were in merchantable condition and fit for the
18 ordinary purpose for which vehicles are used is implied by law pursuant to Ariz. Rev. Stat. §§ 47-
19 2314 and 47-2a212.

20 430. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
21 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
22 Vehicles were not in merchantable condition because their design violated state and federal laws.
23 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
24 federal emission standards.

25 431. Fiat's and FCA's breaches of the implied warranty of merchantability caused
26 damage to the Plaintiff and the Arizona State Class. The amount of damages due will be proven
27 at trial.
28

1 4. Arkansas

2 **BREACH OF EXPRESS WARRANTY**
3 **(Ark. Code Ann. §§ 4-2-313 and 4-2A-210)**

4 432. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 433. Plaintiff Melvin Phillips (for the purpose of this section, “Plaintiff”) brings this
7 action on behalf of himself and the Arkansas State Class against Fiat and FCA.

8 434. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Ark. Code Ann. §§ 4-2-104(1) and 4-2A-103(3), and “seller[s]” of motor vehicles
10 under § 4-2-103(1)(d).

11 435. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
12 motor vehicles under Ark. Code Ann. § 4-2A-103(1)(p).

13 436. The Class Vehicles are and were at all relevant times “goods” within the meaning
14 of Ark. Code Ann. §§ 4-2-105(1) and 4-2A-103(1)(h).

15 437. Federal law requires manufacturers of light-duty vehicles to provide two federal
16 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
17 The Performance Warranty applies to repairs that are required during the first two years or 24,000
18 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
19 major emission control components are covered for the first eight years or 80,000 miles,
20 whichever comes first. These major emission control components subject to the longer warranty
21 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
22 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
23 emission control or emission related parts which fail to function or function improperly due to a
24 defect in materials or workmanship. This warranty provides protection for two years or 24,000
25 miles, whichever comes first, or, for the major emission control components, for eight years or
26 80,000 miles, whichever comes first.

1 438. Fiat and FCA provided these warranties to Plaintiff and the Arkansas State Class.
2 These warranties formed the basis of the bargain that was reached when Plaintiff and the
3 Arkansas State Class purchased or leased their Class Vehicles.

4 439. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to Plaintiff and the Arkansas State Class were designed to deactivate under real-
7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
8 emissions testing, and therefore, knew that the emission systems contained defects.

9 440. Plaintiff and the Arkansas State Class reasonably relied on Fiat's and FCA's
10 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
11 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
12 Arkansas State Class, the Class Vehicles were designed to pollute at higher than legal limits
13 during normal driving, and could not achieve advertised performance and efficiency metrics
14 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
15 FCA therefore breached their express warranty by providing a product containing defects that
16 were never disclosed to Plaintiff and the Arkansas State Class.

17 441. Any opportunity to cure the express breach is unnecessary and futile.

18 442. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 Plaintiff and the Arkansas State Class suffered significant damages, and seek damages in an
20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(Ark. Code Ann. §§ 4-2-314 and 4-2A-212)**

23 443. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 444. Plaintiff Melvin Phillips (for the purpose of this section, "Plaintiff") brings this
26 action on behalf of himself and the Arkansas State Class against Fiat and FCA.

1 445. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles
2 under Ark. Code Ann. §§ 4-2-104(1) and 4-2A-103(3), and “seller[s]” of motor vehicles under
3 § 4-2-103(1)(d).

4 446. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
5 motor vehicles under Ark. Code Ann. § 4-2A-103(1)(p).

6 447. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of Ark. Code Ann. §§ 4-2-105(1) and 4-2A-103(1)(h).

8 448. A warranty that the Class Vehicles were in merchantable condition and fit for the
9 ordinary purpose for which vehicles are used is implied by law pursuant to Ark. Code Ann. §§ 4-
10 2-314 and 4-2A-212.

11 449. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
12 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
13 Vehicles were not in merchantable condition because their design violated state and federal laws.
14 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
15 federal emission standards.

16 450. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
17 damage to Plaintiff and the Arkansas State Class. The amount of damages due will be proven at
18 trial.

19 5. California

20 BREACH OF EXPRESS WARRANTY 21 (Cal. Com. Code §§ 2313 and 10210)

22 451. Plaintiffs reallege and incorporate by reference all preceding allegations as though
23 fully set forth herein.

24 452. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
25 (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the
26 California State Class against Fiat and FCA.

1 453. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under Cal. Com. Code §§ 2104(1) and 10103(c), and “sellers” of motor vehicles under
3 § 2103(1)(d).

4 454. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
5 motor vehicles under Cal. Com. Code § 10103(a)(16).

6 455. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of Cal. Com. Code §§ 2105(1) and 10103(a)(8)).

8 456. Federal law requires manufacturers of light-duty vehicles to provide two federal
9 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
10 The Performance Warranty applies to repairs that are required during the first two years or 24,000
11 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
12 major emission control components are covered for the first eight years or 80,000 miles,
13 whichever comes first. These major emission control components subject to the longer warranty
14 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
15 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
16 emission control or emission related parts which fail to function or function improperly due to a
17 defect in materials or workmanship. This warranty provides protection for two years or 24,000
18 miles, whichever comes first, or, for the major emission control components, for eight years or
19 80,000 miles, whichever comes first.

20 457. Fiat and FCA provided these warranties to Plaintiffs and the California State Class.
21 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
22 California State Class purchased or leased their Class Vehicles.

23 458. However, Fiat and FCA knew or should have known that the warranties were false
24 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
25 sold and leased to Plaintiffs and the California State Class were designed to deactivate under real-
26 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
27 emissions testing, and therefore, knew that the emission systems contained defects.
28

1 459. Plaintiffs and the California State Class reasonably relied on Fiat's and FCA's
 2 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
 3 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
 4 California State Class, the Class Vehicles were designed to pollute at higher than legal limits
 5 during normal driving, and could not achieve advertised performance and efficiency metrics
 6 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
 7 FCA therefore breached their express warranty by providing a product containing defects that
 8 were never disclosed to Plaintiffs and the California State Class.

9 460. Any opportunity to cure the express breach is unnecessary and futile.

10 461. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 11 Plaintiffs and the California State Class suffered significant damages, and seek damages in an
 12 amount to be determined at trial.

13 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 14 **(Cal. Com. Code §§ 2314 and 10212)**

15 462. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 16 paragraphs as though fully set forth herein.

17 463. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
 18 (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the
 19 California State Class against Fiat and FCA.

20 464. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 21 under Cal. Com. Code §§ 2104(1) and 10103(c), and "sellers" of motor vehicles under
 22 § 2103(1)(d).

23 465. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
 24 motor vehicles under Cal. Com. Code § 10103(a)(16).

25 466. The Class Vehicles are and were at all relevant times "goods" within the meaning
 26 of Cal. Com. Code §§ 2105(1) and 10103(a)(8).

1 467. A warranty that the Class Vehicles were in merchantable condition and fit for the
2 ordinary purpose for which vehicles are used is implied by law pursuant to Cal. Com. Code
3 §§ 2314 and 10212.

4 468. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
5 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
6 Vehicles were not in merchantable condition because their design violated state and federal laws.
7 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
8 federal emission standards.

9 469. Fiat's and FCA's breaches of the implied warranty of merchantability caused
10 damage to the Plaintiffs and the California State Class. The amount of damages due will be
11 proven at trial.

12 **VIOLATIONS OF SONG-BEVERLY CONSUMER WARRANTY ACT FOR**
13 **BREACH OF EXPRESS WARRANTIES**
14 **(Cal. Civ. Code §§ 1791.2 & 1793.2(d))**

15 470. Plaintiffs reallege and incorporate by reference all preceding allegations as though
16 fully set forth herein.

17 471. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
18 (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the
19 California State Class against Fiat and FCA.

20 472. Plaintiffs and the California State Class who purchased or leased the Class
21 Vehicles in California are "buyers" within the meaning of Cal. Civ. Code § 1791(b).

22 473. The Class Vehicles are "consumer goods" within the meaning of Cal. Civ. Code
23 § 1791(a).

24 474. Fiat Chrysler is a "manufacturer[s]" of the Class Vehicles within the meaning of
25 Cal. Civ. Code § 1791(j).

26 475. Plaintiffs and the California State Class bought/leased new motor vehicles
27 manufactured by Fiat Chrysler.

28 476. Fiat Chrysler made express warranties to Plaintiffs and the California State Class
within the meaning of Cal. Civ. Code §§ 1791.2 and 1793.2, as described above.

1 477. Federal law requires manufacturers of light-duty vehicles to provide two federal
2 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
3 The Performance Warranty applies to repairs that are required during the first two years or 24,000
4 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
5 major emission control components are covered for the first eight years or 80,000 miles,
6 whichever comes first. These major emission control components subject to the longer warranty
7 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
8 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
9 emission control or emission related parts which fail to function or function improperly due to a
10 defect in materials or workmanship. This warranty provides protection for two years or 24,000
11 miles, whichever comes first, or, for the major emission control components, for eight years or
12 80,000 miles, whichever comes first.

13 478. Fiat and FCA provided these warranties to Plaintiffs and the California State Class.
14 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
15 California State Class purchased or leased their Class Vehicles.

16 479. However, Fiat and FCA knew or should have known that the warranties were false
17 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
18 sold and leased to Plaintiffs and the California State Class were designed to deactivate under real-
19 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
20 emissions testing, and therefore, knew that the emission systems contained defects.

21 480. Plaintiffs and the California State Class reasonably relied on Fiat’s and FCA’s
22 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
23 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
24 California State Class, the Class Vehicles were designed to pollute at higher than legal limits
25 during normal driving, and could not achieve advertised performance and efficiency metrics
26 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
27 FCA therefore breached their express warranty by providing a product containing defects that
28 were never disclosed to Plaintiffs and the California State Class.

1 481. Any opportunity to cure the express breach is unnecessary and futile.

2 482. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
3 Plaintiffs and the California State Class suffered significant damages, and seek damages in an
4 amount to be determined at trial.

5 483. Pursuant to Cal. Civ. Code §§ 1793.2 and 1794, CA Plaintiffs and the other
6 California State Class members seek an order enjoining Defendants' unfair and/or deceptive acts
7 or practices, damages, punitive damages, and any other just and proper relief available under the
8 Song-Beverly Consumer Warranty Act.

9 **VIOLATIONS OF SONG-BEVERLY CONSUMER WARRANTY ACT FOR**
10 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
11 **(Cal. Civ. Code §§ 1791.1 and 1792)**

12 484. Plaintiffs reallege and incorporate by reference all preceding allegations as though
13 fully set forth herein.

14 485. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
15 (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the
16 California State Class against Fiat and FCA.

17 486. Plaintiffs and the other California State Class members who purchased or leased
18 the Class Vehicles in California are "buyers" within the meaning of Cal. Civ. Code § 1791(b).

19 487. The Class Vehicles are "consumer goods" within the meaning of Cal. Civ. Code
20 § 1791(a).

21 488. Fiat Chrysler is a "manufacturer" of the Class Vehicles within the meaning of Cal.
22 Civ. Code § 1791(j).

23 489. Fiat Chrysler impliedly warranted to Plaintiffs and the other California State Class
24 members that its Class Vehicles were "merchantable" within the meaning of Cal. Civ. Code
25 §§ 1791.1(a) and 1792, however, the Class Vehicles do not have the quality that a buyer would
26 reasonably expect.

27 490. Cal. Civ. Code § 1791.1(a) states: "Implied warranty of merchantability" or
28 "implied warranty that goods are merchantable" means that the consumer goods meet each of the
following:

- 1 A. Pass without objection in the trade under the contract description.
- 2 B. Are fit for the ordinary purposes for which such goods are used.
- 3 C. Are adequately contained, packaged, and labeled.
- 4 D. Conform to the promises or affirmations of fact made on the container or
- 5 label.

6 491. The Class Vehicles would not pass without objection in the automotive trade
7 because of the defects in the Class Vehicles' "clean" diesel engine system. Because of the defects
8 in the Class Vehicles' EcoDiesel® engine systems, they are not in merchantable condition and
9 thus not fit for ordinary purposes.

10 492. The Class Vehicles are not adequately labeled because the labeling fails to disclose
11 the defects in the Class Vehicles' diesel engine system. The Class Vehicles do not conform to the
12 promises and affirmations made by Fiat Chrysler.

13 493. Fiat Chrysler's breach of the implied warranty of merchantability caused damage
14 to Plaintiffs and the California State Class members who purchased or leased the defective
15 vehicles. The amount of damages due will be proven at trial.

16 494. Pursuant to Cal. Civ. Code §§ 1791.1(d) and 1794, Plaintiffs and the California
17 State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices,
18 damages, punitive damages, and any other just and proper relief available under the Song-Beverly
19 Consumer Warranty Act.

20 **BREACH OF EXPRESS CALIFORNIA EMISSIONS WARRANTIES**
21 **(Cal. Civ. Code § 1793.2, *et seq.*)**

22 495. Plaintiffs reallege and incorporate by reference all preceding allegations as though
23 fully set forth herein.

24 496. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
25 (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the
26 California State Class against Fiat and FCA.

27 497. Each class vehicle is covered by express California Emissions Warranties as a
28 matter of law. *See* Cal. Health & Safety Code § 43205; Cal. Code Regs. tit. 13, § 2037.

1 498. The express California Emissions Warranties generally provide “that the vehicle or
2 engine is...[d]esigned, built, and equipped so as to conform with all applicable regulations
3 adopted by the Air Resources Board.” This provision applies without any time or mileage
4 limitation.

5 499. The California Emissions Warranties also specifically warrant Class members
6 against any performance failure of the emissions control system for three years or 50,000 miles,
7 whichever occurs first, and against any defect in any emission-related part for seven years or
8 70,000 miles, whichever occurs first.

9 500. California law imposes express duties “on the manufacturer of consumer goods
10 sold in this state and for which the manufacturer has made an express warranty.” Cal. Civ. Code
11 § 1793.2.

12 501. Among those duties, “[i]f the manufacturer or its representative in this state is
13 unable to service or repair a new motor vehicle...to conform to the applicable express warranties
14 after a reasonable number of attempts, the manufacturer shall either promptly replace the new
15 motor vehicle or promptly make restitution to the buyer” at the vehicle owner’s option. *See* Cal.
16 Civ. Code § 1793.2(d)(2).

17 502. Class members are excused from the requirement to “deliver nonconforming
18 goods to the manufacturer’s service and repair facility within this state” because Fiat Chrysler is
19 refusing to accept them and delivery of the California Vehicles “cannot reasonably be
20 accomplished.” Cal. Civ. Code § 1793.2(c).

21 503. This complaint is written notice of nonconformity to Defendants and “shall
22 constitute return of the goods.” *Id.*

23 504. In addition to all other damages and remedies, Class members are entitled to
24 “recover a civil penalty of up to two times the amount of damages” for the aforementioned
25 violation. *See* Cal. Civ. Code § 1794(e)(1). Any “third-party dispute resolution process” offered
26 by Defendants does not relieve Defendants from the civil penalty imposed because Defendants
27 are not offering the process to Class members for resolution of these California Emissions
28

Warranties issues and the process is not “substantially” compliant. *See* Cal. Civ. Code § 1794(e)(2); Cal. Civ. Code § 1793.22(d); 16 C.F.R. § 703.2.

6. Colorado

BREACH OF EXPRESS WARRANTY (Colo. Rev. Stat. §§ 4-2-313 and 4-2.5-210)

505. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

506. Plaintiffs Tommy Feist, Ryan Montgomery, and John Webb (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Colorado State Class against Fiat and FCA.

507. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Colo. Rev. Stat. §§ 4-2-104(1) and 4-2.5-103(3), and “sellers” of motor vehicles under § 4-2-103(1)(d).

508. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Colo. Rev. Stat. § 4-2.5-103(1)(p).

509. The Class Vehicles are and were at all relevant times “goods” within the meaning of Colo. Rev. Stat. §§ 4-2-105(1) and 4-2.5-103(1)(h).

510. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.” The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000

1 miles, whichever comes first, or, for the major emission control components, for eight years or
2 80,000 miles, whichever comes first.

3 511. Fiat and FCA provided these warranties to Plaintiffs and the Colorado State Class.
4 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
5 Colorado State Class purchased or leased their Class Vehicles.

6 512. However, Fiat and FCA knew or should have known that the warranties were false
7 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
8 sold and leased to Plaintiffs and the Colorado State Class were designed to deactivate under real-
9 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
10 emissions testing, and therefore, knew that the emission systems contained defects.

11 513. Plaintiffs and the Colorado State Class reasonably relied on Fiat's and FCA's
12 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
13 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
14 Colorado State Class, the Class Vehicles were designed to pollute at higher than legal limits
15 during normal driving, and could not achieve advertised performance and efficiency metrics
16 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
17 FCA therefore breached their express warranty by providing a product containing defects that
18 were never disclosed to Plaintiffs and the Colorado State Class.

19 514. Any opportunity to cure the express breach is unnecessary and futile.

20 515. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
21 Plaintiffs and the Colorado State Class suffered significant damages, and seek damages in an
22 amount to be determined at trial.

23 **BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY**
24 **(Colo. Rev. Stat. §§ 4-2-313 and 4-2.5-212)**

25 516. Plaintiffs reallege and incorporate by reference all allegations of the preceding
26 paragraphs as though fully set forth herein.
27
28

1 517. Plaintiff Tommy Feist, Ryan Montgomery, and John Webb (for the purpose of this
2 section, “Plaintiffs”) bring this action on behalf of themselves and the Colorado State Class
3 against Fiat and FCA.

4 518. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles
5 under Colo. Rev. Stat. §§ 4-2-104(1) and 4-2.5-103(3), and “sellers” of motor vehicles under § 4-
6 2-103(1)(d).

7 519. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
8 motor vehicles under Colo. Rev. Stat. § 4-2.5-103(1)(p).

9 520. The Class Vehicles are and were at all relevant times “goods” within the meaning
10 of Colo. Rev. Stat. §§ 4-2-105(1) and 4-2.5-103(1)(h).

11 521. A warranty that the Class Vehicles were in merchantable condition and fit for the
12 ordinary purpose for which vehicles are used is implied by law pursuant to Colo. Rev. Stat. §§ 4-
13 2-313 and 4-2.5-212.

14 522. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
15 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
16 Vehicles were not in merchantable condition because their design violated state and federal laws.
17 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
18 federal emission standards.

19 523. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
20 damage to the Plaintiffs and the Colorado State Class. The amount of damages due will be
21 proven at trial.

22 7. Connecticut

23 **BREACH OF EXPRESS WARRANTY** 24 **(Conn. Gen. Stat. Ann. § 42A-2-313)**

25 524. Plaintiffs reallege and incorporate by reference all preceding allegations as though
26 fully set forth herein.

27 525. Plaintiff Giuseppe Carillo (for the purpose of this section, “Plaintiff”) brings this
28 action on behalf of himself and the Connecticut State Class against Fiat and FCA.

1 526. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under Conn. Gen. Stat. Ann. § 42a-2-104(1).

3 527. Federal law requires manufacturers of light-duty vehicles to provide two federal
4 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
5 The Performance Warranty applies to repairs that are required during the first two years or 24,000
6 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
7 major emission control components are covered for the first eight years or 80,000 miles,
8 whichever comes first. These major emission control components subject to the longer warranty
9 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
10 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
11 emission control or emission related parts which fail to function or function improperly due to a
12 defect in materials or workmanship. This warranty provides protection for two years or 24,000
13 miles, whichever comes first, or, for the major emission control components, for eight years or
14 80,000 miles, whichever comes first.

15 528. Fiat and FCA provided these warranties to Plaintiff and the Connecticut State
16 Class. These warranties formed the basis of the bargain that was reached when Plaintiff and the
17 Connecticut State Class purchased or leased their Class Vehicles.

18 529. However, Fiat and FCA knew or should have known that the warranties were false
19 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
20 sold and leased to Plaintiff and the Connecticut State Class were designed to deactivate under
21 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
22 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

23 530. Plaintiff and the Connecticut State Class reasonably relied on Fiat’s and FCA’s
24 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
25 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
26 Connecticut State Class, the Class Vehicles were designed to pollute at higher than legal limits
27 during normal driving, and could not achieve advertised performance and efficiency metrics
28 without this cheating design. This design and the devices that effectuate it are defects. Fiat and

1 FCA therefore breached their express warranty by providing a product containing defects that
2 were never disclosed to Plaintiffs and the California State Class.

3 531. Any opportunity to cure the express breach is unnecessary and futile.

4 532. Due to Fiat and FCA's breach of warranty as set forth herein, Plaintiff and the
5 Connecticut State Class assert as an additional and/or alternative remedy, as set forth in Conn.
6 Gen. Stat. Ann. § 42a-2-711, for a revocation of acceptance of the goods and for a return to
7 Plaintiff and the Connecticut State Class of the purchase price of all Class Vehicles currently
8 owned or leased, and for such other incidental and consequential damages as allowed under
9 Conn. Gen. Stat. Ann. §§ 42a-2-711 and 42a-2-608.

10 533. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
11 Plaintiff and the Connecticut State Class suffered significant damages, and seek damages in an
12 amount to be determined at trial.

13 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
14 **(Conn. Gen. Stat. Ann. § 42A-2-314)**

15 534. Plaintiffs reallege and incorporate by reference all allegations of the preceding
16 paragraphs as though fully set forth herein.

17 535. Plaintiff Giuseppe Carillo (for the purpose of this section, "Plaintiff") brings this
18 action on behalf of himself and the Connecticut State Class against Fiat and FCA.

19 536. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
20 under Conn. Gen. Stat. Ann. § 42a-2-104(1).

21 537. A warranty that the Class Vehicles were in merchantable condition and fit for the
22 ordinary purpose for which vehicles are used is implied by law pursuant to Conn. Gen. Stat. Ann.
23 § 42a-2-314.

24 538. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
25 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
26 Vehicles were not in merchantable condition because their design violated state and federal laws.
27 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
28 federal emission standards.

539. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiff and the Connecticut State Class. The amount of damages due will be proven at trial.

8. Delaware

BREACH OF EXPRESS WARRANTY (6 Del. Code §§ 2-313 and 2A-210)

540. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

541. This Count is brought on behalf of the Delaware State Class against Fiat and FCA.

542. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under 6 Del. C. §§ 2-104(1) and 2A-103(3), and "sellers" of motor vehicles under § 2-103(1)(d).

543. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under 6 Del. C. § 2A-103(1)(p).

544. The Class Vehicles are and were at all relevant times "goods" within the meaning of 6 Del. C. §§ 2-105(1) and 2A-103(1)(h).

545. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000

1 miles, whichever comes first, or, for the major emission control components, for eight years or
2 80,000 miles, whichever comes first.

3 546. Fiat and FCA provided these warranties to the Delaware State Class. These
4 warranties formed the basis of the bargain that was reached when the Delaware State Class
5 purchased or leased their Class Vehicles.

6 547. However, Fiat and FCA knew or should have known that the warranties were false
7 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
8 sold and leased to the Delaware State Class were designed to deactivate under real-world driving
9 conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions
10 testing, and therefore, knew that the emission systems contained defects.

11 548. The Delaware State Class reasonably relied on Fiat's and FCA's express
12 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
13 Class Vehicles did not perform as warranted. Unbeknownst to the Delaware State Class, the
14 Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
15 could not achieve advertised performance and efficiency metrics without this cheating design.
16 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their
17 express warranty by providing a product containing defects that were never disclosed to the
18 Delaware State Class.

19 549. Any opportunity to cure the express breach is unnecessary and futile.

20 550. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
21 the Delaware State Class suffered significant damages, and seek damages in an amount to be
22 determined at trial.

23 **BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY**
24 **(6 Del. Code §§ 2-314 and 2A-212)**

25 551. Plaintiffs reallege and incorporate by reference all allegations of the preceding
26 paragraphs as though fully set forth herein.

27 552. This Count is brought on behalf of the Delaware State Class against Fiat and FCA.
28

553. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under 6 Del. C. §§ 2-104(1) and 2A-103(3), and “sellers” of motor vehicles under § 2-103(1)(d).

554. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under 6 Del. C. § 2A-103(1)(p).

555. The Class Vehicles are and were at all relevant times “goods” within the meaning of 6 Del. C. §§ 2-105(1) and 2A-103(1)(h).

556. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to 6 Del. C. §§ 2-314 and 2A-212.

557. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

558. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Delaware State Class. The amount of damages due will be proven at trial.

9. District of Columbia

BREACH OF EXPRESS WARRANTY (D.C. Code §§ 28:2-313 and 28:2A-210)

559. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

560. This count is brought on behalf of the District of Columbia Class against Fiat and FCA.

561. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under D.C. Code §§ 28:2-104(1) and 28:2A-103(a)(20), and “sellers” of motor vehicles under § 28:2-103(1)(d).

562. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under D.C. Code § 28:2A-103(a)(16).

1 563. The Class Vehicles are and were at all relevant times “goods” within the meaning
2 of D.C. Code §§ 28:2-105(1) and 28:2A-103(a)(8).

3 564. Federal law requires manufacturers of light-duty vehicles to provide two federal
4 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
5 The Performance Warranty applies to repairs that are required during the first two years or 24,000
6 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
7 major emission control components are covered for the first eight years or 80,000 miles,
8 whichever comes first. These major emission control components subject to the longer warranty
9 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
10 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
11 emission control or emission related parts which fail to function or function improperly due to a
12 defect in materials or workmanship. This warranty provides protection for two years or 24,000
13 miles, whichever comes first, or, for the major emission control components, for eight years or
14 80,000 miles, whichever comes first.

15 565. Fiat and FCA provided these warranties to the District of Columbia Class. These
16 warranties formed the basis of the bargain that was reached when the District of Columbia Class
17 purchased or leased their Class Vehicles.

18 566. However, Fiat and FCA knew or should have known that the warranties were false
19 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
20 sold and leased to the District of Columbia Class were designed to deactivate under real-world
21 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
22 emissions testing, and therefore, knew that the emission systems contained defects.

23 567. The District of Columbia Class reasonably relied on Fiat’s and FCA’s express
24 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
25 Class Vehicles did not perform as warranted. Unbeknownst to the District of Columbia Class, the
26 Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
27 could not achieve advertised performance and efficiency metrics without this cheating design.
28 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their

1 express warranty by providing a product containing defects that were never disclosed to the
2 District of Columbia Class.

3 568. Any opportunity to cure the express breach is unnecessary and futile.

4 569. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
5 the District of Columbia Class suffered significant damages, and seek damages in an amount to
6 be determined at trial.

7 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
8 **(D.C. Code §§ 28:2-314 and 28:2A-212)**

9 570. Plaintiffs reallege and incorporate by reference all allegations of the preceding
10 paragraphs as though fully set forth herein.

11 571. This count is brought on behalf of the District of Columbia Class against Fiat and
12 FCA.

13 572. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
14 under D.C. Code §§ 28:2-104(1) and 28:2A-103(a)(20), and "sellers" of motor vehicles under
15 § 28:2-103(1)(d).

16 573. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
17 motor vehicles under D.C. Code § 28:2A-103(a)(16).

18 574. The Class Vehicles are and were at all relevant times "goods" within the meaning
19 of D.C. Code §§ 28:2-105(1) and 28:2A-103(a)(8).

20 575. A warranty that the Class Vehicles were in merchantable condition and fit for the
21 ordinary purpose for which vehicles are used is implied by law pursuant to D.C. Code §§ 28:2-
22 314 and 28:2A-212.

23 576. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
24 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
25 Vehicles were not in merchantable condition because their design violated state and federal laws.
26 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
27 federal emission standards.
28

577. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the District of Columbia Class. The amount of damages due will be proven at trial.

10. Florida

BREACH OF EXPRESS WARRANTY (Fla. Stat. §§ 672.313 and 680.21)

578. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

579. Plaintiffs James Boykin, James DeBerry, GN Systems, Inc., Bobby Reichert, and Miguel Silio (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Florida State Class against Fiat and FCA.

580. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Fla. Stat. §§ 672.104(1) and 680.1031(3)(k), and "sellers" of motor vehicles under § 672.103(1)(d).

581. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Fla. Stat. § 680.1031(1)(p).

582. The Class Vehicles are and were at all relevant times "goods" within the meaning of Fla. Stat. §§ 672.105(1) and 680.1031(1)(h).

583. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000

1 miles, whichever comes first, or, for the major emission control components, for eight years or
2 80,000 miles, whichever comes first.

3 584. Fiat and FCA provided these warranties to Plaintiffs and the Florida State Class.
4 These warranties formed the basis of the bargain that was reached when Plaintiffs and the Florida
5 State Class purchased or leased their Class Vehicles.

6 585. However, Fiat and FCA knew or should have known that the warranties were false
7 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
8 sold and leased to Plaintiffs and the Florida State Class were designed to deactivate under real-
9 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
10 emissions testing, and therefore, knew that the emission systems contained defects.

11 586. Plaintiffs and the Florida State Class reasonably relied on Fiat's and FCA's
12 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
13 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
14 Florida State Class, the Class Vehicles were designed to pollute at higher than legal limits during
15 normal driving, and could not achieve advertised performance and efficiency metrics without this
16 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
17 therefore breached their express warranty by providing a product containing defects that were
18 never disclosed to Plaintiffs and the Florida State Class.

19 587. Any opportunity to cure the express breach is unnecessary and futile.

20 588. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
21 Plaintiffs and the Florida State Class suffered significant damages, and seek damages in an
22 amount to be determined at trial.

23 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
24 **(Fla. Stat. §§ 672.314 and 680.212)**

25 589. Plaintiffs reallege and incorporate by reference all allegations of the preceding
26 paragraphs as though fully set forth herein.
27
28

590. Plaintiffs James Boykin, James DeBerry, GN Systems, Inc., Bobby Reichert, and Miguel Silio (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Florida State Class against Fiat and FCA.

591. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Fla. Stat. §§ 672.104(1) and 680.1031(3)(k), and “sellers” of motor vehicles under § 672.103(1)(d).

592. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Fla. Stat. § 680.1031(1)(p).

593. The Class Vehicles are and were at all relevant times “goods” within the meaning of Fla. Stat. §§ 672.105(1) and 680.1031(1)(h).

594. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Fla. Stat. §§ 672.314 and 680.212.

595. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

596. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Florida State Class. The amount of damages due will be proven at trial.

11. Georgia

BREACH OF EXPRESS WARRANTY (Ga. Code. Ann. §§ 11-2-313 and 11-2A-210)

597. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

598. Plaintiffs Marius Bihorean, James DeBerry, Tom Gillespie, Jeffrey Griggs, Michael Johnson, Nelson John Stephens, and William Turner (for the purpose of this section,

1 “Plaintiffs”) bring this action on behalf of themselves and the Georgia State Class against Fiat and
2 FCA.

3 599. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
4 vehicles under Ga. Code Ann. §§ 11-2-104(1) and 11-2A-103(3), and “sellers” of motor vehicles
5 under § 11-2-103(1)(d).

6 600. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
7 motor vehicles under Ga. Code Ann. § 11-2A-103(1)(p).

8 601. The Class Vehicles are and were at all relevant times “goods” within the meaning
9 of Ga. Code Ann. §§ 11-2-105(1) and 11-2A-103(1)(h).

10 602. Federal law requires manufacturers of light-duty vehicles to provide two federal
11 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
12 The Performance Warranty applies to repairs that are required during the first two years or 24,000
13 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
14 major emission control components are covered for the first eight years or 80,000 miles,
15 whichever comes first. These major emission control components subject to the longer warranty
16 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
17 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
18 emission control or emission related parts which fail to function or function improperly due to a
19 defect in materials or workmanship. This warranty provides protection for two years or 24,000
20 miles, whichever comes first, or, for the major emission control components, for eight years or
21 80,000 miles, whichever comes first.

22 603. Fiat and FCA provided these warranties to Plaintiffs and the Georgia State Class.
23 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
24 Georgia State Class purchased or leased their Class Vehicles.

25 604. However, Fiat and FCA knew or should have known that the warranties were false
26 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
27 sold and leased to Plaintiffs and the Georgia State Class were designed to deactivate under real-
28

1 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
2 emissions testing, and therefore, knew that the emission systems contained defects.

3 605. Plaintiffs and the Georgia State Class reasonably relied on Fiat's and FCA's
4 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
5 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
6 Georgia State Class, the Class Vehicles were designed to pollute at higher than legal limits during
7 normal driving, and could not achieve advertised performance and efficiency metrics without this
8 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
9 therefore breached their express warranty by providing a product containing defects that were
10 never disclosed to Plaintiffs and the Georgia State Class.

11 606. Any opportunity to cure the express breach is unnecessary and futile.

12 607. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
13 Plaintiffs and the Georgia State Class suffered significant damages, and seek damages in an
14 amount to be determined at trial.

15 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
16 **(Ga. Code. Ann. §§ 11-2-314 and 11-2A-212)**

17 608. Plaintiffs reallege and incorporate by reference all allegations of the preceding
18 paragraphs as though fully set forth herein.

19 609. Plaintiffs Marius Bihorean, James DeBerry, Tom Gillespie, Jeffrey Griggs,
20 Michael Johnson, Nelson John Stephens, and William Turner (for the purpose of this section,
21 "Plaintiffs") bring this action on behalf of themselves and the Georgia State Class against Fiat and
22 FCA.

23 610. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
24 under Ga. Code Ann. §§ 11-2-104(1) and 11-2A-103(3), and "sellers" of motor vehicles under
25 § 11-2-103(1)(d).

26 611. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
27 motor vehicles under Ga. Code Ann. § 11-2A-103(1)(p).
28

612. The Class Vehicles are and were at all relevant times “goods” within the meaning of Ga. Code Ann. §§ 11-2-105(1) and 11-2A-103(1)(h).

613. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Ga. Code Ann. §§ 11-2-314 and 11-2A-212.

614. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

615. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Georgia State Class. The amount of damages due will be proven at trial.

12. Hawaii

BREACH OF EXPRESS WARRANTY (Haw. Rev. Stat. §§ 490:2-313 and 490:2A-210)

616. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

617. This count is brought on behalf of the Hawaii State Class against Fiat and FCA.

618. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Haw. Rev. Stat. §§ 490:2-104(1) and 490:2A-103(b), and “sellers” of motor vehicles under § 490:2-103(1)(d).

619. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Haw. Rev. Stat. § 490:2A-103(a)(16).

620. The Class Vehicles are and were at all relevant times “goods” within the meaning of Haw. Rev. Stat. §§ 490:2-105(1) and 490:2A-103(a)(8).

621. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”

1 The Performance Warranty applies to repairs that are required during the first two years or 24,000
2 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
3 major emission control components are covered for the first eight years or 80,000 miles,
4 whichever comes first. These major emission control components subject to the longer warranty
5 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
6 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
7 emission control or emission related parts which fail to function or function improperly due to a
8 defect in materials or workmanship. This warranty provides protection for two years or 24,000
9 miles, whichever comes first, or, for the major emission control components, for eight years or
10 80,000 miles, whichever comes first.

11 622. Fiat and FCA provided these warranties to the Hawaii State Class. These
12 warranties formed the basis of the bargain that was reached when the Hawaii State Class
13 purchased or leased their Class Vehicles.

14 623. However, Fiat and FCA knew or should have known that the warranties were false
15 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
16 sold and leased to the Hawaii State Class were designed to deactivate under real-world driving
17 conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions
18 testing, and therefore, knew that the emission systems contained defects.

19 624. The Hawaii State Class reasonably relied on Fiat's and FCA's express warranties
20 concerning emissions when purchasing or leasing the Class Vehicles. However, the Class
21 Vehicles did not perform as warranted. Unbeknownst to the Hawaii State Class, the Class
22 Vehicles were designed to pollute at higher than legal limits during normal driving, and could not
23 achieve advertised performance and efficiency metrics without this cheating design. This design
24 and the devices that effectuate it are defects. Fiat and FCA therefore breached their express
25 warranty by providing a product containing defects that were never disclosed to the Hawaii State
26 Class.

27 625. Any opportunity to cure the express breach is unnecessary and futile.
28

1 626. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
2 the Hawaii State Class suffered significant damages, and seek damages in an amount to be
3 determined at trial.

4 **BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY**
5 **(Haw. Rev. Stat. §§ 490:2-314 and 490:2A-212)**

6 627. Plaintiffs reallege and incorporate by reference all allegations of the preceding
7 paragraphs as though fully set forth herein.

8 628. This count is brought on behalf of the Hawaii State Class against Fiat and FCA.

9 629. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
10 under Haw. Rev. Stat. §§ 490:2-104(1) and 490:2A-103(b), and "sellers" of motor vehicles under
11 § 490:2-103(1)(d).

12 630. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
13 motor vehicles under Haw. Rev. Stat. § 490:2A-103(a)(16).

14 631. The Class Vehicles are and were at all relevant times "goods" within the meaning
15 of Haw. Rev. Stat. §§ 490:2-105(1) and 490:2A-103(a)(8).

16 632. A warranty that the Class Vehicles were in merchantable condition and fit for the
17 ordinary purpose for which vehicles are used is implied by law pursuant to Haw. Rev. Stat.
18 §§ 490:2-314 and 490:2A-212.

19 633. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
20 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
21 Vehicles were not in merchantable condition because their design violated state and federal laws.
22 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
23 federal emission standards.

24 634. Fiat's and FCA's breaches of the implied warranty of merchantability caused
25 damage to the Hawaii State Class. The amount of damages due will be proven at trial.

1 **13. Idaho**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Idaho Code §§ 28-2-313 and 28-12-210)**

4 635. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 636. Plaintiffs Adam Burwell, Karl Calhoun, and Mathue Fasching (for the purpose of
7 this section, “Plaintiffs”) bring this action on behalf of themselves and the Idaho State Class
8 against Fiat and FCA.

9 637. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
10 vehicles under Idaho Code §§ 28-2-104(1) and 28-12-103(3), and “sellers” of motor vehicles
11 under § 28-2-103(1)(d).

12 638. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
13 motor vehicles under Idaho Code § 28-12-103(1)(p).

14 639. The Class Vehicles are and were at all relevant times “goods” within the meaning
15 of Idaho Code §§ 28-2-105(1) and 28-12-103(1)(h)).

16 640. Federal law requires manufacturers of light-duty vehicles to provide two federal
17 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
18 The Performance Warranty applies to repairs that are required during the first two years or 24,000
19 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
20 major emission control components are covered for the first eight years or 80,000 miles,
21 whichever comes first. These major emission control components subject to the longer warranty
22 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
23 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
24 emission control or emission related parts which fail to function or function improperly due to a
25 defect in materials or workmanship. This warranty provides protection for two years or 24,000
26 miles, whichever comes first, or, for the major emission control components, for eight years or
27 80,000 miles, whichever comes first.
28

1 641. Fiat and FCA provided these warranties to Plaintiffs and the Idaho State Class.
2 These warranties formed the basis of the bargain that was reached when Plaintiffs and the Idaho
3 State Class purchased or leased their Class Vehicles.

4 642. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to Plaintiffs and the Idaho State Class were designed to deactivate under real-
7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
8 emissions testing, and therefore, knew that the emission systems contained defects.

9 643. Plaintiffs and the Idaho State Class reasonably relied on Fiat's and FCA's express
10 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
11 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Idaho State
12 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal
13 driving, and could not achieve advertised performance and efficiency metrics without this
14 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
15 therefore breached their express warranty by providing a product containing defects that were
16 never disclosed to Plaintiffs and the Idaho State Class.

17 644. Any opportunity to cure the express breach is unnecessary and futile.

18 645. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 Plaintiffs and the Idaho State Class suffered significant damages, and seek damages in an amount
20 to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(Idaho Code §§ 28-2-314 and 28-12-212)**

23 646. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 647. Plaintiffs Adam Burwell, Karl Calhoun, and Mathue Fasching (for the purpose of
26 this section, "Plaintiffs") bring this action on behalf of themselves and the Idaho State Class
27 against Fiat and FCA.
28

648. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Idaho Code §§ 28-2-104(1) and 28-12-103(3), and “sellers” of motor vehicles under § 28-2-103(1)(d).

649. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Idaho Code § 28-12-103(1)(p).

650. The Class Vehicles are and were at all relevant times “goods” within the meaning of Idaho Code §§ 28-2-105(1) and 28-12-103(1)(h).

651. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant Idaho Code §§ 28-2-314 and 28-12-212.

652. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

653. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Idaho State Class. The amount of damages due will be proven at trial.

14. Illinois

BREACH OF EXPRESS WARRANTY (810 Ill. Comp. Stat. §§ 5/2-313 and 5/2A-210)

654. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

655. Plaintiff Aaron Carter (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Illinois State Class against Fiat and FCA.

656. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under 810 Ill. Comp. Stat. §§ 5/2-104(1) and 5/2A-103(3), and “sellers” of motor vehicles under § 5/2-103(1)(d).

1 657. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
2 motor vehicles under 810 Ill. Comp. Stat. § 5/2A-103(1)(p).

3 658. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of 810 Ill. Comp. Stat. §§ 5/2-105(1) and 5/2A-103(1)(h).

5 659. Federal law requires manufacturers of light-duty vehicles to provide two federal
6 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
7 The Performance Warranty applies to repairs that are required during the first two years or 24,000
8 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
9 major emission control components are covered for the first eight years or 80,000 miles,
10 whichever comes first. These major emission control components subject to the longer warranty
11 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
12 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
13 emission control or emission related parts which fail to function or function improperly due to a
14 defect in materials or workmanship. This warranty provides protection for two years or 24,000
15 miles, whichever comes first, or, for the major emission control components, for eight years or
16 80,000 miles, whichever comes first.

17 660. Fiat and FCA provided these warranties to Plaintiff and the Illinois State Class.
18 These warranties formed the basis of the bargain that was reached when Plaintiff and the Illinois
19 State Class purchased or leased their Class Vehicles.

20 661. However, Fiat and FCA knew or should have known that the warranties were false
21 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
22 sold and leased to Plaintiff and the Illinois State Class were designed to deactivate under real-
23 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
24 emissions testing, and therefore, knew that the emission systems contained defects.

25 662. Plaintiff and the Illinois State Class reasonably relied on Fiat’s and FCA’s express
26 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
27 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Illinois State
28 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal

1 driving, and could not achieve advertised performance and efficiency metrics without this
2 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
3 therefore breached their express warranty by providing a product containing defects that were
4 never disclosed to Plaintiff and the Illinois State Class.

5 663. Any opportunity to cure the express breach is unnecessary and futile.

6 664. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
7 Plaintiff and the Illinois State Class suffered significant damages, and seek damages in an amount
8 to be determined at trial.

9 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
10 **(810 Ill. Comp. Stat. §§ 5/2-314 and 5/2A-212)**

11 665. Plaintiffs reallege and incorporate by reference all allegations of the preceding
12 paragraphs as though fully set forth herein.

13 666. Plaintiff Aaron Carter (for the purpose of this section, "Plaintiff") brings this
14 action on behalf of himself and the Illinois State Class against Fiat and FCA.

15 667. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
16 under 810 Ill. Comp. Stat. §§ 5/2-104(1) and 5/2A-103(3), and "sellers" of motor vehicles under
17 § 5/2-103(1)(d).

18 668. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
19 motor vehicles under 810 Ill. Comp. Stat. § 5/2A-103(1)(p).

20 669. The Class Vehicles are and were at all relevant times "goods" within the meaning
21 810 Ill. Comp. Stat. §§ 5/2-105(1) and 5/2A-103(1)(h)).

22 670. A warranty that the Class Vehicles were in merchantable condition and fit for the
23 ordinary purpose for which vehicles are used is implied by law pursuant 810 Ill. Comp. Stat.
24 §§ 28-2-314 and 28-12-212.

25 671. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
26 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
27 Vehicles were not in merchantable condition because their design violated state and federal laws.
28

1 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
2 federal emission standards.

3 672. Fiat's and FCA's breaches of the implied warranty of merchantability caused
4 damage to the Plaintiff and the Illinois State Class. The amount of damages due will be proven at
5 trial.

6 **15. Indiana**

7 **BREACH OF EXPRESS WARRANTY**
8 **(Ind. Code §§ 26-1-2-313 and 26-1-2.1-210)**

9 673. Plaintiffs reallege and incorporate by reference all preceding allegations as though
10 fully set forth herein.

11 674. Plaintiff Mark Richards (for the purpose of this section, "Plaintiff") brings this
12 action on behalf of himself and the Indiana State Class against Fiat and FCA.

13 675. Fiat and FCA are and were at all relevant times "merchants" with respect to motor
14 vehicles under Ind. Code §§ 26-1-2-104(1) and 26-1-2.1-103(3), and "sellers" of motor vehicles
15 under § 26-1-2-103(1)(d).

16 676. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of
17 motor vehicles under Ind. Code § 26-1-2.1-103(1)(p).

18 677. The Class Vehicles are and were at all relevant times "goods" within the meaning
19 of Ind. Code §§ 26-1-2-105(1) and 26-1-2.1-103(1)(h).

20 678. Federal law requires manufacturers of light-duty vehicles to provide two federal
21 emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."
22 The Performance Warranty applies to repairs that are required during the first two years or 24,000
23 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
24 major emission control components are covered for the first eight years or 80,000 miles,
25 whichever comes first. These major emission control components subject to the longer warranty
26 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
27 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
28 emission control or emission related parts which fail to function or function improperly due to a

1 defect in materials or workmanship. This warranty provides protection for two years or 24,000
2 miles, whichever comes first, or, for the major emission control components, for eight years or
3 80,000 miles, whichever comes first.

4 679. Fiat and FCA provided these warranties to Plaintiff and the Indiana State Class.
5 These warranties formed the basis of the bargain that was reached when Plaintiff and the Indiana
6 State Class purchased or leased their Class Vehicles.

7 680. However, Fiat and FCA knew or should have known that the warranties were false
8 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
9 sold and leased to Plaintiff and the Indiana State Class were designed to deactivate under real-
10 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
11 emissions testing, and therefore, knew that the emission systems contained defects.

12 681. Plaintiff and the Indiana State Class reasonably relied on Fiat's and FCA's express
13 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
14 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Indiana State
15 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal
16 driving, and could not achieve advertised performance and efficiency metrics without this
17 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
18 therefore breached their express warranty by providing a product containing defects that were
19 never disclosed to Plaintiff and the Indiana State Class.

20 682. Any opportunity to cure the express breach is unnecessary and futile.

21 683. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
22 Plaintiff and the Indiana State Class suffered significant damages, and seek damages in an amount
23 to be determined at trial.

24 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
25 **(Ind. Code §§ 26-1-2-314 and 26-1-2.1-212)**

26 684. Plaintiffs reallege and incorporate by reference all allegations of the preceding
27 paragraphs as though fully set forth herein.
28

685. Plaintiff Mark Richards (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Indiana State Class against Fiat and FCA.

686. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Ind. Code §§ 26-1-2-104(1) and 26-1-2.1-103(3), and “sellers” of motor vehicles under § 26-1-2-103(1)(d).

687. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Ind. Code § 26-1-2.1-103(1)(p).

688. The Class Vehicles are and were at all relevant times “goods” within the meaning of Ind. Code §§ 26-1-2-105(1) and 26-1-2.1-103(1)(h).

689. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Ind. Code §§ 26-1-2-314 and 26-1-2.1-212.

690. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

691. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiff and the Indiana State Class. The amount of damages due will be proven at trial.

16. Iowa

BREACH OF EXPRESS WARRANTY (Iowa Code §§ 554.2313 and 554.13210)

692. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

693. Plaintiff Kirk Petersen (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Iowa State Class against Fiat and FCA.

694. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Iowa Code §§ 554.2104(1) and 554.13103(3), and “sellers” of motor vehicles under § 554.2103(1)(d).

695. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Iowa Code § 554.13103(1)(p).

696. The Class Vehicles are and were at all relevant times “goods” within the meaning of Iowa Code §§ 554.2105(1) and 554.13103(1)(h).

697. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.” The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000 miles, whichever comes first, or, for the major emission control components, for eight years or 80,000 miles, whichever comes first.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Iowa Code §§ 554.2314 and 554.13212)

698. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

699. Plaintiff Kirk Petersen (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Iowa State Class against Fiat and FCA.

700. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Iowa Code §§ 554.2104(1) and 554.13103(3), and “sellers” of motor vehicles under § 554.2103(1)(d).

1 701. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
2 motor vehicles under Iowa Code § 554.13103(1)(p).

3 702. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of Iowa Code §§ 554.2105(1) and 554.13103(1)(h).

5 703. A warranty that the Class Vehicles were in merchantable condition and fit for the
6 ordinary purpose for which vehicles are used is implied by law pursuant to Iowa Code
7 §§ 554.2314 and 554.13212.

8 704. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
9 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
10 Vehicles were not in merchantable condition because their design violated state and federal laws.
11 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
12 federal emission standards.

13 705. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
14 damage to Plaintiff and the Iowa State Class. The amount of damages due will be proven at trial.

15 **17. Kansas**

16 **BREACH OF EXPRESS WARRANTY**
17 **(Kan. Stat. Ann. §§ 84-2-314 and 84-2A-210)**

18 706. Plaintiffs reallege and incorporate by reference all preceding allegations as though
19 fully set forth herein.

20 707. This count is brought on behalf of the Kansas State Class against Fiat and FCA.

21 708. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
22 vehicles under Kan. Stat. Ann. §§ 84-2-104(1) and 84-2A-103(3), and “sellers” of motor vehicles
23 under § 84-2-103(1)(d).

24 709. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
25 motor vehicles under Kan. Stat. Ann. § 84-2A-103(1)(p).

26 710. The Class Vehicles are and were at all relevant times “goods” within the meaning
27 of Kan. Stat. Ann. §§ 84-2-105(1) and 84-2A-103(1)(h).
28

1 711. Federal law requires manufacturers of light-duty vehicles to provide two federal
2 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
3 The Performance Warranty applies to repairs that are required during the first two years or 24,000
4 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
5 major emission control components are covered for the first eight years or 80,000 miles,
6 whichever comes first. These major emission control components subject to the longer warranty
7 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
8 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
9 emission control or emission related parts which fail to function or function improperly due to a
10 defect in materials or workmanship. This warranty provides protection for two years or 24,000
11 miles, whichever comes first, or, for the major emission control components, for eight years or
12 80,000 miles, whichever comes first.

13 712. Fiat and FCA provided these warranties to the Kansas State Class. These
14 warranties formed the basis of the bargain that was reached when the Kansas State Class
15 purchased or leased their Class Vehicles.

16 713. However, Fiat and FCA knew or should have known that the warranties were false
17 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
18 sold and leased to the Kansas State Class were designed to deactivate under real-world driving
19 conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions
20 testing, and therefore, knew that the emission systems contained defects.

21 714. The Kansas State Class reasonably relied on Fiat’s and FCA’s express warranties
22 concerning emissions when purchasing or leasing the Class Vehicles. However, the Class
23 Vehicles did not perform as warranted. Unbeknownst to the Kansas State Class, the Class
24 Vehicles were designed to pollute at higher than legal limits during normal driving, and could not
25 achieve advertised performance and efficiency metrics without this cheating design. This design
26 and the devices that effectuate it are defects. Fiat and FCA therefore breached their express
27 warranty by providing a product containing defects that were never disclosed to the Kansas State
28 Class.

1 715. Any opportunity to cure the express breach is unnecessary and futile.

2 716. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
3 the Kansas State Class suffered significant damages, and seek damages in an amount to be
4 determined at trial.

5 717. Fiat and FCA provided these warranties to the Kansas State Class. These
6 warranties formed the basis of the bargain that was reached when the Kansas State Class
7 purchased or leased their Class Vehicles.

8 718. However, Fiat and FCA knew or should have known that the warranties were false
9 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
10 sold and leased to the Kansas State Class were designed to deactivate under real-world driving
11 conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions
12 testing, and therefore, knew that the emission systems contained defects.

13 719. The Kansas State Class reasonably relied on Fiat's and FCA's express warranties
14 concerning emissions when purchasing or leasing the Class Vehicles. However, the Class
15 Vehicles did not perform as warranted. Unbeknownst to the Kansas State Class, the Class
16 Vehicles were designed to pollute at higher than legal limits during normal driving, and could not
17 achieve advertised performance and efficiency metrics without this cheating design. This design
18 and the devices that effectuate it are defects. Fiat and FCA therefore breached their express
19 warranty by providing a product containing defects that were never disclosed to the Kansas State
20 Class.

21 720. Any opportunity to cure the express breach is unnecessary and futile.

22 721. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
23 the Kansas State Class suffered significant damages, and seek damages in an amount to be
24 determined at trial.

25 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
26 **(Kan. Stat. Ann. §§ 84-2-314 and 84-2A-212)**

27 722. Plaintiffs reallege and incorporate by reference all allegations of the preceding
28 paragraphs as though fully set forth herein.

1 723. This count is brought on behalf of the Kansas State Class against Fiat and FCA.

2 724. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles
3 under Kan. Stat. Ann. §§ 84-2-104(1) and 84-2A-103(3), and “sellers” of motor vehicles under
4 § 84-2-103(1)(d).

5 725. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
6 motor vehicles under Kan. Stat. Ann. § 84-2A-103(1)(p).

7 726. The Class Vehicles are and were at all relevant times “goods” within the meaning
8 of Kan. Stat. Ann. §§ 84-2-105(1) and 84-2A-103(1)(h).

9 727. A warranty that the Class Vehicles were in merchantable condition and fit for the
10 ordinary purpose for which vehicles are used is implied by law pursuant to Kan. Stat. Ann. §§ 84-
11 2-314 and 84-2A-212.

12 728. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
13 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
14 Vehicles were not in merchantable condition because their design violated state and federal laws.
15 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
16 federal emission standards.

17 729. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
18 damage to the Kansas State Class. The amount of damages due will be proven at trial.

19 **18. Kentucky**

20 **BREACH OF EXPRESS WARRANTY**
21 **(KY. REV. STAT. §§ 335.2-313 and 355.2A-210)**

22 730. Plaintiffs reallege and incorporate by reference all preceding allegations as though
23 fully set forth herein.

24 731. Plaintiff Doru Bali (for the purpose of this section, “Plaintiff”) brings this action
25 on behalf of himself and the Kentucky State Class against Fiat and FCA.

26 732. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
27 vehicles under Ky. Rev. Stat. §§ 355.2-104(1) and 355.2A-103(3), and “sellers” of motor vehicles
28 under § 355.2-103(1)(d).

1 733. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
2 motor vehicles under Ky. Rev. Stat. § 355.2A-103(1)(p).

3 734. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of Ky. Rev. Stat. §§ 355.2-105(1) and 355.2A-103(1)(h).

5 735. Federal law requires manufacturers of light-duty vehicles to provide two federal
6 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
7 The Performance Warranty applies to repairs that are required during the first two years or 24,000
8 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
9 major emission control components are covered for the first eight years or 80,000 miles,
10 whichever comes first. These major emission control components subject to the longer warranty
11 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
12 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
13 emission control or emission related parts which fail to function or function improperly due to a
14 defect in materials or workmanship. This warranty provides protection for two years or 24,000
15 miles, whichever comes first, or, for the major emission control components, for eight years or
16 80,000 miles, whichever comes first.

17 736. Fiat and FCA provided these warranties to Plaintiff and the Kentucky State Class.
18 These warranties formed the basis of the bargain that was reached when Plaintiff and the
19 Kentucky State Class purchased or leased their Class Vehicles.

20 737. However, Fiat and FCA knew or should have known that the warranties were false
21 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
22 sold and leased to Plaintiff and the Kentucky State Class were designed to deactivate under real-
23 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
24 emissions testing, and therefore, knew that the emission systems contained defects.

25 738. Plaintiff and the Kentucky State Class reasonably relied on Fiat’s and FCA’s
26 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
27 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
28 Kentucky State Class, the Class Vehicles were designed to pollute at higher than legal limits

1 during normal driving, and could not achieve advertised performance and efficiency metrics
 2 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
 3 FCA therefore breached their express warranty by providing a product containing defects that
 4 were never disclosed to Plaintiff and the Kentucky State Class.

5 739. Any opportunity to cure the express breach is unnecessary and futile.

6 740. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 7 Plaintiff and the Kentucky State Class suffered significant damages, and seek damages in an
 8 amount to be determined at trial.

9 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 10 **(KY. REV. STAT. §§ 335.2-314 and 355.2A-212)**

11 741. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 12 paragraphs as though fully set forth herein.

13 742. Plaintiff Doru Bali (for the purpose of this section, "Plaintiff") brings this action
 14 on behalf of himself and the Kentucky State Class against Fiat and FCA.

15 743. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 16 under Ky. Rev. Stat. §§ 355.2-104(1) and 355.2A-103(3), and "sellers" of motor vehicles under
 17 § 355.2-103(1)(d).

18 744. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
 19 motor vehicles under Ky. Rev. Stat. § 355.2A-103(1)(p).

20 745. The Class Vehicles are and were at all relevant times "goods" within the meaning
 21 of Ky. Rev. Stat. §§ 355.2-105(1) and 355.2A-103(1)(h).

22 746. A warranty that the Class Vehicles were in merchantable condition and fit for the
 23 ordinary purpose for which vehicles are used is implied by law pursuant to Ky. Rev. Stat.
 24 §§ 335.2-314 and 355.2A-212.

25 747. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
 26 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
 27 Vehicles were not in merchantable condition because their design violated state and federal laws.
 28

1 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
2 federal emission standards.

3 748. Fiat's and FCA's breaches of the implied warranty of merchantability caused
4 damage to the Plaintiff and the Kentucky State Class. The amount of damages due will be proven
5 at trial.

6 **19. Louisiana**

7 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY/
8 WARRANTY AGAINST REDHIBITORY DEFECTS
(La. Civ. Code Art. 2520, 2524)**

9 749. Plaintiffs reallege and incorporate by reference all allegations of the preceding
10 paragraphs as though fully set forth herein.

11 750. Plaintiffs Jamie Broom, Samuel Price, and John Radziewicz (for the purpose of
12 this section, "Plaintiffs") bring this action on behalf of themselves and the Louisiana State Class
13 against Fiat and FCA.

14 751. Fiat and FCA were at all relevant times "merchants" with respect to motor
15 vehicles.

16 752. A warranty that the Class Vehicles were in merchantable condition and fit for the
17 ordinary purpose for which vehicles are used is implied by law in the instant transactions.

18 753. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
19 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
20 Vehicles were not in merchantable condition because their design violated state and federal laws.
21 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
22 federal emission standards.

23 754. Fiat's and FCA's breaches of the implied warranty of merchantability caused
24 damage to the Plaintiffs and the Louisiana State Class. The amount of damages due will be
25 proven at trial.

1 **20. Maine**

2 **BREACH OF EXPRESS WARRANTY**
3 **(ME. REV. STAT. TIT. 11 §§ 2-313 and 2-1210)**

4 755. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 756. Plaintiff Edward Devault (for the purpose of this section, “Plaintiff”) brings this
7 action on behalf of himself and the Maine State Class against Fiat and FCA.

8 757. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Me. Rev. Stat. Ann. Tit. 11 §§ 2-104(1), and 2-1103(3), and is a “seller” of motor
10 vehicles under § 2-103(1)(d).

11 758. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
12 motor vehicles under Me. Rev. Stat. Ann. Tit. 11 § 2-1103(1)(p).

13 759. The Class Vehicles are and were at all relevant times “goods” within the meaning
14 of Me. Rev. Stat. Ann. Tit. 11 §§ 2-105(1), and 2-1103(1)(h).

15 760. Federal law requires manufacturers of light-duty vehicles to provide two federal
16 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
17 The Performance Warranty applies to repairs that are required during the first two years or 24,000
18 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
19 major emission control components are covered for the first eight years or 80,000 miles,
20 whichever comes first. These major emission control components subject to the longer warranty
21 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
22 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
23 emission control or emission related parts which fail to function or function improperly due to a
24 defect in materials or workmanship. This warranty provides protection for two years or 24,000
25 miles, whichever comes first, or, for the major emission control components, for eight years or
26 80,000 miles, whichever comes first.

1 761. Fiat and FCA provided these warranties to Plaintiff and the Maine State Class.
2 These warranties formed the basis of the bargain that was reached when Plaintiff and the Maine
3 State Class purchased or leased their Class Vehicles.

4 762. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to Plaintiff and the Maine State Class were designed to deactivate under real-
7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
8 emissions testing, and therefore, knew that the emission systems contained defects.

9 763. Plaintiff and the Maine State Class reasonably relied on Fiat's and FCA's express
10 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
11 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Maine State
12 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal
13 driving, and could not achieve advertised performance and efficiency metrics without this
14 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
15 therefore breached their express warranty by providing a product containing defects that were
16 never disclosed to Plaintiff and the Maine State Class.

17 764. Any opportunity to cure the express breach is unnecessary and futile.

18 765. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 Plaintiff and the Maine State Class suffered significant damages, and seek damages in an amount
20 to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(ME. REV. STAT. TIT. 11 §§ 2-314 and 2-1212)**

23 766. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 767. Plaintiff Edward Devault (for the purpose of this section, "Plaintiff") brings this
26 action on behalf of himself and the Maine State Class against Fiat and FCA.

768. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Me. Rev. Stat. Ann. Tit. 11 §§ 2-104(1), and 2-1103(3), and is a “seller” of motor vehicles under § 2-103(1)(d).

769. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Me. Rev. Stat. Ann. Tit. 11 § 2-1103(1)(p).

770. The Class Vehicles are and were at all relevant times “goods” within the meaning of Me. Rev. Stat. Ann. Tit. 11 §§ 2-105(1), and 2-1103(1)(h).

771. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Me. Rev. Stat. Ann. Tit. 11 §§ 2-314, and 2-1212.

772. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

773. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to Plaintiff and the Maine State Class. The amount of damages due will be proven at trial.

21. Maryland

BREACH OF EXPRESS WARRANTY (Md. Code, Com. Law §§ 2-313 and 2a-210)

774. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

775. Plaintiffs Kyle and Jessica Heidlebaugh and Donald Korrell II (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Maryland State Class against Fiat and FCA.

1 776. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under Md. Code Com. Law § 2-104(1) and “sellers” of motor vehicles under § 2-
3 103(1)(d).

4 777. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
5 motor vehicles under Md. Code Com. Law § 2A-103(1)(p).

6 778. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of Md. Code Com. Law §§ 2-105(1) and 2a-103(1)(h).

8 779. Federal law requires manufacturers of light-duty vehicles to provide two federal
9 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
10 The Performance Warranty applies to repairs that are required during the first two years or 24,000
11 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
12 major emission control components are covered for the first eight years or 80,000 miles,
13 whichever comes first. These major emission control components subject to the longer warranty
14 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
15 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
16 emission control or emission related parts which fail to function or function improperly due to a
17 defect in materials or workmanship. This warranty provides protection for two years or 24,000
18 miles, whichever comes first, or, for the major emission control components, for eight years or
19 80,000 miles, whichever comes first.

20 780. Fiat and FCA provided these warranties to Plaintiffs and the Maryland State Class.
21 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
22 Maryland State Class purchased or leased their Class Vehicles.

23 781. However, Fiat and FCA knew or should have known that the warranties were false
24 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
25 sold and leased to Plaintiffs and the Maryland State Class were designed to deactivate under real-
26 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
27 emissions testing, and therefore, knew that the emission systems contained defects.
28

1 782. Plaintiffs and the Maryland State Class reasonably relied on Fiat's and FCA's
2 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
3 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
4 Maryland State Class, the Class Vehicles were designed to pollute at higher than legal limits
5 during normal driving, and could not achieve advertised performance and efficiency metrics
6 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
7 FCA therefore breached their express warranty by providing a product containing defects that
8 were never disclosed to Plaintiffs and the Maryland State Class.

9 783. Any opportunity to cure the express breach is unnecessary and futile.

10 784. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
11 Plaintiffs and the Maryland State Class suffered significant damages, and seek damages in an
12 amount to be determined at trial.

13 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
14 **(Md. Code Com. Law §§ 2-314 and 2A-212)**

15 785. Plaintiffs reallege and incorporate by reference all allegations of the preceding
16 paragraphs as though fully set forth herein.

17 786. Plaintiffs Kyle and Jessica Heidlebaugh and Donald Korrell II (for the purpose of
18 this section, "Plaintiffs") bring this action on behalf of themselves and the Maryland State Class
19 against Fiat and FCA.

20 787. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
21 under Md. Code Com. Law § 2-104(1) and "sellers" of motor vehicles under § 2-103(1)(d).

22 788. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
23 motor vehicles under Md. Code Com. Law § 2A-103(1)(p).

24 789. The Class Vehicles are and were at all relevant times "goods" within the meaning
25 of Md. Code Com. Law §§ 2-105(1) and 2a-103(1)(h).

26 790. A warranty that the Class Vehicles were in merchantable condition and fit for the
27 ordinary purpose for which vehicles are used is implied by law pursuant to Md. Code Com. Law
28 §§ 2-314 and 2a-212.

791. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

792. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Maryland State Class. The amount of damages due will be proven at trial.

22. Massachusetts

BREACH OF EXPRESS WARRANTY (Mass. Gen. Laws Ch. 106 §§ 2-313 and 2A-210)

793. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

794. Plaintiff Benjamin Greenberg (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Massachusetts State Class against Fiat and FCA.

795. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Mass Gen. Laws ch. 106 § 2-104(1) and is a "seller" of motor vehicles under § 2-103(1) (d).

796. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Mass Gen. Laws ch. 106 § 2A-103(1)(p).

797. The Class Vehicles are and were at all relevant times "goods" within the meaning of Mass. Gen. Laws ch. 106 §§ 2-105(1) and 2A-103(1)(h).

798. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty

1 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
2 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
3 emission control or emission related parts which fail to function or function improperly due to a
4 defect in materials or workmanship. This warranty provides protection for two years or 24,000
5 miles, whichever comes first, or, for the major emission control components, for eight years or
6 80,000 miles, whichever comes first.

7 799. Fiat and FCA provided these warranties to Plaintiff and the Massachusetts State
8 Class. These warranties formed the basis of the bargain that was reached when Plaintiff and the
9 Massachusetts State Class purchased or leased their Class Vehicles.

10 800. However, Fiat and FCA knew or should have known that the warranties were false
11 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
12 sold and leased to Plaintiff and the Massachusetts State Class were designed to deactivate under
13 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
14 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

15 801. Plaintiff and the Massachusetts State Class reasonably relied on Fiat's and FCA's
16 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
17 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
18 Massachusetts State Class, the Class Vehicles were designed to pollute at higher than legal limits
19 during normal driving, and could not achieve advertised performance and efficiency metrics
20 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
21 FCA therefore breached their express warranty by providing a product containing defects that
22 were never disclosed to Plaintiff and the Massachusetts State Class.

23 802. Any opportunity to cure the express breach is unnecessary and futile.

24 803. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
25 Plaintiff and the Massachusetts State Class suffered significant damages, and seek damages in an
26 amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Mass. Gen. Laws Ch. 106 §§ 2-314 and 2A-212)

804. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

805. Plaintiff Benjamin Greenberg (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Massachusetts State Class against Fiat and FCA.

806. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Mass Gen. Laws ch. 106 § 2-104(1) and is a “seller” of motor vehicles under § 2-103(1) (d).

807. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Mass Gen. Laws ch. 106 § 2A-103(1)(p).

808. The Class Vehicles are and were at all relevant times “goods” within the meaning of Mass. Gen. Laws ch. 106 §§ 2-105(1) and 2A-103(1)(h).

809. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Mass. Gen. Laws ch. 106 §§ 2-314 and 2A-212.

810. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

811. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiff and the Massachusetts State Class. The amount of damages due will be proven at trial.

1 **23. Michigan**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Mich. Comp. Laws §§ 440.2313 and 440.2860)**

4 812. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 813. Plaintiff Doru Bali (for the purpose of this section, “Plaintiff”) brings this action
7 on behalf of himself and the Michigan State Class against Fiat and FCA.

8 814. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Mich. Comp. Laws § 440.2104(1) and “sellers” of motor vehicles under
10 § 440.2103(1)(c).

11 815. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
12 motor vehicles under Mich. Comp. Laws § 440.2803(1)(p).

13 816. The Class Vehicles are and were at all relevant times “goods” within the meaning
14 of Mich. Comp. Laws §§ 440.2105(1) and 440.2803(1)(h).

15 817. Federal law requires manufacturers of light-duty vehicles to provide two federal
16 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
17 The Performance Warranty applies to repairs that are required during the first two years or 24,000
18 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
19 major emission control components are covered for the first eight years or 80,000 miles,
20 whichever comes first. These major emission control components subject to the longer warranty
21 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
22 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
23 emission control or emission related parts which fail to function or function improperly due to a
24 defect in materials or workmanship. This warranty provides protection for two years or 24,000
25 miles, whichever comes first, or, for the major emission control components, for eight years or
26 80,000 miles, whichever comes first.

1 818. Fiat and FCA provided these warranties to Plaintiff and the Michigan State Class.
 2 These warranties formed the basis of the bargain that was reached when Plaintiff and the
 3 Michigan State Class purchased or leased their Class Vehicles.

4 819. However, Fiat and FCA knew or should have known that the warranties were false
 5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
 6 sold and leased to Plaintiff and the Michigan State Class were designed to deactivate under real-
 7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
 8 emissions testing, and therefore, knew that the emission systems contained defects.

9 820. Plaintiff and the Michigan State Class reasonably relied on Fiat's and FCA's
 10 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
 11 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
 12 Michigan State Class, the Class Vehicles were designed to pollute at higher than legal limits
 13 during normal driving, and could not achieve advertised performance and efficiency metrics
 14 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
 15 FCA therefore breached their express warranty by providing a product containing defects that
 16 were never disclosed to Plaintiff and the Michigan State Class.

17 821. Any opportunity to cure the express breach is unnecessary and futile.

18 822. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 19 Plaintiff and the Michigan State Class suffered significant damages, and seek damages in an
 20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 22 **(Mich. Comp. Laws §§ 440.2314 and 440.2860)**

23 823. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 24 paragraphs as though fully set forth herein.

25 824. Plaintiff Doru Bali (for the purpose of this section, "Plaintiff") brings this action
 26 on behalf of himself and the Michigan State Class against Fiat and FCA.

27 825. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 28 under Mich. Comp. Laws § 440.2104(1) and "sellers" of motor vehicles under § 440.2103(1)(c).

826. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Mich. Comp. Laws § 440.2803(1)(p).

827. The Class Vehicles are and were at all relevant times “goods” within the meaning of Mich. Comp. Laws §§ 440.2105(1) and 440.2803(1)(h).

828. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Mich. Comp. Laws §§ 440.2314 and 440.2862.

829. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

830. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiff and the Michigan State Class. The amount of damages due will be proven at trial.

24. Minnesota

BREACH OF EXPRESS WARRANTY (Minn. Stat. §§ 336.2-313 and 336.2A-210)

831. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

832. Plaintiff Josh Claflin (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Minnesota State Class against Fiat and FCA.

833. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Minn. Stat. § 336.2-104(1) and “sellers” of motor vehicles under § 336.2-103(1)(d).

834. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Minn. Stat. § 336.2A-103(1)(p).

1 835. The Class Vehicles are and were at all relevant times “goods” within the meaning
2 of Minn. Stat. § 336.2-105(1) and 336.2A-103(1)(h).

3 836. Federal law requires manufacturers of light-duty vehicles to provide two federal
4 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
5 The Performance Warranty applies to repairs that are required during the first two years or 24,000
6 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
7 major emission control components are covered for the first eight years or 80,000 miles,
8 whichever comes first. These major emission control components subject to the longer warranty
9 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
10 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
11 emission control or emission related parts which fail to function or function improperly due to a
12 defect in materials or workmanship. This warranty provides protection for two years or 24,000
13 miles, whichever comes first, or, for the major emission control components, for eight years or
14 80,000 miles, whichever comes first.

15 837. Fiat and FCA provided these warranties to Plaintiff and the Minnesota State Class.
16 These warranties formed the basis of the bargain that was reached when Plaintiff and the
17 Minnesota State Class purchased or leased their Class Vehicles.

18 838. However, Fiat and FCA knew or should have known that the warranties were false
19 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
20 sold and leased to Plaintiff and the Minnesota State Class were designed to deactivate under real-
21 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
22 emissions testing, and therefore, knew that the emission systems contained defects.

23 839. Plaintiff and the Minnesota State Class reasonably relied on Fiat’s and FCA’s
24 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
25 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
26 Minnesota State Class, the Class Vehicles were designed to pollute at higher than legal limits
27 during normal driving, and could not achieve advertised performance and efficiency metrics
28 without this cheating design. This design and the devices that effectuate it are defects. Fiat and

1 FCA therefore breached their express warranty by providing a product containing defects that
2 were never disclosed to Plaintiff and the Minnesota State Class.

3 840. Any opportunity to cure the express breach is unnecessary and futile.

4 841. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
5 Plaintiff and the Minnesota State Class suffered significant damages, and seek damages in an
6 amount to be determined at trial.

7 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
8 **(Minn. Stat. §§ 336.2-314 and 336.2A-212)**

9 842. Plaintiffs reallege and incorporate by reference all allegations of the preceding
10 paragraphs as though fully set forth herein.

11 843. Plaintiff Josh Claflin (for the purpose of this section, "Plaintiff") brings this action
12 on behalf of himself and the Minnesota State Class against Fiat and FCA.

13 844. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
14 under Minn. Stat. § 336.2-104(1) and "sellers" of motor vehicles under § 336.2-103(1)(d).

15 845. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
16 motor vehicles under Minn. Stat. § 336.2A-103(1)(p).

17 846. The Class Vehicles are and were at all relevant times "goods" within the meaning
18 of Minn. Stat. §§ 336.2-105(1) and 336.2A-103(1)(h).

19 847. A warranty that the Class Vehicles were in merchantable condition and fit for the
20 ordinary purpose for which vehicles are used is implied by law pursuant to Minn. Stat. §§ 336.2-
21 314 and 336.2A-212.

22 848. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
23 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
24 Vehicles were not in merchantable condition because their design violated state and federal laws.
25 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
26 federal emission standards.

849. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiff and the Minnesota State Class. The amount of damages due will be proven at trial.

25. Mississippi

**BREACH OF EXPRESS WARRANTY
(Miss. Code §§ 75-2-313 and 75-2A-210)**

850. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

851. Plaintiff Anthony Alley (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Mississippi State Class against Fiat and FCA.

852. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Miss. Code § 75-2-104(1) and "sellers" of motor vehicles under § 75-2-103(1)(d).

853. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Miss. Code § 75-2A-103(1)(p).

854. The Class Vehicles are and were at all relevant times "goods" within the meaning of Miss. Code §§ 75-2-105(1) and 75-2A-103(1)(h).

855. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000 miles, whichever comes first, or, for the major emission control components, for eight years or 80,000 miles, whichever comes first.

1 856. Fiat and FCA provided these warranties to Plaintiff and the Mississippi State
2 Class. These warranties formed the basis of the bargain that was reached when Plaintiff and the
3 Mississippi State Class purchased or leased their Class Vehicles.

4 857. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to Plaintiff and the Mississippi State Class were designed to deactivate under real-
7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
8 emissions testing, and therefore, knew that the emission systems contained defects.

9 858. Plaintiff and the Mississippi State Class reasonably relied on Fiat's and FCA's
10 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
11 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
12 Mississippi State Class, the Class Vehicles were designed to pollute at higher than legal limits
13 during normal driving, and could not achieve advertised performance and efficiency metrics
14 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
15 FCA therefore breached their express warranty by providing a product containing defects that
16 were never disclosed to Plaintiff and the Mississippi State Class.

17 859. Any opportunity to cure the express breach is unnecessary and futile.

18 860. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 Plaintiff and the Mississippi State Class suffered significant damages, and seek damages in an
20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(Miss. Code §§ 75-2-314 and 75-2A-212)**

23 861. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 862. Plaintiff Anthony Alley (for the purpose of this section, "Plaintiff") brings this
26 action on behalf of himself and the Mississippi State Class against Fiat and FCA.

27 863. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
28 under Miss. Code § 75-2-104(1) and "sellers" of motor vehicles under § 75-2-103(1)(d).

1 864. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
2 motor vehicles under Miss. Code § 75-2A-103(1)(p).

3 865. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of Miss. Code §§ 75-2-105(1) and 75-2A-103(1)(h).

5 866. A warranty that the Class Vehicles were in merchantable condition and fit for the
6 ordinary purpose for which vehicles are used is implied by law pursuant to Miss. Code §§ 75-2-
7 314 and 75-2A-212.

8 867. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
9 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
10 Vehicles were not in merchantable condition because their design violated state and federal laws.
11 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
12 federal emission standards.

13 868. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
14 damage to Plaintiff and the Mississippi State Class. The amount of damages due will be proven
15 at trial.

16 **26. Missouri**

17 **BREACH OF EXPRESS WARRANTY**
18 **(Mo. Stat. §§ 400.2-313 and 400.2A-210)**

19 869. Plaintiffs reallege and incorporate by reference all preceding allegations as though
20 fully set forth herein.

21 870. Plaintiff Melvin Phillips (for the purpose of this section, “Plaintiff”) brings this
22 action on behalf of himself and the Missouri State Class against Fiat and FCA.

23 871. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
24 vehicles under Mo. Stat. § 400.2-104(1) and “sellers” of motor vehicles under § 400.2-103(1)(d).

25 872. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
26 motor vehicles under Mo. Stat. § 400.2A-103(1)(p).

27 873. The Class Vehicles are and were at all relevant times “goods” within the meaning
28 of Mo. Stat. § 400.2-105(1) and Mo. Stat. § 400.2A-103(1)(h).5.

1 874. Federal law requires manufacturers of light-duty vehicles to provide two federal
2 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
3 The Performance Warranty applies to repairs that are required during the first two years or 24,000
4 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
5 major emission control components are covered for the first eight years or 80,000 miles,
6 whichever comes first. These major emission control components subject to the longer warranty
7 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
8 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
9 emission control or emission related parts which fail to function or function improperly due to a
10 defect in materials or workmanship. This warranty provides protection for two years or 24,000
11 miles, whichever comes first, or, for the major emission control components, for eight years or
12 80,000 miles, whichever comes first.

13 875. Fiat and FCA provided these warranties to Plaintiff and the Missouri State Class.
14 These warranties formed the basis of the bargain that was reached when Plaintiff and the Missouri
15 State Class purchased or leased their Class Vehicles.

16 876. However, Fiat and FCA knew or should have known that the warranties were false
17 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
18 sold and leased to Plaintiff and the Missouri State Class were designed to deactivate under real-
19 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
20 emissions testing, and therefore, knew that the emission systems contained defects.

21 877. Plaintiff and the Missouri State Class reasonably relied on Fiat’s and FCA’s
22 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
23 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
24 Missouri State Class, the Class Vehicles were designed to pollute at higher than legal limits
25 during normal driving, and could not achieve advertised performance and efficiency metrics
26 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
27 FCA therefore breached their express warranty by providing a product containing defects that
28 were never disclosed to Plaintiff and the Missouri State Class.

1 878. Any opportunity to cure the express breach is unnecessary and futile.

2 879. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
3 Plaintiff and the Missouri State Class suffered significant damages, and seek damages in an
4 amount to be determined at trial.

5 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
6 **(Mo. Stat. §§ 400.2-314 and 400.2A-212)**

7 880. Plaintiffs reallege and incorporate by reference all allegations of the preceding
8 paragraphs as though fully set forth herein.

9 881. Plaintiff Melvin Phillips (for the purpose of this section, "Plaintiff") brings this
10 action on behalf of himself and the Missouri State Class against Fiat and FCA.

11 882. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
12 under Mo. Stat. § 400.2-104(1) and "sellers" of motor vehicles under § 400.2-103(1)(d).

13 883. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
14 motor vehicles under Mo. Stat. § 400.2A-103(1)(p).

15 884. The Class Vehicles are and were at all relevant times "goods" within the meaning
16 of Mo. Stat. § 400.2-105(1) and Mo. Stat. § 400.2A-103(1)(h).5.

17 885. A warranty that the Class Vehicles were in merchantable condition and fit for the
18 ordinary purpose for which vehicles are used is implied by law pursuant to Mo. Stat. § 400.2-314
19 and Mo. Stat. § 400.2A-212.

20 886. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
21 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
22 Vehicles were not in merchantable condition because their design violated state and federal laws.
23 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
24 federal emission standards.

25 887. Fiat's and FCA's breaches of the implied warranty of merchantability caused
26 damage to Plaintiff and the Missouri State Class. The amount of damages due will be proven at
27 trial.
28

1 27. Montana

2 **BREACH OF EXPRESS WARRANTY**
3 **(Mont. Code §§ 30-2-313 and 30-2A-210)**

4 888. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 889. Plaintiff Ronald Holm (for the purpose of this section, “Plaintiff”) brings this
7 action on behalf of himself and the Montana State against Fiat and FCA.

8 890. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Mont. Code § 30-2-104(1) and “sellers” of motor vehicles under § 30-2-103(1)(d).

10 891. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
11 motor vehicles under Mont. Code § 30-2A-103(1)(p).

12 892. The Class Vehicles are and were at all relevant times “goods” within the meaning
13 of Mont. Code §§ 30-2-105(1) and 30-2A-103(1)(h).5.

14 893. Federal law requires manufacturers of light-duty vehicles to provide two federal
15 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
16 The Performance Warranty applies to repairs that are required during the first two years or 24,000
17 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
18 major emission control components are covered for the first eight years or 80,000 miles,
19 whichever comes first. These major emission control components subject to the longer warranty
20 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
21 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
22 emission control or emission related parts which fail to function or function improperly due to a
23 defect in materials or workmanship. This warranty provides protection for two years or 24,000
24 miles, whichever comes first, or, for the major emission control components, for eight years or
25 80,000 miles, whichever comes first.

26 894. Fiat and FCA provided these warranties to Plaintiff and the Montana State Class.
27 These warranties formed the basis of the bargain that was reached when Plaintiff and the Montana
28 State Class purchased or leased their Class Vehicles.

1 895. However, Fiat and FCA knew or should have known that the warranties were false
2 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
3 sold and leased to Plaintiff and the Montana State Class were designed to deactivate under real-
4 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
5 emissions testing, and therefore, knew that the emission systems contained defects.

6 896. Plaintiff and the Montana State Class reasonably relied on Fiat's and FCA's
7 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
8 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
9 Montana State Class, the Class Vehicles were designed to pollute at higher than legal limits
10 during normal driving, and could not achieve advertised performance and efficiency metrics
11 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
12 FCA therefore breached their express warranty by providing a product containing defects that
13 were never disclosed to Plaintiff and the Montana State Class.

14 897. Any opportunity to cure the express breach is unnecessary and futile.

15 898. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
16 Plaintiff and the Montana State Class suffered significant damages, and seek damages in an
17 amount to be determined at trial.

18 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
19 **(Mont. Code §§ 30-2-314 and 30-2A-212)**

20 899. Plaintiffs reallege and incorporate by reference all allegations of the preceding
21 paragraphs as though fully set forth herein.

22 900. Plaintiff Ronald Holm (for the purpose of this section, "Plaintiff") brings this
23 action on behalf of himself and the Montana State against Fiat and FCA.

24 901. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
25 under Mont. Code § 30-2-104(1) and "sellers" of motor vehicles under § 30-2-103(1)(d).

26 902. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
27 motor vehicles under Mont. Code § 30-2A-103(1)(p).
28

1 903. The Class Vehicles are and were at all relevant times “goods” within the meaning
2 of Mont. Code §§ 30-2-105(1) and 30-2A-103(1)(h).5.

3 904. A warranty that the Class Vehicles were in merchantable condition and fit for the
4 ordinary purpose for which vehicles are used is implied by law pursuant to Mont. Code §§ 30-2-
5 314 and 30-2A-212.

6 905. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
7 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
8 Vehicles were not in merchantable condition because their design violated state and federal laws.
9 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
10 federal emission standards.

11 906. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
12 damage to Plaintiff and the Montana State Class. The amount of damages due will be proven at
13 trial.

14 **28. Nebraska**

15 **BREACH OF EXPRESS WARRANTY**
16 **(Neb. Rev. St. U.C.C. §§ 2-313 and 2A-210)**

17 907. Plaintiffs reallege and incorporate by reference all preceding allegations as though
18 fully set forth herein.

19 908. Plaintiffs Connie Hood and Richard Lindholm (for the purpose of this section,
20 “Plaintiffs”) bring this action on behalf of themselves and the Nebraska State Class against Fiat
21 and FCA.

22 909. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
23 vehicles under Neb. Rev. St. U.C.C. § 2-104(1) and “sellers” of motor vehicles under § 2-
24 103(1)(d).

25 910. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
26 motor vehicles under Neb. Rev. St. U.C.C. § 2A-103(1)(p).

27 911. The Class Vehicles are and were at all relevant times “goods” within the meaning
28 of Neb. Rev. St. U.C.C. §§ 2-105(1) and 2A-103(1)(h).

1 912. Federal law requires manufacturers of light-duty vehicles to provide two federal
2 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
3 The Performance Warranty applies to repairs that are required during the first two years or 24,000
4 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
5 major emission control components are covered for the first eight years or 80,000 miles,
6 whichever comes first. These major emission control components subject to the longer warranty
7 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
8 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
9 emission control or emission related parts which fail to function or function improperly due to a
10 defect in materials or workmanship. This warranty provides protection for two years or 24,000
11 miles, whichever comes first, or, for the major emission control components, for eight years or
12 80,000 miles, whichever comes first.

13 913. Fiat and FCA provided these warranties to Plaintiffs and the Nebraska State Class.
14 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
15 Nebraska State Class purchased or leased their Class Vehicles.

16 914. However, Fiat and FCA knew or should have known that the warranties were false
17 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
18 sold and leased to Plaintiffs and the Nebraska State Class were designed to deactivate under real-
19 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
20 emissions testing, and therefore, knew that the emission systems contained defects.

21 915. Plaintiffs and the Nebraska State Class reasonably relied on Fiat’s and FCA’s
22 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
23 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
24 Nebraska State Class, the Class Vehicles were designed to pollute at higher than legal limits
25 during normal driving, and could not achieve advertised performance and efficiency metrics
26 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
27 FCA therefore breached their express warranty by providing a product containing defects that
28 were never disclosed to Plaintiffs and the Nebraska State Class.

1 916. Any opportunity to cure the express breach is unnecessary and futile.

2 917. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
3 Plaintiffs and the Nebraska State Class suffered significant damages, and seek damages in an
4 amount to be determined at trial.

5 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
6 **(Neb. Rev. St. U.C.C. §§ 2-314 and 2A-212)**

7 918. Plaintiffs reallege and incorporate by reference all allegations of the preceding
8 paragraphs as though fully set forth herein.

9 919. Plaintiffs Connie Hood and Richard Lindholm (for the purpose of this section,
10 "Plaintiffs") bring this action on behalf of themselves and the Nebraska State Class against Fiat
11 and FCA.

12 920. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
13 under Neb. Rev. St. U.C.C. § 2-104(1) and "sellers" of motor vehicles under § 2-103(1)(d).

14 921. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
15 motor vehicles under Neb. Rev. St. U.C.C. § 2A-103(1)(p).

16 922. The Class Vehicles are and were at all relevant times "goods" within the meaning
17 of Neb. Rev. St. U.C.C. §§ 2-105(1) and 2A-103(1)(h).

18 923. A warranty that the Class Vehicles were in merchantable condition and fit for the
19 ordinary purpose for which vehicles are used is implied by law pursuant to Neb. Rev. St.
20 U.C.C. §§ 2-314 and 2A-212.

21 924. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
22 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
23 Vehicles were not in merchantable condition because their design violated state and federal laws.
24 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
25 federal emission standards.

26 925. Fiat's and FCA's breaches of the implied warranty of merchantability caused
27 damage to Plaintiffs and the Nebraska State Class. The amount of damages due will be proven at
28 trial.

1 **29. Nevada**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Nev. Rev. Stat. §§ 104.2313 and 104A.2210)**

4 926. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 927. Plaintiff Christopher Mattingly (for the purpose of this section, “Plaintiff”) brings
7 this action on behalf of himself and the Nevada State Class against Fiat and FCA.

8 928. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Nev. Rev. Stat. § 104.2104(1) and “sellers” of motor vehicles under
10 § 104.2103(1)(c).

11 929. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
12 motor vehicles under Nev. Rev. Stat. § 104A.2103(1)(p).

13 930. The Class Vehicles are and were at all relevant times “goods” within the meaning
14 of Nev. Rev. Stat. §§ 104.2105(1) and 104A.2103(1)(h).

15 931. Federal law requires manufacturers of light-duty vehicles to provide two federal
16 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
17 The Performance Warranty applies to repairs that are required during the first two years or 24,000
18 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
19 major emission control components are covered for the first eight years or 80,000 miles,
20 whichever comes first. These major emission control components subject to the longer warranty
21 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
22 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
23 emission control or emission related parts which fail to function or function improperly due to a
24 defect in materials or workmanship. This warranty provides protection for two years or 24,000
25 miles, whichever comes first, or, for the major emission control components, for eight years or
26 80,000 miles, whichever comes first.

1 932. Fiat and FCA provided these warranties to Plaintiff and the Nevada State Class.
 2 These warranties formed the basis of the bargain that was reached when Plaintiff and the Nevada
 3 State Class purchased or leased their Class Vehicles.

4 933. However, Fiat and FCA knew or should have known that the warranties were false
 5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
 6 sold and leased to Plaintiff and the Nevada State Class were designed to deactivate under real-
 7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
 8 emissions testing, and therefore, knew that the emission systems contained defects.

9 934. Plaintiff and the Nevada State Class reasonably relied on Fiat's and FCA's express
 10 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
 11 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Nevada State
 12 Class, the Class Vehicles were designed to pollute at higher than legal limits during normal
 13 driving, and could not achieve advertised performance and efficiency metrics without this
 14 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
 15 therefore breached their express warranty by providing a product containing defects that were
 16 never disclosed to Plaintiff and the Nevada State Class.

17 935. Any opportunity to cure the express breach is unnecessary and futile.

18 936. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 19 Plaintiff and the Nevada State Class suffered significant damages, and seek damages in an
 20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 22 **(Nev. Rev. Stat. §§ 104.2314 and 104A.2212)**

23 937. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 24 paragraphs as though fully set forth herein.

25 938. Plaintiff Christopher Mattingly (for the purpose of this section, "Plaintiff") brings
 26 this action on behalf of himself and the Nevada State Class against Fiat and FCA.

27 939. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 28 under Nev. Rev. Stat. § 104.2104(1) and "sellers" of motor vehicles under § 104.2103(1)(c).

1 940. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
2 motor vehicles under Nev. Rev. Stat. § 104A.2103(1)(p).

3 941. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of Nev. Rev. Stat. §§ 104.2105(1) and 104A.2103(1)(h).

5 942. A warranty that the Class Vehicles were in merchantable condition and fit for the
6 ordinary purpose for which vehicles are used is implied by law pursuant to Nev. Rev. Stat.
7 §§ 104.2314 and 104A.2212.

8 943. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
9 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
10 Vehicles were not in merchantable condition because their design violated state and federal laws.
11 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
12 federal emission standards.

13 944. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
14 damage to the Plaintiff and the Nevada State Class. The amount of damages due will be proven
15 at trial.

16 **30. New Hampshire**

17 **BREACH OF EXPRESS WARRANTY**
18 **(N.H. Rev. Stat. §§ 382-A:2-313 and 2A-210)**

19 945. Plaintiffs reallege and incorporate by reference all preceding allegations as though
20 fully set forth herein.

21 946. This count is brought on behalf of the New Hampshire State Class against Fiat and
22 FCA.

23 947. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
24 vehicles under N.H. Rev. Stat. § 382-A:2-104(1) and “sellers” of motor vehicles under § 382-
25 A:2-103(1)(d).

26 948. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
27 motor vehicles under N.H. Rev. Stat. § 382-A:2A-103(1)(p).
28

1 949. The Class Vehicles are and were at all relevant times “goods” within the meaning
2 of N.H. Rev. Stat. §§ 382-A:2-105(1) and 382-A:2A-103(1)(h).

3 950. Federal law requires manufacturers of light-duty vehicles to provide two federal
4 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
5 The Performance Warranty applies to repairs that are required during the first two years or 24,000
6 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
7 major emission control components are covered for the first eight years or 80,000 miles,
8 whichever comes first. These major emission control components subject to the longer warranty
9 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
10 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
11 emission control or emission related parts which fail to function or function improperly due to a
12 defect in materials or workmanship. This warranty provides protection for two years or 24,000
13 miles, whichever comes first, or, for the major emission control components, for eight years or
14 80,000 miles, whichever comes first.

15 951. Fiat and FCA provided these warranties to the New Hampshire State Class. These
16 warranties formed the basis of the bargain that was reached when the New Hampshire State Class
17 purchased or leased their Class Vehicles.

18 952. However, Fiat and FCA knew or should have known that the warranties were false
19 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
20 sold and leased to the New Hampshire State Class were designed to deactivate under real-world
21 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
22 emissions testing, and therefore, knew that the emission systems contained defects.

23 953. The New Hampshire State Class reasonably relied on Fiat’s and FCA’s express
24 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
25 Class Vehicles did not perform as warranted. Unbeknownst to the New Hampshire State Class,
26 the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
27 could not achieve advertised performance and efficiency metrics without this cheating design.
28 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their

1 express warranty by providing a product containing defects that were never disclosed to the New
2 Hampshire State Class.

3 954. Any opportunity to cure the express breach is unnecessary and futile.

4 955. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
5 the New Hampshire State Class suffered significant damages, and seek damages in an amount to
6 be determined at trial.

7 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
8 **(N.H. Rev. Stat. §§ 382-A:2-314 and 2A-212)**

9 956. Plaintiffs reallege and incorporate by reference all allegations of the preceding
10 paragraphs as though fully set forth herein.

11 957. This count is brought on behalf of the New Hampshire State Class against Fiat and
12 FCA.

13 958. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
14 under N.H. Rev. Stat. § 382-A:2-104(1) and "sellers" of motor vehicles under § 382-A:2-
15 103(1)(d).

16 959. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
17 motor vehicles under N.H. Rev. Stat. § 382-A:2A-103(1)(p).

18 960. The Class Vehicles are and were at all relevant times "goods" within the meaning
19 of N.H. Rev. Stat. §§ 382-A:2-105(1) and 382-A:2A-103(1)(h).

20 961. A warranty that the Class Vehicles were in merchantable condition and fit for the
21 ordinary purpose for which vehicles are used is implied by law pursuant to N.H. Rev. Stat.
22 §§ 382-A:2-314 and 382-A:2A-212.

23 962. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
24 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
25 Vehicles were not in merchantable condition because their design violated state and federal laws.
26 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
27 federal emission standards.
28

1 963. Fiat's and FCA's breaches of the implied warranty of merchantability caused
2 damage to the New Hampshire State Class. The amount of damages due will be proven at trial.

3 **31. New Jersey**

4 **BREACH OF EXPRESS WARRANTY**
5 **(N.J. Stat. Ann. § 12A:2-313 and 2A-210)**

6 964. Plaintiffs reallege and incorporate by reference all preceding allegations as though
7 fully set forth herein.

8 965. Plaintiffs Michael Norton and Wayne Tonnesen (for the purpose of this section,
9 "Plaintiffs") bring this action on behalf of themselves and the New Jersey State Class against Fiat
10 and FCA.

11 966. Fiat and FCA are and were at all relevant times "merchants" with respect to motor
12 vehicles under N.J. Stat. Ann. § 12A:2-104(1) and "sellers" of motor vehicles under 2-103(1)(d).

13 967. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of
14 motor vehicles under N.J. Stat. Ann. § 12A:2A-103(1)(p).

15 968. The Class Vehicles are and were at all relevant times "goods" within the meaning
16 of N.J. Stat. Ann. §§ 12A:2-105(1) and 2A-103(1)(h),

17 969. Federal law requires manufacturers of light-duty vehicles to provide two federal
18 emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."
19 The Performance Warranty applies to repairs that are required during the first two years or 24,000
20 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
21 major emission control components are covered for the first eight years or 80,000 miles,
22 whichever comes first. These major emission control components subject to the longer warranty
23 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
24 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
25 emission control or emission related parts which fail to function or function improperly due to a
26 defect in materials or workmanship. This warranty provides protection for two years or 24,000
27 miles, whichever comes first, or, for the major emission control components, for eight years or
28 80,000 miles, whichever comes first.

1 970. Fiat and FCA provided these warranties to Plaintiffs and the New Jersey State
 2 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
 3 New Jersey State Class purchased or leased their Class Vehicles.

4 971. However, Fiat and FCA knew or should have known that the warranties were false
 5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
 6 sold and leased to Plaintiffs and the New Jersey State Class were designed to deactivate under
 7 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
 8 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

9 972. Plaintiffs and the New Jersey State Class reasonably relied on Fiat's and FCA's
 10 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
 11 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
 12 New Jersey State Class, the Class Vehicles were designed to pollute at higher than legal limits
 13 during normal driving, and could not achieve advertised performance and efficiency metrics
 14 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
 15 FCA therefore breached their express warranty by providing a product containing defects that
 16 were never disclosed to Plaintiffs and the New Jersey State Class.

17 973. Any opportunity to cure the express breach is unnecessary and futile.

18 974. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 19 Plaintiffs and the New Jersey State Class suffered significant damages, and seek damages in an
 20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 22 **(N.J. Stat. Ann. § 12A:2-314 and 2A-212)**

23 975. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 24 paragraphs as though fully set forth herein.

25 976. Plaintiffs Michael Norton and Wayne Tonnesen (for the purpose of this section,
 26 "Plaintiffs") bring this action on behalf of themselves and the New Jersey State Class against Fiat
 27 and FCA.
 28

1 977. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles
2 under N.J. Stat. Ann. § 12A:2-104(1) and “sellers” of motor vehicles under 2-103(1)(d).

3 978. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of
4 motor vehicles under N.J. Stat. Ann. § 12A:2A-103(1)(p).

5 979. The Class Vehicles are and were at all relevant times “goods” within the meaning
6 of N.J. Stat. Ann. §§ 12A:2-105(1) and 2A-103(1)(h).

7 980. A warranty that the Class Vehicles were in merchantable condition and fit for the
8 ordinary purpose for which vehicles are used is implied by law pursuant to N.J. Stat. Ann.
9 §§ 12A:2-314 and 2A-212.

10 981. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
11 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
12 Vehicles were not in merchantable condition because their design violated state and federal laws.
13 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
14 federal emission standards.

15 982. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused
16 damage to the Plaintiffs and the New Jersey State Class. The amount of damages due will be
17 proven at trial.

18 **32. New Mexico**

19 **BREACH OF EXPRESS WARRANTY**
20 **(N.M. Stat. §§ 55-2-313 and 55-2A-210)**

21 983. Plaintiffs reallege and incorporate by reference all preceding allegations as though
22 fully set forth herein.

23 984. Plaintiffs Jake Gunderson and WEB Farms, Inc. (for the purpose of this section,
24 “Plaintiffs”) bring this action on behalf of themselves and the New Mexico State Class against
25 Fiat and FCA.

26 985. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
27 vehicles under N.M. Stat. § 55-2-104(1) and “sellers” of motor vehicles under § 55-2-103(1)(d).
28

1 986. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
2 motor vehicles under N.M. Stat. § 55-2A-103(1)(p).

3 987. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of N.M. Stat. §§ 55-2-105(1) and 55-2A-103(1)(h).

5 988. Federal law requires manufacturers of light-duty vehicles to provide two federal
6 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
7 The Performance Warranty applies to repairs that are required during the first two years or 24,000
8 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
9 major emission control components are covered for the first eight years or 80,000 miles,
10 whichever comes first. These major emission control components subject to the longer warranty
11 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
12 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
13 emission control or emission related parts which fail to function or function improperly due to a
14 defect in materials or workmanship. This warranty provides protection for two years or 24,000
15 miles, whichever comes first, or, for the major emission control components, for eight years or
16 80,000 miles, whichever comes first.

17 989. Fiat and FCA provided these warranties to Plaintiffs and the New Mexico State
18 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
19 New Mexico State Class purchased or leased their Class Vehicles.

20 990. However, Fiat and FCA knew or should have known that the warranties were false
21 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
22 sold and leased to Plaintiffs and the New Mexico State Class were designed to deactivate under
23 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
24 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

25 991. Plaintiffs and the New Mexico State Class reasonably relied on Fiat’s and FCA’s
26 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
27 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
28 New Mexico State Class, the Class Vehicles were designed to pollute at higher than legal limits

during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the New Mexico State Class.

992. Any opportunity to cure the express breach is unnecessary and futile.

993. As a direct and proximate result of Fiat's and FCA's breach of express warranties, the Plaintiffs and New Mexico State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(N.M. Stat. §§ 55-2-314 and 55-2A-212)

994. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

995. Plaintiffs Jake Gunderson and WEB Farms, Inc. (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the New Mexico State Class against Fiat and FCA.

996. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles under N.M. Stat. § 55-2-104(1) and "sellers" of motor vehicles under § 55-2-103(1)(d).

997. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of motor vehicles under N.M. Stat. § 55-2A-103(1)(p).

998. The Class Vehicles are and were at all relevant times "goods" within the meaning of N.M. Stat. §§ 55-2-105(1) and 55-2A-103(1)(h).

999. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to N.M. Stat. §§ 55-2-314 and 55-2A-212.

1000. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws.

1 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
2 federal emission standards.

3 1001. Fiat's and FCA's breaches of the implied warranty of merchantability caused
4 damage to Plaintiffs and the New Mexico State Class. The amount of damages due will be
5 proven at trial.

6 **33. New York**

7 **BREACH OF EXPRESS WARRANTY**
8 **(N.Y. U.C.C. Law §§ 2-313 and 2A-210)**

9 1002. Plaintiffs reallege and incorporate by reference all preceding allegations as though
10 fully set forth herein.

11 1003. Plaintiffs Giuseppe Carillo, Thomas McGann, Jr., and George Milner (for the
12 purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the New York
13 State Class against Fiat and FCA.

14 1004. Fiat and FCA are and were at all relevant times "merchants" with respect to motor
15 vehicles under N.Y. UCC Law § 2-104(1) and "sellers" of motor vehicles under § 2-103(1)(d).

16 1005. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of
17 motor vehicles under N.Y. UCC Law § 2A-103(1)(p).

18 1006. The Class Vehicles are and were at all relevant times "goods" within the meaning
19 of N.Y. UCC Law §§ 2-105(1) and 2A-103(1)(h).

20 1007. Federal law requires manufacturers of light-duty vehicles to provide two federal
21 emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."
22 The Performance Warranty applies to repairs that are required during the first two years or 24,000
23 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
24 major emission control components are covered for the first eight years or 80,000 miles,
25 whichever comes first. These major emission control components subject to the longer warranty
26 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
27 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
28 emission control or emission related parts which fail to function or function improperly due to a

1 defect in materials or workmanship. This warranty provides protection for two years or 24,000
2 miles, whichever comes first, or, for the major emission control components, for eight years or
3 80,000 miles, whichever comes first.

4 1008. Fiat and FCA provided these warranties to Plaintiffs and the New York State
5 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
6 New York State Class purchased or leased their Class Vehicles.

7 1009. However, Fiat and FCA knew or should have known that the warranties were false
8 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
9 sold and leased to Plaintiffs and the New York State Class were designed to deactivate under real-
10 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
11 emissions testing, and therefore, knew that the emission systems contained defects.

12 1010. Plaintiffs and the New York State Class reasonably relied on Fiat's and FCA's
13 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
14 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
15 New York State Class, the Class Vehicles were designed to pollute at higher than legal limits
16 during normal driving, and could not achieve advertised performance and efficiency metrics
17 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
18 FCA therefore breached their express warranty by providing a product containing defects that
19 were never disclosed to Plaintiffs and the New York State Class.

20 1011. Any opportunity to cure the express breach is unnecessary and futile.

21 1012. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
22 Plaintiffs and the New York State Class suffered significant damages, and seek damages in an
23 amount to be determined at trial.

24 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
25 **(N.Y. U.C.C. Law §§ 2-314 and 2A-212)**

26 1013. Plaintiffs reallege and incorporate by reference all allegations of the preceding
27 paragraphs as though fully set forth herein.
28

1014. Plaintiffs Giuseppe Carillo, Thomas McGann, Jr., and George Milner (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the New York State Class against Fiat and FCA.

1015. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under N.Y. UCC Law § 2-104(1) and “sellers” of motor vehicles under § 2-103(1)(d).

1016. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under N.Y. UCC Law § 2A-103(1)(p).

1017. The Class Vehicles are and were at all relevant times “goods” within the meaning of N.Y. UCC Law §§ 2-105(1) and 2A-103(1)(h).

1018. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to N.Y. UCC Law §§ 2-314 and 2A-212.

1019. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1020. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the New York State Class. The amount of damages due will be proven at trial.

34. North Carolina

BREACH OF EXPRESS WARRANTY (N.C. Gen. Stat. §§ 25-2-313 and 252A-210)

1021. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1022. Plaintiffs Marius Bihorean, Miguel Fragoso, Samuel Price, and Stonewall Webster (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the North Carolina State Class against Fiat and FCA.

1 1023. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under N.C. Gen. Stat. § 25-2-104(1) and “sellers” of motor vehicles under § 25-2-
3 103(1)(d).

4 1024. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
5 motor vehicles under N.C. Gen. Stat. § 25-2A-103(1)(p).

6 1025. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of N.C. Gen. Stat. § 25-2-105(1) and § 25-2A-103(1)(h).5.

8 1026. Federal law requires manufacturers of light-duty vehicles to provide two federal
9 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
10 The Performance Warranty applies to repairs that are required during the first two years or 24,000
11 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
12 major emission control components are covered for the first eight years or 80,000 miles,
13 whichever comes first. These major emission control components subject to the longer warranty
14 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
15 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
16 emission control or emission related parts which fail to function or function improperly due to a
17 defect in materials or workmanship. This warranty provides protection for two years or 24,000
18 miles, whichever comes first, or, for the major emission control components, for eight years or
19 80,000 miles, whichever comes first.

20 1027. Fiat and FCA provided these warranties to Plaintiffs and the North Carolina State
21 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
22 North Carolina State Class purchased or leased their Class Vehicles.

23 1028. However, Fiat and FCA knew or should have known that the warranties were false
24 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
25 sold and leased to Plaintiffs and the North Carolina State Class were designed to deactivate under
26 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
27 undergoing emissions testing, and therefore, knew that the emission systems contained defects.
28

1029. Plaintiffs and the North Carolina State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the North Carolina State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the North Carolina State Class.

1030. Any opportunity to cure the express breach is unnecessary and futile.

1031. As a direct and proximate result of Fiat's and FCA's breach of express warranties, Plaintiffs and the North Carolina State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(N.C. Gen. Stat. §§ 25-2-314 AND 252A-212)

1032. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1033. Plaintiffs Marius Bihorean, Miguel Fragoso, Samuel Price, and Stonewall Webster III (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the North Carolina State Class against Fiat and FCA.

1034. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles under N.C. Gen. Stat. § 25-2-104(1) and "sellers" of motor vehicles under § 25-2-103(1)(d).

1035. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of motor vehicles under N.C. Gen. Stat. § 25-2A-103(1)(p).

1036. The Class Vehicles are and were at all relevant times "goods" within the meaning of N.C. Gen. Stat. § 25-2-105(1) and § 25-2A-103(1)(h).5.

1037. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to N.C. Gen. Stat. § 25-2-314 and § 25-2A-212.

1038. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1039. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the North Carolina State Class. The amount of damages due will be proven at trial.

35. North Dakota

BREACH OF EXPRESS WARRANTY (N.D. Cent. Code §§ 41-02-30 and 41-02.1-19)

1040. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1041. Plaintiff Andrew Loescher (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the North Dakota State Class against Fiat and FCA.

1042. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under N.D. Cent. Code § 41-02.04(3) and "sellers" of motor vehicles under § 41-02-03(1)(d).

1043. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under N.D. Cent. Code § 41-02.1-03(1)(p).

1044. The Class Vehicles are and were at all relevant times "goods" within the meaning of N.D. Cent. Code §§ 41-02-05(2) and 41-02.1-03(1)(h).5.

1045. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty

1 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
2 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
3 emission control or emission related parts which fail to function or function improperly due to a
4 defect in materials or workmanship. This warranty provides protection for two years or 24,000
5 miles, whichever comes first, or, for the major emission control components, for eight years or
6 80,000 miles, whichever comes first.

7 1046. Fiat and FCA provided these warranties to Plaintiff and the North Dakota State
8 Class. These warranties formed the basis of the bargain that was reached when Plaintiff and the
9 North Dakota State Class purchased or leased their Class Vehicles.

10 1047. However, Fiat and FCA knew or should have known that the warranties were false
11 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
12 sold and leased to Plaintiff and the North Dakota State Class were designed to deactivate under
13 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
14 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

15 1048. Plaintiff and the North Dakota State Class reasonably relied on Fiat's and FCA's
16 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
17 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
18 North Dakota State Class, the Class Vehicles were designed to pollute at higher than legal limits
19 during normal driving, and could not achieve advertised performance and efficiency metrics
20 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
21 FCA therefore breached their express warranty by providing a product containing defects that
22 were never disclosed to Plaintiff and the North Dakota State Class.

23 1049. Any opportunity to cure the express breach is unnecessary and futile.

24 1050. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
25 Plaintiff and the North Dakota State Class suffered significant damages, and seek damages in an
26 amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(N.D. Cent. Code §§ 41-02-31 and 41-02.1-21)

1051. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1052. Plaintiff Andrew Loescher (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the North Dakota State Class against Fiat and FCA.

1053. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under N.D. Cent. Code § 41-02.04(3) and “sellers” of motor vehicles under § 41-02-03(1)(d).

1054. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under N.D. Cent. Code § 41-02.1-03(1)(p).

1055. The Class Vehicles are and were at all relevant times “goods” within the meaning of N.D. Cent. Code §§ 41-02-05(2) and 41-02.1-03(1)(h).5.

1056. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to N.D. Cent. Code §§ 41-02-31 and 41-02.1-21.

1057. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1058. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to Plaintiff and the North Dakota State Class. The amount of damages due will be proven at trial.

36. Ohio

BREACH OF EXPRESS WARRANTY
(Ohio Rev. Code § 1302.26, *et seq.*) (U.C.C. §2-313))

1059. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1 1060. Plaintiff Jon Roberts (for the purpose of this section, “Plaintiff”) brings this action
2 on behalf of himself and the Ohio State Class against Fiat and FCA.

3 1061. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
4 vehicles under Ohio Rev. Code §§ 1302.01(5) and 1310.01(A)(20), and “sellers” of motor
5 vehicles under § 1302.01(4).

6 1062. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
7 motor vehicles under Ohio Rev. Code § 1310.01(A)(20).

8 1063. The Class Vehicles are and were at all relevant times “goods” within the meaning
9 of Ohio Rev. Code §§ 1302.01(8) and 1310.01(A)(8).

10 1064. Federal law requires manufacturers of light-duty vehicles to provide two federal
11 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
12 The Performance Warranty applies to repairs that are required during the first two years or 24,000
13 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
14 major emission control components are covered for the first eight years or 80,000 miles,
15 whichever comes first. These major emission control components subject to the longer warranty
16 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
17 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
18 emission control or emission related parts which fail to function or function improperly due to a
19 defect in materials or workmanship. This warranty provides protection for two years or 24,000
20 miles, whichever comes first, or, for the major emission control components, for eight years or
21 80,000 miles, whichever comes first.

22 1065. Fiat and FCA provided these warranties to Plaintiff and the Ohio State Class.
23 These warranties formed the basis of the bargain that was reached when Plaintiff and the Ohio
24 State Class purchased or leased their Class Vehicles.

25 1066. However, Fiat and FCA knew or should have known that the warranties were false
26 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
27 sold and leased to Plaintiff and the Ohio State Class were designed to deactivate under real-world
28

1 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
2 emissions testing, and therefore, knew that the emission systems contained defects.

3 1067. Plaintiff and the Ohio State Class reasonably relied on Fiat's and FCA's express
4 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
5 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Ohio State Class,
6 the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
7 could not achieve advertised performance and efficiency metrics without this cheating design.
8 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their
9 express warranty by providing a product containing defects that were never disclosed to Plaintiff
10 and the Ohio State Class.

11 1068. Any opportunity to cure the express breach is unnecessary and futile.

12 1069. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
13 Plaintiff and the Ohio State Class suffered significant damages, and seek damages in an amount
14 to be determined at trial.

15 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
16 **(Ohio Rev. Code Ann. §§ 1302.27 and 1310.19)**

17 1070. Plaintiffs reallege and incorporate by reference all allegations of the preceding
18 paragraphs as though fully set forth herein.

19 1071. Plaintiff Jon Roberts (for the purpose of this section, "Plaintiff") brings this action
20 on behalf of himself and the Ohio State Class against Fiat and FCA.

21 1072. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
22 under Ohio Rev. Code §§ 1302.01(5) and 1310.01(A)(20), and "sellers" of motor vehicles under
23 § 1302.01(4).

24 1073. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
25 motor vehicles under Ohio Rev. Code § 1310.01(A)(20).

26 1074. The Class Vehicles are and were at all relevant times "goods" within the meaning
27 of Ohio Rev. Code §§ 1302.01(8) and 1310.01(A)(8).
28

1075. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Ohio Rev. Code §§ 1302.27 and 1310.19.

1076. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1077. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to Plaintiff and the Ohio State Class. The amount of damages due will be proven at trial.

37. Oklahoma

BREACH OF EXPRESS WARRANTY (Okla. Stat. Tit. 12A §§ 2-313 and 2A-210)

1078. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1079. Plaintiff Lee Holland (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Oklahoma State Class against Fiat and FCA.

1080. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Okla. Stat. Tit. 12A §§ 2-104(1) and 2-1103(3), and "sellers" of motor vehicles under § 2A-103(1)(t).

1081. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Okla. Stat. Tit. 12A § 2A-103(1)(p).

1082. The Class Vehicles are and were at all relevant times "goods" within the meaning of Okla. Stat. Tit. 12A §§ 2-105(1) and 2A-103(1)(h).

1083. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain

1 major emission control components are covered for the first eight years or 80,000 miles,
2 whichever comes first. These major emission control components subject to the longer warranty
3 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
4 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
5 emission control or emission related parts which fail to function or function improperly due to a
6 defect in materials or workmanship. This warranty provides protection for two years or 24,000
7 miles, whichever comes first, or, for the major emission control components, for eight years or
8 80,000 miles, whichever comes first.

9 1084. Fiat and FCA provided these warranties to Plaintiff and the Oklahoma State Class.
10 These warranties formed the basis of the bargain that was reached when Plaintiff and the
11 Oklahoma State Class purchased or leased their Class Vehicles.

12 1085. However, Fiat and FCA knew or should have known that the warranties were false
13 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
14 sold and leased to Plaintiff and the Oklahoma State Class were designed to deactivate under real-
15 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
16 emissions testing, and therefore, knew that the emission systems contained defects.

17 1086. Plaintiff and the Oklahoma State Class reasonably relied on Fiat's and FCA's
18 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
19 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
20 Oklahoma State Class, the Class Vehicles were designed to pollute at higher than legal limits
21 during normal driving, and could not achieve advertised performance and efficiency metrics
22 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
23 FCA therefore breached their express warranty by providing a product containing defects that
24 were never disclosed to Plaintiff and the Oklahoma State Class.

25 1087. Any opportunity to cure the express breach is unnecessary and futile.

26 1088. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
27 Plaintiff and the Oklahoma State Class suffered significant damages, and seek damages in an
28 amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Okla. Stat. Tit. 12A §§ 2-314 and 2A-212)

1089. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1090. Plaintiff Lee Holland (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Oklahoma State Class against Fiat and FCA.

1091. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Okla. Stat. Tit. 12A §§ 2-104(1) and 2-1103(3), and “sellers” of motor vehicles under § 2A-103(1)(t).

1092. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Okla. Stat. Tit. 12A § 2A-103(1)(p).

1093. The Class Vehicles are and were at all relevant times “goods” within the meaning of Okla. Stat. Tit. 12A §§ 2-105(1) and 2A-103(1)(h).

1094. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Okla. Stat. Tit. 12A §§ 2-314 and 2A-212.

1095. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1096. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to Plaintiff and the Oklahoma State Class. The amount of damages due will be proven at trial.

1 **38. Oregon**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Or. Rev. Stat. §§ 72.3130 and 72A.2100)**

4 1097. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 1098. Plaintiffs Adam Burwell and Mathue Fasching (for the purpose of this section,
7 “Plaintiffs”) bring this action on behalf of themselves and the Oregon State Class against Fiat and
8 FCA.

9 1099. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
10 vehicles under Or. Rev. Stat. §§ 72.1040(1) and 72A.1030(1)(t), and “sellers” of motor vehicles
11 under § 72.1030(1)(d).

12 1100. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
13 motor vehicles under Or. Rev. Stat. § 72A.1030(1)(p).

14 1101. The Class Vehicles are and were at all relevant times “goods” within the meaning
15 of Or. Rev. Stat. §§ 72.1050(1) and 72A.1030(1)(h).

16 1102. Federal law requires manufacturers of light-duty vehicles to provide two federal
17 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
18 The Performance Warranty applies to repairs that are required during the first two years or 24,000
19 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
20 major emission control components are covered for the first eight years or 80,000 miles,
21 whichever comes first. These major emission control components subject to the longer warranty
22 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
23 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
24 emission control or emission related parts which fail to function or function improperly due to a
25 defect in materials or workmanship. This warranty provides protection for two years or 24,000
26 miles, whichever comes first, or, for the major emission control components, for eight years or
27 80,000 miles, whichever comes first.
28

1103. Fiat and FCA provided these warranties to Plaintiffs and the Oregon State Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the Oregon State Class purchased or leased their Class Vehicles.

1104. However, Fiat and FCA knew or should have known that the warranties were false and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles sold and leased to Plaintiffs and the Oregon State Class were designed to deactivate under real-world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions testing, and therefore, knew that the emission systems contained defects.

1105. Plaintiffs and the Oregon State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Oregon State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the Oregon State Class.

1106. Any opportunity to cure the express breach is unnecessary and futile.

1107. As a direct and proximate result of Fiat's and FCA's breach of express warranties, Plaintiffs and the Oregon State Class suffered significant damages, and seek damages in an amount to be determined at trial

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Or. Rev. Stat. § 72.3140 and 72A.2120)

1108. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1109. Plaintiffs Adam Burwell and Mathue Fasching (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Oregon State Class against Fiat and FCA.

1110. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Or. Rev. Stat. §§ 72.1040(1) and 72A.1030(1)(t), and “sellers” of motor vehicles under § 72.1030(1)(d).

1111. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Or. Rev. Stat. § 72A.1030(1)(p).

1112. The Class Vehicles are and were at all relevant times “goods” within the meaning of Or. Rev. Stat. §§ 72.1050(1) and 72A.1030(1)(h).

1113. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Or. Rev. Stat. §§ 72.3140 and 72A-2120.

1114. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1115. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Oregon State Class. The amount of damages due will be proven at trial.

39. Pennsylvania

BREACH OF EXPRESS WARRANTY (13 PA. CONS. STAT. §§ 2313 and 2A210)

1116. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1117. Plaintiffs Kyle and Jessica Heidlebaugh and Donald Korrell II (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Pennsylvania State Class against Fiat and FCA.

1 1118. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under 13 Pa. Cons. Stat. §§ 2104 and 2A103(a), and “sellers” of motor vehicles under
3 § 2103(a).

4 1119. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
5 motor vehicles under 13 Pa. Cons. Stat. § 2A103(a).

6 1120. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of 13 Pa. Cons. Stat. §§ 2105(a) and 2A103(a).

8 1121. Federal law requires manufacturers of light-duty vehicles to provide two federal
9 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
10 The Performance Warranty applies to repairs that are required during the first two years or 24,000
11 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
12 major emission control components are covered for the first eight years or 80,000 miles,
13 whichever comes first. These major emission control components subject to the longer warranty
14 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
15 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
16 emission control or emission related parts which fail to function or function improperly due to a
17 defect in materials or workmanship. This warranty provides protection for two years or 24,000
18 miles, whichever comes first, or, for the major emission control components, for eight years or
19 80,000 miles, whichever comes first.

20 1122. Fiat and FCA provided these warranties to Plaintiffs and the Pennsylvania State
21 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
22 Pennsylvania State Class purchased or leased their Class Vehicles.

23 1123. However, Fiat and FCA knew or should have known that the warranties were false
24 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
25 sold and leased to Plaintiffs and the Pennsylvania State Class were designed to deactivate under
26 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
27 undergoing emissions testing, and therefore, knew that the emission systems contained defects.
28

1124. Plaintiffs and the Pennsylvania State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Pennsylvania State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the Pennsylvania State Class.

1125. Any opportunity to cure the express breach is unnecessary and futile.

1126. As a direct and proximate result of Fiat's and FCA's breach of express warranties, Plaintiffs and the Pennsylvania State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(13 Pa. Cons. Stat. §§ 2314 and 2A212)

1127. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1128. Plaintiffs Kyle and Jessica Heidlebaugh and Donald Korrell II (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Pennsylvania State Class against Fiat and FCA.

1129. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles under 13 Pa. Cons. Stat. §§ 2104 and 2A103(a), and "sellers" of motor vehicles under § 2103(a).

1130. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of motor vehicles under 13 Pa. Cons. Stat. § 2A103(a).

1131. The Class Vehicles are and were at all relevant times "goods" within the meaning of 13 Pa. Cons. Stat. §§ 2105(a) and 2A103(a).

1132. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to 13 Pa. Cons. Stat. §§ 2314 and 2A212.

1133. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1134. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Pennsylvania State Class. The amount of damages due will be proven at trial.

40. Rhode Island

BREACH OF EXPRESS WARRANTY (R.I. Gen. Laws §§ 6A-2-313 and 6A-2.1-210)

1135. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1136. This count is brought on behalf of the Rhode Island State Class against Fiat and FCA.

1137. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under R.I. Gen. Laws §§ 6A-2-104(1) and 6A-2.1-103(1)(t), and "sellers" of motor vehicles under § 6A-2-103(a)(4).

1138. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under R.I. Gen. Laws § 6A-2.1-103(1)(p).

1139. The Class Vehicles are and were at all relevant times "goods" within the meaning of R.I. Gen. Laws §§ 6A-2-105(1) and 6A-2.1-103(1)(h).

1140. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty

1 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
2 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
3 emission control or emission related parts which fail to function or function improperly due to a
4 defect in materials or workmanship. This warranty provides protection for two years or 24,000
5 miles, whichever comes first, or, for the major emission control components, for eight years or
6 80,000 miles, whichever comes first.

7 1141. Fiat and FCA provided these warranties to the Rhode Island State Class. These
8 warranties formed the basis of the bargain that was reached when the Rhode Island State Class
9 purchased or leased their Class Vehicles.

10 1142. However, Fiat and FCA knew or should have known that the warranties were false
11 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
12 sold and leased to the Rhode Island State Class were designed to deactivate under real-world
13 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
14 emissions testing, and therefore, knew that the emission systems contained defects.

15 1143. The Rhode Island State Class reasonably relied on Fiat's and FCA's express
16 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
17 Class Vehicles did not perform as warranted. Unbeknownst to the Rhode Island State Class, the
18 Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
19 could not achieve advertised performance and efficiency metrics without this cheating design.
20 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their
21 express warranty by providing a product containing defects that were never disclosed to the
22 Rhode Island State Class.

23 1144. Any opportunity to cure the express breach is unnecessary and futile.

24 1145. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
25 the Rhode Island State Class suffered significant damages, and seek damages in an amount to be
26 determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(R.I. Gen. Laws §§ 6A-2-314 and 6A-2.1-212)

1146. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1147. This count is brought on behalf of the Rhode Island State Class against Fiat and FCA.

1148. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under R.I. Gen. Laws §§ 6A-2-104(1) and 6A-2.1-103(1)(t), and “sellers” of motor vehicles under § 6A-2-103(a)(4).

1149. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under R.I. Gen. Laws § 6A-2.1-103(1)(p).

1150. The Class Vehicles are and were at all relevant times “goods” within the meaning of R.I. Gen. Laws §§ 6A-2-105(1) and 6A-2.1-103(1)(h).

1151. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to R.I. Gen. Laws §§ 6A-2-314 and 6A-2.1-212.

1152. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1153. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Rhode Island State Class. The amount of damages due will be proven at trial.

41. South Carolina

BREACH OF EXPRESS WARRANTY
(S.C. Code §§ 36-2-313 and 36-2A-210)

1154. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1 1155. Plaintiffs Michael Johnson, Ernest Melin, and Bryan Muckenfuss (for the purpose
2 of this section, “Plaintiffs”) bring this action on behalf of themselves and the South Carolina State
3 Class against Fiat and FCA.

4 1156. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
5 vehicles under S.C. Code §§ 36-2-104(1) and 36-2A-103(1)(t), and “sellers” of motor vehicles
6 under § 36-2-103(1)(d).

7 1157. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
8 motor vehicles under S.C. Code § 36-2A-103(1)(p).

9 1158. The Class Vehicles are and were at all relevant times “goods” within the meaning
10 of S.C. Code §§ 36-2-105(1) and 36-2A-103(1)(h).

11 1159. Federal law requires manufacturers of light-duty vehicles to provide two federal
12 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
13 The Performance Warranty applies to repairs that are required during the first two years or 24,000
14 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
15 major emission control components are covered for the first eight years or 80,000 miles,
16 whichever comes first. These major emission control components subject to the longer warranty
17 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
18 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
19 emission control or emission related parts which fail to function or function improperly due to a
20 defect in materials or workmanship. This warranty provides protection for two years or 24,000
21 miles, whichever comes first, or, for the major emission control components, for eight years or
22 80,000 miles, whichever comes first.

23 1160. Fiat and FCA provided these warranties to Plaintiffs and the South Carolina State
24 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
25 South Carolina State Class purchased or leased their Class Vehicles.

26 1161. However, Fiat and FCA knew or should have known that the warranties were false
27 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
28 sold and leased to Plaintiffs and the South Carolina State Class were designed to deactivate under

1 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
2 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

3 1162. Plaintiffs and the South Carolina State Class reasonably relied on Fiat's and FCA's
4 express warranties concerning emissions when purchasing or leasing the Class Vehicles.

5 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
6 South Carolina State Class, the Class Vehicles were designed to pollute at higher than legal limits
7 during normal driving, and could not achieve advertised performance and efficiency metrics
8 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
9 FCA therefore breached their express warranty by providing a product containing defects that
10 were never disclosed to Plaintiffs and the South Carolina State Class.

11 1163. Any opportunity to cure the express breach is unnecessary and futile.

12 1164. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
13 Plaintiffs and the South Carolina State Class suffered significant damages, and seek damages in
14 an amount to be determined at trial.

15 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
16 **(S.C. Code §§ 36-2-314 and 36-2A-212)**

17 1165. Plaintiffs reallege and incorporate by reference all allegations of the preceding
18 paragraphs as though fully set forth herein.

19 1166. Plaintiffs Michael Johnson, Ernest Melin, and Bryan Muckenfuss (for the purpose
20 of this section, "Plaintiffs") bring this action on behalf of themselves and the South Carolina State
21 Class against Fiat and FCA.

22 1167. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
23 under S.C. Code §§ 36-2-104(1) and 36-2A-103(1)(t), and "sellers" of motor vehicles under § 36-
24 2-103(1)(d).

25 1168. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
26 motor vehicles under S.C. Code § 36-2A-103(1)(p).

27 1169. The Class Vehicles are and were at all relevant times "goods" within the meaning
28 of S.C. Code §§ 36-2-105(1) and 36-2A-103(1)(h).

1170. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to S.C. Code §§ 36-2-314 and 36-2A-212.

1171. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1172. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the South Carolina State Class. The amount of damages due will be proven at trial.

42. South Dakota

BREACH OF EXPRESS WARRANTY (S.D. Codified Laws §§ 57A-2-313 and 57A-2A-210)

1173. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1174. Plaintiffs Elmer and Barbara Brinkman (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the South Dakota State Class against Fiat and FCA.

1175. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under S.D. Codified Laws §§ 57A-104(1) and 57A-2A-103(1)(t), and "sellers" of motor vehicles under § 57A-104(1)(d).

1176. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under S.D. Codified Laws § 57A-2A-103(1)(p).

1177. The Class Vehicles are and were at all relevant times "goods" within the meaning of S.D. Codified Laws §§ 57A-2-105(1) and 57A-2A-103(1)(h).

1178. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."

1 The Performance Warranty applies to repairs that are required during the first two years or 24,000
2 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
3 major emission control components are covered for the first eight years or 80,000 miles,
4 whichever comes first. These major emission control components subject to the longer warranty
5 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
6 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
7 emission control or emission related parts which fail to function or function improperly due to a
8 defect in materials or workmanship. This warranty provides protection for two years or 24,000
9 miles, whichever comes first, or, for the major emission control components, for eight years or
10 80,000 miles, whichever comes first.

11 1179. Fiat and FCA provided these warranties to Plaintiffs and the South Dakota State
12 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
13 South Dakota State Class purchased or leased their Class Vehicles.

14 1180. However, Fiat and FCA knew or should have known that the warranties were false
15 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
16 sold and leased to Plaintiffs and the South Dakota State Class were designed to deactivate under
17 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
18 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

19 1181. Plaintiffs and the South Dakota State Class reasonably relied on Fiat's and FCA's
20 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
21 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
22 South Dakota State Class, the Class Vehicles were designed to pollute at higher than legal limits
23 during normal driving, and could not achieve advertised performance and efficiency metrics
24 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
25 FCA therefore breached their express warranty by providing a product containing defects that
26 were never disclosed to Plaintiffs and the South Dakota State Class.

27 1182. Any opportunity to cure the express breach is unnecessary and futile.
28

1 1183. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
2 Plaintiffs and the South Dakota State Class suffered significant damages, and seek damages in an
3 amount to be determined at trial.

4 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
5 **(S.D. Codified Laws §§ 57A-2-314 and 57A-2A-212)**

6 1184. Plaintiffs reallege and incorporate by reference all allegations of the preceding
7 paragraphs as though fully set forth herein.

8 1185. Plaintiffs Elmer and Barbara Brinkman (for the purpose of this section,
9 "Plaintiffs") bring this action on behalf of themselves and the South Dakota State Class against
10 Fiat and FCA.

11 1186. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
12 under S.D. Codified Laws §§ 57A-104(1) and 57A-2A-103(1)(t), and "sellers" of motor vehicles
13 under § 57A-104(1)(d).

14 1187. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
15 motor vehicles under S.D. Codified Laws § 57A-2A-103(1)(p).

16 1188. The Class Vehicles are and were at all relevant times "goods" within the meaning
17 of S.D. Codified Laws §§ 57A-2-105(1) and 57A-2A-103(1)(h).

18 1189. A warranty that the Class Vehicles were in merchantable condition and fit for the
19 ordinary purpose for which vehicles are used is implied by law pursuant to S.D. Codified Laws
20 §§ 57A-2-314 and 57A-2A-212.

21 1190. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
22 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
23 Vehicles were not in merchantable condition because their design violated state and federal laws.
24 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
25 federal emission standards.

26 1191. Fiat's and FCA's breaches of the implied warranty of merchantability caused
27 damage to the Plaintiffs and the South Dakota State Class. The amount of damages due will be
28 proven at trial.

1 **43. Tennessee**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Tenn. Code §§ 47-2-313 and 47-2A-210)**

4 1192. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 1193. Plaintiffs Anthony Edwards and Jeffrey Griggs (for the purpose of this section,
7 “Plaintiffs”) bring this action on behalf of themselves and the Tennessee State Class against Fiat
8 and FCA.

9 1194. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
10 vehicles under Tenn. Code §§ 47-2-104(1) and 47-2A-103(1)(t), and “sellers” of motor vehicles
11 under § 47-2-103(1)(d).

12 1195. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
13 motor vehicles under Tenn. Code § 47-2A-103(1)(p).

14 1196. The Class Vehicles are and were at all relevant times “goods” within the meaning
15 of Tenn. Code §§ 47-2-105(1) and 47-2A-103(1)(h).

16 1197. Federal law requires manufacturers of light-duty vehicles to provide two federal
17 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
18 The Performance Warranty applies to repairs that are required during the first two years or 24,000
19 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
20 major emission control components are covered for the first eight years or 80,000 miles,
21 whichever comes first. These major emission control components subject to the longer warranty
22 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
23 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
24 emission control or emission related parts which fail to function or function improperly due to a
25 defect in materials or workmanship. This warranty provides protection for two years or 24,000
26 miles, whichever comes first, or, for the major emission control components, for eight years or
27 80,000 miles, whichever comes first.
28

1198. Fiat and FCA provided these warranties to Plaintiffs and the Tennessee State Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the Tennessee State Class purchased or leased their Class Vehicles.

1199. However, Fiat and FCA knew or should have known that the warranties were false and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles sold and leased to Plaintiffs and the Tennessee State Class were designed to deactivate under real-world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions testing, and therefore, knew that the emission systems contained defects.

1200. Plaintiffs and the Tennessee State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Tennessee State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the Tennessee State Class.

1201. Any opportunity to cure the express breach is unnecessary and futile.

1202. As a direct and proximate result of Fiat's and FCA's breach of express warranties, Plaintiffs and the Tennessee State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Tenn. Code §§ 47-2-314 and 47-2A-212)

1203. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1204. Plaintiffs Anthony Edwards and Jeffrey Griggs (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Tennessee State Class against Fiat and FCA.

1205. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Tenn. Code §§ 47-2-104(1) and 47-2A-103(1)(t), and “sellers” of motor vehicles under § 47-2-103(1)(d).

1206. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Tenn. Code § 47-2A-103(1)(p).

1207. The Class Vehicles are and were at all relevant times “goods” within the meaning of Tenn. Code §§ 47-2-105(1) and 47-2A-103(1)(h).

1208. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Tenn. Code §§ 47-2-314 and 47-2A-212.

1209. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1210. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Tennessee State Class. The amount of damages due will be proven at trial.

44. Texas

BREACH OF EXPRESS WARRANTY (Tex. Bus. & Com. Code §§ 2.313 and 2A.210)

1211. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1212. Plaintiffs Anthony Alley, WEB Farms, Inc., Jamie Broom, Victor Feldman, and Charles Hissey (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Texas State Class against Fiat and FCA.

1213. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Tex. Bus. & Com. Code § 2.104(1) and 2A.103(a)(20), and “sellers” of motor vehicles under § 2.103(a)(4).

1214. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of motor vehicles under Tex. Bus. & Com. Code § 2A.103(a)(16).

1215. The Class Vehicles are and were at all relevant times “goods” within the meaning of Tex. Bus. & Com. Code §§ 2.105(a) and 2A.103(a)(8).

1216. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.” The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty include the catalytic converters, the electronic engine control unit (ECU), and the onboard emissions diagnostic device or computer. The Design and Defect Warranty covers repair of emission control or emission related parts which fail to function or function improperly due to a defect in materials or workmanship. This warranty provides protection for two years or 24,000 miles, whichever comes first, or, for the major emission control components, for eight years or 80,000 miles, whichever comes first.

1217. Fiat and FCA provided these warranties to Plaintiffs and the Texas State Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the Texas State Class purchased or leased their Class Vehicles.

1218. However, Fiat and FCA knew or should have known that the warranties were false and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles sold and leased to Plaintiffs and the Texas State Class were designed to deactivate under real-world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions testing, and therefore, knew that the emission systems contained defects.

1219. Plaintiffs and the Texas State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the Texas State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to Plaintiffs and the Texas State Class.

1220. Any opportunity to cure the express breach is unnecessary and futile.

1221. As a direct and proximate result of Fiat's and FCA's breach of express warranties, Plaintiffs and the Texas State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Tex. Bus. & Com. Code §§ 2.314 and 2A.212)

1222. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1223. Plaintiffs Anthony Alley, WEB Farms, Inc., Jamie Broom, Victor Feldman, and Charles Hissey (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Texas State Class against Fiat and FCA.

1224. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles under Tex. Bus. & Com. Code § 2.104(1) and 2A.103(a)(20), and "sellers" of motor vehicles under § 2.103(a)(4).

1225. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of motor vehicles under Tex. Bus. & Com. Code § 2A.103(a)(16).

1226. The Class Vehicles are and were at all relevant times "goods" within the meaning of Tex. Bus. & Com. Code §§ 2.105(a) and 2A.103(a)(8).

1227. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Tex. Bus. & Com. Code §§ 2.314 and 2A.212.

1228. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1229. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Texas State Class. The amount of damages due will be proven at trial.

45. Utah

BREACH OF EXPRESS WARRANTY (Utah Code Ann. §§ 70A-2-313 and 70A-2A-210)

1230. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1231. Plaintiff John Wilson (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Utah State Class against Fiat and FCA.

1232. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Utah Code § 70A-2-104(1) and 70A-2a-103(1)(t), and "sellers" of motor vehicles under § 70A-2-103(1)(d).

1233. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Utah Code § 70A-2a-103(1)(p).

1234. The Class Vehicles are and were at all relevant times "goods" within the meaning of Utah Code §§ 70A-2-105(1) and 70A-2a-103(1)(h).

1235. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000

1 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
2 major emission control components are covered for the first eight years or 80,000 miles,
3 whichever comes first. These major emission control components subject to the longer warranty
4 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
5 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
6 emission control or emission related parts which fail to function or function improperly due to a
7 defect in materials or workmanship. This warranty provides protection for two years or 24,000
8 miles, whichever comes first, or, for the major emission control components, for eight years or
9 80,000 miles, whichever comes first.

10 1236. Fiat and FCA provided these warranties to Plaintiff and the Utah State Class.
11 These warranties formed the basis of the bargain that was reached when Plaintiff and the Utah
12 State Class purchased or leased their Class Vehicles.

13 1237. However, Fiat and FCA knew or should have known that the warranties were false
14 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
15 sold and leased to Plaintiff and the Utah State Class were designed to deactivate under real-world
16 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
17 emissions testing, and therefore, knew that the emission systems contained defects.

18 1238. Plaintiff and the Utah State Class reasonably relied on Fiat's and FCA's express
19 warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the
20 Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the Utah State Class,
21 the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and
22 could not achieve advertised performance and efficiency metrics without this cheating design.
23 This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their
24 express warranty by providing a product containing defects that were never disclosed to Plaintiff
25 and the Utah State Class.

26 1239. Any opportunity to cure the express breach is unnecessary and futile.
27
28

1 1240. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
2 Plaintiff and the Utah State Class suffered significant damages, and seek damages in an amount to
3 be determined at trial.

4 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
5 **(Utah Code Ann. §§ 70A-2-314 and 70A-2A-212)**

6 1241. Plaintiffs reallege and incorporate by reference all allegations of the preceding
7 paragraphs as though fully set forth herein.

8 1242. Plaintiff John Wilson (for the purpose of this section, "Plaintiff") brings this action
9 on behalf of himself and the Utah State Class against Fiat and FCA.

10 1243. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
11 under Utah Code § 70A-2-104(1) and 70A-2a-103(1)(t), and "sellers" of motor vehicles under
12 § 70A-2-103(1)(d).

13 1244. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
14 motor vehicles under Utah Code § 70A-2a-103(1)(p).

15 1245. The Class Vehicles are and were at all relevant times "goods" within the meaning
16 of Utah Code §§ 70A-2-105(1) and 70A-2a-103(1)(h).

17 1246. A warranty that the Class Vehicles were in merchantable condition and fit for the
18 ordinary purpose for which vehicles are used is implied by law pursuant to Utah Code §§ 70A-2-
19 314 and 70A-2a-212.

20 1247. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
21 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
22 Vehicles were not in merchantable condition because their design violated state and federal laws.
23 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
24 federal emission standards.

25 1248. Fiat's and FCA's breaches of the implied warranty of merchantability caused
26 damage to Plaintiff and the Utah State Class. The amount of damages due will be proven at trial.
27
28

1 **46. Vermont**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Vt. Stat. Tit. Ann. 9A, §§ 2-313 and 2A-210)**

4 1249. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 1250. This Count is brought on behalf of the Vermont State Class against Fiat and FCA.

7 1251. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
8 vehicles under Vt. Stat. Tit. 9A, § 2-104(1) and 2A-103(1)(t), and “sellers” of motor vehicles
9 under § 2-103(1)(d).

10 1252. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
11 motor vehicles under Vt. Stat. Tit. 9A, § 2A-103(1)(p).

12 1253. The Class Vehicles are and were at all relevant times “goods” within the meaning
13 of Vt. Stat. Tit. 9A, §§ 2-105(1) and 2A-103(1)(h).

14 1254. Federal law requires manufacturers of light-duty vehicles to provide two federal
15 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
16 The Performance Warranty applies to repairs that are required during the first two years or 24,000
17 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
18 major emission control components are covered for the first eight years or 80,000 miles,
19 whichever comes first. These major emission control components subject to the longer warranty
20 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
21 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
22 emission control or emission related parts which fail to function or function improperly due to a
23 defect in materials or workmanship. This warranty provides protection for two years or 24,000
24 miles, whichever comes first, or, for the major emission control components, for eight years or
25 80,000 miles, whichever comes first.

1 1255. Fiat and FCA provided these warranties to the Vermont State Class. These
2 warranties formed the basis of the bargain that was reached when the Vermont State Class
3 purchased or leased their Class Vehicles.

4 1256. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to the Vermont State Class were designed to deactivate under real-world driving
7 conditions, and to emit oxides of nitrogen within legal limits only when undergoing emissions
8 testing, and therefore, knew that the emission systems contained defects.

9 1257. The Vermont State Class reasonably relied on Fiat's and FCA's express warranties
10 concerning emissions when purchasing or leasing the Class Vehicles. However, the Class
11 Vehicles did not perform as warranted. Unbeknownst to the Vermont State Class, the Class
12 Vehicles were designed to pollute at higher than legal limits during normal driving, and could not
13 achieve advertised performance and efficiency metrics without this cheating design. This design
14 and the devices that effectuate it are defects. Fiat and FCA therefore breached their express
15 warranty by providing a product containing defects that were never disclosed to the Vermont
16 State Class.

17 1258. Any opportunity to cure the express breach is unnecessary and futile.

18 1259. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 the Vermont State Class suffered significant damages, and seek damages in an amount to be
20 determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(Vt. Stat. Ann. Tit. 9A, §§ 2-314 and 2A-212)**

23 1260. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 1261. This Count is brought on behalf of the Delaware State Class against Fiat and FCA.
26
27
28

1262. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Vt. Stat. Tit. 9A, § 2-104(1) and 2A-103(1)(t), and “sellers” of motor vehicles under § 2-103(1)(d).

1263. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Vt. Stat. Tit. 9A, § 2A-103(1)(p).

1264. The Class Vehicles are and were at all relevant times “goods” within the meaning of Vt. Stat. Tit. 9A, §§ 2-105(1) and 2A-103(1)(h).

1265. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Vt. Stat. Tit. 9A, §§ 2-314 and 2A-212.

1266. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1267. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Vermont State Class. The amount of damages due will be proven at trial.

47. Virginia

BREACH OF EXPRESS WARRANTY (Va. Code Ann. §§ 8.2-313 and 8.2A-210)

1268. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1269. Plaintiffs James Boykin and Brian Hiner (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Virginia State Class against Fiat and FCA.

1270. Fiat and FCA are and were at all relevant times “merchants” with respect to motor vehicles under Va. Code § 8.2-104(1) and 8.2A-103(1)(t), and “sellers” of motor vehicles under § 8.2-103(1)(d).

1 1271. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
2 motor vehicles under Va. Code § 8.2A-103(1)(p).

3 1272. The Class Vehicles are and were at all relevant times “goods” within the meaning
4 of Va. Code §§ 8.2-105(1) and 8.2A-103(1)(h).

5 1273. Federal law requires manufacturers of light-duty vehicles to provide two federal
6 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
7 The Performance Warranty applies to repairs that are required during the first two years or 24,000
8 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
9 major emission control components are covered for the first eight years or 80,000 miles,
10 whichever comes first. These major emission control components subject to the longer warranty
11 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
12 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
13 emission control or emission related parts which fail to function or function improperly due to a
14 defect in materials or workmanship. This warranty provides protection for two years or 24,000
15 miles, whichever comes first, or, for the major emission control components, for eight years or
16 80,000 miles, whichever comes first.

17 1274. Fiat and FCA provided these warranties to Plaintiffs and the Virginia State Class.
18 These warranties formed the basis of the bargain that was reached when Plaintiffs and the
19 Virginia State Class purchased or leased their Class Vehicles.

20 1275. However, Fiat and FCA knew or should have known that the warranties were false
21 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
22 sold and leased to Plaintiffs and the Virginia State Class were designed to deactivate under real-
23 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
24 emissions testing, and therefore, knew that the emission systems contained defects.

25 1276. Plaintiffs and the Virginia State Class reasonably relied on Fiat’s and FCA’s
26 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
27 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
28 Virginia State Class, the Class Vehicles were designed to pollute at higher than legal limits during

1 normal driving, and could not achieve advertised performance and efficiency metrics without this
 2 cheating design. This design and the devices that effectuate it are defects. Fiat and FCA
 3 therefore breached their express warranty by providing a product containing defects that were
 4 never disclosed to Plaintiffs and the Virginia State Class.

5 1277. Any opportunity to cure the express breach is unnecessary and futile.

6 1278. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
 7 Plaintiffs and the Virginia State Class suffered significant damages, and seek damages in an
 8 amount to be determined at trial.

9 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
 10 **(Va. Code Ann. §§ 8.2-314 and 8.2A-212)**

11 1279. Plaintiffs reallege and incorporate by reference all allegations of the preceding
 12 paragraphs as though fully set forth herein.

13 1280. Plaintiffs James Boykin and Brian Hiner (for the purpose of this section,
 14 "Plaintiffs") bring this action on behalf of themselves and the Virginia State Class against Fiat
 15 and FCA.

16 1281. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles
 17 under Va. Code § 8.2-104(1) and 8.2A-103(1)(t), and "sellers" of motor vehicles under § 8.2-
 18 103(1)(d).

19 1282. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of
 20 motor vehicles under Va. Code § 8.2A-103(1)(p).

21 1283. The Class Vehicles are and were at all relevant times "goods" within the meaning
 22 of Va. Code §§ 8.2-105(1) and 8.2A-103(1)(h).

23 1284. A warranty that the Class Vehicles were in merchantable condition and fit for the
 24 ordinary purpose for which vehicles are used is implied by law pursuant to Va. Code §§ 8.2-314
 25 and 8.2A-212.

26 1285. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable
 27 condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class
 28 Vehicles were not in merchantable condition because their design violated state and federal laws.

1 The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and
2 federal emission standards.

3 1286. Fiat's and FCA's breaches of the implied warranty of merchantability caused
4 damage to Plaintiffs and the Virginia State Class. The amount of damages due will be proven at
5 trial.

6 **48. Washington**

7 **BREACH OF EXPRESS WARRANTY**
8 **(Wash. Rev. Code §§ 62A.2-313 and 62A.2A-210)**

9 1287. Plaintiffs reallege and incorporate by reference all preceding allegations as though
10 fully set forth herein.

11 1288. Plaintiffs Karl Calhoun, Andrew Loescher, and Jesse Sandifer (for the purpose of
12 this section, "Plaintiffs") bring this action on behalf of themselves and the Washington State
13 Class against Fiat and FCA.

14 1289. Fiat and FCA are and were at all relevant times "merchants" with respect to motor
15 vehicles under Wash. Rev. Code § 62A.2-104(1) and 62A.2A-103(1)(t), and "sellers" of motor
16 vehicles under § 2.103(a)(4).

17 1290. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of
18 motor vehicles under Wash. Rev. Code § 62A.2A-103(1)(p).

19 1291. The Class Vehicles are and were at all relevant times "goods" within the meaning
20 of Wash. Rev. Code §§ 62A.2-105(1) and 62A.2A-103(1)(h).

21 1292. Federal law requires manufacturers of light-duty vehicles to provide two federal
22 emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty."
23 The Performance Warranty applies to repairs that are required during the first two years or 24,000
24 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
25 major emission control components are covered for the first eight years or 80,000 miles,
26 whichever comes first. These major emission control components subject to the longer warranty
27 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
28 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of

1 emission control or emission related parts which fail to function or function improperly due to a
2 defect in materials or workmanship. This warranty provides protection for two years or 24,000
3 miles, whichever comes first, or, for the major emission control components, for eight years or
4 80,000 miles, whichever comes first.

5 1293. Fiat and FCA provided these warranties to Plaintiffs and the Washington State
6 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
7 Washington State Class purchased or leased their Class Vehicles.

8 1294. However, Fiat and FCA knew or should have known that the warranties were false
9 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
10 sold and leased to Plaintiffs and the Washington State Class were designed to deactivate under
11 real-world driving conditions, and to emit oxides of nitrogen within legal limits only when
12 undergoing emissions testing, and therefore, knew that the emission systems contained defects.

13 1295. Plaintiffs and the Washington State Class reasonably relied on Fiat's and FCA's
14 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
15 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
16 Washington State Class, the Class Vehicles were designed to pollute at higher than legal limits
17 during normal driving, and could not achieve advertised performance and efficiency metrics
18 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
19 FCA therefore breached their express warranty by providing a product containing defects that
20 were never disclosed to Plaintiffs and the Washington State Class.

21 1296. Any opportunity to cure the express breach is unnecessary and futile.

22 1297. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
23 Plaintiffs and the Washington State Class suffered significant damages, and seek damages in an
24 amount to be determined at trial.

25 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
26 **(Wash. Rev. Code §§ 62A.2-314 and 62A.2A-212)**

27 1298. Plaintiffs reallege and incorporate by reference all allegations of the preceding
28 paragraphs as though fully set forth herein.

1299. Plaintiffs Karl Calhoun, Andrew Loescher, and Jesse Sandifer (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Washington State Class against Fiat and FCA.

1300. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Wash. Rev. Code § 62A.2-104(1) and 62A.2A-103(1)(t), and “sellers” of motor vehicles under § 2.103(a)(4).

1301. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Wash. Rev. Code § 62A.2A-103(1)(p).

1302. The Class Vehicles are and were at all relevant times “goods” within the meaning of Wash. Rev. Code §§ 62A.2-105(1) and 62A.2A-103(1)(h).

1303. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Wash. Rev. Code §§ 62A.2-314 and 62A.2A-212.

1304. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1305. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Washington State Class. The amount of damages due will be proven at trial.

49. West Virginia

BREACH OF EXPRESS WARRANTY (W. Va. Code §§ 46-2-313 and 46-2A-210)

1306. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1307. This count is brought on behalf of the West Virginia State Class against Fiat and FCA.

1 1308. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
2 vehicles under W. Va. Code §§ 46-2-104(1) and 46-2A-103(1)(t), and “sellers” of motor vehicles
3 under § 46-2-103(1)(d).

4 1309. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
5 motor vehicles under W. Va. Code § 46-2A-103(1)(p).

6 1310. The Class Vehicles are and were at all relevant times “goods” within the meaning
7 of W. Va. Code §§ 46-2-105(1) and 46-2A-103(1)(h).

8 1311. Federal law requires manufacturers of light-duty vehicles to provide two federal
9 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
10 The Performance Warranty applies to repairs that are required during the first two years or 24,000
11 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
12 major emission control components are covered for the first eight years or 80,000 miles,
13 whichever comes first. These major emission control components subject to the longer warranty
14 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
15 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
16 emission control or emission related parts which fail to function or function improperly due to a
17 defect in materials or workmanship. This warranty provides protection for two years or 24,000
18 miles, whichever comes first, or, for the major emission control components, for eight years or
19 80,000 miles, whichever comes first.

20 1312. Fiat and FCA provided these warranties to the West Virginia State Class. These
21 warranties formed the basis of the bargain that was reached when the West Virginia State Class
22 purchased or leased their Class Vehicles.

23 1313. However, Fiat and FCA knew or should have known that the warranties were false
24 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
25 sold and leased to the West Virginia State Class were designed to deactivate under real-world
26 driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
27 emissions testing, and therefore, knew that the emission systems contained defects.
28

1314. The West Virginia State Class reasonably relied on Fiat's and FCA's express warranties concerning emissions when purchasing or leasing the Class Vehicles. However, the Class Vehicles did not perform as warranted. Unbeknownst to the West Virginia State Class, the Class Vehicles were designed to pollute at higher than legal limits during normal driving, and could not achieve advertised performance and efficiency metrics without this cheating design. This design and the devices that effectuate it are defects. Fiat and FCA therefore breached their express warranty by providing a product containing defects that were never disclosed to the West Virginia State Class.

1315. Any opportunity to cure the express breach is unnecessary and futile.

1316. As a direct and proximate result of Fiat's and FCA's breach of express warranties, the West Virginia State Class suffered significant damages, and seek damages in an amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(W. Va. Code §§ 46-2-314 and 46-2A-212)

1317. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1318. This count is brought on behalf of the West Virginia State Class against Fiat and FCA.

1319. Fiat and FCA were at all relevant times "merchants" with respect to motor vehicles under W. Va. Code §§ 46-2-104(1) and 46-2A-103(1)(t), and "sellers" of motor vehicles under § 46-2-103(1)(d).

1320. With respect to leases, Fiat and FCA are and were at all relevant times "lessors" of motor vehicles under W. Va. Code § 46-2A-103(1)(p).

1321. The Class Vehicles are and were at all relevant times "goods" within the meaning of W. Va. Code §§ 46-2-105(1) and 46-2A-103(1)(h).

1322. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to W. Va. Code §§ 46-2-314 and 46-2A-212.

1323. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1324. Fiat's and FCA's breaches of the implied warranty of merchantability caused damage to the West Virginia State Class. The amount of damages due will be proven at trial.

50. Wisconsin

BREACH OF EXPRESS WARRANTY (Wis. Stat. §§ 402.313 and 411.210)

1325. Plaintiffs reallege and incorporate by reference all preceding allegations as though fully set forth herein.

1326. Plaintiffs Josh Claflin and Wayne Tonnesen (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Wisconsin State Class against Fiat and FCA.

1327. Fiat and FCA are and were at all relevant times "merchants" with respect to motor vehicles under Wis. Stat. § 402.104(3) and 411.103(1)(t), and "sellers" of motor vehicles under § 402.103(1)(d).

1328. With respect to leases, Fiat and FCA are and were all relevant times "lessors" of motor vehicles under Wis. Stat. § 411.103(1)(p).

1329. The Class Vehicles are and were at all relevant times "goods" within the meaning of Wis. Stat. §§ 402.105(1)(c) and 411.103(1)(h).

1330. Federal law requires manufacturers of light-duty vehicles to provide two federal emission control warranties: a "Performance Warranty" and a "Design and Defect Warranty." The Performance Warranty applies to repairs that are required during the first two years or 24,000 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain major emission control components are covered for the first eight years or 80,000 miles, whichever comes first. These major emission control components subject to the longer warranty

1 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
2 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
3 emission control or emission related parts which fail to function or function improperly due to a
4 defect in materials or workmanship. This warranty provides protection for two years or 24,000
5 miles, whichever comes first, or, for the major emission control components, for eight years or
6 80,000 miles, whichever comes first.

7 1331. Fiat and FCA provided these warranties to Plaintiffs and the Wisconsin State
8 Class. These warranties formed the basis of the bargain that was reached when Plaintiffs and the
9 Wisconsin State Class purchased or leased their Class Vehicles.

10 1332. However, Fiat and FCA knew or should have known that the warranties were false
11 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
12 sold and leased to Plaintiffs and the Wisconsin State Class were designed to deactivate under real-
13 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
14 emissions testing, and therefore, knew that the emission systems contained defects.

15 1333. Plaintiffs and the Wisconsin State Class reasonably relied on Fiat's and FCA's
16 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
17 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiffs and the
18 Wisconsin State Class, the Class Vehicles were designed to pollute at higher than legal limits
19 during normal driving, and could not achieve advertised performance and efficiency metrics
20 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
21 FCA therefore breached their express warranty by providing a product containing defects that
22 were never disclosed to Plaintiffs and the Wisconsin State Class.

23 1334. Any opportunity to cure the express breach is unnecessary and futile.

24 1335. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
25 Plaintiffs and the Wisconsin State Class suffered significant damages, and seek damages in an
26 amount to be determined at trial.

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(Wis. Stat. §§ 402.314 and 411.212)

1336. Plaintiffs reallege and incorporate by reference all allegations of the preceding paragraphs as though fully set forth herein.

1337. Plaintiffs Josh Claflin and Wayne Tonnesen (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Wisconsin State Class against Fiat and FCA.

1338. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Wis. Stat. § 402.104(3) and 411.103(1)(t), and “sellers” of motor vehicles under § 402.103(1)(d).

1339. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Wis. Stat. § 411.103(1)(p).

1340. The Class Vehicles are and were at all relevant times “goods” within the meaning of Wis. Stat. §§ 402.105(1)(c) and 411.103(1)(h).

1341. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Wis. Stat. §§ 402.314 and 411.212.

1342. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1343. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to the Plaintiffs and the Wisconsin State Class. The amount of damages due will be proven at trial.

1 **51. Wyoming**

2 **BREACH OF EXPRESS WARRANTY**
3 **(Wyo. Stat. § 34.1-2-313)**

4 1344. Plaintiffs reallege and incorporate by reference all preceding allegations as though
5 fully set forth herein.

6 1345. Plaintiff Kelly Ruiz (for the purpose of this section, “Plaintiff”) brings this action
7 on behalf of herself and the Wyoming State Class against Fiat and FCA.

8 1346. Fiat and FCA are and were at all relevant times “merchants” with respect to motor
9 vehicles under Wyo. Stat. §§ 34.1-2-104(a) and 34.1-2.A-103(a)(xx), and “sellers” of motor
10 vehicles under § 34.1-2-103(a)(iv).

11 1347. With respect to leases, Fiat and FCA are and were all relevant times “lessors” of
12 motor vehicles under Wyo. Stat. § 34.1-2.A-103(a)(xvi).

13 1348. The Class Vehicles are and were at all relevant times “goods” within the meaning
14 of Wyo. Stat. §§ 34.1-2-105(a) and 34.1-2.A-103(a)(viii).

15 1349. Federal law requires manufacturers of light-duty vehicles to provide two federal
16 emission control warranties: a “Performance Warranty” and a “Design and Defect Warranty.”
17 The Performance Warranty applies to repairs that are required during the first two years or 24,000
18 miles, whichever occurs first, when a vehicle fails an emissions test. Under this warranty, certain
19 major emission control components are covered for the first eight years or 80,000 miles,
20 whichever comes first. These major emission control components subject to the longer warranty
21 include the catalytic converters, the electronic engine control unit (ECU), and the onboard
22 emissions diagnostic device or computer. The Design and Defect Warranty covers repair of
23 emission control or emission related parts which fail to function or function improperly due to a
24 defect in materials or workmanship. This warranty provides protection for two years or 24,000
25 miles, whichever comes first, or, for the major emission control components, for eight years or
26 80,000 miles, whichever comes first.

1 1350. Fiat and FCA provided these warranties to Plaintiff and the Wyoming State Class.
2 These warranties formed the basis of the bargain that was reached when Plaintiff and the
3 Wyoming State Class purchased or leased their Class Vehicles.

4 1351. However, Fiat and FCA knew or should have known that the warranties were false
5 and/or misleading. Fiat and FCA were aware that the emissions systems in the Class Vehicles
6 sold and leased to Plaintiff and the Wyoming State Class were designed to deactivate under real-
7 world driving conditions, and to emit oxides of nitrogen within legal limits only when undergoing
8 emissions testing, and therefore, knew that the emission systems contained defects.

9 1352. Plaintiff and the Wyoming State Class reasonably relied on Fiat's and FCA's
10 express warranties concerning emissions when purchasing or leasing the Class Vehicles.
11 However, the Class Vehicles did not perform as warranted. Unbeknownst to Plaintiff and the
12 Wyoming State Class, the Class Vehicles were designed to pollute at higher than legal limits
13 during normal driving, and could not achieve advertised performance and efficiency metrics
14 without this cheating design. This design and the devices that effectuate it are defects. Fiat and
15 FCA therefore breached their express warranty by providing a product containing defects that
16 were never disclosed to Plaintiff and the Wyoming State Class.

17 1353. Any opportunity to cure the express breach is unnecessary and futile.

18 1354. As a direct and proximate result of Fiat's and FCA's breach of express warranties,
19 Plaintiff and the Wyoming State Class suffered significant damages, and seek damages in an
20 amount to be determined at trial.

21 **BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY**
22 **(Wyo. Stat. §§ 34.1-2-314 and 34.1-2.A-212)**

23 1355. Plaintiffs reallege and incorporate by reference all allegations of the preceding
24 paragraphs as though fully set forth herein.

25 1356. Plaintiff Kelly Ruiz (for the purpose of this section, "Plaintiff") brings this action
26 on behalf of herself and the Wyoming State Class against Fiat and FCA.

1357. Fiat and FCA were at all relevant times “merchants” with respect to motor vehicles under Wyo. Stat. §§ 34.1-2-104(a) and 34.1-2.A-103(a)(xx), and “sellers” of motor vehicles under § 34.1-2-103(a)(iv).

1358. With respect to leases, Fiat and FCA are and were at all relevant times “lessors” of motor vehicles under Wyo. Stat. § 34.1-2.A-103(a)(xvi).

1359. The Class Vehicles are and were at all relevant times “goods” within the meaning of Wyo. Stat. §§ 34.1-2-105(a) and 34.1-2.A-103(a)(viii).

1360. A warranty that the Class Vehicles were in merchantable condition and fit for the ordinary purpose for which vehicles are used is implied by law pursuant to Wyo. Stat. §§ 34.1-2-314 and 34.1-2.A-212.

1361. Fiat and FCA sold and/or leased Class Vehicles that were not in merchantable condition and/or fit for their ordinary purpose in violation of the implied warranty. The Class Vehicles were not in merchantable condition because their design violated state and federal laws. The Class Vehicles were not fit for their ordinary purpose as they were built to evade state and federal emission standards.

1362. Fiat’s and FCA’s breaches of the implied warranty of merchantability caused damage to Plaintiff and the Wyoming State Class. The amount of damages due will be proven at trial.

II. STATE CLASS CONSUMER PROTECTION CLAIMS

VIOLATION OF ALABAMA DECEPTIVE TRADE PRACTICES ACT (Ala. Code § 8-19-1, *et seq.*)

1363. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1364. Plaintiffs Chatom Motor Company, Inc., Victor Feldman, and Nelson John Stephens (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Alabama State Class against all Defendants.

1365. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the Alabama State Class members are “persons” within the meaning

1 of Ala. Code § 8-19-3(5). Plaintiffs and the Alabama State Class members are “consumers”
2 within the meaning of Ala. Code § 8-19-3(2).

3 1366. The Class Vehicles are “goods” within the meaning of Ala. Code § 8-19-3(3).

4 1367. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
5 Marchionne are engaged in “trade” or “commerce” within the meaning of Ala. Code § 8-19-3(8).

6 1368. The Alabama Deceptive Trade Practices Act (“Alabama DTPA”) makes unlawful
7 several specific acts, including:“(5) Representing that goods or services have sponsorship,
8 approval, characteristics, ingredients, uses, benefits, or qualities that they do not have,” “(7)
9 Representing that goods or services are of a particular standard, quality, or grade, or that goods
10 are of a particular style or model, if they are of another,” and “(27) Engaging in any other
11 unconscionable, false, misleading, or deceptive act or practice in the conduct of trade or
12 commerce.” Ala. Code § 8-19-5.

13 1369. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
14 Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Alabama
15 DTPA.

16 1370. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
17 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
18 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
19 emission cheating components in the Class Vehicles that caused them to pollute excessively in
20 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
21 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
22 the Defendants concealed that the fuel efficiency and performance could be achieved only
23 through emission control devices in the Class Vehicles that caused them to pollute excessively in
24 real-world conditions; and (3) the Defendants developed and installed emission cheating
25 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
26 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
27 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
28

1 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 2 practices as defined in Ala. Code § 8-19-5:

- 3 A. Causing likelihood of confusion or of misunderstanding as to the approval
 4 or certification of the Class Vehicles;
- 5 B. Representing that the Class Vehicles have approval, characteristics, uses,
 6 benefits, or qualities that they do not have;
- 7 C. Representing that the Class Vehicles are of a particular standard, quality
 8 and grade when they are not; and/or
- 9 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 10 advertised.

11 1371. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 12 emission control system were material to Plaintiffs and the Alabama State Class, as Defendants
 13 intended. Had they known the truth, Plaintiffs and the Alabama State Class would not have
 14 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 15 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 16 them.

17 1372. Plaintiffs and Alabama State Class members had no way of discerning that
 18 Defendants' representations were false and misleading, or otherwise learning the facts that
 19 Defendants had concealed or failed to disclose, because Defendants' emission control software
 20 was extremely sophisticated technology. Plaintiffs and Alabama State Class members did not,
 21 and could not, unravel Defendants' deception on their own.

22 1373. Defendants had an ongoing duty to Plaintiffs and the Alabama State Class to
 23 refrain from unfair and deceptive practices under the Alabama DTPA in the course of their
 24 business. Specifically, Defendants owed Plaintiffs and Alabama State Class members a duty to
 25 disclose all the material facts concerning the EcoDiesel® emission control system because they
 26 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Alabama
 27 State Class, and/or they made misrepresentations that were rendered misleading because they
 28 were contradicted by withheld facts.

1 1374. Plaintiffs and Alabama State Class members suffered ascertainable loss and actual
2 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
3 failure to disclose material information.

4 1375. Defendants' violations present a continuing risk to Plaintiffs and the Alabama
5 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
6 of herein affect the public interest.

7 1376. Pursuant to Ala. Code § 8-19-10, Plaintiffs and the Alabama State Class seek an
8 order enjoining Defendants' unfair and/or deceptive acts or practices and awarding damages,
9 treble damages, and any other just and proper relief available under the Alabama DTPA.

10 1377. On June 12, 2017, Plaintiff Stephens sent a notice letter to FCA US LLC
11 complying with Ala. Code § 8-19-10(e). Additionally, all Defendants were provided notice of the
12 issues raised in this count and this Complaint by the governmental investigations, the numerous
13 complaints filed against them, and the many individual notice letters sent by Plaintiffs within a
14 reasonable amount of time after the allegations of Class Vehicle defects became public.
15 Moreover, Plaintiffs sent a second notice letter pursuant to Ala. Code § 8-19-10(e) to all
16 Defendants on July 19, 2017. Because Defendants failed to remedy their unlawful conduct within
17 the requisite time period, Plaintiffs seek all damages and relief to which Plaintiffs and the
18 Alabama State Class are entitled.

19
20 **VIOLATION OF THE ALASKA UNFAIR TRADE**
21 **PRACTICES AND CONSUMER PROTECTION ACT**
(Alaska Stat. Ann. § 45.50.471, et seq.)

22 1378. Plaintiffs incorporate by reference each preceding paragraph as though fully set
23 forth herein.

24 1379. Plaintiffs Matthew Johnson and Amanda Kobussen (for purposes of this section,
25 "Plaintiffs") bring this action on behalf of themselves and the Alaska State Class against all
26 Defendants.

27 1380. The Alaska Unfair Trade Practices and Consumer Protection Act ("Alaska CPA")
28 declares unfair methods of competition and unfair or deceptive acts or practices in the conduct of

trade or commerce unlawful, including: “(4) representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have or that a person has a sponsorship, approval, status, affiliation, or connection that the person does not have;” “(6) representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another;” “(8) advertising goods or services with intent not to sell them as advertised;” or “(12) using or employing deception, fraud, false pretense, false promise, misrepresentation, or knowingly concealing, suppressing, or omitting a material fact with intent that others rely upon the concealment, suppression or omission in connection with the sale or advertisement of goods or services whether or not a person has in fact been misled, deceived or damaged.” Alaska Stat. Ann. § 45.50.471.

1381. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Alaska CPA.

1382. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Alaska Stat. Ann. § 45.50.471:

- 1 A. Causing likelihood of confusion or of misunderstanding as to the approval
- 2 or certification of the Class Vehicles;
- 3 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 4 or benefits that they do not have;
- 5 C. Representing that the Class Vehicles are of a particular standard, quality
- 6 and grade when they are not;
- 7 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 8 advertised;
- 9 E. Engaging in other conduct which created a likelihood of confusion or of
- 10 misunderstanding; and/or
- 11 F. Using or employing deception, fraud, false pretense, false promise or
- 12 misrepresentation, or the concealment, suppression or omission of a
- 13 material fact with intent that others rely upon such concealment,
- 14 suppression or omission, in connection with the advertisement and
- 15 sale/lease of the Class Vehicles, whether or not any person has in fact been
- 16 misled, deceived or damaged thereby.

17 1383. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 18 emission control system were material to Plaintiffs and the Alaska State Class, as Defendants
 19 intended. Had they known the truth, Plaintiffs and the Alaska State Class would not have
 20 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 21 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 22 them.

23 1384. Plaintiffs and Alaska State Class members had no way of discerning that
 24 Defendants' representations were false and misleading, or otherwise learning the facts that
 25 Defendants had concealed or failed to disclose, because Defendants' emission control software
 26 was extremely sophisticated technology. Plaintiffs and Alaska State Class members did not, and
 27 could not, unravel Defendants' deception on their own.

1 1385. Defendants had an ongoing duty to Plaintiffs and the Alaska State Class to refrain
2 from unfair and deceptive practices under the Alaska CPA in the course of their business.
3 Specifically, Defendants owed Plaintiffs and Alaska State Class members a duty to disclose all
4 the material facts concerning the EcoDiesel® emission control system because they possessed
5 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Alaska State Class,
6 and/or they made misrepresentations that were rendered misleading because they were
7 contradicted by withheld facts.

8 1386. Plaintiffs and Alaska State Class members suffered ascertainable loss and actual
9 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
10 failure to disclose material information.

11 1387. Defendants' violations present a continuing risk to Plaintiffs and the Alaska State
12 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
13 herein affect the public interest.

14 1388. Pursuant to Alaska Stat. Ann. §§ 45.50.531 and 45.50.535, Plaintiffs and the
15 Alaska State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices,
16 and awarding damages, punitive damages, treble damages, and any other just and proper relief
17 available under the Alaska CPA.

18 1389. On November 28, 2016, a notice letter was sent to FCA US LLC complying with
19 Alaska Stat. § 45.50.535(b)(1). Additionally, all Defendants were provided notice of the issues
20 raised in this count and this Complaint by the governmental investigations, the numerous
21 complaints filed against them, and the many individual notice letters sent by Plaintiffs within a
22 reasonable amount of time after the allegations of Class Vehicle defects became public. Plaintiffs
23 sent a second notice letter pursuant to Alaska Stat. § 45.50.535(b)(1) to all Defendants on July 19,
24 2017. Because Defendants failed to remedy their unlawful conduct within the requisite time
25 period, Plaintiffs and the Alaska State Class members seek all damages and relief to which they
26 are entitled.

VIOLATIONS OF THE CONSUMER FRAUD ACT
(Ariz. Rev. Stat. § 44-1521, *et seq.*)

1390. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1391. Plaintiff Gregory Giauque, (for the purpose of this section, “Plaintiff”) bring this action on behalf of themselves and the Arizona State Class against all Defendants.

1392. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Arizona State Class members are “persons” within the meaning of Ariz. Rev. Stat. § 44-1521(6).

1393. The Class Vehicles are “merchandise” within the meaning of Ariz. Rev. Stat. § 44-1521(5).

1394. The Arizona Consumer Fraud Act (“Arizona CFA”) provides that “[t]he act, use or employment by any person of any deception, deceptive act or practice, fraud, ... misrepresentation, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale ... of any merchandise whether or not any person has in fact been misled, deceived or damaged thereby, is declared to be an unlawful practice.” Ariz. Rev. Stat. § 44-1522(A).

1395. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Arizona CFA.

1396. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating

1 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
2 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
3 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
4 Vehicles, Defendants engaged in deceptive acts or practices, as outlined in Ariz. Rev. Stat. § 44-
5 1522(A), including using or employing deception, fraud, false pretense, false promise or
6 misrepresentation, or the concealment, suppression or omission of a material fact with intent that
7 others rely upon such concealment, suppression or omission, in connection with the
8 advertisement and sale/lease of the Class Vehicles.

9 1397. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to Plaintiff and the Arizona State Class, as Defendants
11 intended. Had they known the truth, Plaintiff and the Arizona State Class would not have
12 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
13 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
14 them.

15 1398. Plaintiff and Arizona State Class members had no way of discerning that
16 Defendants' representations were false and misleading, or otherwise learning the facts that
17 Defendants had concealed or failed to disclose, because Defendants' emission control software
18 was extremely sophisticated technology. Plaintiff and Arizona State Class members did not, and
19 could not, unravel Defendants' deception on their own.

20 1399. Defendants had an ongoing duty to Plaintiff and the Arizona State Class to refrain
21 from unfair and deceptive practices under the Arizona CFA in the course of their business.
22 Specifically, Defendants owed Plaintiff and Arizona State Class members a duty to disclose all
23 the material facts concerning the EcoDiesel® emission control system because they possessed
24 exclusive knowledge, they intentionally concealed it from Plaintiff and the Arizona State Class,
25 and/or they made misrepresentations that were rendered misleading because they were
26 contradicted by withheld facts.

1 1400. Plaintiff and Arizona State Class members suffered ascertainable loss and actual
2 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
3 failure to disclose material information.

4 1401. Defendants' violations present a continuing risk to Plaintiff and the Arizona State
5 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
6 herein affect the public interest.

7 1402. Plaintiff and the Arizona State Class seek an order enjoining Defendants' unfair
8 and/or deceptive acts or practices and awarding damages and any other just and proper relief
9 available under the Arizona CFA.

10 **ARKANSAS COUNT I**
11 **VIOLATIONS OF THE DECEPTIVE TRADE PRACTICE ACT**
12 **(Ark. Code Ann. § 4-88-101, *et seq.*)**

13 1403. Plaintiffs incorporate by reference each preceding paragraph as though fully set
14 forth herein.

15 1404. Plaintiff Melvin Phillips (for the purpose of this section, "Plaintiff") brings this
16 action on behalf of himself and the Arkansas State Class against all Defendants.

17 1405. Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne,
18 Plaintiff, and the Arkansas State Class are "persons" within the meaning of Ark. Code Ann. § 4-
19 88-102(5).

20 1406. The Class Vehicles are "goods" within the meaning of Ark. Code Ann. § 4-88-
21 102(4).

22 1407. The Arkansas Deceptive Trade Practice Act ("Arkansas DTPA") makes unlawful
23 "[d]eceptive and unconscionable trade practices," which include, but are not limited to, a list of
24 enumerated items, including "[e]ngaging in any other unconscionable, false, or deceptive act or
25 practice in business, commerce, or trade[.]" Ark. Code Ann. § 4-88-107(a)(10). The Arkansas
26 DTPA also prohibits the following when utilized in connection with the sale or advertisement of
27 any goods: "(1) The act, use, or employment by any person of any deception, fraud, or false
28 pretense; or (2) The concealment, suppression, or omission of any material fact with intent that
others rely upon the concealment, suppression, or omission." Ark. Code Ann. § 4-88-108.

1408. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Arkansas DTPA.

1409. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Ark. Code Ann. §§ 4-88-107 -108:

- A. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- B. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- C. Advertising the Class Vehicles with the intent not to sell or lease them as advertised; and/or
- D. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and

1 sale/lease of the Class Vehicles, whether or not any person has in fact been
2 misled, deceived or damaged thereby.

3 1410. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiff and the Arkansas State Class, as Defendants
5 intended. Had they known the truth, Plaintiff and the Arkansas State Class would not have
6 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
7 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
8 them.

9 1411. Plaintiff and Arkansas State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiff and Arkansas State Class members did not, and
13 could not, unravel Defendants' deception on their own.

14 1412. Defendants had an ongoing duty to Plaintiff and the Arkansas State Class to refrain
15 from unfair and deceptive practices under the Arkansas DTPA in the course of their business.
16 Specifically, Defendants owed Plaintiff and the Arkansas State Class members a duty to disclose
17 all the material facts concerning the EcoDiesel® emission control system because they possessed
18 exclusive knowledge, they intentionally concealed it from the Arkansas State Class, and/or they
19 made misrepresentations that were rendered misleading because they were contradicted by
20 withheld facts.

21 1413. Plaintiff and Arkansas State Class members suffered ascertainable loss and actual
22 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
23 failure to disclose material information.

24 1414. Defendants' violations present a continuing risk to the Arkansas State Class, as
25 well as to the general public. Defendants' unlawful acts and practices complained of herein affect
26 the public interest.

1415. Plaintiff and the Arkansas State Class seek an order enjoining Defendants’ unfair and/or deceptive acts or practices, and awarding damages pursuant to Ark. Code Ann. § 4-88-13(f), and any other just and proper relief available under the Arkansas DTPA.

VIOLATIONS OF THE CONSUMER LEGAL REMEDIES ACT
(Cal. Civ. Code § 1750, *et seq.*)

1416. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1417. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the California State Class against all Defendants.

1418. Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the California State Class members are “persons” within the meaning of Cal. Civ. Code § 1761(c). Plaintiffs and the California State Class members are “consumers” within the meaning of Cal. Civ. Code § 1761(d).

1419. The California Legal Remedies Act (“CLRA”) prohibits “unfair or deceptive acts or practices undertaken by any person in a transaction intended to result or which results in the sale or lease of goods or services to any consumer[.]” Cal. Civ. Code § 1770(a).

1420. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the CLRA.

1421. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating

1 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 2 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 3 337-357. In so doing, and by Defendants engaged in one or more of the following unfair or
 4 deceptive acts or practices as defined in Cal. Civ. Code § 1770(a):

- 5 A. Representing that the Class Vehicles have approval, characteristics, uses,
 6 or benefits that they do not have;
- 7 B. Representing that the Class Vehicles are of a particular standard, quality
 8 and grade when they are not; and/or
- 9 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 10 advertised.

11 1422. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 12 emission control system were material to Plaintiffs and the California State Class, as Defendants
 13 intended. Had they known the truth, Plaintiffs and the California State Class would not have
 14 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 15 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 16 them.

17 1423. Plaintiffs and California State Class members had no way of discerning that
 18 Defendants' representations were false and misleading, or otherwise learning the facts that
 19 Defendants had concealed or failed to disclose, because Defendants' emission control software
 20 was extremely sophisticated technology. Plaintiffs and California State Class members did not,
 21 and could not, unravel Defendants' deception on their own.

22 1424. Defendants had an ongoing duty to Plaintiffs and the California State Class to
 23 refrain from unfair and deceptive practices under the California CLRA in the course of their
 24 business. Specifically, Defendants owed Plaintiffs and California State Class members a duty to
 25 disclose all the material facts concerning the EcoDiesel® emission control system because they
 26 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the California
 27 State Class, and/or they made misrepresentations that were rendered misleading because they
 28 were contradicted by withheld facts.

1 1425. Plaintiffs and California State Class members suffered ascertainable loss and
2 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
3 and/or failure to disclose material information.

4 1426. Defendants' violations present a continuing risk to Plaintiffs and the California
5 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
6 of herein affect the public interest.

7 1427. Pursuant to Cal. Civ. Code § 1780(a), Plaintiffs and the California State Class seek
8 an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
9 punitive damages, and any other just and proper relief available under the CLRA. Under Cal.
10 Civ. Code § 1780(b), Plaintiff seeks an additional award against Defendants of up to \$5,000 for
11 each California State Class member who qualifies as a "senior citizen" or "disabled person" under
12 the CLRA. Defendants knew or should have known that their conduct was directed to one or
13 more California State Class members who are senior citizens or disabled persons. Defendants'
14 conduct caused one or more of these senior citizens or disabled persons to suffer a substantial loss
15 of property set aside for retirement or for personal or family care and maintenance, or assets
16 essential to the health or welfare of the senior citizen or disabled person. One or more California
17 State Class members who are senior citizens or disabled persons are substantially more vulnerable
18 to Defendants' conduct because of age, poor health or infirmity, impaired understanding,
19 restricted mobility, or disability, and each of them suffered substantial physical, emotional, or
20 economic damage resulting from Defendants' conduct.

21 1428. On November 28, 2016, Plaintiff Chavez sent a notice letter to FCA US LLC
22 complying with Cal. Civ. Code § 1780(b). On January 17, a second notice letter was sent to FCA
23 US LLC and Fiat Chrysler. Plaintiffs sent yet another notice letter pursuant to Cal. Civ. Code
24 § 1780(b) to all Defendants on July 19, 2017. Additionally, all Defendants were provided notice
25 of the issues raised in this count and this Complaint by the governmental investigations, the
26 numerous complaints filed against them, and the many individual notice letters sent by Plaintiffs
27 within a reasonable amount of time after the allegations of Class Vehicle defects became public.
28

1 Because Defendants failed to remedy their unlawful conduct within the requisite time period,
 2 Plaintiff seek all damages and relief to which Plaintiffs and the California State Class are entitled.

3 **UNLAWFUL, UNFAIR, OR FRAUDULENT BUSINESS PRACTICES UNDER THE**
 4 **CALIFORNIA UNFAIR COMPETITION LAW**
 (Cal. Bus. & Prof. Code § 17200, *et seq.*)

5 1429. Plaintiff incorporates by reference each preceding paragraph as though fully set
 6 forth herein.

7 1430. Plaintiffs Leslie Bernstein, Jose Chavez, Gregory Giauque, and Satyanam Singh
 8 (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the
 9 California State Class against all Defendants.

10 1431. California’s Unfair Competition Law (“UCL”), Business and Professions Code
 11 § 17200, prohibits any “unlawful, unfair, or fraudulent business act or practices.”

12 1432. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
 13 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
 14 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 15 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 16 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 17 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
 18 the Defendants concealed that the fuel efficiency and performance could be achieved only
 19 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 20 real-world conditions; and (3) the Defendants developed and installed emission cheating
 21 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 22 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 23 337-357. In so doing, Fiat, FCA, VM Motori, Bosch GmbH, Bosch LLC, and Marchionne have
 24 engaged in at least the following unlawful, fraudulent, and unfair business acts and practices in
 25 violation of the UCL:

- 26 A. by knowingly and intentionally concealing from Plaintiffs and the other
 27 California State Class members that the Class Vehicles suffer from a
 28 design defect while obtaining money from Plaintiffs and Class members;

1 B. by marketing Class Vehicles as possessing functional and defect-free,
2 “clean” diesel engine systems; and

3 C. by violating both federal and California laws, including the federal RICO
4 statute and California laws governing vehicle emissions and emission
5 testing requirements.

6 1433. Defendants’ cheating scheme and concealment of the true characteristics of the
7 EcoDiesel emission control system were material to Plaintiffs and the California State Class, and
8 Defendants misrepresented, concealed, or failed to disclose the truth with the intention that
9 consumers would rely on the misrepresentations, concealments, and omissions. Had they known
10 the truth, Plaintiffs and the California State Class members who purchased or leased the Class
11 Vehicles would not have purchased or leased them at all or—if the Vehicles’ true nature had been
12 disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly
13 less for them.

14 1434. Plaintiffs and California State Class members suffered ascertainable loss and
15 actual damages as a direct and proximate result of Defendants’ misrepresentations and their
16 concealment of and failure to disclose material information. Pursuant to Cal. Bus. & Prof. Code
17 § 17200, Plaintiffs and the California State Class seek an order enjoining Defendants’ unfair
18 and/or deceptive acts or practices, any such orders or judgments as may be necessary to restore to
19 Plaintiffs and California State Class members any money acquired by unfair competition,
20 including restitution and/or restitutionary disgorgement, as provided in Cal. Bus. & Prof. Code
21 §§ 17203 and 3345, and any other just and proper relief available under the California UCL.

22 **FALSE ADVERTISING UNDER THE CALIFORNIA UNFAIR COMPETITION LAW**
23 **(Cal. Bus. & Prof. Code § 17500, *et seq.*)**

24 1435. Plaintiff incorporates by reference all preceding allegations as though fully set
25 forth herein.

26 1436. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
27 (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the
28

1 California State Class against FCA, Fiat, Marchionne, Bosch LLC, Bosch GmbH, and VM
2 Motori.

3 1437. California Bus. & Prof. Code § 17500 states: “It is unlawful for any person, ...
4 corporation ...or any employee thereof with intent directly or indirectly to dispose of real or
5 personal property... or to induce the public to enter into any obligation relating thereto, to make
6 or disseminate or cause to be made or disseminated ... before the public in this state or from this
7 state before the public in any state, in any newspaper or other publication, or any advertising
8 device, ... or in any other manner or means whatever, including over the Internet, any statement
9 ... which is untrue or misleading, and which is known, or which by the exercise of reasonable
10 care should be known, to be untrue or misleading.”

11 1438. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
12 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
13 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
14 emission cheating components in the Class Vehicles that caused them to pollute excessively in
15 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
16 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
17 the Defendants concealed that the fuel efficiency and performance could be achieved only
18 through emission control devices in the Class Vehicles that caused them to pollute excessively in
19 real-world conditions; and (3) the Defendants developed and installed emission cheating
20 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
21 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
22 337-357.

23 1439. FCA, Fiat, and Marchionne; Bosch LLC and Bosch GmbH; and VM Motori, each
24 made or caused to be made and disseminated throughout California and the United States,
25 through advertising, marketing, and other publications, numerous statements that were untrue or
26 misleading, and which were known, or which by the exercise of reasonable care should have been
27 known to each Defendant, to be untrue and misleading to consumers, including Plaintiff and the
28

1 other California State Class members. Numerous examples of these statements and
2 advertisements appear throughout this Complaint.

3 1440. Pursuant to Cal. Bus. & Prof. Code § 17500, Plaintiffs and the California State
4 Class seek an order enjoining Defendants' false advertising, any such orders or judgments as may
5 be necessary to restore to Plaintiffs and the California State Class members any money acquired
6 by unfair competition, including restitution and/or restitutionary disgorgement, and any other just
7 and proper relief available under the false advertising provisions of the UCL.

8 **FAILURE TO RECALL/RETROFIT UNDER CALIFORNIA LAW**

9 1441. Plaintiffs reallege and incorporate by reference all preceding allegations as though
10 fully set forth herein.

11 1442. Plaintiffs Jose Chavez, Leslie Bernstein, Gregory Giauque, and Satyanam Singh
12 (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the
13 California State Class against Fiat and FCA.

14 1443. Fiat Chrysler manufactured, marketed, distributed, sold, or otherwise placed into
15 the stream of U.S. commerce the Class Vehicles, as set forth above.

16 1444. Defendants knew or reasonably should have known that the Class Vehicles were
17 dangerous when used in a reasonably foreseeable manner, and posed an unreasonable risk.

18 1445. Fiat Chrysler became aware that the Class Vehicles were dangerous when used in
19 a reasonably foreseeable manner, and posed an unreasonable after the Vehicles were sold.

20 1446. Fiat Chrysler failed to recall the Class Vehicles in a timely manner or warn of the
21 dangers posed by Class Vehicles.

22 1447. A reasonable manufacturer in same or similar circumstances would have timely
23 and properly recalled the Class Vehicles.

24 1448. Plaintiffs and the California State Class were harmed by Fiat Chrysler's failure to
25 recall the Class Vehicles properly and in a timely manner and, as a result, have suffered damages,
26 including their out-of-pocket costs, losses, and inconvenience, and caused by Fiat Chrysler's
27 ongoing failure to properly recall, retrofit, and fully repair the Class Vehicles.
28

1 1449. Even in the event of a recall, Plaintiffs and the California State Class have suffered
2 and continue to damages for each day that a recall is delayed.

3 1450. Fiat Chrysler's failure to timely recall the Class Vehicles was a substantial factor
4 in causing the harm to Plaintiffs and the California State Class as alleged herein.

5 **VIOLATIONS OF THE COLORADO CONSUMER PROTECTION ACT**
6 **(Colo. Rev. Stat. § 6-1-101, *et seq.*)**

7 1451. Plaintiffs incorporate by reference each preceding paragraph as though fully set
8 forth herein.

9 1452. Plaintiffs Tommy Feist, Ryan Montgomery, and John Webb (for the purpose of
10 this section, "Plaintiffs") bring this action on behalf of themselves and the Colorado State Class
11 against all Defendants.

12 1453. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
13 Marchionne, Plaintiffs, and the Colorado State Class members are "persons" within the meaning
14 of § 6-1-102(6) of the Colorado Consumer Protection Act ("Colorado CPA"), Colo. Rev. Stat.
15 § 6-1-101, *et seq.* Plaintiffs and the Colorado State Class members are "consumers" within the
16 meaning of Col. Rev. Stat § 6-1-113(1)(a).

17 1454. The Colorado CPA makes unlawful deceptive trade practices in the course of a
18 person's business. Defendants engaged in deceptive trade practices prohibited by the Colorado
19 CPA, including: (1) knowingly making a false representation as to the characteristics, uses, and
20 benefits of the Class Vehicles that had the capacity or tendency to deceive Colorado State Class
21 members; (2) representing that the Class Vehicles are of a particular standard, quality, and grade
22 even though FCA knew or should have known they are not; (3) advertising the Class Vehicles
23 with the intent not to sell them as advertised; and (4) failing to disclose material information
24 concerning the Class Vehicles that was known to FCA at the time of advertisement or sale with
25 the intent to induce Colorado State Class members to purchase, lease or retain the Class Vehicles.

26 1455. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
27 Marchionne, through their agents, employees, and/or subsidiaries, violated the Colorado CPA.
28

1456. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Colo. Rev. Stat. § 6-1-105:

- A. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- B. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- C. Advertising the Class Vehicles with the intent not to sell or lease them as advertised; and/or
- D. Failing to disclose material information concerning the Class Vehicles known to Defendants at the time of advertisement or sale, with the intention of inducing Plaintiffs and Class members to purchase or lease the vehicles.

1457. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiffs and the Colorado State Class, as Defendants intended. Had they known the truth, Plaintiffs and the Colorado State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed

1 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
2 them.

3 1458. Plaintiffs and Colorado State Class members had no way of discerning that
4 Defendants' representations were false and misleading, or otherwise learning the facts that
5 Defendants had concealed or failed to disclose, because Defendants' emission control software
6 was extremely sophisticated technology. Plaintiffs and Colorado State Class members did not,
7 and could not, unravel Defendants' deception on their own.

8 1459. Defendants had an ongoing duty to Plaintiffs and the Colorado State Class to
9 refrain from unfair and deceptive practices under the Colorado CPA in the course of their
10 business. Specifically, Defendants owed Plaintiffs and Colorado State Class members a duty to
11 disclose all the material facts concerning the EcoDiesel® emission control system because they
12 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Colorado
13 State Class, and/or they made misrepresentations that were rendered misleading because they
14 were contradicted by withheld facts.

15 1460. Plaintiffs and Colorado State Class members suffered ascertainable loss and actual
16 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
17 failure to disclose material information.

18 1461. Defendants' violations present a continuing risk to Plaintiffs and the Colorado
19 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
20 of herein affect the public interest.

21 1462. Pursuant to Colo. Rev. Stat. § 6-1-113, Plaintiffs and the Colorado State Class
22 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
23 damages, treble or punitive damages, and any other just and proper relief available under the
24 Colorado CPA

25 **VIOLATION OF CONNECTICUT UNLAWFUL TRADE PRACTICES ACT**
26 **(Conn. Gen. Stat. § 42-110a, *et seq.*)**

27 1463. Plaintiffs incorporate by reference each preceding paragraph as though fully set
28 forth herein.

1464. Plaintiff Giuseppe Carillo (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Connecticut State Class against all Defendants.

1465. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Connecticut State Class members are “persons” within the meaning of Conn. Gen. Stat. § 42-110a(3) of the Connecticut Unfair Trade Practices Act (“Connecticut UTPA”). FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in “trade” or “commerce” within the meaning of Conn. Gen. Stat. § 42-110a(4).

1466. The Connecticut provides: “No person shall engage in unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce.” Conn. Gen. Stat. § 42-110b(a).

1467. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Connecticut UTPA.

1468. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by Defendants engaged in one or more of the following unfair or deceptive acts or practices in violation of Conn. Gen. Stat. § 42-110b(a):

- 1 A. Causing likelihood of confusion or of misunderstanding as to the approval
- 2 or certification of the Class Vehicles;
- 3 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 4 or benefits that they do not have;
- 5 C. Representing that the Class Vehicles are of a particular standard, quality
- 6 and grade when they are not;
- 7 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 8 advertised;
- 9 E. Engaging in other conduct which created a likelihood of confusion or of
- 10 misunderstanding; and/or
- 11 F. Using or employing deception, fraud, false pretense, false promise or
- 12 misrepresentation, or the concealment, suppression or omission of a
- 13 material fact with intent that others rely upon such concealment,
- 14 suppression or omission, in connection with the advertisement and
- 15 sale/lease of the Class Vehicles, whether or not any person has in fact been
- 16 misled, deceived or damaged thereby.

17 1469. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 18 emission control system were material to Plaintiff and the Connecticut State Class, as Defendants
 19 intended. Had they known the truth, Plaintiff and the Connecticut State Class would not have
 20 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 21 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 22 them.

23 1470. Plaintiff and Connecticut State Class members had no way of discerning that
 24 Defendants' representations were false and misleading, or otherwise learning the facts that
 25 Defendants had concealed or failed to disclose, because Defendants' emission control software
 26 was extremely sophisticated technology. Plaintiff and Connecticut State Class members did not,
 27 and could not, unravel Defendants' deception on their own.

1471. Defendants had an ongoing duty to Plaintiff and the Connecticut State Class to refrain from unfair and deceptive practices under the Connecticut UTPA in the course of their business. Specifically, Defendants owed Plaintiff and Connecticut State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Connecticut State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1472. Plaintiff and Connecticut State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1473. Defendants' violations present a continuing risk to Plaintiff and the Connecticut State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1474. Pursuant to Conn. Gen. Stat. § 42-110g, Plaintiff and the Connecticut State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Connecticut UTPA.

**VIOLATIONS OF THE DELAWARE CONSUMER FRAUD ACT AND DECEPTIVE
TRADE PRACTICES ACT
(6 Del. Code § 2513, *et seq.*, and 6 Del. Code § 2531, *et seq.*)**

1475. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1476. This Count is brought on behalf of the Delaware State Class against all Defendants.

1477. FCA Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, and the Delaware State Class members are "persons" within the meaning of 6 Del. Code § 2511(7) and § 2531(5).

1478. The Delaware Consumer Fraud Act ("Delaware CFA") makes unlawful the "act, use or employment by any person of any deception, fraud, false pretense, false promise,

misrepresentation, or the concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale, lease or advertisement of any merchandise, whether or not any person has in fact been misled, deceived or damaged thereby.” 6 Del. Code § 2513(a).

1479. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Delaware CFA.

1480. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by Defendants engaged in one or more of the following unlawful acts or practices prohibited by 6 Del. Code § 2513(a): using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and sale/lease of the Class Vehicles, whether or not any person has in fact been misled, deceived or damaged thereby.

1481. Defendants also engaged in one or more of the following deceptive trade practices enumerated by the Delaware Deceptive Trade Practices Act at 6 Del. Code § 2532:

- a. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- b. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;

- c. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- d. Advertising the Class Vehicles with the intent not to sell or lease them as advertised; and/or
- e. Engaging in other conduct which created a likelihood of confusion or of misunderstanding.

1482. Defendants' scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to the Delaware State Class, as Defendants intended. Had they known the truth, the Delaware State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

1483. Delaware State Class members had no way of discerning that Defendants' representations were false and misleading, or otherwise learning the facts that Defendants had concealed or failed to disclose, because Defendants' emission control software was extremely sophisticated technology. Delaware State Class members did not, and could not, unravel Defendants' deception on their own.

1484. Defendants had an ongoing duty to the Delaware State Class to refrain from unfair and deceptive practices under the Delaware CFA in the course of their business. Specifically, Defendants owed Delaware State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from the Delaware State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1485. Delaware State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1486. Defendants' violations present a continuing risk to the Delaware State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1487. The Delaware State Class seeks an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive or treble damages, and any other just and proper relief available under the Delaware CFA and DTPA (6 Del. Code §§ 2525 and 2533). *See, e.g., Stephenson v. Capano Dev., Inc.*, 462 A.2d 1069, 1077 (Del. 1983).

**VIOLATION OF THE CONSUMER PROTECTION PROCEDURES ACT
(D.C. Code § 28-3901, *et seq.*)**

1488. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1489. This count is brought on behalf of the District of Columbia Class against all Defendants.

1490. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, and the District of Columbia Class members are "persons" within the meaning of D.C. Code § 28-3901(a)(1). The District of Columbia Class members are "consumers" within the meaning of D.C. Code § 28-3901(1)(2).

1491. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade practices" within the meaning of D.C. Code § 28-3901.

1492. The District of Columbia Consumer Protection Procedures Act ("District of Columbia CPPA") makes unlawful unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce. D.C. Code § 28-3901, *et seq.*

1493. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the District of Columbia CPPA.

1494. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and

1 the Defendants concealed that the fuel efficiency and performance could be achieved only
 2 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 3 real-world conditions; and (3) the Defendants developed and installed emission cheating
 4 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 5 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 6 337-357. In so doing, and by Defendants engaged in one or more of the following unfair or
 7 deceptive acts or practices as defined in D.C. Code § 28-3901, *et seq.*:

- 8 A. Representing that the Class Vehicles have approval, characteristics, uses,
 9 or benefits that they do not have;
- 10 B. Representing that the Class Vehicles are of a particular standard, quality
 11 and grade when they are not; and/or
- 12 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 13 advertised.

14 1495. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 15 emission control system were material to the District of Columbia Class, as Defendants intended.
 16 Had they known the truth, the District of Columbia Class would not have purchased or leased the
 17 Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
 18 Vehicles rendered legal to sell—would have paid significantly less for them.

19 1496. District of Columbia Class members had no way of discerning that Defendants'
 20 representations were false and misleading, or otherwise learning the facts that Defendants had
 21 concealed or failed to disclose, because Defendants' emission control software was extremely
 22 sophisticated technology. District of Columbia Class members did not, and could not, unravel
 23 Defendants' deception on their own.

24 1497. Defendants had an ongoing duty to the District of Columbia Class to refrain from
 25 unfair and deceptive practices under the District of Columbia CPPA in the course of their
 26 business. Specifically, Defendants owed District of Columbia Class members a duty to disclose
 27 all the material facts concerning the EcoDiesel® emission control system because they possessed
 28 exclusive knowledge, they intentionally concealed it from the District of Columbia Class, and/or

1 they made misrepresentations that were rendered misleading because they were contradicted by
2 withheld facts.

3 1498. District of Columbia Class members suffered ascertainable loss and actual
4 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
5 failure to disclose material information.

6 1499. Defendants' violations present a continuing risk to the District of Columbia Class,
7 as well as to the general public. Defendants' unlawful acts and practices complained of herein
8 affect the public interest.

9 1500. Pursuant to D.C. Code § 28-3901, the District of Columbia Class seek an order
10 enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, treble
11 and/or punitive damages, and any other just and proper relief available under the District of
12 Columbia CPPA.

13 **VIOLATION OF FLORIDA'S UNFAIR &**
14 **DECEPTIVE TRADE PRACTICES ACT**
(Fla. Stat. § 501.201, *et seq.*)

15 1501. Plaintiffs incorporate by reference each preceding paragraph as though fully set
16 forth herein.

17 1502. Plaintiffs James Boykin, James DeBerry, GN Systems, Inc., Bobby Reichert, and
18 Miguel Silio (for the purpose of this section, "Plaintiffs") bring this action on behalf of
19 themselves and the Florida State Class against all Defendants.

20 1503. Plaintiffs and the Florida State Class members are "consumers" within the
21 meaning of Fla. Stat. § 501.203(7).

22 1504. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
23 Marchionne are engaged in "trade" or "commerce" within the meaning of Fla. Stat. § 501.203(8).

24 1505. The Florida Unfair and Deceptive Trade Practices Act ("FUDTPA") makes
25 unlawful "[u]nfair methods of competition, unconscionable acts or practices, and unfair or
26 deceptive acts or practices in the conduct of any trade or commerce ..." Fla. Stat. § 501.204(1).

27 1506. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
28 Marchionne, through their agents, employees, and/or subsidiaries, violated the FUDTPA.

1507. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices prohibited by Fla. Stat. § 501.204(1):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or
- F. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and

1 sale/lease of the Class Vehicles, whether or not any person has in fact been
2 misled, deceived or damaged thereby.

3 1508. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiffs and the Florida State Class, as Defendants
5 intended. Had they known the truth, Plaintiffs and the Florida State Class would not have
6 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
7 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
8 them.

9 1509. Plaintiffs and Florida State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiffs and Florida State Class members did not, and
13 could not, unravel Defendants' deception on their own.

14 1510. Defendants had an ongoing duty to Plaintiffs and the Florida State Class to refrain
15 from unfair and deceptive practices under the FUDTPA in the course of their business.
16 Specifically, Defendants owed Plaintiffs and Florida State Class members a duty to disclose all
17 the material facts concerning the EcoDiesel® emission control system because they possessed
18 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Florida State Class,
19 and/or they made misrepresentations that were rendered misleading because they were
20 contradicted by withheld facts.

21 1511. Plaintiffs and Florida State Class members suffered ascertainable loss and actual
22 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
23 failure to disclose material information.

24 1512. Defendants' violations present a continuing risk to Plaintiffs and the Florida State
25 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
26 herein affect the public interest.

1 1513. Pursuant to Fla. Stat. §§ 501.2105(1)-(2), Plaintiffs and the Florida State Class
 2 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
 3 damages and any other just and proper relief available under the FUDTPA.

4 **VIOLATIONS OF GEORGIA'S UNIFORM DECEPTIVE TRADE PRACTICES ACT**
 5 **(Ga. Code Ann. § 10-1-370, *et seq.*)**

6 1514. Plaintiff incorporates by reference each preceding paragraph as though fully set
 7 forth herein.

8 1515. Plaintiffs Marius Bihorean, James DeBerry, Tom Gillespie, Jeffrey Griggs,
 9 Michael Johnson, Nelson John Stephens, and William Turner III (for the purpose of this section,
 10 "Plaintiffs") bring this action on behalf of themselves and the Georgia State Class against all
 11 Defendants.

12 1516. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 13 Marchionne, Plaintiffs, and the Georgia State Class members are "persons" within the meaning of
 14 Georgia Uniform Deceptive Trade Practices Act ("Georgia UDTPA"), Ga. Code. Ann. § 10-1-
 15 371(5).

16 1517. The Georgia UDTPA prohibits any "deceptive trade practices," which include
 17 misrepresenting the "standard, quality, or grade" of goods or services, and engaging "in any other
 18 conduct which similarly creates a likelihood of confusion or of misunderstanding." Ga. Code.
 19 Ann. § 10-1-372(a).

20 1518. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
 21 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
 22 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 23 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 24 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 25 pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and
 26 the Defendants concealed that the fuel efficiency and performance could be achieved only
 27 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 28 real-world conditions; and (3) the Defendants developed and installed emission cheating

1 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 2 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 3 337-357. Defendants' deceptive conduct violates the Georgia UDPTA in at least the following
 4 ways:

- 5 A. Causing likelihood of confusion or of misunderstanding as to the approval
 6 or certification of the Class Vehicles;
- 7 B. Representing that the Class Vehicles have characteristics, uses, or benefits
 8 that they do not have;
- 9 C. Representing that the Class Vehicles are of a particular standard, quality
 10 and grade when they are not;
- 11 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 12 advertised; and
- 13 E. Engaging in other conduct which created a likelihood of confusion or of
 14 misunderstanding.

15 1519. Defendants' cheating scheme and concealment of the true characteristics of the
 16 EcoDiesel emission control system were material to Plaintiffs and the Georgia State Class, and
 17 Defendants misrepresented, concealed, or failed to disclose the truth with the intention that
 18 consumers would rely on the misrepresentations, concealments, and omissions. Had they known
 19 the truth, Plaintiffs and the Georgia State Class members who purchased or leased the Class
 20 Vehicles would not have purchased or leased them at all or—if the Vehicles' true nature had been
 21 disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly
 22 less for them.

23 1520. Plaintiffs and Georgia State Class members suffered ascertainable loss and actual
 24 damages as a direct and proximate result of Defendants' misrepresentations and their
 25 concealment of and failure to disclose material information.

26 1521. Pursuant to Ga. Code. Ann § 10-1-373, Plaintiffs and the Georgia State Class seek
 27 an order enjoining Defendants' unfair and/or deceptive acts or practices and any other just and
 28 proper relief available under the Georgia UDTPA.

VIOLATIONS OF GEORGIA'S FAIR BUSINESS PRACTICES ACT
(Ga. Code Ann. § 10-1-390, *et seq.*)

1522. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1523. Plaintiffs Marius Bihorean, James DeBerry, Tom Gillespie, Jeffrey Griggs, Michael Johnson, Nelson John Stephens, and William Turner (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the Georgia State Class against all Defendants.

1524. The Georgia Fair Business Practices Act (“Georgia FBPA”) declares “[u]nfair or deceptive acts or practices in the conduct of consumer transactions and consumer acts or practices in trade or commerce” to be unlawful. Ga. Code. Ann. § 10-1-393(a).

1525. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Georgia FBPA.

1526. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Ga. Code. Ann. § 10-1-393(b):

- 1 A. Causing confusion or of misunderstanding as to the approval or
- 2 certification of the Class Vehicles;
- 3 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 4 or benefits that they do not have;
- 5 C. Representing that the Class Vehicles are of a particular standard, quality
- 6 and grade when they are not; and/or
- 7 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 8 advertised.

9 1527. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to Plaintiffs and the Georgia State Class, as Defendants
11 intended. Had they known the truth, Plaintiffs and the Georgia State Class would not have
12 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
13 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
14 them.

15 1528. Plaintiffs and Georgia State Class members had no way of discerning that
16 Defendants' representations were false and misleading, or otherwise learning the facts that
17 Defendants had concealed or failed to disclose, because Defendants' emission control software
18 was extremely sophisticated technology. Plaintiffs and Georgia State Class members did not, and
19 could not, unravel Defendants' deception on their own.

20 1529. Defendants had an ongoing duty to Plaintiffs and the Georgia State Class to refrain
21 from unfair and deceptive practices under the Georgia FBPA in the course of their business.
22 Specifically, Defendants owed Plaintiffs and Georgia State Class members a duty to disclose all
23 the material facts concerning the EcoDiesel® emission control system because they possessed
24 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Georgia State Class,
25 and/or they made misrepresentations that were rendered misleading because they were
26 contradicted by withheld facts.

1530. Plaintiffs and Georgia State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1531. Defendants' violations present a continuing risk to Plaintiffs and the Georgia State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1532. Pursuant to Ga. Code. Ann. § 10-1-399, Plaintiffs and the Georgia State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding any other just and proper relief available under the Georgia FBPA.

1533. On June 12, 2017, Plaintiff Turner sent a notice letter to FCA US LLC complying with Ga. Code. Ann. § 10-1-399(b). Plaintiffs sent a second notice letter pursuant to Ga. Code. Ann. § 10-1-399(b) to all Defendants on July 19, 2017. Additionally, all Defendants were provided notice of the issues raised in this count and this Complaint by the governmental investigations, the numerous complaints filed against them, and the many individual notice letters sent by Plaintiffs within a reasonable amount of time after the allegations of Class Vehicle defects became public. Because Defendants failed to remedy their unlawful conduct within the requisite time period, Plaintiffs seek all damages and relief to which Plaintiff and the Georgia State are entitled.

UNFAIR AND DECEPTIVE ACTS IN VIOLATION OF HAWAII LAW
(Haw. Rev. Stat. § 480, *et seq.*)

1534. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1535. This count is brought on behalf of the Hawaii State Class against all Defendants.

1536. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, and the Hawaii State Class members are "persons" within the meaning of Haw. Rev. Stat. § 480-1. The Hawaii State Class members are "consumers" within the meaning of Haw. Rev. Stat. § 480-1.

1537. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in trade or commerce.

1538. The Hawaii Act prohibits “unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce....” Haw. Rev. Stat. § 480-2(a).

1539. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Hawaii Act.

1540. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices in violation of § 480-2(a):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;

1 E. Engaging in other conduct which created a likelihood of confusion or of
2 misunderstanding; and/or

3 F. Using or employing deception, fraud, false pretense, false promise or
4 misrepresentation, or the concealment, suppression or omission of a
5 material fact with intent that others rely upon such concealment,
6 suppression or omission, in connection with the advertisement and
7 sale/lease of the Class Vehicles, whether or not any person has in fact been
8 misled, deceived or damaged thereby.

9 1541. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to the Hawaii State Class, as Defendants intended. Had
11 they known the truth, the Hawaii State Class would not have purchased or leased the Class
12 Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
13 Vehicles rendered legal to sell—would have paid significantly less for them.

14 1542. Hawaii State Class members had no way of discerning that Defendants'
15 representations were false and misleading, or otherwise learning the facts that Defendants had
16 concealed or failed to disclose, because Defendants' emission control software was extremely
17 sophisticated technology. Hawaii State Class members did not, and could not, unravel
18 Defendants' deception on their own.

19 1543. Defendants had an ongoing duty to the Hawaii State Class to refrain from unfair
20 and deceptive practices under the Hawaii Act in the course of their business. Specifically,
21 Defendants owed Hawaii State Class members a duty to disclose all the material facts concerning
22 the EcoDiesel® emission control system because they possessed exclusive knowledge, they
23 intentionally concealed it from the Hawaii State Class, and/or they made misrepresentations that
24 were rendered misleading because they were contradicted by withheld facts.

25 1544. Hawaii State Class members suffered ascertainable loss and actual damages as a
26 direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to
27 disclose material information.
28

1545. Defendants' violations present a continuing risk to the Hawaii State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1546. Pursuant to Haw. Rev. Stat. § 480-13, the Hawaii State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Hawaii Act.

1547. Under Haw. Rev. Stat. § 480-13.5, the Hawaii State class seek an additional award against Defendants of up to \$10,000 for each Hawaii State Class member who qualifies as a Hawaiian elder under the Hawaii Act. Defendants knew or should have known that their conduct was directed to one or more Hawaii State Class members who are elders. Defendants' conduct caused one or more of these elders to suffer a substantial loss of property set aside for retirement or for personal or family care and maintenance, or assets essential to the health or welfare of the elder. One or more Hawaii State Class members who are elders are substantially more vulnerable to Defendants' conduct because of age, poor health or infirmity, impaired understanding, restricted mobility, or disability, and each of them suffered substantial physical, emotional, or economic damage resulting from Defendants' conduct.

VIOLATIONS OF THE IDAHO CONSUMER PROTECTION ACT
(Idaho Code § 48-601, *et seq.*)

1548. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1549. Plaintiffs Adam Burwell, Karl Calhoun, and Mathue Fasching (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Idaho State Class against all Defendants.

1550. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the Idaho State Class members are "persons" within the meaning Idaho Code § 48-602(1).

1551. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade" or "commerce" within the meaning of Idaho Code § 48-602(2).

1552. The Idaho Consumer Credit and Protection Act (“Idaho CPA”) makes unlawful misleading, false, or deceptive acts.

1553. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Idaho CPA.

1554. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices proscribed by Idaho Code § 48-603:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised; and/or
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding.

1 1555. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
2 emission control system were material to Plaintiffs and the Idaho State Class, as Defendants
3 intended. Had they known the truth, Plaintiffs and the Idaho State Class would not have
4 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
5 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
6 them.

7 1556. Plaintiffs and Idaho State Class members had no way of discerning that
8 Defendants' representations were false and misleading, or otherwise learning the facts that
9 Defendants had concealed or failed to disclose, because Defendants' emission control software
10 was extremely sophisticated technology. Plaintiffs and Idaho State Class members did not, and
11 could not, unravel Defendants' deception on their own.

12 1557. Defendants had an ongoing duty to Plaintiffs and the Idaho State Class to refrain
13 from unfair and deceptive practices under the Idaho CPA in the course of their business.
14 Specifically, Defendants owed Plaintiffs and Idaho State Class members a duty to disclose all the
15 material facts concerning the EcoDiesel® emission control system because they possessed
16 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Idaho State Class,
17 and/or they made misrepresentations that were rendered misleading because they were
18 contradicted by withheld facts.

19 1558. Plaintiffs and Idaho State Class members suffered ascertainable loss and actual
20 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
21 failure to disclose material information.

22 1559. Defendants' violations present a continuing risk to Plaintiffs and the Idaho State
23 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
24 herein affect the public interest.

25 1560. Pursuant Idaho Code § 48-608, Plaintiffs and the Idaho State Class seek an order
26 enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive
27 damages, and any other just and proper relief available under the Idaho CPA.
28

**VIOLATION OF ILLINOIS CONSUMER FRAUD AND
DECEPTIVE BUSINESS PRACTICES ACT
(815 ILCS 505/1, *et seq.* and 510/2)**

1561. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1562. Plaintiff Aaron Carter (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Illinois State Class against all Defendants.

1563. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Illinois State Class members are “persons” within the meaning 815 ILCS 505/1(c) and 510/1(5). Plaintiff and the Illinois State Class members are “consumers” within the meaning of 815 ILCS 505/1(e).

1564. The Illinois Consumer Fraud and Deceptive Practices Act (“Illinois CFA”) makes unlawful “unfair or deceptive acts or practices, including but not limited to the use or employment of any deception, fraud, false pretense, false promise, misrepresentation or the concealment, suppression or omission of any material fact, with intent that others rely upon the concealment, suppression or omission of such material fact ... in the conduct of trade or commerce ... whether any person has in fact been misled, deceived or damaged thereby.” 815 ILCS 505/2. The Illinois CFA further makes unlawful deceptive trade practices undertaken in the course of business. 815 ILCS 510/2.

1565. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Illinois CFA.

1566. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in

1 real-world conditions; and (3) the Defendants developed and installed emission cheating
 2 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 3 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 4 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 5 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 6 practices prohibited by 815 ILCS 505/2 and 510/2:

- 7 A. Causing likelihood of confusion or of misunderstanding as to the approval
 8 or certification of the Class Vehicles;
- 9 B. Representing that the Class Vehicles have approval, characteristics, uses,
 10 or benefits that they do not have;
- 11 C. Representing that the Class Vehicles are of a particular standard, quality
 12 and grade when they are not;
- 13 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 14 advertised;
- 15 E. Engaging in other conduct which created a likelihood of confusion or of
 16 misunderstanding; and/or
- 17 F. Using or employing deception, fraud, false pretense, false promise or
 18 misrepresentation, or the concealment, suppression or omission of a
 19 material fact with intent that others rely upon such concealment,
 20 suppression or omission, in connection with the advertisement and
 21 sale/lease of the Class Vehicles, whether or not any person has in fact been
 22 misled, deceived or damaged thereby.

23 1567. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 24 emission control system were material to Plaintiff and the Illinois State Class, as Defendants
 25 intended. Had they known the truth, Plaintiff and the Illinois State Class would not have
 26 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 27 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 28 them.

1 1568. Plaintiff and Illinois State Class members had no way of discerning that
2 Defendants' representations were false and misleading, or otherwise learning the facts that
3 Defendants had concealed or failed to disclose, because Defendants' emission control software
4 was extremely sophisticated technology. Plaintiff and Illinois State Class members did not, and
5 could not, unravel Defendants' deception on their own.

6 1569. Defendants had an ongoing duty to Plaintiff and the Illinois State Class to refrain
7 from unfair and deceptive practices under the Illinois CFA in the course of their business.
8 Specifically, Defendants owed Plaintiff and Illinois State Class members a duty to disclose all the
9 material facts concerning the EcoDiesel® emission control system because they possessed
10 exclusive knowledge, they intentionally concealed it from Plaintiff and the Illinois State Class,
11 and/or they made misrepresentations that were rendered misleading because they were
12 contradicted by withheld facts.

13 1570. Plaintiff and Illinois State Class members suffered ascertainable loss and actual
14 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
15 failure to disclose material information.

16 1571. Defendants' violations present a continuing risk to Plaintiff and the Illinois State
17 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
18 herein affect the public interest.

19 1572. Pursuant to 815 ILCS 505/10a(a) and 510/3, Plaintiff and the Illinois State Class
20 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
21 damages, punitive damages, and any other just and proper relief available under the Illinois CFA.

22 **VIOLATION OF THE INDIANA DECEPTIVE CONSUMER SALES ACT**
23 **(Ind. Code § 24-5-0.5-3)**

24 1573. Plaintiffs incorporate by reference each preceding paragraph as though fully set
25 forth herein.

26 1574. Plaintiff Mark Richards (for the purpose of this section, "Plaintiff") brings this
27 action on behalf of himself and the Indiana State Class against all Defendants.
28

1575. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Indiana State Class members are “persons” within the meaning of Ind. Code § 24-5-0.5-2(2) and a “supplier” within the meaning of Ind. Code § 24-5-.05-2(a)(3).

1576. Plaintiff’s and Indiana State Class members’ purchases of the Class Vehicles are “consumer transactions” within the meaning of Ind. Code § 24-5-.05-2(a)(1).

1577. The Indiana Deceptive Consumer Sales Act (“Indiana DCSA prohibits a person from engaging in a “deceptive act,” which includes representing: “(1) That such subject of a consumer transaction has sponsorship, approval, performance, characteristics, accessories, uses, or benefits that they do not have, or that a person has a sponsorship, approval, status, affiliation, or connection it does not have; (2) That such subject of a consumer transaction is of a particular standard, quality, grade, style or model, if it is not and if the supplier knows or should reasonably know that it is not; ... (7) That the supplier has a sponsorship, approval or affiliation in such consumer transaction that the supplier does not have, and which the supplier knows or should reasonably know that the supplier does not have; ... (c) Any representations on or within a product or its packaging or in advertising or promotional materials which would constitute a deceptive act shall be the deceptive act both of the supplier who places such a representation thereon or therein, or who authored such materials, and such suppliers who shall state orally or in writing that such representation is true if such other supplier shall know or have reason to know that such representation was false.” Ind. Code § 24-5-0.5-3.

1578. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Indiana DCSA.

1579. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only

1 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 2 real-world conditions; and (3) the Defendants developed and installed emission cheating
 3 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 4 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 5 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 6 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 7 practices as defined in Ind. Code § 24-5-0.5-3:

- 8 A. Representing that the Class Vehicles have approval, characteristics, uses,
 9 or benefits that they do not have;
- 10 B. Representing that the Class Vehicles are of a particular standard, quality
 11 and grade when they are not; and/or
- 12 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 13 advertised.

14 1580. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 15 emission control system were material to Plaintiff and the Indiana State Class, as Defendants
 16 intended. Had they known the truth, Plaintiff and the Indiana State Class would not have
 17 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 18 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 19 them.

20 1581. Plaintiff and Indiana State Class members had no way of discerning that
 21 Defendants' representations were false and misleading, or otherwise learning the facts that
 22 Defendants had concealed or failed to disclose, because Defendants' emission control software
 23 was extremely sophisticated technology. Plaintiff and Indiana State Class members did not, and
 24 could not, unravel Defendants' deception on their own.

25 1582. Defendants had an ongoing duty to Plaintiff and the Indiana State Class to refrain
 26 from unfair and deceptive practices under the Indiana DCSA in the course of their business.
 27 Specifically, Defendants owed Plaintiff and Indiana State Class members a duty to disclose all the
 28 material facts concerning the EcoDiesel® emission control system because they possessed

1 exclusive knowledge, they intentionally concealed it from Plaintiff and the Indiana State Class,
2 and/or they made misrepresentations that were rendered misleading because they were
3 contradicted by withheld facts.

4 1583. Plaintiff and Indiana State Class members suffered ascertainable loss and actual
5 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
6 failure to disclose material information.

7 1584. Defendants' violations present a continuing risk to Plaintiff and the Indiana State
8 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
9 herein affect the public interest.

10 1585. Pursuant to Ind. Code § 24-5-0.5-4, Plaintiff and the Indiana State Class seek an
11 order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
12 punitive damages, and any other just and proper relief available under the Indiana DCSA.

13 1586. On November 8, 2016, a notice letter was sent to FCA US LLC complying with
14 Ind. Code § 24-5-0.5-5(a). Plaintiffs sent a second notice letter pursuant to Ind. Code § 24-5-0.5-
15 5(a) to all Defendants on July 19, 2017. Additionally, all Defendants were provided notice of the
16 issues raised in this count and this Complaint by the governmental investigations, the numerous
17 complaints filed against them, and the many individual notice letters sent by Plaintiffs within a
18 reasonable amount of time after the allegations of Class Vehicle defects became public. Because
19 Defendants failed to remedy its unlawful conduct within the requisite time period, Plaintiffs seek
20 all damages and relief to which Plaintiff and the Indiana State Class are entitled.

21 **VIOLATIONS OF THE PRIVATE RIGHT OF ACTION**
22 **FOR CONSUMER FRAUDS ACT**
23 **(Iowa Code § 714h.1, *et seq.*)**

24 1587. Plaintiffs incorporate by reference each preceding paragraph as though fully set
25 forth herein.

26 1588. Plaintiff Kirk Petersen (for the purpose of this section, "Plaintiff") brings this
27 action on behalf of himself and the Iowa State Class against all Defendants.
28

1589. Plaintiff, FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, and Iowa State Class members are “persons” within the meaning Iowa Code § 714H.2(7).

1590. Plaintiff and the Iowa State Class members are “consumers” within the meaning of Iowa Code § 714H.2(3).

1591. The Iowa Deceptive Consumer Sales Act (“Iowa DCSA”) prohibits a person from engaging in a “practice or act the person knows or reasonably should know is an unfair practice, deception, fraud, false pretense, or false promise, or the misrepresentation, concealment, suppression, or omission of a material fact, with the intent that others rely upon the unfair practice, deception, fraud, false pretense, false promise, misrepresentation, concealment, suppression, or omission in connection with the advertisement, sale, or lease of consumer merchandise.” Iowa Code § 714H.3.

1592. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Iowa DCSA.

1593. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants violated Iowa Code § 714H.3 by using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a

1 material fact with intent that others rely upon such concealment, suppression or omission, in
2 connection with the advertisement and sale/lease of the Class Vehicles, whether or not any person
3 has in fact been misled, deceived or damaged thereby.

4 1594. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
5 emission control system were material to Plaintiff and the Iowa State Class, as Defendants
6 intended. Had they known the truth, Plaintiff and the Iowa State Class would not have purchased
7 or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and
8 mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

9 1595. Plaintiff and Iowa State Class members had no way of discerning that Defendants'
10 representations were false and misleading, or otherwise learning the facts that Defendants had
11 concealed or failed to disclose, because Defendants' emission control software was extremely
12 sophisticated technology. Plaintiff and Iowa State Class members did not, and could not, unravel
13 Defendants' deception on their own.

14 1596. Defendants had an ongoing duty to Plaintiff and the Iowa State Class to refrain
15 from unfair and deceptive practices under the Iowa DCSA in the course of their business.
16 Specifically, Defendants owed Plaintiff and Iowa State Class members a duty to disclose all the
17 material facts concerning the EcoDiesel® emission control system because they possessed
18 exclusive knowledge, they intentionally concealed it from Plaintiff and the Iowa State Class,
19 and/or they made misrepresentations that were rendered misleading because they were
20 contradicted by withheld facts.

21 1597. Plaintiff and Iowa State Class members suffered ascertainable loss and actual
22 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
23 failure to disclose material information.

24 1598. Defendants' violations present a continuing risk to Plaintiff and the Iowa State
25 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
26 herein affect the public interest.

1599. On March 26, 2018, Plaintiffs sought approval from the Iowa Attorney General to file a class action claim under the Iowa DCSA. Plaintiffs received approval from the Office of the Attorney General in a letter dated April 2, 2018.

1600. Pursuant to Iowa Code § 714H.5, Plaintiff and the Iowa State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, treble or punitive damages, and any other just and proper relief available under the Iowa DCSA.

VIOLATIONS OF THE KANSAS CONSUMER PROTECTION ACT
(Kan. Stat. Ann. § 50-623, *et seq.*)

1601. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1602. This count is brought on behalf of the Kansas State Class against all Defendants.

1603. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are "suppliers" within the meaning of Kan. Stat. Ann. § 50-624(l). The Kansas State Class members are "consumers" within the meaning of Kan. Stat. Ann. § 50-624(b).

1604. The sale of the Class Vehicles to the Kansas State Class members was a "consumer transaction" within the meaning of Kan. Stat. Ann. § 50-624(c).

1605. The Kansas Consumer Credit and Protection Act ("Kansas CPA") states "[n]o supplier shall engage in any deceptive act or practice in connection with a consumer transaction." Kan. Stat. Ann. § 50-626(a).

1606. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Kansas CPA.

1607. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only

1 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 2 real-world conditions; and (3) the Defendants developed and installed emission cheating
 3 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 4 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 5 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 6 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 7 practices as defined in Kan. Stat. Ann. § 50-627(a):

- 8 A. Representing that the Class Vehicles have approval, characteristics, uses,
 9 or benefits that they do not have;
- 10 B. Representing that the Class Vehicles are of a particular standard, quality
 11 and grade when they are not;
- 12 C. Exaggerating and providing falsehoods regarding the material facts
 13 concerning the Class Vehicles; and/or
- 14 D. Failing to state, willfully concealing, suppressing, and/or omitting material
 15 facts relating to the Class Vehicles.

16 1608. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 17 emission control system were material to the Kansas State Class, as Defendants intended. Had
 18 they known the truth, the Kansas State Class would not have purchased or leased the Class
 19 Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
 20 Vehicles rendered legal to sell—would have paid significantly less for them.

21 1609. Kansas State Class members had no way of discerning that Defendants'
 22 representations were false and misleading, or otherwise learning the facts that Defendants had
 23 concealed or failed to disclose, because Defendants' emission control software was extremely
 24 sophisticated technology. Kansas State Class members did not, and could not, unravel
 25 Defendants' deception on their own.

26 1610. Defendants had an ongoing duty to the Kansas State Class to refrain from unfair
 27 and deceptive practices under the Kansas CPA in the course of their business. Specifically,
 28 Defendants owed Kansas State Class members a duty to disclose all the material facts concerning

1 the EcoDiesel® emission control system because they possessed exclusive knowledge, they
 2 intentionally concealed it from the Kansas State Class, and/or they made misrepresentations that
 3 were rendered misleading because they were contradicted by withheld facts.

4 1611. Kansas State Class members suffered ascertainable loss and actual damages as a
 5 direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to
 6 disclose material information.

7 1612. Defendants' violations present a continuing risk to the Kansas State Class, as well
 8 as to the general public. Defendants' unlawful acts and practices complained of herein affect the
 9 public interest.

10 1613. Pursuant to Kan. Stat. Ann §§ 50-634 and 50-636, the Kansas State Class seek an
 11 order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages and
 12 any other just and proper relief available under the Kansas CPA.

13 **VIOLATIONS OF THE LOUISIANA UNFAIR TRADE PRACTICES**
 14 **AND CONSUMER PROTECTION LAW**
 15 **(La. Rev. Stat. § 51:1401, *et seq.*)**

16 1614. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 17 forth herein.

18 1615. Plaintiffs Jamie Broom, Samuel Price, and John Radziewicz (for the purpose of
 19 this section, "Plaintiffs") bring this action on behalf of themselves and the Louisiana State Class
 20 against all Defendants.

21 1616. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 22 Marchionne, Plaintiffs, and the Louisiana State Class members are "persons" within the meaning
 23 of La. Rev. Stat. § 51:1402(8). Plaintiffs and the Louisiana State Class members are "consumers"
 24 within the meaning of La. Rev. Stat. § 51:1402(1).

25 1617. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne
 26 are engaged in "trade" or "commerce" within the meaning of La. Rev. Stat. § 51:1402(10).

27 1618. The Louisiana Unfair Trade Practices and Consumer Protection Law ("Louisiana
 28 CPL") makes unlawful "deceptive acts or practices in the conduct of any trade or commerce."
 La. Rev. Stat. § 51:1405(A).

1619. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Louisiana CPL.

1620. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in La. Rev. Stat. § 51:1405(A):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or
- F. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a

1 material fact with intent that others rely upon such concealment,
2 suppression or omission, in connection with the advertisement and
3 sale/lease of the Class Vehicles, whether or not any person has in fact been
4 misled, deceived or damaged thereby.

5 1621. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
6 emission control system were material to Plaintiffs and the Louisiana State Class, as Defendants
7 intended. Had they known the truth, Plaintiffs and the Louisiana State Class would not have
8 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
9 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
10 them.

11 1622. Plaintiffs and Louisiana State Class members had no way of discerning that
12 Defendants' representations were false and misleading, or otherwise learning the facts that
13 Defendants had concealed or failed to disclose, because Defendants' emission control software
14 was extremely sophisticated technology. Plaintiffs and Louisiana State Class members did not,
15 and could not, unravel Defendants' deception on their own.

16 1623. Defendants had an ongoing duty to Plaintiffs and the Louisiana State Class to
17 refrain from unfair and deceptive practices under the Louisiana CPL in the course of their
18 business. Specifically, Defendants owed Plaintiffs and Louisiana State Class members a duty to
19 disclose all the material facts concerning the EcoDiesel® emission control system because they
20 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Louisiana
21 State Class, and/or they made misrepresentations that were rendered misleading because they
22 were contradicted by withheld facts.

23 1624. Plaintiffs and Louisiana State Class members suffered ascertainable loss and actual
24 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
25 failure to disclose material information.

26 1625. Defendants' violations present a continuing risk to Plaintiffs and the Louisiana
27 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
28 of herein affect the public interest.

1 1626. Pursuant to La. Rev. Stat. § 51:1409, Plaintiffs and the Louisiana State Class seek
 2 an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
 3 punitive damages, and any other just and proper relief available under the Louisiana CPL.

4 **VIOLATION OF MAINE UNFAIR TRADE PRACTICES ACT**
 5 **(Me. Rev. Stat. Ann. Tit. 5 § 205-a, *et seq.*)**

6 1627. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 7 forth herein.

8 1628. Plaintiff Edward Devault (for the purpose of this section, "Plaintiff") brings this
 9 action on behalf of himself and the Maine State Class against all Defendants.

10 1629. Plaintiff, FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 11 Marchionne, and the Maine State Class members are "persons" within the meaning of Me. Rev.
 12 Stat. Ann. Tit. 5 § 206(2).

13 1630. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne
 14 are engaged in "trade" or "commerce" within the meaning of Me. Rev. Stat. Ann. Tit. 5 § 206(3).

15 1631. The Maine Unfair Trade Practices Act ("Maine UTPA") makes unlawful "[u]nfair
 16 methods of competition and unfair or deceptive acts or practices in the conduct of any trade or
 17 commerce...." Me. Rev. Stat. Ann. Tit. 5 § 207.

18 1632. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
 19 Marchionne, through their agents, employees, and/or subsidiaries, violated the Maine UTPA.

20 1633. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
 21 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
 22 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 23 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 24 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 25 pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and
 26 the Defendants concealed that the fuel efficiency and performance could be achieved only
 27 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 28 real-world conditions; and (3) the Defendants developed and installed emission cheating

1 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 2 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 3 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 4 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 5 practices as defined in Me. Rev. Stat. Ann. Tit. 5 § 207:

- 6 A. Causing likelihood of confusion or of misunderstanding as to the approval
 7 or certification of the Class Vehicles;
- 8 B. Representing that the Class Vehicles have approval, characteristics, uses,
 9 or benefits that they do not have;
- 10 C. Representing that the Class Vehicles are of a particular standard, quality
 11 and grade when they are not;
- 12 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 13 advertised;
- 14 E. Engaging in other conduct which created a likelihood of confusion or of
 15 misunderstanding; and/or
- 16 F. Using or employing deception, fraud, false pretense, false promise or
 17 misrepresentation, or the concealment, suppression or omission of a
 18 material fact with intent that others rely upon such concealment,
 19 suppression or omission, in connection with the advertisement and
 20 sale/lease of the Class Vehicles, whether or not any person has in fact been
 21 misled, deceived or damaged thereby.

22 1634. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 23 emission control system were material to Plaintiff and the Maine State Class, as Defendants
 24 intended. Had they known the truth, Plaintiff and the Maine State Class would not have
 25 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 26 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 27 them.
 28

1 1635. Plaintiff and Maine State Class members had no way of discerning that
2 Defendants' representations were false and misleading, or otherwise learning the facts that
3 Defendants had concealed or failed to disclose, because Defendants' emission control software
4 was extremely sophisticated technology. Plaintiff and Maine State Class members did not, and
5 could not, unravel Defendants' deception on their own.

6 1636. Defendants had an ongoing duty to Plaintiff and the Maine State Class to refrain
7 from unfair and deceptive practices under the Maine UTPA in the course of their business.
8 Specifically, Defendants owed Plaintiff and Maine State Class members a duty to disclose all the
9 material facts concerning the EcoDiesel® emission control system because they possessed
10 exclusive knowledge, they intentionally concealed it from Plaintiff and the Maine State Class,
11 and/or they made misrepresentations that were rendered misleading because they were
12 contradicted by withheld facts.

13 1637. Plaintiff and Maine State Class members suffered ascertainable loss and actual
14 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
15 failure to disclose material information.

16 1638. Defendants' violations present a continuing risk to Plaintiff and the Maine State
17 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
18 herein affect the public interest.

19 1639. Pursuant to Me. Rev. Stat. Ann. Tit. 5 § 213, Plaintiff and the Maine State Class
20 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
21 damages and any other just and proper relief available under the Maine UTPA.

22 1640. On November 28, 2016, a notice letter was sent to FCA US LLC complying with
23 Me. Rev. Stat. Ann. Tit. 5 § 213(1-A). Plaintiffs sent a second notice letter pursuant to Me. Rev.
24 Stat. Ann. Tit. 5 § 213(1-A) to all Defendants on July 19, 2017. Additionally, all Defendants
25 were provided notice of the issues raised in this count and this Complaint by the governmental
26 investigations, the numerous complaints filed against them, and the many individual notice letters
27 sent by Plaintiffs within a reasonable amount of time after the allegations of Class Vehicle defects
28 became public. Because Defendants failed to remedy their unlawful conduct within the requisite

1 time period, Plaintiff and the Maine State Class members seek all damages and relief to which
2 they are entitled.

3 **VIOLATIONS OF THE MARYLAND CONSUMER PROTECTION ACT**
4 **(Md. Code Com. Law § 13-101, *et seq.*)**

5 1641. Plaintiffs incorporate by reference each preceding paragraph as though fully set
6 forth herein.

7 1642. Plaintiffs Kyle and Jessica Heidlebaugh (for the purpose of this section,
8 “Plaintiffs”) bring this action on behalf of themselves and the Maryland State Class against all
9 Defendants.

10 1643. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
11 Marchionne, Plaintiffs, and the Maryland State Class members are “persons” within the meaning
12 of Md. Code Com. Law § 13-101(h).

13 1644. The Maryland Consumer Protection Act (“Maryland CPA”) provides that a person
14 may not engage in any unfair or deceptive trade practice in the sale of any consumer good. Md.
15 Code Com. Law § 13-303.

16 1645. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
17 Marchionne, through their agents, employees, and/or subsidiaries, violated the Maryland CPA.

18 1646. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
19 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
20 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
21 emission cheating components in the Class Vehicles that caused them to pollute excessively in
22 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
23 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
24 the Defendants concealed that the fuel efficiency and performance could be achieved only
25 through emission control devices in the Class Vehicles that caused them to pollute excessively in
26 real-world conditions; and (3) the Defendants developed and installed emission cheating
27 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
28 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;

1 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 2 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 3 practices as prohibited by Md. Code Com. Law § 13-303:

- 4 A. Representing that the Class Vehicles have approval, characteristics, uses,
 5 or benefits that they do not have;
- 6 B. Representing that the Class Vehicles are of a particular standard, quality
 7 and grade when they are not;
- 8 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 9 advertised; and/or
- 10 D. Using or employing deception, fraud, false pretense, false promise or
 11 misrepresentation, or the concealment, suppression or omission of a
 12 material fact with intent that others rely upon such concealment,
 13 suppression or omission, in connection with the advertisement and
 14 sale/lease of the Class Vehicles, whether or not any person has in fact been
 15 misled, deceived or damaged thereby.

16 1647. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 17 emission control system were material to Plaintiffs and the Maryland State Class, as Defendants
 18 intended. Had they known the truth, Plaintiffs and the Maryland State Class would not have
 19 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 20 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 21 them.

22 1648. Plaintiffs and Maryland State Class members had no way of discerning that
 23 Defendants' representations were false and misleading, or otherwise learning the facts that
 24 Defendants had concealed or failed to disclose, because Defendants' emission control software
 25 was extremely sophisticated technology. Plaintiffs and Maryland State Class members did not,
 26 and could not, unravel Defendants' deception on their own.

27 1649. Defendants had an ongoing duty to Plaintiffs and the Maryland State Class to
 28 refrain from unfair and deceptive practices under the Maryland CPA in the course of their

1 business. Specifically, Defendants owed Plaintiffs and Maryland State Class members a duty to
 2 disclose all the material facts concerning the EcoDiesel® emission control system because they
 3 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Maryland
 4 State Class, and/or they made misrepresentations that were rendered misleading because they
 5 were contradicted by withheld facts.

6 1650. Plaintiffs and Maryland State Class members suffered ascertainable loss and actual
 7 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
 8 failure to disclose material information.

9 1651. Defendants' violations present a continuing risk to Plaintiffs and the Maryland
 10 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
 11 of herein affect the public interest.

12 1652. Pursuant to Md. Code Com. Law § 13-408, Plaintiffs and the Maryland State Class
 13 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
 14 damages and any other just and proper relief available under the Maryland CPA.

15 **DECEPTIVE ACTS OR PRACTICES PROHIBITED BY MASSACHUSETTS LAW**
 16 **(Mass. Gen. Laws Ch. 93a, § 1, *et seq.*)**

17 1653. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 18 forth herein.

19 1654. Plaintiff Benjamin Greenberg (for the purpose of this section, "Plaintiff") brings
 20 this action on behalf of himself and the Massachusetts State Class against all Defendants.

21 1655. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 22 Marchionne, Plaintiff, and the Massachusetts State Class members are "persons" within the
 23 meaning of Mass. Gen. Laws ch. 93A, § 1(a).

24 1656. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
 25 Marchionne are engaged in "trade" or "commerce" within the meaning of Mass. Gen. Laws ch.
 26 93A, § 1(b).

1657. The Massachusetts consumer protection law (“Massachusetts Act”) prohibits “unfair or deceptive acts or practices in the conduct of any trade or commerce.” Mass. Gen. Laws ch. 93A, § 2.

1658. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Massachusetts Act.

1659. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as prohibited by Mass. Gen. Laws ch. 93A, § 2:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;

1 E. Engaging in other conduct which created a likelihood of confusion or of
2 misunderstanding; and/or

3 F. Using or employing deception, fraud, false pretense, false promise or
4 misrepresentation, or the concealment, suppression or omission of a
5 material fact with intent that others rely upon such concealment,
6 suppression or omission, in connection with the advertisement and
7 sale/lease of the Class Vehicles, whether or not any person has in fact been
8 misled, deceived or damaged thereby.

9 1660. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to Plaintiff and the Massachusetts State Class, as
11 Defendants intended. Had they known the truth, Plaintiff and the Massachusetts State Class
12 would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had
13 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
14 significantly less for them.

15 1661. Plaintiff and Massachusetts State Class members had no way of discerning that
16 Defendants' representations were false and misleading, or otherwise learning the facts that
17 Defendants had concealed or failed to disclose, because Defendants' emission control software
18 was extremely sophisticated technology. Plaintiff and Massachusetts State Class members did
19 not, and could not, unravel Defendants' deception on their own.

20 1662. Defendants had an ongoing duty to Plaintiff and the Massachusetts State Class to
21 refrain from unfair and deceptive practices under the Massachusetts Act in the course of their
22 business. Specifically, Defendants owed Plaintiff and Massachusetts State Class members a duty
23 to disclose all the material facts concerning the EcoDiesel® emission control system because they
24 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the
25 Massachusetts State Class, and/or they made misrepresentations that were rendered misleading
26 because they were contradicted by withheld facts.

1663. Plaintiff and Massachusetts State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1664. Defendants' violations present a continuing risk to Plaintiff and the Massachusetts State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1665. Plaintiff and the Massachusetts State Class seek an order pursuant to Mass. Gen. Laws ch. 93A § 9 enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Massachusetts Act.

1666. On November 28, 2017, a notice letter was sent to FCA US LLC pursuant to Mass. Gen. Laws ch. 93A, § 9(3). Plaintiffs sent a second notice letter pursuant to Mass. Gen. Laws ch. 93A, § 9(3) to all Defendants on July 19, 2017. Additionally, all Defendants were provided notice of the issues raised in this count and this Complaint by the governmental investigations, the numerous complaints filed against them, and the many individual notice letters sent by Plaintiffs within a reasonable amount of time after the allegations of Class Vehicle defects became public. Because Defendants failed to remedy their unlawful conduct within the requisite time period, Plaintiffs seek all damages and relief to which Plaintiff and the Massachusetts State Class are entitled.

**VIOLATION OF THE MICHIGAN CONSUMER PROTECTION ACT
(Mich. Comp. Laws § 445.903, *et seq.*)**

1667. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1668. Plaintiff Doru Bali (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Michigan State Class against all Defendants.

1669. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Michigan State Class members are "persons" within the meaning of Mich. Comp. Laws § 445.902(1)(d).

1670. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “trade” or “commerce” within the meaning of Mich. Comp. Laws § 445.902(1)(g).

1671. The Michigan Consumer Protection Act (“Michigan CPA”) makes unlawful “[u]nfair, unconscionable, or deceptive methods, acts, or practices in the conduct of trade or commerce” Mich. Comp. Laws § 445.903(1).

1672. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Michigan CPA.

1673. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Mich. Comp. Laws § 445.903(1):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;

1 D. Advertising the Class Vehicles with the intent not to sell or lease them as
2 advertised; and/or

3 E. Engaging in other conduct which created a likelihood of confusion or of
4 misunderstanding.

5 1674. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
6 emission control system were material to Plaintiff and the Michigan State Class, as Defendants
7 intended. Had they known the truth, Plaintiff and the Michigan State Class would not have
8 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
9 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
10 them.

11 1675. Plaintiff and Michigan State Class members had no way of discerning that
12 Defendants' representations were false and misleading, or otherwise learning the facts that
13 Defendants had concealed or failed to disclose, because Defendants' emission control software
14 was extremely sophisticated technology. Plaintiff and Michigan State Class members did not,
15 and could not, unravel Defendants' deception on their own.

16 1676. Defendants had an ongoing duty to Plaintiff and the Michigan State Class to
17 refrain from unfair and deceptive practices under the Michigan CPA in the course of their
18 business. Specifically, Defendants owed Plaintiff and Michigan State Class members a duty to
19 disclose all the material facts concerning the EcoDiesel® emission control system because they
20 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Michigan
21 State Class, and/or they made misrepresentations that were rendered misleading because they
22 were contradicted by withheld facts.

23 1677. Plaintiff and Michigan State Class members suffered ascertainable loss and actual
24 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
25 failure to disclose material information.

26 1678. Defendants' violations present a continuing risk to Plaintiff and the Michigan State
27 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
28 herein affect the public interest.

1679. Pursuant to Mich. Comp. Laws § 445.911, Plaintiff and the Michigan State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Michigan CPA.

**VIOLATIONS OF THE MINNESOTA PREVENTION OF CONSUMER FRAUD ACT
(Minn. Stat. § 325f.68, *et seq.*)**

1680. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1681. Plaintiff Josh Claflin (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Minnesota State Class against all Defendants.

1682. The Class Vehicles constitute "merchandise" within the meaning of Minn. Stat. § 325F.68(2).

1683. The Minnesota Prevention of Consumer Fraud Act ("Minnesota CFA") prohibits "[t]he act, use, or employment by any person of any fraud, false pretense, false promise, misrepresentation, misleading statement or deceptive practice, with the intent that others rely thereon in connection with the sale of any merchandise, whether or not any person has in fact been misled, deceived, or damaged thereby" Minn. Stat. § 325F.69(1).

1684. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Minnesota CFA.

1685. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in

1 real-world conditions; and (3) the Defendants developed and installed emission cheating
2 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
3 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
4 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
5 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
6 practices as prohibited by Minn. Stat. § 325F.69(1): using or employing deception, fraud, false
7 pretense, false promise or misrepresentation, or the concealment, suppression or omission of a
8 material fact with intent that others rely upon such concealment, suppression or omission, in
9 connection with the advertisement and sale/lease of the Class Vehicles, whether or not any person
10 has in fact been misled, deceived or damaged thereby.

11 1686. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
12 emission control system were material to Plaintiff and the Minnesota State Class, as Defendants
13 intended. Had they known the truth, Plaintiff and the Minnesota State Class would not have
14 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
15 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
16 them.

17 1687. Plaintiff and Minnesota State Class members had no way of discerning that
18 Defendants' representations were false and misleading, or otherwise learning the facts that
19 Defendants had concealed or failed to disclose, because Defendants' emission control software
20 was extremely sophisticated technology. Plaintiff and Minnesota State Class members did not,
21 and could not, unravel Defendants' deception on their own.

22 1688. Defendants had an ongoing duty to Plaintiff and the Minnesota State Class to
23 refrain from unfair and deceptive practices under the Minnesota CFA in the course of their
24 business. Specifically, Defendants owed Plaintiff and Minnesota State Class members a duty to
25 disclose all the material facts concerning the EcoDiesel® emission control system because they
26 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Minnesota
27 State Class, and/or they made misrepresentations that were rendered misleading because they
28 were contradicted by withheld facts.

1689. Plaintiff and Minnesota State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1690. Defendants' violations present a continuing risk to Plaintiff and the Minnesota State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1691. Pursuant to Minn. Stat. §§ 8.31(3a) and 549.20(1)(a), Plaintiff and the Minnesota State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices and any other just and proper relief available under the Minnesota CFA.

**VIOLATIONS OF THE MINNESOTA UNIFORM DECEPTIVE TRADE PRACTICES
ACT
(Minn. Stat. § 325d.43, *et seq.*)**

1692. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1693. Plaintiff Josh Claflin (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Minnesota State Class against all Defendants.

1694. The Minnesota Deceptive Trade Practices Act ("Minnesota DTPA") prohibits deceptive trade practices. Minn. Stat. § 325D.44.

1695. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Minnesota DTPA.

1696. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in

1 real-world conditions; and (3) the Defendants developed and installed emission cheating
 2 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 3 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 4 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 5 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 6 practices as defined in Minn. Stat. § 325D.44:

- 7 A. Causing likelihood of confusion or of misunderstanding as to the approval
- 8 or certification of the Class Vehicles;
- 9 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 10 or benefits that they do not have;
- 11 C. Representing that the Class Vehicles are of a particular standard, quality
- 12 and grade when they are not;
- 13 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 14 advertised; and/or
- 15 E. Engaging in other conduct which created a likelihood of confusion or of
- 16 misunderstanding.

17 1697. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 18 emission control system were material to Plaintiff and the Minnesota State Class, as Defendants
 19 intended. Had they known the truth, Plaintiff and the Minnesota State Class would not have
 20 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 21 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 22 them.

23 1698. Plaintiff and Minnesota State Class members had no way of discerning that
 24 Defendants' representations were false and misleading, or otherwise learning the facts that
 25 Defendants had concealed or failed to disclose, because Defendants' emission control software
 26 was extremely sophisticated technology. Plaintiff and Minnesota State Class members did not,
 27 and could not, unravel Defendants' deception on their own.

1699. Defendants had an ongoing duty to Plaintiff and the Minnesota State Class to refrain from unfair and deceptive practices under the Minnesota DTPA in the course of their business. Specifically, Defendants owed Plaintiff and Minnesota State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Minnesota State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1700. Plaintiff and Minnesota State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1701. Defendants' violations present a continuing risk to Plaintiff and the Minnesota State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1702. Pursuant to Minn. Stat. §§ 8.31(3a), 325D.45, and 549.20(1)(a), Plaintiff and the Minnesota State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, and any other just and proper relief available under the Minnesota DTPA.

**VIOLATION OF MISSISSIPPI CONSUMER PROTECTION ACT
(Miss. Code. Ann. § 75-24-1, *et seq.*)**

1703. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1704. Plaintiff Anthony Alley (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Mississippi State Class against all Defendants.

1705. The Mississippi Consumer Protection Act ("Mississippi CPA") prohibits "unfair or deceptive trade practices in or affecting commerce." Miss. Code. Ann. § 75-24-5(1).

1706. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Mississippi CPA.

1707. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Miss. Code. Ann. § 75-24-5(1):

- A. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- B. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not; and/or
- C. Advertising the Class Vehicles with the intent not to sell or lease them as advertised.

1708. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiff and the Mississippi State Class, as Defendants intended. Had they known the truth, Plaintiff and the Mississippi State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

1709. Plaintiff and Mississippi State Class members had no way of discerning that Defendants’ representations were false and misleading, or otherwise learning the facts that

1 Defendants had concealed or failed to disclose, because Defendants' emission control software
2 was extremely sophisticated technology. Plaintiff and Mississippi State Class members did not,
3 and could not, unravel Defendants' deception on their own.

4 1710. Defendants had an ongoing duty to Plaintiff and the Mississippi State Class to
5 refrain from unfair and deceptive practices under the Mississippi CPA in the course of their
6 business. Specifically, Defendants owed Plaintiff and Mississippi State Class members a duty to
7 disclose all the material facts concerning the EcoDiesel® emission control system because they
8 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Mississippi
9 State Class, and/or they made misrepresentations that were rendered misleading because they
10 were contradicted by withheld facts.

11 1711. Plaintiff and Mississippi State Class members suffered ascertainable loss and
12 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
13 and/or failure to disclose material information.

14 1712. Defendants' violations present a continuing risk to Plaintiff and the Mississippi
15 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
16 of herein affect the public interest.

17 1713. Plaintiff has made, and continues to make, a reasonable attempt to resolve their
18 claims under the Mississippi CPA through an informal dispute program approved by the
19 Mississippi Attorney General. Miss. Code. Ann. § 75-24-15(2). Plaintiffs have contacted the
20 Office of the Attorney General and followed the procedures prescribed by the Consumer
21 Protection Division. On March 29, 2018, Plaintiffs sent Defendants a Letter of Complaint by
22 certified mail. Defendants did not respond within ten days. Accordingly, on April 17, 2018,
23 Plaintiffs filed their Complaint with the Mississippi Attorney General. The Office of the Attorney
24 General has three weeks to review the Complaint from the date it was filed, after which time, a
25 mediator will be assigned. If the Attorney General can give formal approval if that mediation
26 fails.

1714. The Mississippi State Class seek an under Miss. Code Ann. § 75-25-9 enjoining Defendants' unfair and/or deceptive acts or practices and awarding damages, including restitution under § 75-24-11, and any other just and proper relief available under the Mississippi CPA.

VIOLATION OF MISSOURI MERCHANDISING PRACTICES ACT
(Mo. Rev. Stat. § 407.010, *et seq.*)

1715. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1716. Plaintiff Melvin Phillips (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Missouri State Class against all Defendants.

1717. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Missouri State Class members are "persons" within the meaning of Mo. Rev. Stat. § 407.010(5).

1718. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade" or "commerce" within the meaning of Mo. Rev. Stat. § 407.010(7).

1719. The Missouri Merchandising Practices Act ("Missouri MPA") makes unlawful the "act, use or employment by any person of any deception, fraud, false pretense, misrepresentation, unfair practice, or the concealment, suppression, or omission of any material fact in connection with the sale or advertisement of any merchandise. Mo. Rev. Stat. § 407.020.

1720. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Missouri MPA.

1721. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in

1 real-world conditions; and (3) the Defendants developed and installed emission cheating
2 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
3 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
4 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
5 Vehicles, Defendants engaged in the following unfair or deceptive acts or practices prohibited by
6 Mo. Rev. Stat. § 407.020: using or employing deception, fraud, false pretense, false promise or
7 misrepresentation, or the concealment, suppression or omission of a material fact with intent that
8 others rely upon such concealment, suppression or omission, in connection with the
9 advertisement and sale/lease of the Class Vehicles, whether or not any person has in fact been
10 misled, deceived or damaged thereby.

11 1722. By failing to disclose these defects or facts about the defects described herein
12 known to it or that were available to Defendants upon reasonable inquiry, Defendants deprived
13 consumers of all material facts about the safety and functionality of their vehicles. By failing to
14 release material facts about the defect, Defendants curtailed or reduced the ability of consumers to
15 take notice of material facts about their vehicle, and/or it affirmatively operated to hide or keep
16 those facts from consumers. 15 Mo. Code of State Reg. § 60-9.110.

17 1723. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
18 emission control system were material to Plaintiff and the Missouri State Class, as Defendants
19 intended. Had they known the truth, Plaintiff and the Missouri State Class would not have
20 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
21 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
22 them.

23 1724. Plaintiff and Missouri State Class members had no way of discerning that
24 Defendants' representations were false and misleading, or otherwise learning the facts that
25 Defendants had concealed or failed to disclose, because Defendants' emission control software
26 was extremely sophisticated technology. Plaintiff and Missouri State Class members did not, and
27 could not, unravel Defendants' deception on their own.
28

1725. Defendants had an ongoing duty to Plaintiff and the Missouri State Class to refrain from unfair and deceptive practices under the Missouri MPA in the course of their business. Specifically, Defendants owed Plaintiff and Missouri State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Missouri State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1726. Plaintiff and Missouri State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1727. Defendants' violations present a continuing risk to Plaintiff and the Missouri State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1728. Pursuant to Mo. Rev. Stat. § 407.025, Plaintiff and the Missouri State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Missouri MPA.

**VIOLATION OF MONTANA UNFAIR TRADE PRACTICES AND CONSUMER
PROTECTION ACT OF 1973
(Mont. Code Ann. § 30-14-101, *et seq.*)**

1729. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1730. Plaintiff Ronald Holm (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Montana State against all Defendants.

1731. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff and the Montana State Class members are "persons" within the meaning of Mont. Code Ann. § 30-14-102(6). Plaintiff and the Montana State Class members are "consumers" within the meaning of Mont. Code Ann. § 30-14-102(1).

1732. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade" or "commerce" within the meaning of Mont. Code Ann. § 30-14-102(8).

1733. The Montana Unfair Trade Practices and Consumer Protection Act (“Montana CPA”) makes unlawful any “unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce.” Mont. Code Ann. § 30-14-103.

1734. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Montana CPA.

1735. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as prohibited by Mont. Code Ann. § 30-14-103:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;

1 E. Engaging in other conduct which created a likelihood of confusion or of
2 misunderstanding; and/or

3 F. Using or employing deception, fraud, false pretense, false promise or
4 misrepresentation, or the concealment, suppression or omission of a
5 material fact with intent that others rely upon such concealment,
6 suppression or omission, in connection with the advertisement and
7 sale/lease of the Class Vehicles, whether or not any person has in fact been
8 misled, deceived or damaged thereby.

9 1736. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to Plaintiff and the Montana State Class, as Defendants
11 intended. Had they known the truth, Plaintiff and the Montana State Class would not have
12 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
13 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
14 them.

15 1737. Plaintiff and Montana State Class members had no way of discerning that
16 Defendants' representations were false and misleading, or otherwise learning the facts that
17 Defendants had concealed or failed to disclose, because Defendants' emission control software
18 was extremely sophisticated technology. Plaintiff and Montana State Class members did not, and
19 could not, unravel Defendants' deception on their own.

20 1738. Defendants had an ongoing duty to Plaintiff and the Montana State Class to refrain
21 from unfair and deceptive practices under the Montana CPA in the course of their business.
22 Specifically, Defendants owed Plaintiff and Montana State Class members a duty to disclose all
23 the material facts concerning the EcoDiesel® emission control system because they possessed
24 exclusive knowledge, they intentionally concealed it from Plaintiff and the Montana State Class,
25 and/or they made misrepresentations that were rendered misleading because they were
26 contradicted by withheld facts.

1739. Plaintiff and Montana State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1740. Defendants' violations present a continuing risk to Plaintiff and the Montana State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1741. Pursuant to Mont. Code Ann. § 30-14-133, Plaintiff and the Montana State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Montana CPA.

VIOLATION OF THE NEBRASKA CONSUMER PROTECTION ACT
(Neb. Rev. Stat. § 59-1601, *et seq.*)

1742. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1743. Plaintiffs Connie Hood and Richard Lindholm (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Nebraska State Class against all Defendants.

1744. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the Nebraska State Class members are "persons" within the meaning of Neb. Rev. Stat. § 59-1601(1).

1745. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade" or "commerce" within the meaning of Neb. Rev. Stat. § 59-1601(2).

1746. The Nebraska Consumer Protection Act ("Nebraska CPA") makes unlawful "unfair or deceptive acts or practices in the conduct of any trade or commerce." Neb. Rev. Stat. § 59-1602.

1747. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Nebraska CPA.

1748. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as prohibited by Neb. Rev. Stat. § 59-1602:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or
- F. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and

1 sale/lease of the Class Vehicles, whether or not any person has in fact been
2 misled, deceived or damaged thereby.

3 1749. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiffs and the Nebraska State Class, as Defendants
5 intended. Had they known the truth, Plaintiffs and the Nebraska State Class would not have
6 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
7 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
8 them.

9 1750. Plaintiffs and Nebraska State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiffs and Nebraska State Class members did not,
13 and could not, unravel Defendants' deception on their own.

14 1751. Defendants had an ongoing duty to Plaintiffs and the Nebraska State Class to
15 refrain from unfair and deceptive practices under the Nebraska CPA in the course of their
16 business. Specifically, Defendants owed Plaintiffs and Nebraska State Class members a duty to
17 disclose all the material facts concerning the EcoDiesel® emission control system because they
18 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Nebraska
19 State Class, and/or they made misrepresentations that were rendered misleading because they
20 were contradicted by withheld facts.

21 1752. Plaintiffs and Nebraska State Class members suffered ascertainable loss and actual
22 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
23 failure to disclose material information.

24 1753. Defendants' violations present a continuing risk to Plaintiffs and the Nebraska
25 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
26 of herein affect the public interest.

1754. Pursuant to Neb. Rev. Stat. § 59-1609, Plaintiffs and the Nebraska State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages and any other just and proper relief available under the Nebraska CPA.

VIOLATION OF THE NEVADA DECEPTIVE TRADE PRACTICES ACT
(Nev. Rev. Stat. § 598.0903, *et seq.*)

1755. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1756. Plaintiff Christopher Mattingly (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Nevada State Class against all Defendants.

1757. The Nevada Deceptive Trade Practices Act ("Nevada DTPA"), Nev. Rev. Stat. § 598.0903, *et seq.* prohibits deceptive trade practices.

1758. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Nevada DTPA.

1759. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Nev. Rev. Stat. §§ 598.0915, 598.0923, and 598.0925:

- 1 A. Representing that the Class Vehicles have approval, characteristics, uses,
- 2 or benefits that they do not have;
- 3 B. Representing that the Class Vehicles are of a particular standard, quality
- 4 and grade when they are not;
- 5 C. Advertising the Class Vehicles with the intent not to sell or lease them as
- 6 advertised;
- 7 D. Violating state and federal statutes and regulations relating to the sale of
- 8 the Class Vehicles; and/or
- 9 E. Intending to injure competitors and destroy or substantially lessen
- 10 competition.

11 1760. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
12 emission control system were material to Plaintiff and the Nevada State Class, as Defendants
13 intended. Had they known the truth, Plaintiff and the Nevada State Class would not have
14 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
15 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
16 them.

17 1761. Plaintiff and Nevada State Class members had no way of discerning that
18 Defendants' representations were false and misleading, or otherwise learning the facts that
19 Defendants had concealed or failed to disclose, because Defendants' emission control software
20 was extremely sophisticated technology. Plaintiff and Nevada State Class members did not, and
21 could not, unravel Defendants' deception on their own.

22 1762. Defendants had an ongoing duty to Plaintiff and the Nevada State Class to refrain
23 from unfair and deceptive practices under the Nevada DTPA in the course of their business.
24 Specifically, Defendants owed Plaintiff and Nevada State Class members a duty to disclose all the
25 material facts concerning the EcoDiesel® emission control system because they possessed
26 exclusive knowledge, they intentionally concealed it from Plaintiff and the Nevada State Class,
27 and/or they made misrepresentations that were rendered misleading because they were
28 contradicted by withheld facts.

1763. Plaintiff and Nevada State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1764. Defendants' violations present a continuing risk to Plaintiff and the Nevada State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1765. Pursuant to Nev. Rev. Stat. §§ 41.600 and 598.0977, Plaintiff and the Nevada State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages and any other just and proper relief available under the Nevada DTPA.

**VIOLATION OF N.H. CONSUMER PROTECTION ACT
(N.H. Rev. Stat. Ann. § 358-a:1, *et seq.*)**

1766. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1767. This count is brought on behalf of the New Hampshire State Class against all Defendants.

1768. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the New Hampshire State Class members are "persons" within the meaning of N.H. Rev. Stat. § 358-A:1.

1769. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne are engaged in "trade" or "commerce" within the meaning of N.H. Rev. Stat. § 358-A:1.

1770. The New Hampshire Consumer Protection Act ("New Hampshire CPA") makes unfair or deceptive trade practices unlawful. N.H. Rev. Stat. Ann. § 358-A:2.

1771. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the New Hampshire CPA.

1772. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed

1 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 2 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 3 pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and
 4 the Defendants concealed that the fuel efficiency and performance could be achieved only
 5 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 6 real-world conditions; and (3) the Defendants developed and installed emission cheating
 7 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 8 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 9 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 10 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 11 practices as defined in N.H. Rev. Stat. § 358-A:2:

- 12 A. Causing likelihood of confusion or of misunderstanding as to the approval
 13 or certification of the Class Vehicles;
- 14 B. Representing that the Class Vehicles have approval, characteristics, uses,
 15 or benefits that they do not have;
- 16 C. Representing that the Class Vehicles are of a particular standard, quality
 17 and grade when they are not; and/or
- 18 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 19 advertised.

20 1773. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 21 emission control system were material to the New Hampshire State Class, as Defendants
 22 intended. Had they known the truth, the New Hampshire State Class would not have purchased
 23 or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and
 24 mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

25 1774. New Hampshire State Class members had no way of discerning that Defendants'
 26 representations were false and misleading, or otherwise learning the facts that Defendants had
 27 concealed or failed to disclose, because Defendants' emission control software was extremely
 28

sophisticated technology. New Hampshire State Class members did not, and could not, unravel Defendants' deception on their own.

1775. Defendants had an ongoing duty to the New Hampshire State Class to refrain from unfair and deceptive practices under the New Hampshire CPA in the course of their business. Specifically, Defendants owed New Hampshire State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from the New Hampshire State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1776. New Hampshire State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1777. Defendants' violations present a continuing risk to the New Hampshire State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1778. Pursuant to N.H. Rev. Stat. § 358-A:10, the New Hampshire State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the New Hampshire CPA.

VIOLATIONS OF THE NEW JERSEY CONSUMER FRAUD ACT
(N.J. Stat. Ann. § 56:8-1, *et seq.*)

1779. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1780. Plaintiffs Michael Norton and Wayne Tonnesen (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the New Jersey State Class against all Defendants.

1781. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the New Jersey State Class members are "persons" within the meaning of N.J. Stat. Ann. § 56:8-1(d).

1782. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “sales” of “merchandise” within the meaning of N.J. Stat. Ann. § 56:8-1(c), (e).

1783. The New Jersey Consumer Fraud Act (“New Jersey CFA”) makes unlawful “[t]he act, use or employment by any person of any unconscionable commercial practice, deception, fraud, false pretense, false promise, misrepresentation, or the knowing concealment, suppression, or omission of any material fact with the intent that others rely upon such concealment, suppression or omission, in connection with the sale or advertisement of any merchandise or real estate, or with the subsequent performance of such person as aforesaid, whether or not any person has in fact been misled, deceived or damaged thereby...” N.J. Stat. Ann. § 56:8-2.

1784. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the New Jersey CFA.

1785. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in the following unfair or deceptive acts or practices as prohibited by N.J. Stat. Ann. § 56:8-2: using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the

1 advertisement and sale/lease of the Class Vehicles, whether or not any person has in fact been
2 misled, deceived or damaged thereby.

3 1786. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiffs and the New Jersey State Class, as Defendants
5 intended. Had they known the truth, Plaintiffs and the New Jersey State Class would not have
6 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
7 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
8 them.

9 1787. Plaintiff and New Jersey State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiff and New Jersey State Class members did not,
13 and could not, unravel Defendants' deception on their own.

14 1788. Defendants had an ongoing duty to Plaintiffs and the New Jersey State Class to
15 refrain from unfair and deceptive practices under the New Jersey CFA in the course of their
16 business. Specifically, Defendants owed Plaintiff and New Jersey State Class members a duty to
17 disclose all the material facts concerning the EcoDiesel® emission control system because they
18 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the New
19 Jersey State Class, and/or they made misrepresentations that were rendered misleading because
20 they were contradicted by withheld facts.

21 1789. Plaintiff and New Jersey State Class members suffered ascertainable loss and
22 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
23 and/or failure to disclose material information.

24 1790. Defendants' violations present a continuing risk to Plaintiffs and the New Jersey
25 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
26 of herein affect the public interest.

27 1791. Pursuant to N.J. Stat. Ann. § 56:8-19, Plaintiffs and the New Jersey State Class
28 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding

1 damages, punitive damages, and any other just and proper relief available under the New Jersey
2 CFA.

3 **VIOLATIONS OF THE NEW MEXICO UNFAIR PRACTICES ACT**
4 **(N.M. Stat. Ann. §§ 57-12-1, *et seq.*)**

5 1792. Plaintiffs incorporate by reference each preceding paragraph as though fully set
6 forth herein.

7 1793. Plaintiffs Jake Gunderson and WEB Farms, Inc. (for the purpose of this section,
8 “Plaintiffs”) bring this action on behalf of themselves and the New Mexico State Class against all
9 Defendants.

10 1794. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
11 Marchionne, Plaintiffs, and the New Mexico State Class members are “persons” within the
12 meaning of N.M. Stat. Ann. § 57-12-2.

13 1795. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne
14 are engaged in trade or commerce within the meaning of N.M. Stat. Ann. § 57-12-2.

15 1796. The New Mexico Unfair Trade Practices Act (“New Mexico UTPA”) makes
16 unlawful “a false or misleading oral or written statement, visual description or other
17 representation of any kind knowingly made in connection with the sale, lease, rental or loan of
18 goods or services ... by a person in the regular course of the person’s trade or commerce, that
19 may, tends to or does deceive or mislead any person,” including but not limited to “failing to state
20 a material fact if doing so deceives or tends to deceive.” N.M. Stat. Ann. § 57-12-2(D).

21 1797. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
22 Marchionne, through their agents, employees, and/or subsidiaries, violated the New Mexico
23 UTPA.

24 1798. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
25 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
26 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
27 emission cheating components in the Class Vehicles that caused them to pollute excessively in
28 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and

1 pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and
 2 the Defendants concealed that the fuel efficiency and performance could be achieved only
 3 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 4 real-world conditions; and (3) the Defendants developed and installed emission cheating
 5 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 6 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 7 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 8 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 9 practices as prohibited by N.M. Stat. Ann. § 57-12-2(D) and § 57-12-2(E):

- 10 A. Causing likelihood of confusion or of misunderstanding as to the approval
 11 or certification of the Class Vehicles;
- 12 B. Representing that the Class Vehicles have approval, characteristics, uses,
 13 or benefits that they do not have;
- 14 C. Representing that the Class Vehicles are of a particular standard, quality
 15 and grade when they are not;
- 16 D. Using exaggeration as to a material fact and/or failing to state the material
 17 facts concerning the Class Vehicles in a way that tended to deceive; and/or
- 18 E. Acting in a manner that resulted in a gross disparity between the true value
 19 of the Class Vehicles and the price paid.

20 1799. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 21 emission control system were material to Plaintiffs and the New Mexico State Class, as
 22 Defendants intended. Had they known the truth, Plaintiffs and the New Mexico State Class
 23 would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had
 24 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
 25 significantly less for them.

26 1800. Plaintiffs and New Mexico State Class members had no way of discerning that
 27 Defendants' representations were false and misleading, or otherwise learning the facts that
 28 Defendants had concealed or failed to disclose, because Defendants' emission control software

1 was extremely sophisticated technology. Plaintiffs and New Mexico State Class members did
2 not, and could not, unravel Defendants' deception on their own.

3 1801. Defendants had an ongoing duty to Plaintiffs and the New Mexico State Class to
4 refrain from unfair and deceptive practices under the New Mexico UTPA in the course of their
5 business. Specifically, Defendants owed Plaintiffs and New Mexico State Class members a duty
6 to disclose all the material facts concerning the EcoDiesel® emission control system because they
7 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the New
8 Mexico State Class, and/or they made misrepresentations that were rendered misleading because
9 they were contradicted by withheld facts.

10 1802. Plaintiffs and New Mexico State Class members suffered ascertainable loss and
11 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
12 and/or failure to disclose material information.

13 1803. Defendants' violations present a continuing risk to Plaintiffs and the New Mexico
14 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
15 of herein affect the public interest.

16 1804. Pursuant to N.M. Stat. Ann. § 57-12-10, Plaintiffs and the New Mexico State Class
17 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
18 damages, punitive damages, and any other just and proper relief available under the New Mexico
19 UTPA.

20 **VIOLATION OF NEW YORK GENERAL BUSINESS LAW § 349**
21 **(N.Y. Gen. Bus. Law § 349)**

22 1805. Plaintiffs incorporate by reference each preceding paragraph as though fully set
23 forth herein.

24 1806. Plaintiffs Giuseppe Carillo, Thomas McGann, Jr., and George Milner (for the
25 purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the New York
26 State Class against all Defendants.

1807. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the New York State Class members are “persons” within the meaning of N.Y. Gen. Bus. Law § 349(h).

1808. The New York Deceptive Acts and Practices Act (“NY DAPA”) makes unlawful “[d]eceptive acts or practices in the conduct of any business, trade or commerce.” N.Y. Gen. Bus. Law § 349.

1809. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the New York DAPA.

1810. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as prohibited by N.Y. Gen. Bus. Law § 349:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;

- 1 C. Representing that the Class Vehicles are of a particular standard, quality
2 and grade when they are not;
- 3 D. Advertising the Class Vehicles with the intent not to sell or lease them as
4 advertised;
- 5 E. Engaging in other conduct which created a likelihood of confusion or of
6 misunderstanding; and/or
- 7 F. Using or employing deception, fraud, false pretense, false promise or
8 misrepresentation, or the concealment, suppression or omission of a
9 material fact with intent that others rely upon such concealment,
10 suppression or omission, in connection with the advertisement and
11 sale/lease of the Class Vehicles, whether or not any person has in fact been
12 misled, deceived or damaged thereby.

13 1811. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
14 emission control system were material to Plaintiffs and the New York State Class, as Defendants
15 intended. Had they known the truth, Plaintiffs and the New York State Class would not have
16 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
17 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
18 them.

19 1812. Plaintiffs and New York State Class members had no way of discerning that
20 Defendants' representations were false and misleading, or otherwise learning the facts that
21 Defendants had concealed or failed to disclose, because Defendants' emission control software
22 was extremely sophisticated technology. Plaintiffs and New York State Class members did not,
23 and could not, unravel Defendants' deception on their own.

24 1813. Defendants had an ongoing duty to Plaintiffs and the New York State Class to
25 refrain from unfair and deceptive practices under the New York DAPA in the course of their
26 business. Specifically, Defendants owed Plaintiffs and New York State Class members a duty to
27 disclose all the material facts concerning the EcoDiesel® emission control system because they
28 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the New York

1 State Class, and/or they made misrepresentations that were rendered misleading because they
2 were contradicted by withheld facts.

3 1814. Plaintiffs and New York State Class members suffered ascertainable loss and
4 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
5 and/or failure to disclose material information.

6 1815. Defendants' violations present a continuing risk to Plaintiffs and the New York
7 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
8 of herein affect the public interest.

9 1816. Plaintiffs and the New York State Class seek an order enjoining Defendants'
10 unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other
11 just and proper relief available under the New York DAPA.

12 **VIOLATIONS OF NEW YORK GENERAL BUSINESS LAW § 350**
13 **(N.Y. Gen. Bus. Law § 350)**

14 1817. Plaintiffs incorporate by reference each preceding paragraph as though fully set
15 forth herein.

16 1818. Plaintiffs Giuseppe Carillo, Thomas McGann, Jr., and George Milner (for the
17 purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the New York
18 State Class against all Defendants.

19 1819. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
20 Marchionne are engaged in the "conduct of business, trade or commerce," within the meaning of
21 N.Y. Gen. Bus. Law § 350.

22 1820. The New York False Advertising Act ("NY FAA") makes unlawful "[f]alse
23 advertising in the conduct of any business, trade or commerce." N.Y. Gen. Bus. Law § 350. False
24 advertising includes "advertising, including labeling, of a commodity . . . if such advertising is
25 misleading in a material respect," taking into account "the extent to which the advertising fails to
26 reveal facts material in light of . . . representations [made] with respect to the commodity"
27 N.Y. Gen. Bus. Law § 350-a.
28

1821. Defendants caused to be made or disseminated through New York and the United States, through advertising, marketing, and other publications, statements that were untrue or misleading, and which were known, or which by the exercise of reasonable care should have been known to Defendants, to be untrue and misleading to consumers, including Plaintiff and the other New York State Class members.

1822. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357.

1823. Defendants violated the NY FAA by: representing that the Class Vehicles had characteristics, uses, benefits, and qualities which they do not have; representing that the Class Vehicles are of a particular standard, quality and grade when they are not; advertising Class Vehicles with the intent not to sell or lease them as advertised; engaging in other conduct creating a likelihood of confusion or of misunderstanding; and employing concealment, suppression, or omission of material facts in connection with the advertisement and sale of the Class Vehicles. Defendants knew or should have known that their conduct violated the NY FAA.

1824. Plaintiffs and New York State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants’ misrepresentations, deceptions, and their concealment of and failure to disclose material information.

1825. All of the wrongful conduct alleged herein occurred, and continues to occur, in the conduct of Defendants' business. Defendants' wrongful conduct is part of a pattern or generalized course of conduct that is still perpetuated and repeated, both in the State of New York and nationwide.

1826. Pursuant to the NY FAA, Plaintiffs and the New York State Class seek injunctive relief, as well as monetary relief against Defendants measured as the greater of (a) actual damages in an amount to be determined at trial, and (b) statutory damages in the amount of \$500 each for New York State Class member. Because Defendants' conduct was committed willingly and knowingly, Plaintiffs and the New York State Class are entitled to recover three times actual damages, up to \$10,000.

**VIOLATIONS OF THE NORTH CAROLINA UNFAIR
AND DECEPTIVE TRADE PRACTICES ACT
(N.C. Gen. Stat. §§ 75-1.1, *et seq.*)**

1827. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1828. Plaintiffs Marius Bihorean, Miguel Fragoso, Samuel Price, and Stonewall Webster (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the North Carolina State Class against all Defendants.

1829. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the North Carolina State Class members are "persons" within the meaning of N.C. Gen. Stat. § 75-1.1, *et seq.*

1830. FCA's, Fiat's, VM Italy's, VM America's, Bosch GmbH's, Bosch LLC's, and Sergio Marchionne's acts and practices complained of herein were performed in the course of their trade or business and thus occurred in or affected "commerce," as defined in N.C. Gen. Stat. § 75-1.1(b).

1831. The North Carolina Unfair and Deceptive Trade Practices Act ("North Carolina UDTPA") makes unlawful "[u]nfair methods of competition in or affecting commerce, and unfair or deceptive acts or practices in or affecting commerce[.]" and the North Carolina UDTPA

1 provides a private right of action for any person injured “by reason of any act or thing done by
2 any other person, firm or corporation in violation of” the law. N.C. Gen. Stat. § 75-16.

3 1832. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
4 Marchionne, through their agents, employees, and/or subsidiaries, violated the North Carolina
5 UDTPA.

6 1833. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
7 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
8 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
9 emission cheating components in the Class Vehicles that caused them to pollute excessively in
10 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
11 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
12 the Defendants concealed that the fuel efficiency and performance could be achieved only
13 through emission control devices in the Class Vehicles that caused them to pollute excessively in
14 real-world conditions; and (3) the Defendants developed and installed emission cheating
15 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
16 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
17 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
18 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
19 practices prohibited by the North Carolina UDTPA:

- 20 A. Causing likelihood of confusion or of misunderstanding as to the approval
- 21 or certification of the Class Vehicles;
- 22 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 23 or benefits that they do not have;
- 24 C. Representing that the Class Vehicles are of a particular standard, quality
- 25 and grade when they are not;
- 26 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 27 advertised;
- 28

1 E. Engaging in other conduct which created a likelihood of confusion or of
2 misunderstanding; and/or

3 F. Using or employing deception, fraud, false pretense, false promise or
4 misrepresentation, or the concealment, suppression or omission of a
5 material fact with intent that others rely upon such concealment,
6 suppression or omission, in connection with the advertisement and
7 sale/lease of the Class Vehicles, whether or not any person has in fact been
8 misled, deceived or damaged thereby.

9 1834. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
10 emission control system were material to Plaintiffs and the North Carolina State Class, as
11 Defendants intended. Had they known the truth, Plaintiffs and the North Carolina State Class
12 would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had
13 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
14 significantly less for them.

15 1835. Plaintiffs and North Carolina State Class members had no way of discerning that
16 Defendants' representations were false and misleading, or otherwise learning the facts that
17 Defendants had concealed or failed to disclose, because Defendants' emission control software
18 was extremely sophisticated technology. Plaintiffs and North Carolina State Class members did
19 not, and could not, unravel Defendants' deception on their own.

20 1836. Defendants had an ongoing duty to Plaintiffs and the North Carolina State Class to
21 refrain from unfair and deceptive practices under the North Carolina UDTPA in the course of
22 their business. Specifically, Defendants owed Plaintiffs and North Carolina State Class members
23 a duty to disclose all the material facts concerning the EcoDiesel® emission control system
24 because they possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and
25 the North Carolina State Class, and/or they made misrepresentations that were rendered
26 misleading because they were contradicted by withheld facts.

1837. Plaintiffs and North Carolina State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1838. Defendants' violations present a continuing risk to Plaintiffs and the North Carolina State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1839. Pursuant to N.C. Gen. Stat. § 75-16, Plaintiffs and the North Carolina State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the North Carolina UDTPA.

**VIOLATION OF THE NORTH DAKOTA CONSUMER FRAUD ACT
(N.D. Cent. Code § 51-15-02)**

1840. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1841. Plaintiff Andrew Loescher (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the North Dakota State Class against all Defendants.

1842. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the North Dakota State Class members are "persons" within the meaning of N.D. Cent. Code § 51-15-02(4).

1843. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in the "sale" of "merchandise" within the meaning of N.D. Cent. Code §§ 51-15-02(3), (5).

1844. The North Dakota Consumer Fraud Act ("North Dakota CFA") makes unlawful "[t]he act, use, or employment by any person of any deceptive act or practice, fraud, false pretense, false promise, or misrepresentation, with the intent that others rely thereon in connection with the sale or advertisement of any merchandise...." N.D. Cent. Code § 51-15-02.

1845. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the North Dakota CFA.

1846. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices prohibited by N.D. Cent. Code § 51-15-02: using or employing deception, fraud, false pretense, false promise or misrepresentation, with intent that others rely thereon, in connection with the advertisement and sale/lease of the Class Vehicles, whether or not any person has in fact been misled, deceived or damaged thereby.

1847. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiff and the North Dakota State Class, as Defendants intended. Had they known the truth, Plaintiff and the North Dakota State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

1848. Plaintiff and North Dakota State Class members had no way of discerning that Defendants’ representations were false and misleading, or otherwise learning the facts that

1 Defendants had concealed or failed to disclose, because Defendants' emission control software
 2 was extremely sophisticated technology. Plaintiff and North Dakota State Class members did not,
 3 and could not, unravel Defendants' deception on their own.

4 1849. Defendants had an ongoing duty to Plaintiff and the North Dakota State Class to
 5 refrain from unfair and deceptive practices under the North Dakota CFA in the course of their
 6 business. Specifically, Defendants owed Plaintiff and North Dakota State Class members a duty
 7 to disclose all the material facts concerning the EcoDiesel® emission control system because they
 8 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the North
 9 Dakota State Class, and/or they made misrepresentations that were rendered misleading because
 10 they were contradicted by withheld facts.

11 1850. Plaintiff and North Dakota State Class members suffered ascertainable loss and
 12 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
 13 and/or failure to disclose material information.

14 1851. Defendants' violations present a continuing risk to Plaintiff and the North Dakota
 15 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
 16 of herein affect the public interest.

17 1852. Pursuant to N.D. Cent. Code Ann. §§ 51-15-07 and 51-15-09, Plaintiff and the
 18 North Dakota State Class seek an order enjoining Defendants' unfair and/or deceptive acts or
 19 practices and awarding damages, treble damages, and any other just and proper relief available
 20 under the North Dakota CFA.

21 **VIOLATIONS OF THE OHIO CONSUMER SALES PRACTICES ACT**
 22 **(Ohio Rev. Code §§ 1345.01, *et seq.*)**

23 1853. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 24 forth herein.

25 1854. Plaintiff Jon Roberts (for the purpose of this section, "Plaintiff") brings this action
 26 on behalf of himself and the Ohio State Class against all Defendants.

27 1855. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 28 Marchionne, Plaintiff, and the Ohio State Class members are "persons" within the meaning of

1 Ohio Rev. Code § 1345.01(B). Defendants are so “supplier[s]” as defined by Ohio Rev. Code
2 § 1345.01(C).

3 1856. Plaintiff and the Ohio State Class members are “consumers” within the meaning of
4 Ohio Rev. Code § 1345.01(D), and their purchase and leases of the Class Vehicles are “consumer
5 transactions” within the meaning of Ohio Rev. Code § 1345.01(A)

6 1857. The Ohio Consumer Sales Practices Act (“Ohio CSPA”) prohibits unfair or
7 deceptive acts or practices in connection with a consumer transaction. Ohio Rev. Code
8 § 1345.02.

9 1858. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
10 Marchionne, through their agents, employees, and/or subsidiaries, violated the Ohio CSPA.

11 1859. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
12 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
13 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
14 emission cheating components in the Class Vehicles that caused them to pollute excessively in
15 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
16 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
17 the Defendants concealed that the fuel efficiency and performance could be achieved only
18 through emission control devices in the Class Vehicles that caused them to pollute excessively in
19 real-world conditions; and (3) the Defendants developed and installed emission cheating
20 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
21 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
22 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
23 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
24 practices as prohibited by Ohio Rev. Code § 1345.02:

25 A. Representing that the Class Vehicles have approval, characteristics, uses,
26 or benefits that they do not have; and/or

27 B. Representing that the Class Vehicles are of a particular standard, quality
28 and grade when they are not.

1860. Defendants' scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiff and the Ohio State Class, as Defendants intended. Had they known the truth, Plaintiff and the Ohio State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

1861. Plaintiff and Ohio State Class members had no way of discerning that Defendants' representations were false and misleading, or otherwise learning the facts that Defendants had concealed or failed to disclose, because Defendants' emission control software was extremely sophisticated technology. Plaintiff and Ohio State Class members did not, and could not, unravel Defendants' deception on their own.

1862. Defendants had an ongoing duty to Plaintiff and the Ohio State Class to refrain from unfair and deceptive practices under the Ohio CSPA in the course of their business. Specifically, Defendants owed Plaintiff and Ohio State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Ohio State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1863. Plaintiff and Ohio State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1864. Defendants' violations present a continuing risk to Plaintiff and the Ohio State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1865. Pursuant to Ohio Rev. Code § 1345.09, Plaintiff and the Ohio State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Ohio CSPA.

**VIOLATIONS OF THE OHIO DECEPTIVE TRADE PRACTICES ACT
(Ohio Rev. Code § 4165.01, *et seq.*)**

1866. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1867. Plaintiff Jon Roberts (for the purpose of this section, “Plaintiff”) brings this action on behalf of himself and the Ohio State Class against all Defendants.

1868. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Ohio State Class members are “persons” within the meaning of Ohio Rev. Code § 4165.01(D).

1869. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “the course of [their] business” within the meaning of Ohio Rev. Code § 4165.02(A).

1870. The Ohio Deceptive Trade Practices Act (“Ohio DTPA”) makes unlawful deceptive trade practices. Ohio Rev. Code § 4165.02(A).

1871. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Ohio DTPA.

1872. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class

1 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 2 practices as defined in Ohio Rev. Code § 4165.02(A):

- 3 A. Causing likelihood of confusion or of misunderstanding as to the approval
 4 or certification of the Class Vehicles;
- 5 B. Representing that the Class Vehicles have approval, characteristics, uses,
 6 or benefits that they do not have;
- 7 C. Representing that the Class Vehicles are of a particular standard, quality
 8 and grade when they are not; and/or
- 9 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 10 advertised.

11 1873. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 12 emission control system were material to Plaintiff and the Ohio State Class, as Defendants
 13 intended. Had they known the truth, Plaintiff and the Ohio State Class would not have purchased
 14 or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and
 15 mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

16 1874. Plaintiff and Ohio State Class members had no way of discerning that Defendants'
 17 representations were false and misleading, or otherwise learning the facts that Defendants had
 18 concealed or failed to disclose, because Defendants' emission control software was extremely
 19 sophisticated technology. Plaintiff and Ohio State Class members did not, and could not, unravel
 20 Defendants' deception on their own.

21 1875. Defendants had an ongoing duty to the Plaintiff and Ohio State Class to refrain
 22 from unfair and deceptive practices under the Ohio DTPA in the course of their business.
 23 Specifically, Defendants owed Plaintiff and Ohio State Class members a duty to disclose all the
 24 material facts concerning the EcoDiesel® emission control system because they possessed
 25 exclusive knowledge, they intentionally concealed it from Plaintiff and the Ohio State Class,
 26 and/or they made misrepresentations that were rendered misleading because they were
 27 contradicted by withheld facts.
 28

1876. Plaintiff and Ohio State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1877. Defendants' violations present a continuing risk to Plaintiff and the Ohio State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1878. Pursuant to Ohio Rev. Code §§ 2727.02 and 4165.03, Plaintiff and the Ohio State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, punitive damages, and any other just and proper relief available under the Ohio DTPA.

VIOLATION OF OKLAHOMA CONSUMER PROTECTION ACT
(Okla. Stat. Tit. 15 § 751, *et seq.*)

1879. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1880. Plaintiff Lee Holland (for the purpose of this section, "Plaintiff") brings this action on behalf of himself and the Oklahoma State Class against all Defendants.

1881. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Oklahoma State Class members are "persons" within the meaning of Okla. Stat. Tit. 15 § 752.1.

1882. At all relevant times, FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are and were engaged in "the course of business" within the meaning of Okla. Stat. Tit. 15 § 753.

1883. The Oklahoma Consumer Protection Act ("Oklahoma CPA") prohibits numerous unlawful acts, including misleading representations, false advertisements, and false statements. Okla. Stat. Tit. 15 § 753.

1884. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Oklahoma CPA.

1885. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the

1 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 2 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 3 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 4 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
 5 the Defendants concealed that the fuel efficiency and performance could be achieved only
 6 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 7 real-world conditions; and (3) the Defendants developed and installed emission cheating
 8 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 9 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 10 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 11 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 12 practices as defined in Okla. Stat. Tit. 15 § 753:

- 13 A. Representing that the Class Vehicles have approval, characteristics, uses,
 14 or benefits that they do not have;
- 15 B. Representing that the Class Vehicles are of a particular standard, quality
 16 and grade when they are not; and/or
- 17 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 18 advertised.

19 1886. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel®
 20 emission control system were material to Plaintiff and the Oklahoma State Class, as Defendants
 21 intended. Had they known the truth, Plaintiff and the Oklahoma State Class would not have
 22 purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed
 23 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 24 them.

25 1887. Plaintiff and Oklahoma State Class members had no way of discerning that
 26 Defendants’ representations were false and misleading, or otherwise learning the facts that
 27 Defendants had concealed or failed to disclose, because Defendants’ emission control software
 28

1 was extremely sophisticated technology. Plaintiff and Oklahoma State Class members did not,
2 and could not, unravel Defendants' deception on their own.

3 1888. Defendants had an ongoing duty to Plaintiff and the Oklahoma State Class to
4 refrain from unfair and deceptive practices under the Oklahoma CPA in the course of their
5 business. Specifically, Defendants owed Plaintiff and Oklahoma State Class members a duty to
6 disclose all the material facts concerning the EcoDiesel® emission control system because they
7 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Oklahoma
8 State Class, and/or they made misrepresentations that were rendered misleading because they
9 were contradicted by withheld facts.

10 1889. Plaintiff and Oklahoma State Class members suffered ascertainable loss and actual
11 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
12 failure to disclose material information.

13 1890. Defendants' violations present a continuing risk to Plaintiff and the Oklahoma
14 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
15 of herein affect the public interest.

16 1891. Pursuant to Okla. Stat. Tit. 15 § 761.1, Plaintiff and the Oklahoma State Class seek
17 an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
18 punitive damages, and any other just and proper relief available under the Oklahoma CPA.

19 **VIOLATIONS OF THE OREGON UNLAWFUL TRADE PRACTICES ACT**
20 **(Or. Rev. Stat. §§ 646.605, *et seq.*)**

21 1892. Plaintiffs incorporate by reference each preceding paragraph as though fully set
22 forth herein.

23 1893. Plaintiffs Adam Burwell and Mathue Fasching (for the purpose of this section,
24 "Plaintiffs") bring this action on behalf of themselves and the Oregon State Class against all
25 Defendants.

26 1894. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
27 Marchionne, Plaintiffs, and the Oregon State Class members are "persons" within the meaning of
28 Or. Rev. Stat. § 646.605(4).

1895. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “trade” or “commerce” within the meaning of Or. Rev. Stat. § 646.605(8).

1896. The Oregon Unfair Trade Practices Act (“Oregon UTPA”) prohibits “unlawful practice . . . in the course of . . . business.” Or. Rev. Stat. § Ann. 646.608(1).

1897. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Oregon UTPA.

1898. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unlawful practices as defined in Or. Rev. Stat. § 646.608(1):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not; and/or

1 D. Advertising the Class Vehicles with the intent not to sell or lease them as
2 advertised.

3 1899. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiffs and the Oregon State Class, as Defendants
5 intended. Had they known the truth, Plaintiffs and the Oregon State Class would not have
6 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
7 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
8 them.

9 1900. Plaintiffs and the Oregon State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiffs and the Oregon State Class members did not,
13 and could not, unravel Defendants' deception on their own.

14 1901. Defendants had an ongoing duty to Plaintiffs and the Oregon State Class to refrain
15 from unfair and deceptive practices under the Oregon UTPA in the course of their business.
16 Specifically, Defendants owed Plaintiffs and the Oregon State Class members a duty to disclose
17 all the material facts concerning the EcoDiesel® emission control system because they possessed
18 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Oregon State Class,
19 and/or they made misrepresentations that were rendered misleading because they were
20 contradicted by withheld facts.

21 1902. Plaintiffs and the Oregon State Class members suffered ascertainable loss and
22 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
23 and/or failure to disclose material information.

24 1903. Defendants' violations present a continuing risk to Plaintiffs and the Oregon State
25 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
26 herein affect the public interest.

1 1904. Pursuant to Or. Rev. Stat. § 646.638, Plaintiffs and the Oregon State Class seek an
 2 order enjoining Defendants’ unfair and/or deceptive acts or practices, and awarding damages,
 3 punitive damages, and any other just and proper relief available under the Oregon UTPA.

4 **VIOLATION OF THE PENNSYLVANIA UNFAIR TRADE PRACTICES**
 5 **AND CONSUMER PROTECTION LAW**
 6 **(73 Pa. Stat. Ann. § 201-1, *et seq.*)**

7 1905. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 8 forth herein.

9 1906. Plaintiffs Kyle and Jessica Heidlebaugh (for the purpose of this section,
 10 “Plaintiffs”) bring this action on behalf of themselves and the Pennsylvania State Class against all
 11 Defendants.

12 1907. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 13 Marchionne, Plaintiffs, and the Pennsylvania State Class members are “persons” within the
 14 meaning of 73 Pa. Stat. Ann. § 201-2.(2).

15 1908. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
 16 Marchionne are engaged in “trade” or “commerce” within the meaning of 73 Pa. Stat. Ann.
 17 § 201-2(3).

18 1909. The Pennsylvania Unfair Trade Practices Act (“Pennsylvania UTPA”) prohibits
 19 “unfair or deceptive acts or practices in the conduct of any trade or commerce” 73 Pa. Stat.
 20 Ann. § 201 3.

21 1910. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
 22 Marchionne, through their agents, employees, and/or subsidiaries, violated the Pennsylvania
 23 UTPA.

24 1911. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
 25 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
 26 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 27 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 28 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and

the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices in violation of 73 Pa. Stat. Ann. § 201-3:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or
- F. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and sale/lease of the Class Vehicles, whether or not any person has in fact been misled, deceived or damaged thereby.

1912. Defendants' scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiffs and the Pennsylvania State Class, as Defendants intended. Had they known the truth, Plaintiffs and the Pennsylvania State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had

1 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
2 significantly less for them.

3 1913. Plaintiffs and Pennsylvania State Class members had no way of discerning that
4 Defendants' representations were false and misleading, or otherwise learning the facts that
5 Defendants had concealed or failed to disclose, because Defendants' emission control software
6 was extremely sophisticated technology. Plaintiffs and Pennsylvania State Class members did
7 not, and could not, unravel Defendants' deception on their own.

8 1914. Defendants had an ongoing duty to Plaintiffs and the Pennsylvania State Class to
9 refrain from unfair and deceptive practices under the Pennsylvania UTPA in the course of their
10 business. Specifically, Defendants owed Plaintiffs and Pennsylvania State Class members a duty
11 to disclose all the material facts concerning the EcoDiesel® emission control system because they
12 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the
13 Pennsylvania State Class, and/or they made misrepresentations that were rendered misleading
14 because they were contradicted by withheld facts.

15 1915. Plaintiffs and Pennsylvania State Class members suffered ascertainable loss and
16 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
17 and/or failure to disclose material information.

18 1916. Defendants' violations present a continuing risk to Plaintiffs and the Pennsylvania
19 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
20 of herein affect the public interest.

21 1917. Pursuant to 73 Pa. Stat. Ann. § 201-9.2(a), Plaintiffs and the Pennsylvania State
22 Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
23 damages, punitive and/or treble damages, and any other just and proper relief available under the
24 Pennsylvania UTPA.

25 **VIOLATION OF THE RHODE ISLAND DECEPTIVE TRADE PRACTICES ACT**
26 **(R.I. Gen. Laws § 6-13.1, *et seq.*)**

27 1918. Plaintiffs incorporate by reference each preceding paragraph as though fully set
28 forth herein.

1919. This count is brought on behalf of the Rhode Island State Class against all Defendants.

1920. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, and the Rhode Island State Class members are “persons” within the meaning of R.I. Gen. Laws § 6-13.1-1(3).

1921. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “trade” or “commerce” within the meaning of R.I. Gen. Laws § 6-13.1-1(5).

1922. The Rhode Island Deceptive Trade Practices Act (“Rhode Island DTPA”) prohibits “unfair or deceptive acts or practices in the conduct of any trade or commerce.” R.I. Gen. Laws § 6-13.1-2.

1923. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Rhode Island DTPA.

1924. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in R.I. Gen. Laws § 6-13.1-1(6):

- 1 A. Causing likelihood of confusion or of misunderstanding as to the approval
2 or certification of the Class Vehicles;
- 3 B. Representing that the Class Vehicles have approval, characteristics, uses,
4 or benefits that they do not have;
- 5 C. Representing that the Class Vehicles are of a particular standard, quality
6 and grade when they are not;
- 7 D. Advertising the Class Vehicles with the intent not to sell or lease them as
8 advertised; and/or
- 9 E. Engaging in other conduct which created a likelihood of confusion or of
10 misunderstanding.

11 1925. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
12 emission control system were material to the Rhode Island State Class, as Defendants intended.
13 Had they known the truth, the Rhode Island State Class would not have purchased or leased the
14 Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
15 Vehicles rendered legal to sell—would have paid significantly less for them.

16 1926. Rhode Island State Class members had no way of discerning that Defendants'
17 representations were false and misleading, or otherwise learning the facts that Defendants had
18 concealed or failed to disclose, because Defendants' emission control software was extremely
19 sophisticated technology. Rhode Island State Class members did not, and could not, unravel
20 Defendants' deception on their own.

21 1927. Defendants had an ongoing duty to the Rhode Island State Class to refrain from
22 unfair and deceptive practices under the Rhode Island DTPA in the course of their business.
23 Specifically, Defendants owed Rhode Island State Class members a duty to disclose all the
24 material facts concerning the EcoDiesel® emission control system because they possessed
25 exclusive knowledge, they intentionally concealed it from the Rhode Island State Class, and/or
26 they made misrepresentations that were rendered misleading because they were contradicted by
27 withheld facts.

1 1928. Rhode Island State Class members suffered ascertainable loss and actual damages
2 as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to
3 disclose material information.

4 1929. Defendants' violations present a continuing risk to the Rhode Island State Class, as
5 well as to the general public. Defendants' unlawful acts and practices complained of herein affect
6 the public interest.

7 1930. Pursuant to R.I. Gen. Laws § 6-13.1-5.2(a), the Rhode Island State Class seek an
8 order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
9 punitive damages, and any other just and proper relief available under the Rhode Island DTPA.

10 **VIOLATIONS OF THE SOUTH CAROLINA**
11 **UNFAIR TRADE PRACTICES ACT**
12 **(S.C. Code Ann. § 39-5-10, *et seq.*)**

13 1931. Plaintiffs incorporate by reference each preceding paragraph as though fully set
14 forth herein.

15 1932. Plaintiffs Michael Johnson, Ernest Melin, and Bryan Muckenfuss (for the purpose
16 of this section, "Plaintiffs") bring this action on behalf of themselves and the South Carolina State
17 Class against all Defendants.

18 1933. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
19 Marchionne, Plaintiffs, and the South Carolina State Class members are "persons" within the
20 meaning of S.C. Code § 39-5-10(a).

21 1934. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
22 Marchionne are engaged in "trade" or "commerce" within the meaning of S.C. Code § 39-5-
23 10(b).

24 1935. The South Carolina Unfair Trade Practices Act ("South Carolina UTPA")
25 prohibits "unfair or deceptive acts or practices in the conduct of any trade or commerce." S.C.
26 Code § 39-5-20(a).

27 1936. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
28 Marchionne, through their agents, employees, and/or subsidiaries, violated the South Carolina
UTPA.

1937. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices in violation of S.C. Code § 39-5-20(a):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or
- F. Using or employing deception, fraud, false pretense, false promise or misrepresentation, or the concealment, suppression or omission of a material fact with intent that others rely upon such concealment, suppression or omission, in connection with the advertisement and

1 sale/lease of the Class Vehicles, whether or not any person has in fact been
2 misled, deceived or damaged thereby.

3 1938. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
4 emission control system were material to Plaintiffs and the South Carolina State Class, as
5 Defendants intended. Had they known the truth, Plaintiffs and the South Carolina State Class
6 would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had
7 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
8 significantly less for them.

9 1939. Plaintiffs and South Carolina State Class members had no way of discerning that
10 Defendants' representations were false and misleading, or otherwise learning the facts that
11 Defendants had concealed or failed to disclose, because Defendants' emission control software
12 was extremely sophisticated technology. Plaintiffs and South Carolina State Class members did
13 not, and could not, unravel Defendants' deception on their own.

14 1940. Defendants had an ongoing duty to Plaintiffs and the South Carolina State Class to
15 refrain from unfair and deceptive practices under the South Carolina UTPA in the course of their
16 business. Specifically, Defendants owed Plaintiffs and South Carolina State Class members a
17 duty to disclose all the material facts concerning the EcoDiesel® emission control system because
18 they possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the South
19 Carolina State Class, and/or they made misrepresentations that were rendered misleading because
20 they were contradicted by withheld facts.

21 1941. Plaintiffs and South Carolina State Class members suffered ascertainable loss and
22 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
23 and/or failure to disclose material information.

24 1942. Defendants' violations present a continuing risk to Plaintiffs and the South
25 Carolina State Class, as well as to the general public. Defendants' unlawful acts and practices
26 complained of herein affect the public interest.

27 1943. Pursuant to S.C. Code § 39-5-140(a), Plaintiffs and the South Carolina State Class
28 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding

1 damages, treble and/or punitive damages, and any other just and proper relief available under the
2 South Carolina UTPA.

3 **VIOLATIONS OF THE SOUTH CAROLINA REGULATION OF MANUFACTURERS,**
4 **DISTRIBUTORS, AND DEALERS ACT**
(S.C. Code Ann. § 56-15-10, *et seq.*)

5 1944. Plaintiffs incorporate by reference each preceding paragraph as though fully set
6 forth herein.

7 1945. Plaintiffs Michael Johnson, Ernest Melin, and Bryan Muckenfuss (for the purpose
8 of this section, “Plaintiffs”) bring this action on behalf of themselves and the South Carolina State
9 Class against FCA, Fiat, VM Italy, and VM America.

10 1946. FCA, Fiat, VM Italy, and VM America are “manufacturer[s]” as set forth in S.C.
11 Code Ann. § 56-15-10(b), as they were engaged in the business of manufacturing or assembling
12 new and unused motor vehicles. FCA and Fiat are also “distributors” and/or “wholesalers” as set
13 forth in S.C. Code Ann. § 56-15-10(g), (p).

14 1947. The South Carolina Regulation of Manufacturers, Distributors, and Dealers Act
15 (“Manufacturers Act”) prohibits “unfair or deceptive acts or practices” as defined in S.C. Code
16 Ann. § 56-15-40. S.C. Code Ann. § 56-15-30(a). Accordingly, the Manufacturers Act prohibits
17 any manufacturer from engaging in bad faith and unconscionable actions that cause damage to the
18 parties or the public; it also prohibits manufacturers from using false or misleading advertising in
19 connection with their business. S.C. Code Ann. § 56-15-40(1), (3)(d).

20 1948. FCA, Fiat, VM Italy, and VM America committed unfair or deceptive acts or
21 practices that violated the Manufacturers Act.

22 1949. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
23 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
24 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
25 emission cheating components in the Class Vehicles that caused them to pollute excessively in
26 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
27 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
28 the Defendants concealed that the fuel efficiency and performance could be achieved only

1 through emission control devices in the Class Vehicles that caused them to pollute excessively in
2 real-world conditions; and (3) the Defendants developed and installed emission cheating
3 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
4 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
5 337-357.

6 1950. In so doing, Defendants committed bad faith and unconscionable actions including
7 but not limited to: misrepresenting, concealing, and/or failing to disclose the true emissions and
8 performance characteristics of the Class Vehicles, and failing to disclose the Class Vehicles'
9 defective emissions control systems.

10 1951. Defendants also violated the Manufacturers' Act by using false and misleading
11 advertisements in connection with the sale and lease of Class Vehicles. As alleged above,
12 Defendants made numerous material statements about the safety, cleanliness, efficiency and
13 reliability of the Class Vehicles that were either false or misleading. Each of these statements—
14 and the failure to disclose the truth—contributed to the deceptive context of Defendants' unlawful
15 advertising and representations as a whole. Had they known the truth, Plaintiffs and the South
16 Carolina State Class would not have purchased or leased the Class Vehicles, or—if the Class
17 Vehicles' true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—
18 would have paid significantly less for them.

19 1952. Pursuant to S.C. Code Ann. § 56-15-110(2), Plaintiff brings this action on behalf
20 of themselves and the South Carolina State Class, as the action is one of common or general
21 interest to many persons and the parties are too numerous to bring them all before the court.

22 1953. Plaintiffs and South Carolina State Class members suffered ascertainable loss and
23 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
24 and/or failure to disclose material information.

25 1954. Plaintiffs and the South Carolina State Class are entitled to double their actual
26 damages, the cost of the suit, attorney's fees pursuant to S.C. Code Ann. § 56-15-110. Plaintiff
27 also seeks injunctive relief under S.C. Code Ann. § 56-15-110. Plaintiff also seeks treble
28 damages because the Defendants acted maliciously.

**VIOLATION OF THE SOUTH DAKOTA
DECEPTIVE TRADE PRACTICES AND CONSUMER PROTECTION LAW
(S.D. Codified Laws § 37-24-6)**

1955. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1956. Plaintiffs Elmer and Barbara Brinkman (for the purpose of this section, “Plaintiffs”) bring this action on behalf of themselves and the South Dakota State Class against all Defendants.

1957. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiffs, and the South Dakota State Class members are “persons” within the meaning of S.D. Codified Laws § 37-24-1(8).

1958. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are engaged in “trade” or “commerce” within the meaning of S.D. Codified Laws § 37-24-1(13).

1959. The South Dakota Deceptive Trade Practices and Consumer Protection (“South Dakota CPA”) prohibits “deceptive acts or practices, which are defined to include “[k]nowingly act, use, or employ any deceptive act or practice, fraud, false pretense, false promises, or misrepresentation or to conceal, suppress, or omit any material fact in connection with the sale or advertisement of any merchandise, regardless of whether any person has in fact been misled, deceived, or damaged thereby.” S.D. Codified Laws § 37-24-6(1).

1960. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the South Dakota CPA.

1961. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and

1 the Defendants concealed that the fuel efficiency and performance could be achieved only
2 through emission control devices in the Class Vehicles that caused them to pollute excessively in
3 real-world conditions; and (3) the Defendants developed and installed emission cheating
4 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
5 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
6 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
7 Vehicles, Defendants used or employed deception, fraud, false pretense, false promise or
8 misrepresentation, or the concealment, suppression or omission of a material fact with intent that
9 others rely upon such concealment, suppression or omission, in connection with the
10 advertisement and sale/lease of the Class Vehicles.

11 1962. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
12 emission control system were material to Plaintiffs and the South Dakota State Class, as
13 Defendants intended. Had they known the truth, Plaintiffs and the South Dakota State Class
14 would not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had
15 been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid
16 significantly less for them.

17 1963. Plaintiffs and South Dakota State Class members had no way of discerning that
18 Defendants' representations were false and misleading, or otherwise learning the facts that
19 Defendants had concealed or failed to disclose, because Defendants' emission control software
20 was extremely sophisticated technology. Plaintiffs and South Dakota State Class members did
21 not, and could not, unravel Defendants' deception on their own.

22 1964. Defendants had an ongoing duty to Plaintiffs and the South Dakota State Class to
23 refrain from unfair and deceptive practices under the South Dakota CPA in the course of their
24 business. Specifically, Defendants owed Plaintiffs and South Dakota State Class members a duty
25 to disclose all the material facts concerning the EcoDiesel® emission control system because they
26 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the South
27 Dakota State Class, and/or they made misrepresentations that were rendered misleading because
28 they were contradicted by withheld facts.

1 1965. Plaintiffs and South Dakota State Class members suffered ascertainable loss and
2 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
3 and/or failure to disclose material information.

4 1966. Defendants' violations present a continuing risk to Plaintiffs and the South Dakota
5 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
6 of herein affect the public interest.

7 1967. Pursuant to S.D. Codified Laws § 37-24-31, Plaintiffs and the South Dakota State
8 Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
9 damages and any other just and proper relief available under the South Dakota CPA.

10 **VIOLATIONS OF TENNESSEE CONSUMER PROTECTION ACT OF 1977**
11 **(Tenn. Code Ann. § 47-18-101, *et seq.*)**

12 1968. Plaintiffs incorporate by reference each preceding paragraph as though fully set
13 forth herein.

14 1969. Plaintiffs Anthony Edwards and Jeffrey Griggs (for the purpose of this section,
15 "Plaintiffs") bring this action on behalf of themselves and the Tennessee State Class against all
16 Defendants.

17 1970. Plaintiffs and the Tennessee State Class members are "natural persons" and
18 "consumers" within the meaning of Tenn. Code § 47-18-103(2).

19 1971. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
20 Marchionne are engaged in "trade" or "commerce" or "consumer transactions" within the
21 meaning Tenn. Code § 47-18-103(9).

22 1972. The Tennessee Consumer Protection Act ("Tennessee CPA") prohibits "unfair or
23 deceptive acts or practices affecting the conduct of any trade or commerce." Tenn. Code § 47-18-
24 104.

25 1973. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
26 Marchionne, through their agents, employees, and/or subsidiaries, violated the Tennessee CPA.

27 1974. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
28 misrepresented the environmental friendliness and emissions of the Class Vehicles through the

1 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
 2 emission cheating components in the Class Vehicles that caused them to pollute excessively in
 3 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
 4 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
 5 the Defendants concealed that the fuel efficiency and performance could be achieved only
 6 through emission control devices in the Class Vehicles that caused them to pollute excessively in
 7 real-world conditions; and (3) the Defendants developed and installed emission cheating
 8 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 9 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 10 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 11 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 12 practices as defined in Tenn. Code § 47-18-104:

- 13 A. Causing likelihood of confusion or of misunderstanding as to the approval
 14 or certification of the Class Vehicles;
- 15 B. Representing that the Class Vehicles have approval, characteristics, uses,
 16 or benefits that they do not have;
- 17 C. Representing that the Class Vehicles are of a particular standard, quality
 18 and grade when they are not;
- 19 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 20 advertised; and/or
- 21 E. Engaging in other conduct which created a likelihood of confusion or of
 22 misunderstanding.

23 1975. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel®
 24 emission control system were material to Plaintiffs and the Tennessee State Class, as Defendants
 25 intended. Had they known the truth, Plaintiffs and the Tennessee State Class would not have
 26 purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed
 27 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 28 them.

1976. Plaintiffs and Tennessee State Class members had no way of discerning that Defendants' representations were false and misleading, or otherwise learning the facts that Defendants had concealed or failed to disclose, because Defendants' emission control software was extremely sophisticated technology. Plaintiffs and Tennessee State Class members did not, and could not, unravel Defendants' deception on their own.

1977. Defendants had an ongoing duty to Plaintiffs and the Tennessee State Class to refrain from unfair and deceptive practices under the Tennessee CPA in the course of their business. Specifically, Defendants owed Plaintiffs and Tennessee State Class members a duty to disclose all the material facts concerning the EcoDiesel® emission control system because they possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Tennessee State Class, and/or they made misrepresentations that were rendered misleading because they were contradicted by withheld facts.

1978. Plaintiffs and Tennessee State Class members suffered ascertainable loss and actual damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to disclose material information.

1979. Defendants' violations present a continuing risk to Plaintiffs and the Tennessee State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

1980. Pursuant to Tenn. Code §§ 47-18-109, 47-18-109, and 47-18-109(a)(3), Plaintiffs and the Tennessee State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages, treble or punitive damages, and any other just and proper relief available under the Tennessee CPA.

**VIOLATIONS OF THE DECEPTIVE TRADE PRACTICES
ACT – CONSUMER PROTECTION ACT
(Tex. Business & Commercial Code §§ 17.41, *et seq.*)**

1981. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

1 1982. Plaintiffs Anthony Alley, WEB Farms, Inc., Jamie Broom, Victor Feldman, and
2 Charles Hissey (for the purpose of this section, “Plaintiffs”) bring this action on behalf of
3 themselves and the Texas State Class against all Defendants.

4 1983. Plaintiffs and the Texas State Class are individuals, partnerships, or corporations
5 with assets of less than \$25 million (or are controlled by corporations or entities with less than
6 \$25 million in assets), *see* Tex. Bus. & Com. Code § 17.41, and are therefore “consumers”
7 pursuant to Tex. Bus. & Com. Code § 17.45(4).

8 1984. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
9 Marchionne are “person[s]” within the meaning of Tex. Bus. & Com. Code § 17.45(3).

10 1985. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
11 Marchionne are engaged in “trade” or “commerce” or “consumer transactions” within the
12 meaning Tex. Bus. & Com. Code § 17.46(a).

13 1986. The Texas Deceptive Trade Practices – Consumer Protection Act (“Texas DTPA”)
14 prohibits “false, misleading, or deceptive acts or practices in the conduct of any trade or
15 commerce,” Tex. Bus. & Com. Code § 17.46(a), and an “unconscionable action or course of
16 action,” which means “an act or practice which, to a consumer’s detriment, takes advantage of the
17 lack of knowledge, ability, experience, or capacity of the consumer to a grossly unfair degree.”
18 Tex. Bus. & Com. Code §§ 17.45(5) and 17.50(a)(3).

19 1987. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
20 Marchionne, through their agents, employees, and/or subsidiaries, violated the Texas DTPA.

21 1988. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
22 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
23 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
24 emission cheating components in the Class Vehicles that caused them to pollute excessively in
25 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
26 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
27 the Defendants concealed that the fuel efficiency and performance could be achieved only
28 through emission control devices in the Class Vehicles that caused them to pollute excessively in

1 real-world conditions; and (3) the Defendants developed and installed emission cheating
 2 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
 3 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
 4 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 5 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 6 practices as defined in Tex. Bus. & Com. Code § 17.46(a):

- 7 A. Causing likelihood of confusion or of misunderstanding as to the approval
 8 or certification of the Class Vehicles;
- 9 B. Representing that the Class Vehicles have approval, characteristics, uses,
 10 or benefits that they do not have;
- 11 C. Representing that the Class Vehicles are of a particular standard, quality
 12 and grade when they are not; and/or
- 13 D. Advertising the Class Vehicles with the intent not to sell or lease them as
 14 advertised.

15 1989. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 16 emission control system were material to Plaintiffs and the Texas State Class, as Defendants
 17 intended. Had they known the truth, Plaintiffs and the Texas State Class would not have
 18 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 19 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 20 them.

21 1990. Plaintiffs and Texas State Class members had no way of discerning that
 22 Defendants' representations were false and misleading, or otherwise learning the facts that
 23 Defendants had concealed or failed to disclose, because Defendants' emission control software
 24 was extremely sophisticated technology. Plaintiffs and Texas State Class members did not, and
 25 could not, unravel Defendants' deception on their own.

26 1991. Defendants had an ongoing duty to Plaintiffs and the Texas State Class to refrain
 27 from unfair and deceptive practices under the Texas DTPA in the course of their business.
 28 Specifically, Defendants owed Plaintiffs and Texas State Class members a duty to disclose all the

1 material facts concerning the EcoDiesel® emission control system because they possessed
2 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Texas State Class,
3 and/or they made misrepresentations that were rendered misleading because they were
4 contradicted by withheld facts.

5 1992. Plaintiffs and Texas State Class members suffered ascertainable loss and actual
6 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
7 failure to disclose material information.

8 1993. Defendants' violations present a continuing risk to Plaintiffs and the Texas State
9 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
10 herein affect the public interest.

11 1994. Pursuant to Tex. Bus. & Com. Code §§ 17.50 and 17.50(b)(1), Plaintiffs and the
12 Texas State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices,
13 and awarding damages, punitive damages, and any other just and proper relief available under the
14 Texas DTPA.

15 1995. On November 28, 2017, a notice letter was sent to FCA US LLC complying with
16 Tex. Bus. & Com. Code § 17.505(a). A second notice letter complying with Tex. Bus. & Com.
17 Code § 17.505(a) was sent on July 17, 2017 to Bosch LLC, Bosch GmbH. Plaintiffs sent another
18 notice letter pursuant to Tex. Bus. & Com. Code § 17.505(a) to all Defendants on July 19, 2017.
19 Additionally, all Defendants were provided notice of the issues raised in this count and this
20 Complaint by the governmental investigations, the numerous complaints filed against them, and
21 the many individual notice letters sent by Plaintiffs within a reasonable amount of time after the
22 allegations of Class Vehicle defects became public. Because Defendants failed to remedy their
23 unlawful conduct within the requisite time period, Plaintiffs seek all damages and relief to which
24 Plaintiffs and the Texas State Class are entitled.

25 **VIOLATION OF UTAH CONSUMER SALES PRACTICES ACT**
26 **(Utah Code Ann. § 13-11-1, *et seq.*)**

27 1996. Plaintiffs incorporate by reference each preceding paragraph as though fully set
28 forth herein.

1 1997. Plaintiff John Wilson (for the purpose of this section, “Plaintiff”) brings this action
2 on behalf of himself and the Utah State Class against Fiat and FCA.

3 1998. FCA and Fiat are “supplier[s]” within the meaning of Utah Code § 13-11-3(6).

4 1999. Plaintiff and the Utah State Class members are “persons” under Utah Code § 13-
5 11-3(5).

6 2000. The sales and leases of the Class Vehicles to the Plaintiff and Utah State Class
7 members were “consumer transactions” within the meaning of Utah Code § 13-11-3(2).

8 2001. The Utah Consumer Sales Practices Act (“Utah CSPA”) makes unlawful any
9 “deceptive act or practice by a supplier in connection with a consumer transaction.” Utah Code
10 § 13-11-4. “An unconscionable act or practice by a supplier in connection with a consumer
11 transaction” also violates the Utah CSPA. Utah Code § 13-11-5.

12 2002. In connection with a consumer transaction, Fiat and FCA, through their agents,
13 employees, and/or subsidiaries, violated the Utah CSPA.

14 2003. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
15 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
16 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
17 emission cheating components in the Class Vehicles that caused them to pollute excessively in
18 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
19 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
20 the Defendants concealed that the fuel efficiency and performance could be achieved only
21 through emission control devices in the Class Vehicles that caused them to pollute excessively in
22 real-world conditions; and (3) the Defendants developed and installed emission cheating
23 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
24 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
25 337-357. In so doing, Fiat and FCA engaged in one or more of the following unfair or deceptive
26 acts or practices as defined in Utah Code § 13-11-4:

27 A. Indicating that the Class Vehicles have approval, characteristics, uses, or
28 benefits that they do not have;

1 B. Indicating that the Class Vehicles are of a particular standard, quality and
2 grade when they are not; and/or

3 C. Indicating that the Class Vehicles were supplied in accordance with
4 Defendants' prior representations, although they were not as represented.

5 2004. Plaintiff and Utah State Class members suffered ascertainable loss and actual
6 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
7 failure to disclose material information.

8 2005. Defendants' violations present a continuing risk to Plaintiff and the Utah State
9 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
10 herein affect the public interest.

11 2006. Plaintiff and the Utah State Class seek an order enjoining Defendants' unfair
12 and/or deceptive acts or practices, and awarding damages and any other just and proper relief
13 available under the Utah CSPA.

14 **VIOLATION OF UTAH TRUTH IN ADVERTISING LAW**
15 **(Utah Code Ann. § 13-11a-1, *et seq.*)**

16 2007. Plaintiffs incorporate by reference each preceding paragraph as though fully set
17 forth herein.

18 2008. Plaintiff John Wilson (for the purpose of this section, "Plaintiff") brings this action
19 on behalf of himself and the Utah State Class against all Defendants.

20 2009. Plaintiff, the Utah State Class, FCA, Fiat, VM Italy, VM America, Bosch GmbH,
21 Bosch LLC, and Sergio Marchionne are "person[s]" within the meaning of Utah Code § 13-11a-
22 1(7).

23 2010. Utah's Truth In Advertising law makes unlawful any deceptive practice
24 undertaken in the course of a person's business. Utah Code § 13-11a-3.

25 2011. In the course of their business, FCA, Fiat, VM Italy, VM America, Bosch GmbH,
26 Bosch LLC, and Sergio Marchionne, through their agents, employees, and/or subsidiaries,
27 violated Utah Truth In Advertising Law.
28

2012. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Utah Code § 13-11a-3:

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised; and/or
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding about the true characteristics of the Class Vehicles.

2013. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiff and the Utah State Class, as Defendants intended. Had they known the truth, Plaintiff and the Utah State Class would not have purchased

1 or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed and
2 mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

3 2014. Plaintiff and Utah State Class members had no way of discerning that Defendants’
4 representations were false and misleading, or otherwise learning the facts that Defendants had
5 concealed or failed to disclose, because Defendants’ emission control software was extremely
6 sophisticated technology. Plaintiff and Utah State Class members did not, and could not, unravel
7 Defendants’ deception on their own.

8 2015. Defendants had an ongoing duty to Plaintiff and the Utah State Class to refrain
9 from unfair and deceptive practices in the course of their business. Specifically, Defendants
10 owed Plaintiff and Utah State Class members a duty to disclose all the material facts concerning
11 the EcoDiesel® emission control system because they possessed exclusive knowledge, they
12 intentionally concealed it from Plaintiff and the Utah State Class, and/or they made
13 misrepresentations that were rendered misleading because they were contradicted by withheld
14 facts.

15 2016. Plaintiff and Utah State Class members suffered ascertainable loss and actual
16 damages as a direct and proximate result of Defendants’ concealment, misrepresentations, and/or
17 failure to disclose material information.

18 2017. Defendants’ violations present a continuing risk to Plaintiff and the Utah State
19 Class, as well as to the general public. Defendants’ unlawful acts and practices complained of
20 herein affect the public interest.

21 2018. Plaintiff and the Utah State Class seek an order enjoining Defendants’ unfair
22 and/or deceptive acts or practices pursuant to Utah Code Ann. § 13-11a-4, and awarding
23 damages, punitive damages, and any other just and proper relief available under the Utah Truth In
24 Advertising law.

25 **VIOLATION OF VERMONT CONSUMER PROTECTION ACT**
26 **(Vt. Stat. Ann. Tit. 9, § 2451 *et seq.*)**

27 2019. Plaintiffs incorporate by reference each preceding paragraph as though fully set
28 forth herein.

1 2020. This Count is brought on behalf of the Vermont State class against all Defendants.

2 2021. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
3 Marchionne are “persons” within the meaning of Vt. Stat. Tit. 9, § 2451a(a). The Vermont State
4 Class members are “consumers” within the meaning of Vt. Stat. Tit. 9, § 2451a(a).

5 2022. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
6 Marchionne are engaged in “commerce” within the meaning of Vt. Stat. Tit. 9, § 2453(a).

7 2023. The Vermont Consumer Protection Act (“Vermont CPA”) prohibits “[u]nfair
8 methods of competition in commerce and unfair or deceptive acts or practices in commerce....”
9 Vt. Stat. Tit. 9, § 2453(a).

10 2024. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
11 Marchionne, through their agents, employees, and/or subsidiaries, violated the Vermont CPA.

12 2025. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
13 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
14 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
15 emission cheating components in the Class Vehicles that caused them to pollute excessively in
16 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
17 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
18 the Defendants concealed that the fuel efficiency and performance could be achieved only
19 through emission control devices in the Class Vehicles that caused them to pollute excessively in
20 real-world conditions; and (3) the Defendants developed and installed emission cheating
21 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
22 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
23 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
24 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
25 practices in violation of Vt. Stat. Tit. 9, § 2453(a):

26 A. Causing likelihood of confusion or of misunderstanding as to the approval
27 or certification of the Class Vehicles;
28

- 1 B. Representing that the Class Vehicles have approval, characteristics, uses,
- 2 or benefits that they do not have;
- 3 C. Representing that the Class Vehicles are of a particular standard, quality
- 4 and grade when they are not;
- 5 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 6 advertised;
- 7 E. Engaging in other conduct which created a likelihood of confusion or of
- 8 misunderstanding; and/or
- 9 F. Using or employing deception, fraud, false pretense, false promise or
- 10 misrepresentation, or the concealment, suppression or omission of a
- 11 material fact with intent that others rely upon such concealment,
- 12 suppression or omission, in connection with the advertisement and
- 13 sale/lease of the Class Vehicles, whether or not any person has in fact been
- 14 misled, deceived or damaged thereby.

15 2026. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 16 emission control system were material to the Vermont State Class, as Defendants intended. Had
 17 they known the truth, the Vermont State Class would not have purchased or leased the Class
 18 Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
 19 Vehicles rendered legal to sell—would have paid significantly less for them.

20 2027. Vermont State Class members had no way of discerning that Defendants'
 21 representations were false and misleading, or otherwise learning the facts that Defendants had
 22 concealed or failed to disclose, because Defendants' emission control software was extremely
 23 sophisticated technology. Vermont State Class members did not, and could not, unravel
 24 Defendants' deception on their own.

25 2028. Defendants had an ongoing duty to the Vermont State Class to refrain from unfair
 26 and deceptive practices under the Vermont CPA in the course of their business. Specifically,
 27 Defendants owed Vermont State Class members a duty to disclose all the material facts
 28 concerning the EcoDiesel® emission control system because they possessed exclusive

1 knowledge, they intentionally concealed it from the Vermont State Class, and/or they made
 2 misrepresentations that were rendered misleading because they were contradicted by withheld
 3 facts.

4 2029. Vermont State Class members suffered ascertainable loss and actual damages as a
 5 direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to
 6 disclose material information.

7 2030. Defendants' violations present a continuing risk to the Vermont State Class, as
 8 well as to the general public. Defendants' unlawful acts and practices complained of herein affect
 9 the public interest.

10 2031. Pursuant to Vt. Stat. Tit. 9, § 2461(b), the Vermont State Class seek an order
 11 enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages,
 12 exemplary damages, and any other just and proper relief available under the Vermont CPA.

13 **VIOLATIONS OF THE VIRGINIA CONSUMER PROTECTION ACT**
 14 **(Va. Code Ann. §§ 59.1-196, *et seq.*)**

15 2032. Plaintiffs incorporate by reference each preceding paragraph as though fully set
 16 forth herein.

17 2033. Plaintiffs James Boykin and Brian Hiner (for the purpose of this section,
 18 "Plaintiffs") bring this action on behalf of themselves and the Virginia State Class against all
 19 Defendants.

20 2034. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
 21 Marchionne, Plaintiffs, and the Virginia State Class members are "persons" within the meaning of
 22 Va. Code § 59.1-198.

23 2035. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne
 24 are "supplier[s]" within the meaning of Va. Code § 59.1-198.

25 2036. The Virginia Consumer Protection Act ("Virginia CPA") makes unlawful
 26 "fraudulent acts or practices." Va. Code § 59.1-200(A).

27 2037. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
 28 Marchionne, through their agents, employees, and/or subsidiaries, violated the Virginia CPA.

2038. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Va. Code § 59.1-200(A):

- A. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- B. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not; and/or
- C. Advertising the Class Vehicles with the intent not to sell or lease them as advertised.

2039. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiffs and the Virginia State Class, as Defendants intended. Had they known the truth, Plaintiffs and the Virginia State Class would not have purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for them.

2040. Plaintiffs and Virginia State Class members had no way of discerning that Defendants’ representations were false and misleading, or otherwise learning the facts that

1 Defendants had concealed or failed to disclose, because Defendants' emission control software
2 was extremely sophisticated technology. Plaintiffs and Virginia State Class members did not, and
3 could not, unravel Defendants' deception on their own.

4 2041. Defendants had an ongoing duty to Plaintiffs and the Virginia State Class to refrain
5 from unfair and deceptive practices under the Virginia CPA in the course of their business.
6 Specifically, Defendants owed Plaintiffs and Virginia State Class members a duty to disclose all
7 the material facts concerning the EcoDiesel® emission control system because they possessed
8 exclusive knowledge, they intentionally concealed it from Plaintiffs and the Virginia State Class,
9 and/or they made misrepresentations that were rendered misleading because they were
10 contradicted by withheld facts.

11 2042. Plaintiffs and Virginia State Class members suffered ascertainable loss and actual
12 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
13 failure to disclose material information.

14 2043. Defendants' violations present a continuing risk to Plaintiffs and the Virginia State
15 Class, as well as to the general public. Defendants' unlawful acts and practices complained of
16 herein affect the public interest.

17 2044. Pursuant to Va. Code § 59.1-204(A)–(B), Plaintiffs and the Virginia State Class
18 seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
19 damages, punitive damages, and any other just and proper relief available under the Virginia
20 CPA.

21 **VIOLATIONS OF THE WASHINGTON CONSUMER PROTECTION ACT**
22 **(Wash. Rev. Code Ann. §§ 19.86.010, *et seq.*)**

23 2045. Plaintiffs incorporate by reference each preceding paragraph as though fully set
24 forth herein.

25 2046. Plaintiffs Karl Calhoun, Andrew Loescher, and Jesse Sandifer (for the purpose of
26 this section, "Plaintiffs") bring this action on behalf of themselves and the Washington State
27 Class against all Defendants.
28

1 2047. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
2 Marchionne, Plaintiffs, and the Washington State Class members are “persons” within the
3 meaning of Wash. Rev. Code § 19.86.010(2).

4 2048. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Marchionne
5 are engaged in “trade” or “commerce” within the meaning of Wash. Rev. Code § 19.86.010(1).

6 2049. The Washington Consumer Protection Act (“Washington CPA”) makes unlawful
7 “[u]nfair methods of competition and unfair or deceptive acts or practices in the conduct of any
8 trade or commerce.” Wash. Rev. Code § 19.86.020.

9 2050. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and
10 Marchionne, through their agents, employees, and/or subsidiaries, violated the Washington CPA.

11 2051. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively
12 misrepresented the environmental friendliness and emissions of the Class Vehicles through the
13 EcoDiesel badge—a material fact that was false because the Defendants developed and installed
14 emission cheating components in the Class Vehicles that caused them to pollute excessively in
15 real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and
16 pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and
17 the Defendants concealed that the fuel efficiency and performance could be achieved only
18 through emission control devices in the Class Vehicles that caused them to pollute excessively in
19 real-world conditions; and (3) the Defendants developed and installed emission cheating
20 components that caused the Class Vehicles to pollute excessively in real-world conditions, and
21 fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;
22 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
23 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
24 practices in violation of Wash. Rev. Code § 19.86.020:

25 A. Causing likelihood of confusion or of misunderstanding as to the approval
26 or certification of the Class Vehicles;

27 B. Representing that the Class Vehicles have approval, characteristics, uses,
28 or benefits that they do not have;

- 1 C. Representing that the Class Vehicles are of a particular standard, quality
- 2 and grade when they are not;
- 3 D. Advertising the Class Vehicles with the intent not to sell or lease them as
- 4 advertised;
- 5 E. Engaging in other conduct which created a likelihood of confusion or of
- 6 misunderstanding; and/or
- 7 F. Using or employing deception, fraud, false pretense, false promise or
- 8 misrepresentation, or the concealment, suppression or omission of a
- 9 material fact with intent that others rely upon such concealment,
- 10 suppression or omission, in connection with the advertisement and
- 11 sale/lease of the Class Vehicles, whether or not any person has in fact been
- 12 misled, deceived or damaged thereby.

13 2052. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 14 emission control system were material to Plaintiffs and the Washington State Class, as
 15 Defendants intended. Had they known the truth, Plaintiffs and the Washington State Class would
 16 not have purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been
 17 disclosed and mitigated, and the Vehicles rendered legal to sell—would have paid significantly
 18 less for them.

19 2053. Plaintiffs and Washington State Class members had no way of discerning that
 20 Defendants' representations were false and misleading, or otherwise learning the facts that
 21 Defendants had concealed or failed to disclose, because Defendants' emission control software
 22 was extremely sophisticated technology. Plaintiffs and Washington State Class members did not,
 23 and could not, unravel Defendants' deception on their own.

24 2054. Defendants had an ongoing duty to Plaintiffs and the Washington State Class to
 25 refrain from unfair and deceptive practices under the Washington CPA in the course of their
 26 business. Specifically, Defendants owed Plaintiffs and Washington State Class members a duty
 27 to disclose all the material facts concerning the EcoDiesel® emission control system because they
 28 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the

1 Washington State Class, and/or they made misrepresentations that were rendered misleading
2 because they were contradicted by withheld facts.

3 2055. Plaintiffs and Washington State Class members suffered ascertainable loss and
4 actual damages as a direct and proximate result of Defendants' concealment, misrepresentations,
5 and/or failure to disclose material information.

6 2056. Defendants' violations present a continuing risk to Plaintiffs and the Washington
7 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
8 of herein affect the public interest.

9 2057. Pursuant to Wash. Rev. Code § 19.86.090, Plaintiffs and the Washington State
10 Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding
11 damages, treble damages, and any other just and proper relief available under the Washington
12 CPA.

13 **VIOLATIONS OF THE CONSUMER CREDIT AND PROTECTION ACT**
14 **(W. Va. Code § 46A-1-101, *et seq.*)**

15 2058. Plaintiffs incorporate by reference each preceding paragraph as though fully set
16 forth herein.

17 2059. This count is brought on behalf of the West Virginia State Class against all
18 Defendants.

19 2060. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio
20 Marchionne, and the West Virginia State Class members are "persons" within the meaning of W.
21 Va. Code § 46A-1-102(31). The West Virginia State Class members are "consumers" within the
22 meaning of W. Va. Code §§ 46A-6-102(2) and 46A-1-102(12).

23 2061. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio
24 Marchionne are engaged in "trade" or "commerce" within the meaning of W. Va. Code § 46A-6-
25 102(6).

26 2062. The West Virginia Consumer Credit and Protection Act ("West Virginia CCPA")
27 makes unlawful "[u]nfair methods of competition and unfair or deceptive acts or practices in the
28 conduct of any trade or commerce." W. Va. Code § 46A-6-104.

2063. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the West Virginia CCPA.

2064. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles' fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in W. Va. Code § 46A-6-102(7):

- A. Causing likelihood of confusion or of misunderstanding as to the approval or certification of the Class Vehicles;
- B. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- C. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not;
- D. Advertising the Class Vehicles with the intent not to sell or lease them as advertised;
- E. Engaging in other conduct which created a likelihood of confusion or of misunderstanding; and/or

1 F. Using or employing deception, fraud, false pretense, false promise or
2 misrepresentation, or the concealment, suppression or omission of a
3 material fact with intent that others rely upon such concealment,
4 suppression or omission, in connection with the advertisement and
5 sale/lease of the Class Vehicles, whether or not any person has in fact been
6 misled, deceived or damaged thereby.

7 2065. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
8 emission control system were material to the West Virginia State Class, as Defendants intended.
9 Had they known the truth, the West Virginia State Class would not have purchased or leased the
10 Class Vehicles, or—if the Class Vehicles' true nature had been disclosed and mitigated, and the
11 Vehicles rendered legal to sell—would have paid significantly less for them.

12 2066. West Virginia State Class members had no way of discerning that Defendants'
13 representations were false and misleading, or otherwise learning the facts that Defendants had
14 concealed or failed to disclose, because Defendants' emission control software was extremely
15 sophisticated technology. West Virginia State Class members did not, and could not, unravel
16 Defendants' deception on their own.

17 2067. Defendants had an ongoing duty to the West Virginia State Class to refrain from
18 unfair and deceptive practices under the West Virginia CCPA in the course of their business.
19 Specifically, Defendants owed West Virginia State Class members a duty to disclose all the
20 material facts concerning the EcoDiesel® emission control system because they possessed
21 exclusive knowledge, they intentionally concealed it from the West Virginia State Class, and/or
22 they made misrepresentations that were rendered misleading because they were contradicted by
23 withheld facts.

24 2068. West Virginia State Class members suffered ascertainable loss and actual damages
25 as a direct and proximate result of Defendants' concealment, misrepresentations, and/or failure to
26 disclose material information.

2069. Defendants' violations present a continuing risk to the West Virginia State Class, as well as to the general public. Defendants' unlawful acts and practices complained of herein affect the public interest.

2070. Pursuant to W. Va. Code § 46A-6-106(a), the West Virginia State Class seek an order enjoining Defendants' unfair and/or deceptive acts or practices, and awarding damages and any other just and proper relief available under the West Virginia CCPA.

2071. On November 28, 2017, a notice letter was sent to FCA US LLC complying with W. Va. Code § 46A-6-106(c). A second notice letter was sent to FCA US LLC and Fiat Chrysler complying with W. Va. Code § 46A-6-106(c) on January 17, 2017. Additionally, all Defendants were provided notice of the issues raised in this count and this Complaint by the governmental investigations, the numerous complaints filed against them, and the many individual notice letters sent by Plaintiffs within a reasonable amount of time after the allegations of Class Vehicle defects became public. Because Defendants failed to remedy their unlawful conduct within the requisite time period, Plaintiff seek all damages and relief to which the West Virginia State Class are entitled.

**VIOLATIONS OF THE WISCONSIN DECEPTIVE TRADE PRACTICES ACT
(Wis. Stat. § 100.18)**

2072. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

2073. Plaintiffs Josh Claflin and Wayne Tonnesen (for the purpose of this section, "Plaintiffs") bring this action on behalf of themselves and the Wisconsin State Class against all Defendants.

2074. Plaintiffs and the Wisconsin State Class are members of "the public" and are "persons" within the meaning of Wis. Stat. § 100.18(1).

2075. FCA, VM Italy, VM America, Bosch GmbH, Bosch LLC, and Sergio Marchionne are a "person, firm, corporation or association" within the meaning of Wis. Stat. § 100.18(1).

2076. The Wisconsin Deceptive Trade Practices Act (“Wisconsin DTPA”) makes unlawful any “representation or statement of fact which is untrue, deceptive or misleading.” Wis. Stat. § 100.18(1).

2077. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Sergio Marchionne, through their agents, employees, and/or subsidiaries, violated the Wisconsin DTPA.

2078. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216; 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or practices as defined in Wis. Stat. § 100.18(1):

- A. Representing that the Class Vehicles have approval, characteristics, uses, or benefits that they do not have;
- B. Representing that the Class Vehicles are of a particular standard, quality and grade when they are not; and/or
- C. Advertising the Class Vehicles with the intent not to sell or lease them as advertised.

2079. Defendants’ scheme and concealment of the true characteristics of the EcoDiesel® emission control system were material to Plaintiffs and the Wisconsin State Class, as Defendants

1 intended. Had they known the truth, Plaintiffs and the Wisconsin State Class would not have
2 purchased or leased the Class Vehicles, or—if the Class Vehicles’ true nature had been disclosed
3 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
4 them.

5 2080. Plaintiffs and Wisconsin State Class members had no way of discerning that
6 Defendants’ representations were false and misleading, or otherwise learning the facts that
7 Defendants had concealed or failed to disclose, because Defendants’ emission control software
8 was extremely sophisticated technology. Plaintiffs and Wisconsin State Class members did not,
9 and could not, unravel Defendants’ deception on their own.

10 2081. Defendants had an ongoing duty to Plaintiffs and the Wisconsin State Class to
11 refrain from unfair and deceptive practices under the Wisconsin DTPA in the course of their
12 business. Specifically, Defendants owed Plaintiffs and Wisconsin State Class members a duty to
13 disclose all the material facts concerning the EcoDiesel® emission control system because they
14 possessed exclusive knowledge, they intentionally concealed it from Plaintiffs and the Wisconsin
15 State Class, and/or they made misrepresentations that were rendered misleading because they
16 were contradicted by withheld facts.

17 2082. Plaintiffs and Wisconsin State Class members suffered ascertainable loss and
18 actual damages as a direct and proximate result of Defendants’ concealment, misrepresentations,
19 and/or failure to disclose material information.

20 2083. Defendants’ violations present a continuing risk to Plaintiffs and the Wisconsin
21 State Class, as well as to the general public. Defendants’ unlawful acts and practices complained
22 of herein affect the public interest.

23 2084. Pursuant to Wis. Stat. § 100.18(11)(b)(2), Plaintiffs and the Wisconsin State Class
24 seek an order enjoining Defendants’ unfair and/or deceptive acts or practices, and awarding
25 damages, punitive damages, and any other just and proper relief available under the Wisconsin
26 DTPA.

VIOLATION OF THE WYOMING CONSUMER PROTECTION ACT
(Wyo. Stat. §§ 40-12-101, *et seq.*)

2085. Plaintiffs incorporate by reference each preceding paragraph as though fully set forth herein.

2086. Plaintiff Kelly Ruiz (for the purpose of this section, “Plaintiff”) brings this action on behalf of herself and the Wyoming State Class against all Defendants.

2087. FCA, Fiat, VM Italy, VM America, Bosch GmbH, Bosch LLC, Sergio Marchionne, Plaintiff, and the Wyoming State Class members are “persons” within the meaning of Wyo. Stat. § 40-12-102(a)(i).

2088. The Class Vehicles are “merchandise” pursuant to Wyo. Stat. § 40-12-102(a)(vi).

2089. Each sale or lease of a Class Vehicle to a Wyoming State Class member was a “consumer transaction” as defined by Wyo. Stat. § 40-12-102(a)(ii). These consumer transactions occurred “in the course of [Defendants’] business” under Wyo. Stat. § 40-12-105(a).

2090. The Wyoming Consumer Protection Act (“Wyoming CPA”) prohibits deceptive trade practices. Wyo. Stat. § 40-12-105(a).

2091. In the course of their business, Defendants Fiat Chrysler, VM Motori, Bosch, and Marchionne, through their agents, employees, and/or subsidiaries, violated the Wyoming CPA.

2092. As detailed in the common law fraud allegations: (1) Fiat Chrysler affirmatively misrepresented the environmental friendliness and emissions of the Class Vehicles through the EcoDiesel badge—a material fact that was false because the Defendants developed and installed emission cheating components in the Class Vehicles that caused them to pollute excessively in real-world conditions; (2) Fiat Chrysler touted, through the EcoDiesel badge and uniform and pervasive consumer communications, the Class Vehicles’ fuel efficiency and performance, and the Defendants concealed that the fuel efficiency and performance could be achieved only through emission control devices in the Class Vehicles that caused them to pollute excessively in real-world conditions; and (3) the Defendants developed and installed emission cheating components that caused the Class Vehicles to pollute excessively in real-world conditions, and fraudulently concealed that fact from regulators and Class Members alike. *See, e.g.*, ¶¶ 149-216;

1 337-357. In so doing, and by marketing, offering for sale, and selling the defective Class
 2 Vehicles, Defendants engaged in one or more of the following unfair or deceptive acts or
 3 practices as defined in Wyo. Stat. §§ 40-12-105(a):

- 4 A. Representing that the Class Vehicles have approval, characteristics, uses,
 5 or benefits that they do not have;
- 6 B. Representing that the Class Vehicles are of a particular standard, quality
 7 and grade when they are not;
- 8 C. Advertising the Class Vehicles with the intent not to sell or lease them as
 9 advertised; and/or
- 10 D. Engaging in other conduct which created a likelihood of confusion or of
 11 misunderstanding.

12 2093. Defendants' scheme and concealment of the true characteristics of the EcoDiesel®
 13 emission control system were material to Plaintiff and the Wyoming State Class, as Defendants
 14 intended. Had they known the truth, Plaintiff and the Wyoming State Class would not have
 15 purchased or leased the Class Vehicles, or—if the Class Vehicles' true nature had been disclosed
 16 and mitigated, and the Vehicles rendered legal to sell—would have paid significantly less for
 17 them.

18 2094. Plaintiff and Wyoming State Class members had no way of discerning that
 19 Defendants' representations were false and misleading, or otherwise learning the facts that
 20 Defendants had concealed or failed to disclose, because Defendants' emission control software
 21 was extremely sophisticated technology. Plaintiff and Wyoming State Class members did not,
 22 and could not, unravel Defendants' deception on their own.

23 2095. Defendants had an ongoing duty to Plaintiff and the Wyoming State Class to
 24 refrain from unfair and deceptive practices under the Wyoming CPA in the course of their
 25 business. Specifically, Defendants owed Plaintiff and Wyoming State Class members a duty to
 26 disclose all the material facts concerning the EcoDiesel® emission control system because they
 27 possessed exclusive knowledge, they intentionally concealed it from Plaintiff and the Wyoming
 28

1 State Class, and/or they made misrepresentations that were rendered misleading because they
2 were contradicted by withheld facts.

3 2096. Plaintiff and Wyoming State Class members suffered ascertainable loss and actual
4 damages as a direct and proximate result of Defendants' concealment, misrepresentations, and/or
5 failure to disclose material information.

6 2097. Defendants' violations present a continuing risk to Plaintiff and the Wyoming
7 State Class, as well as to the general public. Defendants' unlawful acts and practices complained
8 of herein affect the public interest.

9 2098. Pursuant to Wyo. Stat. §§ 40-12-108(a) and 40-12-108(b), Plaintiff and the
10 Wyoming State Class seek an order enjoining Defendants' unfair and/or deceptive acts or
11 practices, and awarding damages, punitive damages, and any other just and proper relief available
12 under the Wyoming CPA.

13 2099. On November 28, 2016, a notice letter was sent to FCA US LLC complying with
14 Wyo. Stat. § 40-12-109. Plaintiffs sent a second notice letter pursuant to Wyo. Stat. § 40-12-109
15 to all Defendants on July 19, 2017. Additionally, all Defendants were provided notice of the
16 issues raised in this count and this Complaint by the governmental investigations, the numerous
17 complaints filed against them, and the many individual notice letters sent by Plaintiffs within a
18 reasonable amount of time after the allegations of Class Vehicle defects became public. Because
19 Defendants failed to remedy their unlawful conduct within the requisite time period, Plaintiff seek
20 all damages and relief to which Plaintiff and the Wyoming State Class are entitled.

21 **III. PRAYER FOR RELIEF**

22 WHEREFORE, Plaintiffs, individually and on behalf of members of the Nationwide Class
23 and State Classes, respectfully request that the Court grant certification of the proposed
24 Nationwide Class and State Classes, including the designation of Plaintiffs as the named
25 representatives of the Nationwide Class and respective State Classes, the appointment of the
26 undersigned as Class Counsel, and the designation of any appropriate issue classes and/or
27 subclasses, under the applicable provisions of Fed. R. Civ. P. 23, and that the Court enter
28 judgment in their favor and against Defendants, as follows:

1 A. A declaration that any applicable statutes of limitation are tolled due to the
2 fraudulent concealment alleged in this complaint, and that Defendants are estopped from relying
3 on any statutes of limitations in defense;

4 B. An order enjoining Defendants from continuing the unlawful, deceptive,
5 fraudulent, and unfair business practices alleged in this Complaint;

6 C. Injunctive and equitable relief in the form of a comprehensive program to repair,
7 modify, and/or buy back all Class Vehicles, and to fully reimburse and make whole all Class
8 members for all costs and economic losses, and degradation of mileage performance, durability,
9 and reliability that the Class Vehicles could incur by being brought into compliance with federal
10 and state law;

11 D. Environmental reparations, mitigation, and remediation to offset the harm caused
12 by the Class Vehicles, based on the mileage driven by all Class Vehicles and/or other appropriate
13 measures of environmental harm;

14 E. Costs, restitution, compensatory damages for economic loss and out-of-pocket
15 costs, treble damages under Civil RICO, multiple damages under applicable states' laws, punitive
16 and exemplary damages under applicable law;

17 F. Rescission of all Class Vehicle purchases or leases, including reimbursement
18 and/or compensation of the full purchase price of all Class Vehicles, including taxes, licenses, and
19 other fees;

20 G. A determination that Defendants are financially responsible for all Class notice
21 and administration of Class relief;

22 H. Any and all applicable statutory and civil penalties;

23 I. An order requiring Defendants to pay both pre- and post-judgment interest on any
24 amounts awarded;

25 J. An award of costs and attorneys' fees;

26 K. Leave to amend this Complaint to conform to the evidence produced in discovery
27 and at trial; and

28 L. Such other or further relief as the Court may deem appropriate, just, and equitable.

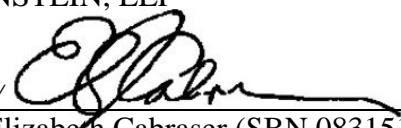

IV. DEMAND FOR JURY TRIAL

Pursuant to Federal Rule of Civil Procedure 38(b), Plaintiffs demand a trial by jury of any and all issues in this action so triable of right.

DATED this 23rd day of April, 2018.

Respectfully submitted,

LIEFF CABRASER HEIMANN &
BERNSTEIN, LLP
